A coffer dam, was put down in the aquedust to keep the water from the Schuylkill out of the forebay, and within two hours after commencing to sink the coffer dam, the water was stoped. It has been found necessary to keep one portable ateam pumping engine constantly employed to keep the forebay dry.

A force of 300 men is now employed all the time, including Sundays. A portion of the wall of the forebay is carried away, and nearly all the coping. The iron reiling has been entirely destroyed. Part of the stone work, some of which weighed 600 ths, was carried away, and filled with dirt. This will require a renewal of the work on the culvert for a distance of 500 feet.

The water was about 18 inches higher than was ever known; in fact, so high as to entirely extinguish the fires in the furnaces.

Aged men and tender boys suffer alike. One youth, the very picture of man-hood's bunding beauty, has lost a foot or leg, and limps along upon his crutch. Another, with bandage breast and brow, remembers the fatal brayery which inspired him on the battle field, and weeps involuntarily, as he never wept before, at the sweet thought of home and mother. One touching incident we hear of—one that will draw tears to every eye, and thrill each bosom with a pang. The other two were thrown so much out of place as to require overhauling about the same length. These mains are now being relaid on heavy trestle work, and the repairs will be completed on diouday. Considerable dainage was also done the grounds at these works.

During the progress of repairs, the district supplied by these works will be cupplied from Corinthian Avenue Reservoir, the water for which is obtained at Fairmouat. On the bed, by the little table containing them, lay a young boy, his features pale, his cyclids drooping. Alady gently fanning his fair forchead, softly whispered "the poor little fellow is asleep, we must not disturb him." "No, ma'am, I'm not asleep." he answered. It was a silvery voice, full of the sweetness of innocence and boyhood. "Well, my little follow," continued the lady, as she "Well, my little fellow," continued the lady, as she nearer drew, "are you not fond of ice-cream?"

To all the numerous calls for men, Haddonfield has responded most neby. Her citizen soldiery have been found on every battle fleid wherever the State has been represented, and she already comis the dead and wounded of her children in more than the proportion which the arithmetic of war would allot to so limited a population. But, as if satisfied that duty requires no less than more than all they had previously given, the village and township in which it is situated not only have furnished their full quots for the last call, without drafting, but a goodly number a liditional. which number has been generously accredited to a neighboring, needy township.

To mark, in formal manner, the close of duties so thoroughly, earnestly, and heartily performed, the citizens crowded, to its utmost capacity, the Baptist Church, as few evenings since, to witness the presentation of a magnificent sword, sash, and belt, to Captain Wm. C. Shim, of Company I. 24th Regiment New Jersey Yolunteers, now in camp near Beverly. The exercises were opened by the Rev. Sarauel R. Hallowell, rector of Grace Church, in a most fervent, feeling, and eloquent prayer. The presentation speech, on behalf of the donors, was made by Mr. William Hutchison, and the gitt received by the Rev. George A. Baybold, in a short, neat, and effective reply. Thereupou, the pastor of the church, Bov. Mr. Young, in an address of sterling and characteristic ability, presented Captain Shim, for the members of his company, with (101) one hundred and one copies of the New Testament, which were received by the Uspitain in a short and modest speech.

The peculiarly solemn and religious character of the exercises, interspersed, as they were, with excellent and appropriate muric, was such as to make a deep impression upon the minds of all present, reminding one of an PRESENTATION OF IN PROPERTY OF CHIZORS WAS found among TRIUMPHAL ENTRY OF PAROLED PRISONERS.—On Saturday afternoon, the 87th Regiment of Ohio Volunteers arrived from Baltimore at this ofty. They were as Harper's Ferry at the time of its surrender by Colonel Miles. At the Volunteer Refreshment Saloous they were most regally regaled. Afterwards, they marched up Third to Chestnut, and then went West over the Pennsylvania Bailroad. An immense excitement was, of course, created throughout the city, and enthusiasm filled every heart and strengthened every voice. The flag, the ladies, and the Hall of Independence were lustly salort d by the men.

The troops looked perfectly worn out, and not one teemed to have more about him than he wanted. The ardor with which the rebeis have entered into the work of confiscation had deprived them of their arms—knapsacks and blankets being all the equipments they could boast. The Socesh were charged with having broken their word, and with having abstracted from the offisers their portable accommodations. Perhaps the wretched state of the rebels is one reason of this having been done. The United States commissary stores at the Ferry were a great field of operations for the famished rebs, who came very near fighting each other whilst fighting for food. According to the report of the returned prisoners, Colonel Miles is most emphatically declared to have acted treacherously. Some say even that he owes bis death to Federal not "Confederate" shots, and that the men whom he had betrayed are responsible for the TRIUMPHAL ENTRY OF PAROLED PRIexercises, interspersed, as they were, with excellent and appropriate music, was such as to make a deep impression upon the minds of all present, reminding one of an aimost similar scene in our Revolutionary history—the occasion of the consecration of Pulaski's banner at Beththe men whom he had betrayed are responsible for the IMPORTANT ARREST OF REBEL SPIES. SOLDIERS OF THE WAR OF 1812.—The On Wednesday evening, 17th inst., information was privately received by Col. A. H. A. H. Grimshaw, of the 4th Begiment Delaware Volunteers, of the arrival in Wilmington, Delaware, of two rebel spies, when that officer caused a close watch on their movements. They, however, left the city, and repaired to the powder works of the Messre. Dupont, on the Brandy wine, for the ostensible purpose of obteining a plan of the works and its approaches. At 10½ P. M., the same night, Col. Grimshaw, Lieut. Col. C. C. Tevis, Capt. M. B. Gist, and Lieut. John J. Toner, started in pursuit, and overtook them at a house near the Rising Sun tavern, and made the arrest. The parties proved to be Capt O'Reefe, of the rebel army, and his friend, named Ryan. They at first stoutly denied the charge, against them, but subsequently made a full confession; and stated that they were direct from Memphis. Tenn., via Checimati, Ohio. They were immediately searched, and large sums of money found upon them. The officers then conveyed the rebels to Camp Dupont, where they were kept closely guarded until Fridey, 19th inst., when they were, by order of the Scortary of War, to whom the facts were reported, sent to Fort Delaware. This is an arrest of the highest importance, and it was mest successfully mancauvred by the officers named, who from the first intimation of their arrival in the city, watched all their movements with the closest scrutiny. Last night, by the 11 o'clock train, the joint committee on draft, appointed by Select and Common Councils, proceeded to Washington. The following members constituted the committee: Messrs. Craig, McMatin, and King, Select branch; Messrs. Loughlin, Sites, and Branch, Common branch. The business of the committee is to discover how many Philadelphians have been mustered into service at Washington. No official account of the number has been ascertained, and the squads of citizens hurried from this city are totally uncredited. This proceeding of the committee is therefore absolutely Lozessary. RECRUITING.—On Saturday 24 recruits were enlisted for the old regiments, and 34 for the new organizations. A detachment for the old Philadelphia regiments in the field left for Washington, under Lieut. Joseph N. Albey, of the 112th Regiment, P. V.

There have been mustered in, up to Saturday night, since the 12th of August, for the old regiments, as follows: SCAROITY OF WORKMEN.—Mechanics of all kirds are in great demand at good wages. In many cases sufficient numbers cannet be obtained. Men whose physical inability to serve in the ranks has kept them at home, and who, from like weakness, have been but poorly paid for past labor, are new filling posts where the labor suits their hands, and the pay far exceeds former ones. A thousand channels are now open that but for the war would never have started into life, and these channels, afford a livelihood to the laborers still in the city, and even call eagerly for more hands to keep them engaged. Thus any honest industry can command work at fat prices.

By the ship channel it is five miles from the existing navy yard, and by Broad atreet it is three miles from Washington street. The distances from League Island to New York are as follows: Of the whole distance, 79 miles are freegitleway river and bay navigation. 14 miles The distance of the island from the coal regions is also another important fact that must be taken into consideration. The Schurlkill Capal has a descending lockage from the coal region to tidewater, and its boats carry two hundred tons of coal. The Philadelphia and deading Railroad has a descending grade from the Schuylkill coalregion to this city, and its trains are the longest that are hauled from the mines through to tidewater. These and many other important facts demand that for the best interests of the Government a first class navy yard should

PATRIOTIC COMPETITION. - The thoughts of certain females are exclusively engaged in animadversions upon those of their male relatives, who seem disinclined to roughing it in the camp, and prefer taking their case at home. All their flatteries change into invectives, and in the language of the poet their conversation resembles "linked sweetness," only in the respect of being "long drawn out." Husbands and brothers, fathers and lovers, are sacrificed without a single pang. Love, filled and fraternal; is swallowed in in brothers, fathers and lovers, are sacrineed without a single pang. Even the "Bohemians" are getting excited. Young men who gostip in the parlors of hotels with the decayed actress, or, the third-rate daugeuse, are of no account, and those who linger round the bar, waiting for gin or ginger, have no repute at all. We pity many cases which we have seen! We think that the cintempt with which a certain class is visited in merel; an effluvia of sentiment, and that several worthy exempts are surprounded unjustly by an aroms of disgust. To the brave who have failen, who are ready to live or to die for their country; to the fathers of families, who have left treit homes, and who defend their firesides in fighting for the figg; to the years boys, who, fired with the instincts of liberty, beat the drum, and bring the cup of cold water to the bleeding and the dying; to the wives, and mothers, and slaters, who at home surfain the heavy toils of waiting and expectation, we yield the palm of praise. To those who would fain excuse themselves from active service, we recommend consideration, a due estimate of the relative importance of themselves and of their country, and a thought of the future, when those who have youna thought of the future, when those who have volum WHAT PHILADELPHIA HAS DONE FOR

WHAT PHILADELPHIA HAS DONE FOR THE WAR —Perhaps no city in the Union has eclipsed Philadelphia in her noble efforts to crush out this wicked rebellion. Her. citizens have contributed freely both men and treasure. Over \$1,000,000 has been raised in aid of the benny fund for volunteers; subscription of the city corporation, \$500 000; private subscriptions to the general fund, \$450,000; private subscriptions to Conn Exchange Regiment, \$25,000; subscription of Pernsylvania Railroad Company, \$50,000; subscription of Reacing Railroad Company, \$50,000; private subscription for Gray Reserve Regiment, \$20,000. Besides these subscriptions, there have been numerous others to regiments and companies, the exact amount of which cannot, of course, be ascertained, but they must sum nrot, of course, be ascertained, but they must sug cannot, or course, no ascertained, but they must sum up to some thousands of dollars. Notwithstanding these exceedingly large and liberal subscriptions, and also the large lesses incurred through the swinding default of Southern debtors, buriness continues good, showing our great wealth and resources. Labor is in good demand, and the business of our merchants larger by far than would naturally be expected in the present peculiar condition of the country. Storekeeps generally are condition of the country. Storekeepers generally are laying in good stocks, and otherwise making prepara-tions for an active season. In Town.-Rev. Mr. Karcher, chaplain of the "Zouaves d'Afrique," Col. Collis, is now in the city, and mey be seen at the bookstore of T. B. Pugh, Sixth and Chestnut, between the hours of ten A. M. and three P. M., by those, who have relatives or friends in the regiment, and who may wish to avail themselves of his assistance in forwarding any articles to members of the regiment.

No More Troops Wanted .- Yesterday Mayor Henry received a despatch from Harrisburg stating that no more troops would be needed at that point for the present. The despat h was received too late to stop the National Guards, 2d regiment, who took their Accidents. Yesterday morning two large poles used for supporting a rign, at Fifth and Race streets, fell and seriously injured a lad who was passing Yesterday afternoon Annie Arrants had her head se-riously cut by a pile of boards falling on her, at Beach

FATAL ACCIDENT.—A woman named Mary Brown, aged 51 years, residing at No. 812 North welfth street, was accidentally run over and killed. on Saiurday evening, by a mineral water wagon, at Thirteenth and Brown streets. THE RUSSELL TROOP.—This fine mounted company left the city on Saturday for Harris-burg. Their fine appearance was remarked by all who saw them. Capt. Fry was loudly cheered while nassing to the deach. meeting of the Board Pane. The first Stated will be held this evening at the rooms of h and Chestaut

streets. TRAIN'S LECTURE AT THE ACADEMY. —The rush for tickets for Train's lecture, at the Academy to night, was very great on Saturday. An over-flowing house is expected. PHILADELPHIA BOARD OF TRADE.

BEMARKABLE CUBE OF CONSUMPTION.

PRILADELPHIA, Sept. 16, 1862.

PHILADBLPHIA, Sept. 16, 1862.

I choerfully make the following statement of facts concerning my own astonishing cure, which was to me as life from the dead:

About eighteen months ago I took a severe cold, which About eighteen months ago I took a severe cold, which seemed to locate on my chest and lungs, and since that time I have been afflicted with consumptive tendencies, and most of the time my condition has been truly alarming. Especially for one year, my physicians, myself, and friends, had abandoned all hope of my recovery. Notanguisge can describe my sufferings, which an oyed me both day and night. No effort on my part for a cure has been omitted, for I employed, from the commencement of my sickness, the most eminent medical men of the State, and took their remedies faithfully, until they trankly told me that I had consumption, and could not be cured. Previous to this announcement by my physicians. I had frequently seen Professor Bokes' card in The Press, and a short time previous to my applying to him I chanced to observe several certificates, and some which excited my mind to call on him for advice, about ten days ago. I told the Professor that I had no money to throw away, and did not wish to be treated unless he could cure me; and he frankly told me that he did not wish to treat me unless he could cure mo, and said he would decide that fact in twenty minutes; and proceeded to examine, and in less than fifteen minutes he said he could cure me, and offered to warrant a perfect cure, and charge me nothing if he failed. Now, I am willing to say, for the benefit of other sentiering from the same difficulties, that I have only received seven application of electricity, and am a well man. I had anticipate i that I should be shocked with electricity. but, on the contrary. say, for the benefit of other suffering from the same difficulties, that I have only received seven applications of electricity, and am a well man. I had anticipated that I should be shocked with electricity, but, on the contrary, he gave me no shocks. The whole treatment, from the beginning, was very pleasant and agreeable. I have heard many speak of the treatment, who have been cured. All, of one accord, seem pleased with the agreeable sensation. There seems no confusion or guess work about his treatment or disgnosis of disease. He proceeds upon fixed principles, and according to laws well understood by himself, and there is good evidence of their infallibility, from the fact that he is generally successful, and can, with perfect safety, warrant the oldest chronic cases. I look forward with hopes for suffering humanity. It seems to me that medical men of the old school will soon investigate this new discovery of Professor B., and, instead of drugging the stomach for months and years, many times without any benefit, they may be able, in a few days, by the proper application of electricity, applied by Professor B.'s system, to cure nearly all cases which they abandon as incurable. I have watched the success of Professor B.'s treatment carefully, and I have come to the conclusion that the one half of his wonderful success has not been told, although thousands apeak in nearly the language that I do.
