JAMES TOOM, JR.,

MEDICINAL. COMMUNICATED. [Extract from a letter on the Battle field.]

This battle (Antictam) has been the most sanguinary of the war, and the only one fought with design and upon military principles. The arrangement of our corps the overlooking position of the Commanding General -the sending into action the right and the left-the closing up of the centre and final success-excites bewildering admiration, and carries the mind to the great fields of Austorlitz and Wagram, fought by Napoleon. Of all this have I spoken. The heart-history of such a conflict, purchased by the life and blood of twenty thousand men, must be found in the hospitals. War has its glories-but it has its ten thousand demons in these hunan tortures, that make the cychalis ache-the heart bleed-the lips palsy-and the brain reel. The sight is at first positively unendurable. The life-blood of some is still trickling away in silent calmness, while the dissevered limbs and maniac brain of others give rise to sounds

Gcd grant I may not again witness. But, remothers who now seek a son-or wife a husband—or sister a brother—or sons a father—know and be consoled that even here the hand of mercy is watchful, and better care is bestowed upon your loved one than might at first seem possible. It was in the hespital where rested the gallant Hooker that I learned the history of those mythical words so often seen and so little understood, "S. T .- 1860-X." Anything alleviating the sufferings and saving the lives of our soldiers is a national blessing. I witnessed some astonishing results from this article. It is well known the effect of burnt gunpowder and excitement is thirst, which, added to the loss of blood in the wounded, creates the necessity of a reviving stimulant. In this particular hospital, the physicians were allowing their nationts to drink Plantation Bitters, otherwise called S. T .- 1860-X, and although the wounded are nost numerous here—this division having opened th-

fight at 5 in the morning—the men were mostly composed, and there was but very little fainting. The artiole acts upon the stomach and nerves in a most incomprehensible manner, superior to brandy, and without subsequent stupefying reaction. It originated in the West Indies, containing callsaye bark, winter green, lavender, anise, clove buds, orange, snake root, &c., ipreserved in St. Oroix'Rum—the S. T .- 1860-X being a semet ingredient, not yet revealed to the public. It is principally recommended for want of appetite, disordered liver, intermittent fevers, stomachic difficulties, &c. I understand it was somewhat known in the Southern States previous to the war, and it appears an agent of Jefferson Davis recently applied to the proprietors for the privilege to make it for hospital purposes during the war, to which they made the following reply: NEW YORK, Jan. 16th, 1862,

Agent of, etc. .

DEAR SIR: In reply to yeur communication, offering us. Fifty thousand dollars for the recipe and right to make the Plantation Bitters for hospital purposes during the war," we beg to say your price is a liberal one, con sidering it would cost us nothing to comply, and tha otherwise we can derive no revenue from the Souther States: but, sir, our duties to our Government and our ideas of consistency, would not allow us to entertain it, although it night please us to assuage the sufferings of your misguided followers. We romain,
Very respectfully yours,
P. H. DRAKE & OO.

These gentlemen give the history of certaining redients of their article for over two hundred years-showing that through all changes of the medical profession and its practitioners, strength, composure, and cheerfulness have been derived from these sources. Dr. Woods, in the Washington Hospitals, informed me that he had been unable to produce an hour's sleep in one patient for nearly two weeks, and he was fast sinking and crazy, until the Plantation Bitters came to his knowledge, when one day's trial gave him a night's rest, and he was now feet recovering. I am surprised our Government has not equalled Jefferson Davis in energy, and adopted this invaluable article in all our hospitals. As a lay member, I on beer witness it is "good to take," and affords mor energy and life than anything I ever tried. Succession to the Plantation Bitters! But I have digressed. In my next I shall speak of gathering in the wounded, burying the dead, &c. B. se25-thstn15t
