BEGIMENT .- Many statements of the losses in the forn Exchange Basiment have appeared in Frint, but all of them have been incomplete in important particulars, or incorrect Colonel Prevest's official returns, published several days ago, were the most satisfactory, as far as they went, that have been received. On Friday we published the muster roll of Company F, Captain James P. Bankson. We have since ascertsined that it contained several errors—some of them typographical, and one or two, no doubt, arising from the fact that the manuscript, hastily written on the field in lead pencil, was almost illegible. Prevost assures us that probably none of them have been killed, but they have been taken prisoners, and will, of course, soon be released, if they have not already rejoined the regiment. The following of Company F were inadvertently reported wounded in Friday's Press. Although captured, none of them were injured, beyond a slight bruise or so; Lieutenant Chas. H. Hand. Sergeant R. J. Inman, Sergeant Rafferty, Corporal B. A. Hill, Corporal Jos. Rippert, Corporal John B. Rippert, and Privates Cooper, Fordney, Samuel Hodge, Hornly, Keel, Lingain, Thos. Lieutenant Hand behaved with his accustomed gallantry, throwing his sword, belt, &c., into the river when called on to surrender them. Cantain Bankson, although everywhere, and constantly a target for rebel riflemen, escaped unhurt, as though miraculously shielded. But for his firm and cool bearing, the company would have fared much worselthan it did. As will be seen elsewhere, a number of the wounded of the regiment have arrived in this city. SICK AND WOUNDED SOLDIERS-MORE ABRIVALS.—During Saturday and Saturday night between two and three hundred additional soldiers, most of them wounded in the recent battles, arrived in this city, and were placed in the various hospitals. The last arrival was a batch of about fifty, who reached here on Saturday night, having been ent from Camp Curtin. We take great pleasure in learn-ing that the men have sent home to their families and friends over twenty-six thousand dollars by this committee, who have kindly volunteered to assume the trouble of paying it over to those designated by them. They report the regiment in excellent condition. The newly-appointed skilful surgeon, Leidy, gives very general satisfactor unitation gonificman, and labors assiduously for the moral and spiritual welfare of those under his charge. He is a universal favorite, and is well calculated to do great good. A large and beautiful flag has been presented to the Christian street hospital by the four following patriotic young ladies: Miss Helena Cue, Miss Jennie Curry, Miss Maggie Mullen, and Miss Carrie Stephens. The presentation was made by the chaplain, Rev. J. Long, who delivered a moet thrilling and suitable address, exciting among the assembled soldiers many tokens of love and veneration. The flag was received by Dr. J. J. Beese, U. S. A., surgeon in charge, and replied to in a neat and appropriate address. Good music seasoned the exercises, and the flag was raised amid immense cheering.

OFFICE ABBEST OF THE THIEF.—Charles Cleminti-alias Charles Woostard, was arrested in tuls city, on
Saturday, upon the charge of having been engaged in the
recent robbery of the post office at Wilmington, Delaware.
What little is known of the exploits of this individual,
savors more of the romantic than the real, and proves
him a bold and reckless man. Clement, it seems, was
serving out a term of imprisonment at Mount Holly, N.

On the 10th instant he broke jail, and effected his escape, not; however, before enticing ways with him a

The funeral of Mr. F. V. Harmer, who, it will be remembered, was killed at the time of the accident, took place yesterday afternoon, at three o'clocy, at the residence of his father, at the south-east corner of Broad and Cheanut. The deceased was about eighteen years of age, and a member of the Gymnast Zouaves, who left the city as company B, of the Corn Exchange Regiment. He was sitting in a corner of the car at the time of the accident, and when found, was completely crushed between the cars, and in so mangled and swellen a condition, as scarcely to be recognized. His comrades were attached to him, and deeply mourned his loss. The military display was very fine. The Gymnast Zonaves were in attendance, and presented an effective and impressive appearance. The religious services were conducted by Rev. Dr. Goddard, whose elequent and fervent utterances appealed to every heart, and, while they administered consolation to the living, spoke at once to the young and to the old, among his auditors. board at a hotel in the vicinity of Wainut-street wharf, and subsequently stopping at a house near Eleventh and Green streets. On Wednesday, the 17th instant, Clement left his bride in this city and started for Wilmington, Del., and on the following evening but alart cusiy entered the post office at Wilmington, and effected the robbery of checks and drafts therein contained, to the amount of over \$11,000. Upon's discovery of the theft, information was lodged with the proper authorities at Wilmington, and immediate measures being taken for the detection of the bold robber, he was finally arrested in this city, as above stated, by Detectives Somers and Levy.

The particulars of the arrest were as follows: Among other articles of value stolen by Clement was a check for \$224, on a bank in Delaware Oity. This check was sent to the bask in question, with the request that the money might be forwarded through the agency of Adams? Expresss to the care of C. AN INTERESTING CASE. - In the Court UNITED STATES SANITARY COMMISof Common Piess, on Saturday, an application was made for an injunction to restrain the erection and construction of a building obstructing Willow Grove avenue, Chesinut Hill. The bill in equity on which the motion for an injunction is based, allegea that the defendants are engaged in the erection of a building 1,000 feet long by 900 feet wide, the centre of which will occupy the bed of the road, and block up 1,000 feet of the road entirely.

How glad Philadelphia as the most eligible place for the erection of hospitals, being most easy of access from the seat of war. After argument by M. Bussell Thayer, Esq., for complainants, and Theo. Cuyler, Esq., for respondents, the court granted the injunction, saying that no one had the right to infringe upon one foot of a public highway or road for the erection of any building, and that if the Government exercised any such power it must be by the right of eminent domain, and that must be done by the Government itself, in the regular way, and not by private individuals. THE DRAWBACK ON TAXED MANU-

FACTURES—The following is an extract from a letter addressed to Mr. Jacob Lorillard, a tobacconist of this city, from the Commissioner of Beyenne at Washington, in answer to an irquiry as to what particular form of evidence will be required of manufacturers to obtain a drawback on goods, &c., exported this month on which a tax of three per cent will be levied:

"You will be required to furnish proof to this office that the tobacco exported has paid a duty, which duty will be paid by the manufacturer in the regular course of the collector's business.

The tobacco on which wan clair the affidavit of the

manufacturer, collector of port, or other officer or person cognizant of the fact of exportation. The facts of payment of tax, of identity of articles and of exportation, are to be proved satisfactorily and by reasonable evidence.

The manufacturer will pay the duty without regard to the fact whether the tobacco has been exported or not. The crawback, it allowed, will be paid out of the Treasury. I do not see that any officer will remst the exportation. Your chief concern should be to take and preserve existence of the identity of the articles exported, as the same on which the tax has been paid.

SENTENCES.—On Saturday a number

of sentences were pronounced in the Criminal Court, among which were the following: John G. Miller, a constable, convicted of assult and battery on Wm. Morley, while serving a capitas, was sentenced to pay a fine of \$10 and costs. The fine was subsequently remitted. John McLaughlin, convicted of assult and hattery on Constable Wm. Tudam, was sentenced to pay a fine of ten dollars and costs. Mrs. Emma MoLaughlin, also convicted, was sentenced to pay the costs of prosecution. Thomas Tadam, convicted of assault and battery on John McLaughlin, was sentenced to pay a fine of five dollars and cests of prosecution.

came in collision near the Fish House, above cameen.
The engines were badly smashed, and some of the pas-

Rengers were many smassied, and some of the pas-sengers were more or less bruised, but fortunately no lives were lost. The collision was the result of some de-rangement in the tolegraph belonging to the line. Had it not been for the exertions of the flagmen at the point where the socident took place the consequences would have been more disastrom.

MEDICINAL. S = T - 1860 - X.

LET our possessions be what they may-marble pa aces, broad lands, magnificent plate, or caskets of " pre lors stones"—they all sink in the balance as against Beaven's great boon, HEALTH, and they cannot be enjoyed without it. The lauguage of nature attests that whoever would enjoy the pleasures of food, the braulies of flowers and landscapes, the joys of companionship, the richness of literature, or the honors of station and enown, must preserve their health. And yet, how little s it valued, and how carelessly preserved! The stomach s the receptacte of all nourishment, and the fountain from which all parts of the body derive their sustenance When foul, injurious food enters the stomach, acute sympathy disorganizes all other organs, and disease, nore or less painful, must follow. The laws of nature cannot be violated with impunity. Night revelry, lungtious living, irregularity of meals, and a disordered appetite, will gradually destroy the power and activity the stomach. How many ladies and gentlemen eat and drink disease at late suppers, and arise in the morning with headache, loss of appetite; feeling lan-guid, unrefreshed, feverish, low spirited, weak and ncapacitated to perform any mental or physical duty, nd dream not this is the beginning of that horrid

which assumes a thousand shapes, and points towards a miserable life and premature decay? There can be no medical remedy that will turn lead into food, or poloned drinks into nourishment, but medical science can assist nature, supply exhausted fluids, and, to a great extent, correct the effects of disease, when the habits are The Medical Faculty has exhausted its research for

generations in creating appelizers and overcoming sto-machic derangements. Certain ingredients were well established as possessing beneficial qualities; among there were CALIBAYA BARK AND ST. CROIX RUM. But still components were wanting, and regularity could not be obtained. An invalid physician, sojourning in the tropical island of St. Oroix, observed the habits of the natives, and gathered from them the receipt for the final accomplishment of this most important end. Its component parts, largely incorporate diet of that island, produced the effect without a proper knowledge of the cause. The article was first made and

need as a private medicine. Its effects were so salutary that it is now being produced and consumed in immense antities under the name of DRAKE'S PLANTATION BITTERS. OLD HOMESTEAD TONI).

They act with the power of a medicine, and are take y old or young with the pleasure of a beverage. The ale of these bitters was at first confined to our extreme outhern cities, but they are now becoming well known hronghout the world, and are recommended with the nost unbounded confidence, for all complaints originaing from a disorganized or diseased stomach—such as Dyspepsia, Liver Complaints; Nervous Affections Loss of Appetite, Intermittent Fevers, Diarrhosa Sour Stomach, Headache, Fever and Ague, Weak ness. &c. As a morning Appetizer, and after-dinner tonic, they

re held in bigh estimation, and should be found upon the sideboard of every family. They are also much relied upon in the Tropics for crofula, Bheumatism, and dropsy.

IMPORTANT ORRTIFICATE. "BOCHESTER, December 28th, 1861.
"Messes. P. H. Drake & Co.—Gentlemen: I have een a great sufferer from Dyspepsia for three or four years. I have tried many, if not all, the remedies recommended for its cure. Instead of relief, I became vorse, had to abandon my profession, and suffered greatly from everything I ate. My mind was much affected, depressed and gloomy. About three month ago I tried the Plantation Bitters. They almost immedistely benefited me. I continued their use, and to my great joy, I am nearly a well man. I have recommend them in several cases, and as far as I know, always with signal benefit. I am, very respectfully yours,

S-T-1860-X That you may be your own judge of the efficacy these celebrated Bitters, we submit a partial formula of the articles of which they are composed. ST. OROIX BUM,

The tonic properties of pure St. Croix Rum are well cians. It is manufactured from the Sugar Cane Plant. and that we use is selected with great care from the etates of a few planters in the interior of that island. CALISAYA, OR KING'S BARK, was unknown to civilization until the middle of the seventeenth century. The natives of Peru are generally supposed to have been long previously acquainted with its most wonderful medicinal qualities. Humboldt makes favorable mention of the febrifuge qualities of this article as an antidoce to FEVER AND AGUE, Intermittent and Malarious Fevers, in his extensive South American travels. The Countess, wife of the Vicercy of Peru, having in her own person experienced the beneficial effects of the park, is said, on her return to Spain, in the year 1640.

o have first introduced this remedy into Europe. After its introduction it was distributed and sold by the Jesuits, who are said to have obtained for it the enormous sum of its weight in silver. From this circumstance it was called JESUIT'S POWDER, a title which it retained for many years. In 1658, we are told that an Englishman by the name of Sir John Talbot employed it with great success in France, in the treatment of Fever and Ague, Dyspersis, Nervous Affections, Loss of Appetite, Weakness and Debility, Palpitation of the Heart. Diarrhoea, &c., &c., under the name of English Pawders; at length, in the pear 1679, he sold the secret of its origin and preparation to Louis XIV, by whom it was divulged. It is now a standard remedy, and is employed in the preparation of the Plantation Bitters.

CASCABILLA BARK another important ingredient. It was known in Ger many as early as 1790, and much used as a substitute for Peruvian Syrup. It is employed as a gentle stimulant and tonio, in Dyspepsia, Chronia Diarrhoca, Colic, Dysentery, and diseases of the stomach and bowels. DANDELION s used for inflammation of the loins and spleen, in cases

of biliary secretions and dropsical affections, dependent upon obstructions of the abdominal viscera, and derangenent of the digestive organs generally. CHAMOMILE FLOWERS. nsed for enfeebled digestion and want of appetite.

WINTERGREEN is a medicinal plant of very great efficiency, and is fretic affections. LAVENDER FLOWERS.

an aromatic stimulant and tonic, highly invigorating in nervous debility, generous to the palate and stomach. ANISE, an aromatic carminative, creating flesh, muscle, and milk. Much used in nursing. 8-T-1860-X

Another ingredient, of remarkable and wonderful virues, used in the preparation of these Bitters, is a native of Brazil, and as yet unknown to the commerce of the world. A Spanish writer says: * * * * * * "ad-ministered with St. Oroix rum, it never fails to relieve Nervous Tremor, Wakefulness, disturbed sleep, &c.; and that it is used with great effect by the Brazillan, Spanish, and Peruvian ladies to heighten their color and beauty. It imparts cheerfulness to the disposition, and brilliancy to the complexion." We withhold its name. rom the public for the present. To the above are added Clove Buds, Orange, Carraway, Coriander, and Snake Root. The whole is combined by a perfect chemical process, and under the immediate mpervision of a skilful and scientific Pharmaceutist DRAKE'S PLANTATION BITTERS,

OLD HOMESTRAD TONIO, are put up in Patent Bottles, representing a Swiss cottage SEA SIGKNESS. Travellers by railroad or upon the inland rivers, where the great change of water is such a prolific cause of in-BILIOUS, INTERMITTENT, AGUE, AND CHILL FEVERS,
may feel a certain reliance if they protect themselve rivers, filled with decayed vegetable and animal matter, is quite sure to produce disease, unless guarded by an antidote, such as is found in the Plantation Bitters. WHAT IS SAID OF THE PLANTATION BITTERS PHILADELPHIA, 1st month, 16th day, 1862.

MEDICINAL. HEALING POWERS OF ELEC-TBIOITY DEMONSTRATED, at 1220 WAL-NUT St. Philadelphia, where Prof. BOLLES has been lo-cated nearly three years, testing his new discovery in the cated nearly three years, testing his new discovery in the application of Galvanista, Ma anetism, and Electricity, as a therapeutic agent, on over four thousand invalids, most of whom had been pronounced incurable by the most eminent medical men in this and other cities, but afterwards were cured by a few agalications of Electricity by Professor BOLLES.

REMARKABLE CURE OF CONSUMPTION.

PHILADELPHIA, Sept. 16, 1862.

I cheerfully make the following statement of facts concerning my own astenishing cure, which was to me as life from the dead:

About eighteen months ago I took a severe cold, which seemed to locate on my chest and lurgs, and since that time I have been afflicted with consumptive tendencies, and most of the time my condition has been truly alerning. Especially for one year, my physicians, myself and friends, had abandoned all kope of my recovery. Notanguage can describe my sufferings, which amonged me both day, and hight. No effort on my part for a cure has been omitted, for I employed, from the commencement of my sickness, the most eminent medical men of the State, and took their remedies faithfully, until they frankly toll me that I had consumption, and could not be cured. Previous to this announcement by my physicians. I had frequently seen Professor Bolies' card in The Press, and a chort time previous to my applying to him I chanced vious to this announcement by my physicians. I had frequently seen Professor Bolies' card in The Press, and a chort time previous to my applying to him I chanced to observe several cartificates, and some which excited my mind to call on him for advice, about ten days ago. I told the Professor that I had no money to throw away, and did not wish to be treated miness he could cure me; and he frankly told me that he did not wish to treat me unless he could cure me, and said he would decide that fact in twenty minutes; and proceeded to examine, and in less than filten minutes he said he could cure me, and offered to warrant a perfect cure, and charge me nothing if he failed. Now, I am willing to say, for the benefit of others suffering from the same differentiety, and am a well man. I had anticipated that I should be shocked with electricity, but, on the contrary, he gave me no shocks. The whole treatment, from the beginning, was very pleasant and agreeable. I have heard many epeak of the treatment, who have been cured. All, of one accord, seem pleased with the agreeable sensation. There seems no confusion or guess work about his treatment or disgnosis of disease. He proceeds upon fixed principles, and according to laws well understood by himself, and there is good evidence of their infallibility, from the fact that he is generally successful; and cau, with perfect safety, warrant the oldest chronic cases. I look forward with hopes for suffering humanity. It seems to me that medical men of the old school will soon investigate this new discovery of Professor B., and, instead of drugging the stomach for months and years, many times without any benefit, they may be able, in a few days, by the proper application of electricity, applied by Professor B.'s system, to cure nearly all cases which they abandon as incurable. I have watched the success the conclusion that the one had of manda analy to have come to the order to the contrast to the part of the wars.

the conclusion that the one half of may want I have come to has not been fold, although thousands speak in nearly the language that I do. ANTHONY CARNEY, No. 1217 Market street. N. B.—In addition to the above cases cured. Prof. C.

H. BOLLES has cured two thousand Chronic and Acute
cases within less than three years in Philadelphia, all of
which cases had resisted the treatment of the most emirent medical men.

Please take notice that Prof. B. does not advertise any pertificates of cures, except those cured in this city.

Prof. B. has established himself for life in this city, and his success in treating the sick is a sufficient guaranty that he claims nothing but scientific facts in his disce-very in the use of Electricity as a reliable therapeutic agent.

N. B.—It will be well for the diseased to recollect that Prof. B. has given a word of caution in his pamphlet, to guard them against trusting their health in the hands of those in this city claiming to treat diseases according to his discovery. This caution may seem severe on those using Electricity at hazard, but it is the severity of truth, and designed for the good of humanity. See advertisement in another column.
