RELIGIOUS INTELLIGENCE.

The Noon-day Prayer Meeting Yesterday. The Noon-day Business Men's Union Prayer Meeting, held daily at the old Sansom-street Baptist (hurch, like all other earthly things, is subject to mutations. We visited it yesterday, after an absence of some months, and the change was remarkable-in the mode of conducting the exercises, the avowed objects of the meeting, and the faces of the prominent actors. Some of these innovations, at least, are improvements. The bell is no longer tapped upon a suppliant for exceeding the three-minute limit; prayers and sentiments that were once contraband now form almost the warp and woof of the proceedings. In short, every one who speaks or prays exercises his talent without the slightest regard to the ecclesiast or the political overseer. The "lights" and "pillars" who formerly asserted their prerogatives, in the exercise of these supervisory functions, Othello-like, have lost their occupation, and stay away. The meeting yesterday was conducted by a layman. It

was slimly attended by about an equal number of both sexes, and was opened by singing, prayer, and reading the Scriptures. After singing the hymn commencing as follows, the meeting was announced to be open for the "O Lord! thy work revive

A request for prayer was then read from " the relatives of a young man in the service of his country, that the good work which had been commenced in his heart might continue until he became equally enlisted in the service of his God "

TEMPERANCE SPEECH BY REV. DR. JUNKIN In the prayer that followed, this request was duly remembered, after which there was a very animated address by the Rev. Dr. Junkin, (a patriotic refugee clergyman from Virginia, and lather-in law to the "inspired rebel" General Stonewall Jackson,) on the subject of Temperance. He deplored the sad effects of intemperance in our army, and instanced several disasters-in illustration, among others, the fact, as he alleged, that it had been the liquor drank by Colonel Miles, on the 21st of July, 1861, that lost to us the battle of Bull Run, and he believed prolonged the war twelve months Drunkenness was, indeed, a terrible evil, and he unhesitatingly declared that the grandest and most prolific cause of this evil throughout the land was directly traceable to the pulpit. There was no contradicting the fact that the clergy were responsible for a very large proportion of the intemperance which cursed our country. The pulpit, for example, of all denominations preached that Jesus Christ himself had made and drank intoxicating wine. This, he said, was false, and he was prepared to prove it to be so. The Redeemer of men had not made intoxicating wine. It was positively de. monstrable that in the days of our Saviour there had been wines in Palestine that were unintoxicating, just as there were in France and Switzerland to-day, and the whole burden of inference was plainly on the side of the supposition that the wine made by Jesus had been of this harmless sort. To satisfy himself thoroughly upon this subject, he had himself made wine of the same kind from the pure juice of the grape, and kept it in his house for eighteen months, and, in fact, he had some

SHORT REPLY. At the close of these remarks an elderly gentleman in the meeting rose to deny that all the pulpits in the land were guilty of the charge preferred by the previous speaker. For his own part, he himself made it a rule, and had done so for years, never to admit any man or woman to his communion who did not first solemnly promise never to manufacture, sell, or drink intoxicating beverages of any kind. ANOTHER REQUEST.

At this point there was a note read from "a lady in deep affliction, requesting an interest in the prayers of

ANOTHER PRAYER. A young man next rose and prayed with much earnest ness in behalf of the sister in distress, also that God, in the pienitude of His mercy, would raise up good leaders for our army-men that would hate sin and intoxicating liquors, and that might have the spirit of Joshua of old Mr. Bowland, of Beston, in the service of the Christian Commission, was introduced and gave a brief, but highly interesting, narrative of his experience during the past week on the bloody field and in the hospitals of He was followed by Mr. Parker, of this city, who said that the men who were now filling up the ranks of our army were, in the aggregate, of a more thinking and raligious character than those that had preceded them. In proof of this he referred to the order, sobriety, and gene-

ral praiseworthy conduct of the men in the regiments now encamped in and about Philadelphia. After another hymn, the meeting was dismissed with a benediction, pronounced by Rev. Mr. Allen. THE EMANCIPATION PROGLAMATION of President Lincally, sustained by the denominational newspapers

throughout the laval States. THE BANNER OF THE COVENANT has a series of resolutions declaring that the " putting down of this rebeliion is as obvious a Christian duty as prayer, preaching, charity to the poor, or missions to the heathen. THE PRAISES OF THE " ORRISTIAN COMMISSION" are being sounded far and wide, for the intelligent and efficient Christian sympathy which they have practically manifested towards the suffering soldiers and their bereaved friends at home. The Commission is constituted of the following named gentlemen: Bollin H. Neale and Charles Demond, Boston; E. S. Janes, New York; Jas. Eells, Brooklyn; Mitchell H Miller, Washington; Clinton B. Fish, St. Louis; Geo. H. Stuart, John P. Grozer,

and Jay Cooke, Philadelphia; M. L. R. P. Thompson, Cincinnati; John V. Farwell, Chicago; John D. Hill, Buffalo. All moneys should be sent to Joseph Patterson, Esq., Treasurer, President Western Bank, Philadelphia All stores to Geo. H. Stuart, Esq., Chairman, 13 Bank street, Philadelphia. All letters to Rev. W. E. Boardman, Secretary, 13 Bank street, Philadelphia. THE AMERICAN PRESENTERIAN PAYS ITS RESPECTS TO GEORGE FRANCIS TRAIN in uncomplimentary terms, and says his patriotism consists in the worship of McClellan, " green backs," and a prohibitory tariff, adding: "We had about as soon have heard of a fresh defeat of the Union army, as to hear a Philadelphia audience appland, lone and long, as they did, when Train declared his purpose to visit Massachusetts, and prevent the return to the United States Senate of a statesman whose shoes he is not worthy

THE REV. DANIEL WALDO, a Revolutionary patriot, and not many years ago Chapisin of Congress, has just completed his one hundredth year. He lives in Syracuse, where the event was observed with public exercises. THE QUESTION OF PRESBYTERIAN UNITY IS NOW & CUTrent and popular topic in nearly all the papers in the interest of the various branches of that denomination. Thus in the oscillations of the great sectarian pandulum, what during the last quarter century has resulted in se many ecclesiastical splits, may in the next react in the intro duction of a new and higher state of homogeneousness. WHAT THE WCMEN OF BOSTON ARE DOING .- Large meetings of Obristian women are now being held every Monday, at 10 A. M. and 3 P. M., in the city of Biston, for the purpose of spending two hours in prayer to God for the nation, the following points being kept in view: That the people of this land may be humbled, and so be prepared to receive the blessings of a righten peace that shall redound to the glory of God; prayer for our President and his councillors; for the officers of our army and navy : for our soldiers and seamen, that their heads may be covered in the day of battle, and that they may be kept from the vices incident to war; for our chaplains and surgeons; for the afflicted and bereaved families; for ministers, that they may proclaim the truth, and for the oppressed of our land, that their deliverance may be hastened. They also appeal to their

sisters throughout the United States to join them in this worthy Christian movement. THE LATE DR. SUMNER, ARCHBISHOP OF CANTERBURY. who died recently at the age of eighty-two, was consecrated Bishop of Chester in 1828, and translated to Canterbury in 1848. In the latter See his annual income was about \$75,000 (seventy-five thousand dollars,) besides enjoying the patronage of the Archdeacons of Canterbury and Maidstone, of two Canonries, aix preacherships in Canterbury Cathedral, and one hundred and sixty eight benefices. He was a voluminous writer, and published, among other works, "Evidences of Ohristianity," "Expository Lectures " on the whole of the New Testament except the Apocalypse, in nine volumes, and several books of sermons. He will probably be succeeded by the Bishop of London. THE CHURCH OF THE REV. DR. KENNARD, (the Tenth

subjected to a thorough course of repairs, at an expense of some fifteen huncred dollars, the payment of which has been already provided for. The church is now complete, and is a very beautiful and commodious edifice. There will be preaching in it hereafter by the pastor re gularly every Sunday morning and evening, THE BEV. DR EDDY has accepted the call which was extended to him some months ago by the Tabernacie Baptist Church, vacated by the departure to Secessia of the Bey, W. T. Brantley, D D. This is one of the most

mportant B sptist congregations in this city.

Military Hospitals—The Discharge of Incurable Cases.

To the Editor of The Press : Sin: There is not a city that has done more for the sick and wounded men in her hospitals than Philadelphia; but smidst those cases which admitted of no hope, how meny might have had the prayers of their hearts answered, and been permitted to die in their own homes, had the necessary steps been taken in season. An authorized organization to look up such cases, is what this article proposes. The ladies who visit the hospitals have been indofatigable in their efforts to obtain the discharge maners of such and help them off; but in many instances. papers of such, and help them off; but, in many instances, had they applied to the officials for a portion of their salaries, they could not have met with more rudeness. In other cases, I am happy to say, that they have had the cordial co-operation of those whom it was necessary to apply to. We are informed that discharge papers are now to systematically procured that there need be no celay; if so, the duties of the organization proposed will be confined to the removal of those who come under their notice, from the hospital to the care; stopping, with them at the paymater's to draw their pay, and seeing that they are suitably clad for the journey. For this latter purpose all the cast-off clothing that the members can collect from their friends will be useful. We have heard of men far gone in consumption being sent from the hospitals in dressing gowns. So prostrated were some by debity or disease, that it seemed impossible they could ever reach their homes; but, uniformly letters were received by those who had cared for them, telling of the and to the removal of those who come under their collect from their friends will be useful. We have heard of men far gone in consumption being sent from the hospitals in dressius gowns. So prostrated were some by debility or disease, that it seemed impossible they could ever reach their homes; but, uniformly letters were received by those who had cared for them, telling of the assistance they had met with on their way, and calling down blessings on the heads of those who had helped them out or the bospitals. Let some persons move in the matter, call a meeting of those interested, and form their organization without delay. A meeting might be called at some private hours, and thus save the association any at some private hou e, and thus save the asso expense. Funds are not needed, but willing hands and hearts; and the requisite authority to enter the hospitals which Pr. King promises to give to such a committee

[We cordially approve of the above suggestion. The evil which it proposes to remedy (and which might easily be remedied but for the intervention of "red tape,") is one which has frequently been brought to our attention, and which should et list the active sympathies of the philanthropic. Much might be done to mitigate it, or " reform it altogether," by proper and concerted action. ho. PRESS.1

THE TAX ON SILVER PLATE. The

following letter has been received by Mr. Edwin T. Ohase, of Germantown, relative to the tex on allver plate, as imposed by the national tax law:

TREASURY DEPARTMENT,
OFFICE OF INTERNAL RSVENUE,
WASHINGTON, Oct. 2, 1852.

Sir: In answer to your communication of 30th ult., I have to say that the law in regard to the taxation of allver plate is perfectly clear and explicit.

Schedule 'A." by its heading, contemplates the tax of relate: it is nerticularly enumerated, the tax specified, and plate; it is particularly enumerated, the tax specified, and you will not be just to levy it under the provisions of schedule 'A." The omission of "plate" in the letter of the text of sec. 77, secuns to me of no importance. Very respectfully, GEORGE S. BOUTWELL,

BASE BALL.—A grand match game of base ball between two of our best clubs, the Athletic of base ball between two of our personance, and olympic, will take place this afternoon.
On the 20th test, the Eckford Base Ball Club, of Brooklyn, will visit Philadelphia, and play with the Keystone," "Athletic," and "Olympic."

MISCELLANEOUS ITEMS. GEN, SHERMAN ON STRAGGLING .- Gen. Sher GEN. SHERMAN ON STRAGGLING.—Gen. Sherman, from his headquarters at Memphis, has issued an order against pillaging or snaggling. In which he says: I know, in some instances, where our soldiers are complained of, they have been insulted by sneering re narks about "Yankee," "Northern barbarians," "Lincoln hirelings," &c. Such people must seek redress through the civil authorities, for I will not tolerate insults to our country or our cause. When people forget their obligations to a Government that made them respected among the nations of the earth, and speak contemptuously che fleg which is the allent emblem of that country, the fieg which is the silent emblem of that country, I will not go out of my way to protect them or their property. I will punish the soldiers for trespass and waste, if adjudged by a court martial, because they disobey or ders; but soldiers are men and citizens as well as soldiers, and should promptly resent any insult, to their country, come from what quarter it may. Again, armies, in motion or stationary, must committene waste. Flankers must let down fences and cross fields, and when an attack is contemplated or apprehended, a command would naturally clear the ground of houses, fences, and trees. This is not waste, but is the natural consequence of war, chargeable on those who caused the war. So in fortifying a place, dwelling houses must be taken, materials used, and even wasted, and great damage done, which in the end may prove useless. This, too, is an expense not belonging to us, but to those who saide the war, and generally war is destruction, and nothing else voyaged for the province of the contemplate of the war, and generally war is destruction, and nothing else voyages of the province of t VOYAGE OF NINE THOUSAND MILES -The St. Louis Democrat, of the 27th, says: "The steamer bhreveport has arrived at our wharf, successfully terminating what are still considered the most extraordinary and difficult voyages that can be made on this continent, company occurrence in the but which will become of very common occurrence in the course of a short period of years. She sailed from this city on the 30th of last April, and has consequently been appropriate the program of which she was

city on the 50th of last April, and has consequently been absent close upon five months, a portion of which she was under the necessity of lying idle, waiting for passengers and freight. The first part of her performance was a run of three thousand three hundred miles, to Fort La Barge, a recently created post. She returned to near Omaha, two thousand miles more; then back to the mouth of Milk river, sixteen hundred miles, and concluded her trip by a twenty-five hundred mile trip to her original starting point—St Louis. Thus it will be seen that, during this cruise, the Shreveport has run the extraordinary number of nine thousand four hundred extraordinary number of nine thousand four hundred miles. The animating object of the expedition was to convey a company of gold-seekers as near as possible to certain reported fields of the auriferous material. Capt. La Barge, commander of the vessel, who is an old and careful voyageur, informs us that those who have visited

Deer Lodge, and prospected a circuit of two hundred miles around Fort La Barge, report the prospects good, and that the pursuit of geld will pay." A REBEL MAIL-CARRYING CONTRIVANCE -A REBEI. MAIL-CARRYING CONTRIVANCE—
"At a point on the Lower Potomac, called 'Katele Bottom,' where the river is narrower than anywhere else below Alexandria, the rebels have laid a wire rope reaching
from shore to shore, and resping on the bottom of the
river—the ends so concealed that no portion of it is visible, even at low tide. On this rope slide-iron rings, to
which are attached water-tight tin boxes filled with mail
matter, and which are drawn either way across the river
by a cord stached. Signals are arranged by which parmatter, and which are drawn either way across the river by a cord attached. Signals are arranged by which par-ties on oppesite sides of the river are enabled to co-ope-rate, so that the boxes are safely and easily taken from side to side and emptied and refilled asocossion requires." The rebels boast of being able completely to blindfold the officers and crews of our gunboats, and assert that their mail frequently passes directly under the keels of vessels anchored in the river on the look out for rebel violators of the blockade, and rebel mail-carriers in particular. THANKSGIVING IN NEW YORK .- Gov. Morgan, THANKSGIVING IN NEW YORK.—Gov. Morgan, in his proclamation, appointing the 27th of November as a day of Thanksgiving, says: We are permitted to see that the war is developing the manhood of the nation; and when peace shall return, we have faith that the American Republic will be more powerful, the G. vernment more permanent, the elements of society more perfectly blended, and the people more firmly united than ever. We have other causes for gratitude. Disease has been averted at home, the unacclimated armies have been protected from pestilences which it was feared would follow them in distant latitudes. Earth's best fruits have been layishly bestowed, the arts have pros-

fruits have been lavishly bestowed, the arts have pros-pered, the employments of peace have been rewarded, and the good order of society has been fully maintained. Reverses to our arms have been followed by successes on land and sea which specially call for thanksgiving, and justify the most sanguine expectations as to the final re-sult of the contest. YELLOW FEVER IN THE GULF FLEET _A letter from Key West, dated September 26, states that the yellow fever has broken out in the fleet, and gives the following named Philadelphians, victims on the St. Lawrence : Thomas H. Bentley, landsman, 24, Aug. 22, 1862.

James Krin, carpenter, 40, Aug. 27, 1852. John Johnson, second nurse, 25, Sept. 12, 1862. Samuel Gail, landsman, 26, Sept. 14, 1862. Mathias Mildenberger, landsman, 24, Sept. 14, 1862. Bylvester B. Albright, landsman, 22, Sept. 14, 1862. Edgar A. Shaw, marine, 22, Sept. 2, 1862. Charles F. Graham, landsman, 22. Sept. 2, 1862. Joseph Sours, purse, 24, Sept. 6, 1862. Huzinga M. Parker, landsman. 22, Sept. 6, 1862. Francis A. Pizzina, surgeon's steward, 32, Sept. 7, '62 A FAMILY RELIC DEVOTED TO A PATRIOTIC A FAMILY RELIO DEVOTED TO A PATRIOTIC PURPOSE—We were shown, yesterday, a quantity of lint which was prepared from linen spun and woven by Mrr. Mary Witmer, of Manhelm borouth, Lancaster county, in 1812. The patrietic woman who manufactured the linen, also prepared the lint, and what renders this preparation and lint still more interesting, is the fact that Mrs. Witmer is a cousin of the grim but gallant and glorious Gen. Heintzelman.—Harrisburg Telegraph A DEMOCRAT ON THE PRESIDENT'S PROof Ohio, in a letter to Hon. Mr. Arnold, of Ohio, in a letter to Hon. Mr. Arnold, of Ohio, the pressing regret at his inability to attend a lwar meeting, said: "At lest the face of the President is set towards freedom; and we fight for the true destribles of the Republic. It will now become manifest to the world, as it has & REDUITION OF THE BUSSIAN ARMY.-The

general order of the Russian ARHY.—The official organ of the Czar, the Invalide Russe, announces most unexpectedly a reduction of the Russian army. Saxty soldiers of every battalion of the Guards, and about twenty of the infaniry, are to be immediately discharged, and about twice the number sent on furlough. The reduction will amount altogether to some fifty thousand men. TREASURE TROVE.—The new Turkish Minister of TREASUBE TROVE.—The new Turkish minister of Finance has made a discovery which, coming from Constantinople, is almost miraculous. He has actually found a large quantity of gold and filter coin in the exchequer. This treasure trove, which is estimated at about the sum of 1,500,000L, is supposed to have lain concealed for uwards of a century.

INCENDIARIES AT WORK .- The inhabitants of the towns in the vicinity of Warren. West Brookfield. &c , are considerably excited at the present time, several incendiary fires having recently occurred in that neighbor hood — Boston Journal. THE 290 IN ACTION .- The Grenada Appeal of the 24th reports a naval engagement between the Wederal steamer Santiago de Cuba and rebel steamer 290, in which the former was badly worsted.

PERSONAL ITEMS. DEATH OF AN EX-SENATOR -Hon. Jacob W. Miller dled on Tuesday last, at his residence, in Morristown, at the age of 62. Mr. Miller was a native of New Jersey, having been born in German Valley, Morris county, in November, 1800. He received a good education, and at-terwards studied law with his brother, and after his adterwards studied law with his brother, and after his admission to the bar commenced the practice of the profession at Morristown, where he continued to reside during the whole of his useful and active life. After serving two years in the Legislative Council, Mr. Miller was elected, in 1840, to the United States Senate, and occupied a seat in that body for two terms, being succeeded, in 1853, by William Wright. He was a steadfact member of the old Whig party, the friend and supporter of Clay and Webster, and the illustrious men who gave to the Whig party is high reputation for statemenship and ability. On the is high reputation for statesmanship and ability. On the disruption of the Whig party, Mr. Miller took sides with the Kepublican parts, and though, of late years, not par-ticularly conspicuous in our State politics, he labored menfully and honoraby for its principles, and lent to the cause the weight of his high name and position. . THE HERO OF THE VARUNA.—The sword ordered by the Common Council of New Brunswick, to be made for the Common Council of New Brunswick, to be made for Capt. Charles S. Boggs, in commemoration of his gallant services while commander of the gunboat "Varuna," during the storming of the forts and destruction of the rebel ficet below New Orleans, on the 24th of April last, was presented to him at Green, Hall, on Tuesday evening, in the presence of a large audience of ladies and gentlemen assembled for that purpose. The presentation speech was made by Robert Adrian, Esq., in behalf of the Council. BRIGADIER GENERAL CARL SCHURZ'S REPORT.— General Carl Schurz, commanding the 3d division o General Sigel's (1st) army corps, has published a repor of the part taken by his division in the battles of Augus 29 and 30. It is substantially embraced in the report of General Sigel, published yesterday. It concludes thus:

My loss in the battles of the 29th and 30th, as will appear from the regimental reports, was extremely heavy, exceeding 20 per cent. of my whole effective force. Beside the brave and noble Colonel Koltes, I have to deplore side the brave and noble Colonel Koltes, I have to deplore the death of a great many able and gallant officers. The number of missing was very small in proportion to the killed and wounded. Comparatively few of them have since rigined their regiments, and the information I have received leads me to believe that a majority either remained dead on the battle-field or fell wounded into the hands of the enemy. The commanders of my brigades and the officers of my staff behaved on all occasions, or der the most trying circumstances, with their accustomed gallantry. GENERAL CURTIS ON THE WAR .- General Curtis was Baptist,) on Eighth street, above Green, has just been

recently invited, by his old friends at Keokuk, to accept a public reception. In his letter of reply he says: "Break down the rebel smrles; confincate the property of their supporters, deprive the rebels of their slaves and their substance, prostrate fore and elevate friends, and the Union men in thousands, who now tremble in the presence of the apprehension of its return, will proclaim their devotion to our Government, and units with us heartly in restoring peace and prosperity to our once SERENADE TO GENERAL MILROY.—General Milroy was serenaded on Wednesday evening at Wneeling, Va. In his speech General Milroy said he believed that slavery was the cause of this war. The cause of contention ought to be removed, and he was glad that the signs of the times looked at the accomplishment of this great object. CYRUS W. FIELD ON A MISSION —It is stated that Mr. Cyrus W. Field, of New York, is on his way to England with an additional proposal from the United States Gevernment for uniting the two continents by telegraph...

SCIENTIFIC ITEMS.

A New Planer — A new planet was discovered by Drobert Luther, Director of the Observatory at Bilk Germany, on the evening of August 31st. It was situated in Right Ascension three degrees, and declination two degrees north. It was equal in brilliancy to a star of the eleventh magnitude. Dr. Luther has devoted tentral time has discovery of these bodies, and during that time has discovered twice as many as was known to exist at the beginning of the present century. THE PLANET MARS.—In the evening of Sunday next, October 5th, the Planet Mars, which for some time past has been so brilliant in the evening, in the southeast, will come into opposition to the sun. On account, however, of the eccentricity of its orbit, the planet was nearest to the earth on Sunday evening, September 18th, and has already begun to recede from us. PHYSICIANS CURING DIPTHERIA BY THE SUCTION OF the sole reason that it is the promptest and often the only means of saving life.

We find an instance recorded in the Union Medicale for May, which should not be limited in its circulation to the medical press. The expedient, notwithstanding the operator well knew its danger, was practised, and with complete success in rescuing the child, by Dr. Edmond Bessette, a young surgeon of Angouleme. What adds to the satisfaction of the account, the child was not only saved by his heroism, but Dr Bessette suffered no ill affects. This is attributed to his immediately rinsing his mouth and throat with strong heady. The case is remouth and throat with strong brandy. The case is re-ported, not by the noble young operator himself, but by his superior in the Angouleme Hospital, Dr. Claude

Gigon.

SINGULIE FACT.—One day last week a flower rerembling a full blown white rese, was picked from an
apple tree on the farm of Harlow Burghardt, in this
town, en the road to Egremont. It was nearly two
inches in diameter, and consisted of over a hundred
leaves. The tree is loaded with small apples, and the
singularity of the phenomenon is the subject of much
foolish superstition.—Buckshire (Mass.) Courier. Another Asterold.— Duckshire (Muss.) Courser.

Another Asterold.—A new asteroid was discovered on Sept. 24th, by Henry M. Parkhurst, of New York. It is in the constellation Pisces, and of the eleventh magnitude.

SHA SICKNESS.—B. M. Bache, in a letter recently read. Bas Sickness — B. M. Bache, in a letter recently read before the Connecticut Academy of Arts and colences, gave a new theory of the cause of sea sickness. He attributes this annoying malady not to motion, or the appearance of motion especially, but to unaccustomed and irregular motion, the extent and direction of which the minu is unable to calculate and anticipate. As soon as persons become accustomed to this life, and the mind does not act at variarce with the motion of the body, this nauseaccases. He advises sea sick persons, therefore, to keep as near a quiet horizontal position so as not to be worked with the seeming motion of the bodyon. Let the food be the same as is ordinarily used. There is no specific for sea-sickness, except to become as quickly as positible habituated to the motions of the ship, and any tampering with the stomach in the way of unaccustomed strictes of food or drinks is only likely to again a tampering with the stomach in the way of unaccustomed strictes of food or drinks is only likely to again a the rawe. If, in addition to what has been recommended above, says Mr. Bache, the passenger will spread a mattress, and put himself in a recumbent posture, all will then have been done that can be done to prevent; to cure, or to alleviate sea sickness; until the education of the sennes is completed.

i warantersi

TANGER OF LITTLE DE. WISHART'S PINE TREE TAR CORDIAL. SATURE'S GREAT REMEDY FOR ALL DISEASES OF

THE THROAT AND LUNGS. Have you a Cough? Have you Sore Throat? Have you any of the premonitory symptoms of that most fatal

Those who should be warned by these symptoms gen rally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the sad prevalence and fatelity of a disease which sweeps to the grave at least one-sixth of Death's victims.

It usually begins with a short, dry cough, which soon becomes habitual, but for some time nothing is raised except a frothy mucus. The breathing is somewhat difficult, and upon slight exercise much hurried. A sense of tightness and oppression at the chest is often felt. As the disease advances the patient becomes thin in fiesh, is afflicted with loss of appetite, great languor, indolence. and dejection of spirits; and may continue in this state for a considerable length of time, but is very readily affected by slight exposure or fatigue. If these occur, the in the morning. It is sometimes streaked with blood, At this stage night-sweats usually set in, and in some Pain in some part of the chest is felt, and often a difficulty of lying upon one or the other side, without severe fits of coughing or a sense of fullness or suffocation, is experienced. The pulse becomes full, hard, and frequent. the hectic flush tinges the cheeks, and the dire malady is fast hastening to its close.

You now ask, "Is there a cure!" Consumption has been and can be cured by the use of my Tar Cordial, even in apparently hopeless cases. This ssertion I make with the ability to present the most complete evidence of its truth. Space will not admit of my giving the contents of the many thousands of testinenials to its value, which I have been and am receiving from men and women of unquestionable worth and reputation. I have had a number of these certificates printed tion. Whether you now determine to try the medicine or not, send for the circular. After years of study and exeriment. I offer this medicine, believing it to be the best emedy for all pulmonary and bronchial diseases. If you cannot be benefited by the use of the Tar Cordist: I believe you are beyond all earthly aid. Yet if there are better curative agents, I carnestly advise their use. The best remedies, the best care, are needed by those afflicted with this disease. Because I believe this to be the best, I ask you to try it.

Many, not only of the people, but physicians of every principle or cause of your great success in the treatment of Pulmonary Consumption?" My answer is this: The invigoration of the digestive organs—the strengthening of the debilitated system—the purification and enchment of the blood, must expel from the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving the pain, subduing inflammation, and restoring a healthful tendency. Let this two-fold

laved a resort to the means of cure. The Pine Tree Tar Cordial will cure Coughs, Sore Throat and Breast, Bronchitis, Asthma, Croup, Hooping Cough, Diptheria, and is also an excellent remedy for diseases of the kidneys, and female complaints. Sold wholesale and retail at my Medicinal Depot. No. 10 North Second Street, Philadelphia, Pa.

A POSITIVE CURE FOR DYSPEPSIA.

THE GREAT AMERICAN DYSPEPSIA PILL.

A Cure warranted for \$1, or the money re-

WHAT IS DYSPEPSIA! Dysnepsia has the following symptoms: 1st. A constant pain or uneasiness at the pit of the tomach, which is caused by a permanent contraction of

the stomach upon undigested food. It generally begins immediately, or a short time after eating; is often very severe and obstinate. 2d. Flatulence and Acidity.—These symptoms arise

from the indigestion of food, which ferments instead of digesting. Bd. Costiveness and Loss of Appetite. These symptoms are the effects of the unnatural condition of food in the stomach, and the want of pure bile and gastrio

juice. The stomach is often painfully distended by wind: the appetite is sometimes voracious. 4th. Gloom and Depression of Spirits.-This state unfits many for the enjoyment of life, and is caused by the impure blood furnished by imperfect digestion. In this stage of the disease many persons commit suicide. There is a constant foreboding of evil, and an indifference and positive inability to perform the offices of life. 5th. Diarrhea.—After being at first costive, the suflerer is afflicted with diarrhosa, which is owing to a discased condition of the bowels, produced by the undigested food, which is evacuated in the same condition as

system. 8th Pains in all parts of the system arise from the action of impure blood upon the nerves. They are felt hiefly in the head, sides, and breast, and in the extremities. In many cases there is an uneasiness in the throat, with a sense of choking or suffocation. The mouth is often clammy, with a bad taste and furred

tongue. 7th. Consumptive Symptoms and Palpitation of the Heart.—Many persons pronounced as having these liseases have, in fact, nothing but Dyspepsia, the lung and heart disease being only symptoms. 8th. Cough.—This is a very frequent symptom of Dyspepsis, and leads very often into confirmed consump-

9th. Want of Sleep .- A very distressing symptom, resulting often in mental derangement. 10th. Symptoms of external relation.—The patient is affected painfully by cold and heat, which jis owing to unnatural dryness of skin, and the skin is often affected by eruptions and tetters. The gloomy dyspeptic avoids society as much as possible. 11th. Vomiling.—A frequent and distressing symptom. It relieves the pain, but emaciates and wears out the

12th. Dizziness, dimness of vision, headache, and staggering in walking .- These are very alarming symptoms, which are speedily removed by our medicine, but if neglected, are quickly followed by numbness and andden death. 13th. It is impossible for us to give all the symptoms

of Dyspepsia in so small a space, but the above are congidered sufficient—if we add that the patient loses his memory and attention to surrounding objects, and frequently becomes morose and sour in disposition. We should say, however, that pains in the joints and stiffness of the limbs, which go by the name of rheumatism and neuralgia, are very often produced by Dyspepsia. Also, a hardness of the muscles of the abdomen, which become contracted and hard; and in some cases the belly sinks, instead of being gently prominent. In cases of general debility, use WISHART'S PINE TREE TAR CORDIAL with the PILL. N. B.—All orders promptly attended to on receipt of the money.

MEDICINAL. COMMUNICATED. [Extract from a letter on the Battle field.]

This battle (Antietam) has been the most sangulnary

of the war, and the only one fought with design and upon military p. inciples. The arrangement of our corps -the overlooking position of the Commanding General the sending into action the right and the left-the closing up of the centre and final success—excites bewildering admiration, and carries the mind to the great fields of Austerlitz and Wagram, fought by Napoleon Of all this have I spoken. The heart-history of such a conflict, purchased by the life and blood of twenty thou sand men, must be found in the hospitals. War has it glories-but it has its ten thousand demons in these human tortures, that make the eyebails ache-the hear bleed—the lips palsy—and the brain reel. The sight is at first positively unendurable. The life-blood of some is still trickling away in silent calmness, while the dissevered limbs and maniao brain of others give rise to sound Gcd grant I may not again witness.

But, ye mothers who now seek a son-or wife a hus band-or sister a brother-or sons a father-know and be consoled that even here the hand of mercy is watchful, and better care is bestowed upon your loved one than might at first seem possible. It was in the hospita where rested the gallant Hooker that I learned the history of those mythical words so often seen and so little understood, "S. T.—1860—X.", Anything alleviating the sufferings and saving the lives of our soldiers is a na tional blessing. I witnessed some astonishing results It is well known the effect of burnt guupowder and ex-

citement is thirst, which, added to the loss of blood in the wounded, creates the necessity of a reviving stimulant In this particular hospital, the physicians were allowing their patients to drink Plantation Bitters, otherwise called S. T .- 1860-X, and although the wounded are nost numerous here—this division having opened thfight at 5 in the morning—the men were mostly composed, and there was but very little fainting. The artile acts upon the stomach and nerves in a most incomprehensible manner, superior to brandy, and without subsequent stupefying reaction. It originated in the West Indies, containing calisave bark, winter green, larender, anise, clove buds, orange, snake root, &c., preserved in St. Croix Rum—the S. T.—1880—X being a secret ingredient, not yet revealed to the public. It is principally recommended for want of appetite, disordered liver, intermittent fevers, stomachic difficulties, &c. I nderstand it was somewhat known in the Southern States previous to the war, and it appears an agent of Jefferson Davis recently applied to the proprietors for the privilege to make it for hospital purposes during the war. New York, Jan. 16th, 1862.

Agent of, etc.:

DEAR SIR: In reply to your communication, offering us "Fifty thousand dollars for the recipe and right to make the Plantation Bitters for hospital purposes during the war," we beg to say your price is a liberal one, considering it would cost us nothing to comply, and that otherwise we can derive no revenue from the Southern States; but, sir, our duties to our Government and our ideas of consistency, would not allow the arthur and our ideas of consistency, would not allow the arthur and consistency. ideas of consistency, would not allow us to entertain it, although it night please us to assuage the sufferings of your misguided followers.

We remain,

Very respectfully yours. Very respectfully yours, P. H. DRAKE & CO.

These gentlemen give the history of certaining redients of their article for over two hundred years showing that through all changes of the medical profession and its practitioners, strength, composure, and cheerfulness have been derived from these sources. Dr. Woods, in the Washington Hospitals, informed me that he had been unable to produce an hour's sleep in one patient for nearly two weeks, and he was fast sinking and crazy, until the Plantation Bitters came to his knowledge, when one day's trial gave him a night's rest, and he was now fast recovering. I am surprised our Government has not equalled Jefferson Davis in energy, and adopted this invaluable article in all our hospitals. As a lay member. can bear witness it is "good to take," and affords more energy and life than anything I ever tried. Success to the Plantation Bitters!

But I have digressed. In my next I shall speak of gathering in the wounded, burying the dead, &c. B.

HEALING POWERS OF ELEC-TRIGITY DEMONSTRATED, at 1220 WAL-NUT St., Philadelphia, where Prof. BOLLES has been loand the street of the street o wards were cured by a few applications of Electricity by Professor BOLLES.

TWO MORE OBSTINATE CASES CURED. About five years ago, my general health began to fail, although at first I did not feel much slarmed, but my sufferings at times were severe. I gradually became emaciated, and at it nes nearly lost my appetite, and what I ate produced great distress, and the physicians who treated me did not seem to understand my disease from pathological waystone. pathological symptoms. At times, I had great difficulty of brea hing; some palpitation of the heart; often great trembling of the limbs; great aversion to business and to company. At times, very gloomy; great inability to collect my thoughts vigoreusly on any subject; loss of memory at times; suffered much from lumbago, swimming of the head; suffered much from apprehensions of ming of the head; suffered much from apprehensions of insanity, as my physicians told me that I had symptoms of fits. However, after trying the old-school remedies for many years, and being informed that I could not be cured, I was induced, by reading several certificates in The Press and other papers, to converse with the persons cured, and after I had received good evidence from investigations of this kind, I immediately applied to Professor Bolles, 1220 Walnut street Professor B. located my disease in the pelvic visera in thirty minutes after I entered his effice. He frankly informed me that he could cure me of all my difficulties in ten days and after I entered his office. He frankly informed me that he could cure me of all my difficulties in ten days, and I am willing to acknowledge that I was perfectly cured in seven treatments of about ten minutes each; and to me this is most astonishing, for I had abandoned nearly all hopes of ever being any better. In answer to my convictions of duty to suffering humanity, I have made the above statement of facts in relation to my own wonderful cure, and I believe it permanent, for sufficient time has elapsed for a return; therefore, I feel certain I shall take pleasure in being referred to by any person or persons who may be suffering as I was.

WILLIAM MORGAN, No. 401 Spruce street. I have been severely afficied with dyspepsis and disease of my throat and lungs for more than three years,

disease of my throat and lungs for more than three years, and at times was unable to attend to business. During the whole time, I have suffered from obstinate constipation, and my efforts with medical agents produced no change. I have not neglected to employ the best medical skill in this city, and have attended to their prescriptions faithfully for the past three years, and they had all failed to do me any permanent good. At a time when I had nearly abandoned all hopes of being cured, I was induced to call on Professor Bolles, at 1220 Walnut street, and place myself under his treatment, and in a short time I was perfectly cured. I have seen others who have been cured of most obstinate disease. From what I personally know of Professor B.'s discovery in applying Magnetism, and other modifications of Electricity. I can cheerfully recommend his mode of treatment to all invalids. I have sent some persons there who ment to all invalids. I have sent some persons there who have been cured, and, therefore, I speak from a know ledge of the treatment. OHABLES H. GRIGG, Northwest corner Tenth and Arch. J. B. Ritter, Catarrial Consumption, 338 Richmond Please take notice that Prof. B. does not advertise any riesse take notice that from a does not advertus any certificates of cures, except those cured in this city.

He has established himself for life in this city, and his success in treating the sick is a sufficient guaranty that he claims nothing but scientific facts in his discevery in the use of Electricity as a reliable therapeutic agent.

N. B.—It will be well for the diseased to recollect that

Prof. B. has given a word of caution in his pamphlet, to
guard them against trusting their health in the hands of those in this city claiming to treat diseases scoording to his discovery. This caution may seem severe on those using Electricity at hazard, but it is the severity of truth, and designed for the good of humanity. See advertisement in another column.

Consultation Free.

PROF. C. H. BOLLES, 1220 WALNUT Street, Philads. aul5-tf MARRANT'S

EFFERVESCENT SELTZER APERIENT.
