THE NAVY YARD .- The navy yard presents the same picture of bustling activity that has been witnessed since the commencement of the war. The full complement of laborers, mechanics, &c -- numbering altogether 2,500 men-are busily engaged in the various divisions and subdivisions of labor; an accession of fifty carpenters will probably be made this week.

The vessels at the pard awaiting or receiving repairs include transports, gunboats, and ships of war generally. In the large ship house, the new second-class sloop-ofwar Shenandoah is rapidly approaching completion. She is now being caulked, and will be ready for launching in about three weeks. In the smaller ship house, the side-wheel steamer Taony is being built; her keel having been laid, and a portion of the frame work already out up.

Uson the completion of the Shenandoah it is highly only is being bank, portion of the frame work already out up.

Upon the completion of the Shenandoah it is highly probable that the large ship house will be used for the construction of the iron-clad vessel to be built at this yard. The gunboats "Wiesabickon," and Stripts," having been overbauled and refitted, will sail this morning, the former for Port Royal, S. C., and the latter for Rey West, Fla. The Wiesabickon came to this port from New Orleans, after doing good service on the Mississippi river, and in the taking of New Orleans. In the latter engagement, the vessel escaped serious da-

In the latter engagement, the vessel secaped serious damage on account of its lowness in the water. Four round shot penetrated the side of the vessel, and one went through her mainmast. She is now thoroughly repaired, and again goes forth to conquer. Both of the above vessels were built in Philadelphia. The United States steamer Augusta (used as a transpert) has been lying at the south wharf, where the upper ved a little from her position in order to fac

vorks of the yessel have been overhauled. She was yesterday move a little time her position in order to tactifiate the holsting of her armament ashore, after which she will go upon the dock.

The U. S. steamer Jamestown will probably sail on Faturday next; her small stores being now taken aboard.

Some of her guns were taken out and their p aces sup-Washington'street.
The transport Keyslone State was taken off the dock The transport Keystone State was taken off the dock yesterday morning. The necessary repairs were not extensive, consisting merely in the replacement of portions of her coppering, and the repairing of that part of the keel known as the "shoe."

The gunboat Daylight (16 guns) will probably go on the dock after the Augusta has been repaired. This vessel recently broke her shaft, after leaving New York, and put into this port in distress. She will sail as soon as the highery is remedied. s the injury is remedied.

It is likely that the sloop-of-war Dale, which arrived

at the yard several days ago, will be converted into a sch of ship for the hastruction of sa lors and midshipmen. Such a vessel is considered necessary, and it is intimated the Dale was ordered here for that purpose.

At the main wharf, three corps of workmen are respecifiely at work upon the sloops of war Monougabela, Juniata, and Mohican. These vessels, except the latter, were recently built at this yard, and will sail, for the first time, in two or three wasks. The latter was built at New York, and will be ready for sea during the present veek.
Owing to a recent order issued by the Navy Department, we are prohibited from publishing the various armaments of vessels fitting out for service. This regulation, if strictly adhered to, will prevent the enemy from receiving any definite information in regard to the actual capacity of many of our war vessels.

The following is a complete list of vessels now in

the stream, near the navy yard:
Gunboats—Daylight, Wissabiokon, and Stars and Sloops of war-Junista, Jamestown, Monongshela, Steamers (transports)-Keystone State, Augusta, and for everal weeks, has been purchased by the Government, and will be fitted out as a gunbat. She is an iron-clad vessel. The prize vessel Lodona, which has been at the yard The receiving-ship for newly recruited sailors lies opposite the yard. There are at present about five hundred men aboard, who are regularly instructed in their duties. The crews of the Jamestown and other vessels will be taken from this force during the present week.

Owing to a miserable canald that the gunboat Monitor
would arrive at the yard yesterday, several hundred of the curious visited the place in order to have a sight of the world-renowned vessel. They were disappointed, however, and will doubtless remain so, the Monitor being now at the Washington navy yard, where she will be likely to remain for repairs.

THE NEW TAX LAW .- The following letter has been received by Washington Keith, Esq., assessor of the First district, in reply to several inquiries:

TRHASURY DEPARTMENT,
OFFICE OF INTERNAL BEYENUE, October 3, 1362
SIR: Your letter of the 2d inst has been received and noted.

In reply to your several questions I have to state—

First. That a manufacturer must make monthly returns of the whole amount of his manufactures and sales. Second. That the duties must be assessed upon the whole amount of goods sold or removed from the place of manufacture for consumption or sale.

Third. That no return of goods manufactured previous to and on hand Sept. 1. 1862, is required to be made until the goods or manufactures are sold.

Fourth That "manufactures of liquor and cigars" pay duty upon all the product and sales without reference to amount. ence to amount.

Sections 64th and 65th relate entirely to license tax, and not to duty on manufactures. I have your fifth query under consideration

DISCHARGED EOLDIERS .- The proposiition made by a correspondent in a recent issue of The Press, to form an authorized organization to visit the numerous hospitals in Philadelphia for the purpose of looking after the interests and attending to the wants of discharged soldiers, appears to meet with general favor. dicharged soldiers, appears to meet with general favor.
Many of our sick and wounded who now languish in
hospitals, although ministered to most kindly by stranger
hands, might, through the instrumentality of such an
organization, have their discharge papers promed, and
be helped on the way to end their days at their homes
and among their friends. Such an organization might
also be of great service to many disabled soldiers who
have already received an honerable discharge, and are
now without means, without friends, and far away from
home. Beside these, there are still another class of our
neble soldiery who have, if possible, a yet stronger claim
upon our sympathies, and theselers the self-ascrificing
men who, worn down by fatigue or wasted by disease,
(some of them discharged and others not.) are unable to
ge home, even if they had the means, or perhaps have
neither friends nor homes to go to. we nome, even it they nad the means, or perhaps have neither friends nor homes to go to.

We are gratified to be able to state that until some such organization shall have been effected, and so long afterwards as the institution can be useful to our suffering discharged soldiers, the doors of the Homeopathic Hospital, 1118 Cuthbert street, will be open to receive

them, free of charge.

THE SAME AS USUAL.—The French have long since introduced us to the use of frogs as an estable, and we presume their next innovation will be fried gold-fish or fricaseed tadpoles. There is a sort of flisgree in cookery quite palatable to the lovers of appetizing condiments. Braised breat of lamb is rather good, and fried calves brains are catable. Soups and entries are manageable, and salads and sauces are capable of being "worried down"—in moderation. Even ousters, in the chafing-dish, may be made to answer; and when the worst comes to the worst, fish, oaked or broiled, with piquant sauce and fried potatoes, is better than nothing. So that appetite is up to its mark, one can do without digestion and allow health to take care of itself. A judicious course of morning bitters will soon supply the place of the digestive organs, and a very occasional glass of whisky may be found appropriative. caperative. We make these random remarks as being not unsuited to the hour. In these warlike times, the pleasures of the senses are as much educated and refined sures of the senses are as much educated and refined upon as ever they were in more peaceful periods. Our pleasure-loving stay at homes play their parts with as much gusto as ever, and take their "cue" in the billiard saloon much more readily than in the melo drama of the battle-field. The sailor is unscrupulous as ever in reference to his 'tot of grog,'" and in the soldier we can really find nuthing to forgive when he takes an occasional glass. There is a variety of tastes. The exquisite, who loves his home too much to leave it, also loves champagne, and would much rather pull the cork than pull the trigger. Poets and prose writers, in fact and pull the trigger. Poets and prose writers, in fact and fancy, in the regions of reason and imagination, put out all their strength, and, like bad butter, "suffer and are

sif their strength, and, like pad putter, "samer and accepting."

To the ladies in our midst whose hearts thrill with the put et sympathy, and whose feet and fingers work with the most assiduous devotion, nothing can be said either to detact from their dignity nor to add to it. The tenor of their lives is as pure and unselfish as ever. Circumstances have but called their virtues more prominently into notice, and the love and veneration universally extertained for them are but exponents of the deep conviction which has ever been rife in the bosoms of true men in regard to the exalted pature and position of true

THE CRIMINAL COURT.—The October term of the Criminal Court commenced yesterday morning, Judge Thompson presiding. When the names of the grand jurors were called over it was ascertained that twelve were absent.

Robert Friedlander, who was chosen, asked to be excused on the ground that he is not a naturalized citizen. He was excused.

The petit jurors were now called, and only about one-half answered to their names. About a dozen of these were excused because of sickness, or not being naturalized, or being in the employ of the Government, the He was excused. penel not presenting even a quorum.

Mr Smith, the deputy sheriff, appeared with the wheel to draw slaty names, from which five are to be drawn to serve on the Grand Jury.

The jurors were now discharged until this morning.

As this organization is a secret one, we exampt give the details to the public; but its estensible object is to bind the students of our colleges into a close and indissoluble union—a union which shall benefit all embraced in it, and further the advancement of literature and science. Organizations which shall benefit all embraced in it, and further the advancement of literature and science. Organizations similar to this are quite common in Europe; but the high bonor of introducing this system into the institutions of the United States was reserved for the members of a so-

ciety of a Philadelphia coilege. A BATTALION OF ARTILLERY TO BE A DATTALION OF ARTILLERY TO BE RAISED.—Major Roberts, of the 4th United States Artillery, has, on authority of the Secretary of War, approved by Governor Curtin, selected Penns; Ivania in which to raise a battalion of artillery. Fortress Monroe, where the battalion is to be located permanently, is the great artillery school for officers and men of the regular service, and offers every advantage in the way of practical study to those who are desirous of obtaining a knowledge of the munitions and art of war. knowledge of the munitions and art of war.

JEALOUSY AND ATTEMPTED MURDER. Yesterday morning a man named Matthias Geiger, iving in Third street, above Columbia avenue, instigated by jealousy, attempted to shoot his wife. A NATURAL MISTAKE.—The New York papers do say, although we doubt the truth of the assertion, that Brigadier General Frank B Spinola's shirt collar is so big that it is frequently taken by the enemy for a flag of truce. The same papers call upon him to abate at least three quarters of it. IT IS TO BE HOPED .- The Quincy Herald states that General Prentiss is to be exchanged for Brig. Gen.
Price, son of Sterling Price, and will soon return home.
GOV-JOHNSON'S FAMILY.—Governor Johnson's
family, who were at Greenville, East Tennessee, within
the rebel lines, have been permitted, by order of the rebel
Secretary of War, to return within the National lines. A COLONEL INSANE.—Colonel Judd, of the 106th New York Infantry, now stationed at New Creek, Vir-ginia has been taken to Wheeling, having manifested symptoms of intanity.

The One-Hundred-and-Thirtieth . York, Pa , October 1, 1862. To the Editor of The Press:

Crawford led into action the only regiments of new troops om Pennsylvania, made an error.

It may be true, and I have no doubt whatever of the act that General Crawford led the 124th, 125t

fact that General Crawford led the 124th, 125th, and 128th regiments; but these were not all the new regiments engaged in the battle of Antietam.

The 180th Regiment, commanded by Colonel H. J. Zine, of Camberland county, which is in Acting General Morris' brigade, French's division, also participated in the battle of Antietam, and the loss it austained—198 killed, wounded, and missing—furnishes sufficient evidence of the manner in which it acquitted itself on that memoraph field. MEDICINAL. CONSUMPTION

CONSUMPTIONI

Dr. WISHART'S PINE TREE TAR GORDIAL. WATTER'S GREAT REMEDY FOR ALL DISEASES OF

THE THROAT AND LUNGS. Have you a Cough? Have you Sore Throat? Have you any of the premonitory symptoms of that most fatal

Those who should be warned by these symptoms gene rally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the sad prevalence and fatality of a disease which sweeps to the grave at least one sixth of Death's victims.

What are its symptoms? It usually begins with a short, dry cough, which soon comes habitual, but for some time nothing is raised except a frothy mucus. The breathing is somewhat difficult, and upon slight exercise much hurried. A sense of tightness and oppression at the chest is often felt. As and dejection of spirits; and may continue in this state for a considerable length of time, but is very readily affected by slight exposure or fatigue. If these occur, the ough becomes more troublesome, and is attended with expectoration, which is most copious and free very early n the morning. It is sometimes streaked with blocd. At this stage night-sweats usually set in, and in some ases a profuse bleeding of the lungs may also occur. Pain in some part of the chest is felt, and often a diffionly of lying upon one or the other side, without severe fits of coughing or a sense of fullness or suffocation, is experienced. The pulse becomes full, hard, and frequent. the hectic flush tinges the cheeks, and the dire malady is fast hastening to its close.

Consumption has been and can be cured by the use of my Tar Cordial, even in apparently hopeless cases. This ssertion I make with the ability to present the most omplete evidence of its truth. Space will not admit of my giving the contents of the many thousands of testifrom men and women of unquestionable worth and reputation. I have had a number of these certificates printed in circular form, which I will send you free on application. Whether you now determine to try the medicine or not, send for the circular. After years of study and exeriment, I offer this medicine, believing it to be the best emedy for all pulmonary and bronchial diseases. If on cannot be benefited by the use of the Tar Cordial, I believe you are beyond all earthly aid. Yet if there are petter curative agents, I earnestly advise their use. The best remedies, the best care, are needed by those afflicted with this disease. Because I believe this to be the best, I

Many, not only of the people, but physicians of every chool and practice, are daily asking me, "What is the principle or cause of your great success in the treatment Pulmonary Consumption ?" My answer is this: The invigoration of the digestive organs—the strengthening of the debilitated system—the purification and enrichment of the blood, must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving the pain, subduing inflammation, and restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, continue to act in conjunction with Nature's constant recuperative tendency, and the patient is saved, if he has not too long delayed a resort to the means of cure.

The Pine Tree Tar Cordial will cure Coughs, Sore Throat and Breast, Broachitis, Asthma, Oroup, Hooping Cough, Diptheria, and is also an excellent remedy for liseases of the kidneys, and female amplaints. Sold wholesale and retail at my Medichal Depot, No. 10 North Second Street, Philadelphia, Pa.

A POSITIVE CURE FOR DYSPEPSIA.

THE GREAT AMERICAN

DYSPEPSIA PILL. A Cure warranted for \$1, or the money refunded.

WHAT IS DYSPEPSIA! Dyspepsia has the following symptoms: 1st. A constant pain or uneasiness at the pit of the

tomach, which is caused by a permanent contraction of the stomach upon undigested food. It generally begins mmediately, or a short time after eating; is often very severe and obstinate. 2d. Flatulence and Acidity. These symptoms arise from the indigestion of food, which ferments instead of

8d. Costiveness and Loss of Appetite. These symptoms are the effects of the unnatural condition of food the stomach, and the want of pure bile and gastric juice. The stomach is often painfully distended by wind: the appetite is sometimes voracious. 4th. Gloom and Depression of Spirits.-This state

unfits many for the enjoyment of life, and is caused by the impure blood furnished by imperfect digestion. In this stage of the disease many persons commit suicide. There is a constant foreboding of evil, and an indifference and positive inability to perform the offices of life. 5th. Diarrhaa.—After being at first costive, the suferer is afflicted with diarrhosa, which is owing to a diseased condition of the bowels, produced by the undigested food, which is evacuated in the same condition as

when eaten, and, of course, gives no strength to the 6th. Pains in all parts of the system arise from the action of impure blood upon the nerves. They are felt hiefly in the head, sides, and breast, and in the exremities. In many cases there is an uneasiness in the throat, with a sense of choking or suffocation. The mouth is often clammy, with a bad taste and furred

tongue. 1th. Consumptive Symptoms and Palpitation of the Heart .- Many persons pronounced as having these diseases have, in fact, nothing but Dyspepsia, the lung and heart disease being only symptoms. 8th Cough.—This is a very frequent symptom of Dyspepsia, and leads very often into confirmed consump-

9th. Want of Sleep .- A very distressing symptom, resulting often in mental derangement. 10th. Symptoms of external relation.—Th tient is affected painfully by cold and heat, which is owing to unnatural dryness of skin, and the skin is often affected by eruptions and tetters. The gloomy dyspeptic avoids society as much as possible. 11th. Vomiting.—A frequent and distressing symptom. It relieves the pain, but emaciates and wears out the

patient. 12th. Dizziness, dimness of vision, headache, and staggering in walking. These are very alarming symptoms, which are speedily removed by our medicine, but if neglected, are quickly followed by numbness and sudden death. 13th. It is impossible for us to give all the symptoms of Dyspepsia in so small a space, but the above are considered sufficient—if we add that the patient loses his

memory and attention to surrounding objects, and frequently becomes morose and sour in disposition. We should say, however, that pains in the joints and stiffness of the limbs, which go by the name of rheumatism and neuralgia, are very often produced by Dyspepsia. Also, a hardness of the muscles of the abdomen, which become contracted and hard; and in some cases the belly sinks, instead of being gently prominent. Mar In cases of general debility, use WISHART'S PINE TREE TAR COBDIAL with the PILL. N. B.—All orders promptly attended to on receipt of the money. Price One Dollar per Box.

MEDICINAL. COMMUNICATED. [Extract from a letter on the Battle field.]

\* \* \* \* \*

This battle (Antietam) has been the most sangulary of the war, and the only one fought with design and upon military principles. The arrangement of our corps -the overlooking position of the Commanding General -the sending into action the right and the left-the closing up of the centre and final success-excites bewildering admiration, and carries the mind to the great fields of Austerlitz and Wagram, fought by Napoleon Of all this have I spoken. The heart-history of such conflict, purchased by the life and blood of twenty thousand men, must be found in the hospitals. War has its glories—but it has its ten thousand demons in these human torfures, that make the evehalls scho the heart bleed—the lips palsy—and the brain reel. The sight is at first positively unendurable. The life-blood of some is still trickling away in silent calmness, while the dissevered limbs and maniac brain of others give rise to sounds God grant I may not again witness.

But, ye mothers who now seek a son-or wife a hu band-or sister a brother-or sons a father-know and be consoled that even here the hand of mercy is watchful, and better care is bestowed upon your loved one than might at first seem possible. It was in the hespital where rested the gallant Hooker that I learned the his: tory of those mythical words so often seen and so little understood, "S T .- 1860-X." Anything alleviating the sufferings and saving the lives of our soldiers is a national blessing. I witnessed some astonishing results from this article. It is well known the effect of burnt gunpowder and excitement is thirst, which, added to the loss of blood in the wounded, creates the necessity of a reviving stimulant.

In this particular hospital, the physicians were allowing their patients to drink Plantation Bitters, otherwise called S. T.-1860-X, and although the wounded are most numerous here—this division having opened thfight at 5 in the morning—the men were mostly composed, and there was but very little fainting. The article acts upon the stomach and nerves in a most incomprehensible manner, superior to brandy, and without subsequ nt stupefying reaction. It originated in the West Indies, containing callsaye bark, winter green, lavender, anise, clove buds, orange, snake root, &c., preserved in St. Oroix Rum—the S. T.—1880—X being a secret ingredient, not yet revealed to the public. It is principally recommended for want of appetite, disordered liver, intermittent fevers, stomachic difficulties, &c. understand it was somewhat known in the Southern States previous to the war, and it appears an agent of Jefferson Davis recently applied to the proprietors for the privilege to make it for hospital purposes during the war, to which they made the following reply: NEW YORK, Jan. 16th, 1862.

Mr.——Agent of, etc.:

Dear Sir: In reply to yeur communication, offering us "Fifty thousand dollars for the recipe and right to make the Plantation Bitters for hospital purposes during the war," we beg to say your price is a liberal one, considering it would cost us nothing to comply, and that otherwise we can derive no revenue from the Southern States; but, sir, our duties to our Government and our ideas of consistency, would not allow us to entertain it, although it night please us to assuage the sufferings of your misguided followers.

We remain,

We remain.

These gentlemen give the history of certain ingredients nenials to its value, which I have been and am receiving of their article for over two hundred years—showing that through all changes of the medical profession and its practitioners, strength, composure, and cheerfulness have been derived from these sources. Dr. Woods, in the Washington Hospitals, informed me that he had been unable to produce an hour's sleep in one patient for nearly two weeks, and he was fast sinking and crazy, until the Plantation Bitters came to his knowledge, when one day's trial gave him a night's rest, and he was now fast recovering. I am surprised our Government has not equalled Jefferson Davis in energy, and adopted this invaluable article in all our hospitals. As a lay member, I can bear witness it is "good to take," and affords more energy and life than anything I ever tried. Success to the Plantation Bitters !--But I have digressed. In my next I shall speak of

application of Galvanism, Magnetism, and Electricity, as a
therapeutic agent, on over four thousand invalids, most
of whom had been pronounced incurable by the most
eminent medical men in this and other cities, but afterwards were cured with a few applications of Electricity
by Professor Bolles. TWO MORE OBSTINATE CASES CURED.

About five years ago, my general health began to fail, About five years ago, my general health began to fall, although at first I did not feel much alarmed, but my sufferings at times were severe. I gradually became emaciated, and at times nearly lost my appetite, and what I ate produced great distress, and the physicians who treated me did not seem to understand my disease from pathological symptoms. At times, I had great difficulty of brea hing; some palpitation of the heart; often great trembling of the limbs; great aversion to business and to company. At times, very gloomy; great inability to collect my thoughts vigoreusly on any subject; loss of memory at times; suffered much from lumbago, swimming of the head; suffered much from apprehensions of insanity, as my physicians told me that I had symptoms of fits. However, after trying the old-school remedies for meny years, and being informed that I could not be cured, I was induced, by reading several certificates in cured, I was induced, by reading several certificates in The Press and other papers, to converse with the persons cured, and after I had received good evidence from investigations of this kind, I immediately applied to Professor Bolles, 1220 Walnut street Professor B. leading to the professor B. leading to t Professor Bolles, 1220 Walnut street Professor B. located my disease in the pelvic visera in thirty minutes after I entered his office. He frankly informed me that he could cure me of all my difficulties in ten days, and I am willing to acknowledge that I was perfectly cured in seven treatments of about ten minutes each; and to me this is most astonishing, for I had abandoned nearly all hopes of ever being any better. In answer to my convictions of duty to suffering humanity, I have made the above statement of facts in relation to my own wonderful cure, and I believe it permanent, for sufficient time has eigned for a return; therefore, I feel certain I shall take pleasure in being referred to by any person or persons who may be suffering with the contract of the suffering with the latest program of the suffering with the suffering with the latest person of the suffering with the suffering with

PHILADELPHIA, Sept. 18, 1862.

I have been severely afflicted with dyspepsia and disease of my throat and lungs for more than three years, and at times was unable to attend to business. During the whole time, I have suffered from obstinate constitute whole time, I have suffered from obstinate constitute whole time, I have not neglected to employ the best medical exill in this city, and have attended to their prescriptions faithfully for the past three years, and they had all falled to do me any permanent good. At a time when I had nearly abandoned all hopes of being cured, I was induced to call on Professor Bolles, at 1220 Waluut street, and place myself under his treatment, and in a short time I was perfectly cured. I have seen others who have been cured of most obstinate disease. From what I personally know of Professor B's discovery in applying Magnetism, and other modifications of Ricc. what I personally know of Professor B.'s discovery in applying Magnetism, and other modifications of Electricity. I can cheerfully recommend his mode of treatment to all invalids. I have sent some persons there who have been cured, and, therefore, I speak from a knowledge of the treatment. OHABLES H. GRIGG,
