## THE CITY.

THE ELECTION To DAY .- The ballot of to-day is one of the most important, perhaps the most tu:portert, in the political annals of America, in the election al crase of the United States. The suffrages of all true Perneylvanians, and above all of all true Philadelrbias s, will tell most amazingly upon our future prospects. Union or Disunion is now the question, the old Federal Constitution, or the new Confederate one, is now the point at issue The panoply of war has not yet settled this vexed question, though it has made great advances, and the army of voters will now give the finishing touch to the subject of dispute. The Brecktnridge Democracy has already used its utmost efforts, the arts of baseness and the wiles of perfidy, to carry the day. The frauduleut assessments which have been defected by District Attorney Mann haveonly, through this gentlemen's vigilance, served to make the persetrators answersale in the Original Court, with the usual amount of bail. Alieus, who have hit serto bren in no hurry to give protection to the country, with whatever satisfaction they may have contemplated it from her, now are anxious for their naturalization papers, and not a little exercised on the rights of clitzenship. However, one good result will ensure—more men will be liable to draft, and more men will be willing to respind the germ, the first and faintest principles of Seces ion observable, in some "aliets," will essentially be neutralized by the speciacle of these, their brothers, taking up arms in the will now give the finishing touch to the subject of dissome "allets," will essentiatly no neutrouver of the speciacle of these, their brothers, taking up arms in the common cause of true and uniquesal liberty, and the latent disaffection of "rentrals" will be either more completely developed, or more thoroughly crushed. Run or reports that domestic Secesions have been wife awake, and it has even been said that they have promoved the late raid by various means, so that a new call of the Governor, responded to by the loy al, would leave the voting population open to political chicanery. The excitement thus produced in certain classes is precisely what was to be expected, and is noticeable both for its depth and variets of manifestation. One thing, however, is certain—the people generally are determined that mone but loyal citizens shall receive Offices. Every true and loyal citizens by his support of the Union ticket, will evidence his truth and loyalty, and to the last manifest the faith in which he has been nurtured; in which he will be glad to die. That Pennsylvania is true there is not the shadow of a doubt. Upon the Pennsylvania. selvania Federalists Philadelphia shines tike the ann sylvabla redefailsts Philadelphia ablines like the sun, and the ciautionists which here and there spot her dispareless than the motes which live in the light of the flashing orb of day. Should the myrmidous of Breckin-ridge accomplish their purpose, we may feel assured that it will be done only by fraud The chicanery of party has never been so malignant as at present; the interils suss of cliques never so subtle and active. Noble-minded Democrat—those where souls are pure of conspiracy, and whose heart are undefiled by the fellowship of treason are the supporters of the Administration. Men of Southern tastes, fancies, and feelings uphold the Breckinridge party, and breathed effance to every principle and precedent of honor and religion. It is the duty of each to take his stud, to define his position, to declare for the Union, to raily the faint hearted, and baffle the foe. The fair fight between Union and Distution is at hand. Very areat precautions will be used to prevent fraud at the poils, and the committees appointed to ferrot out any underhanded work, will, as sure as it is comout any under under wars, with a cutter to punish-ment. There are certain rights attaching to the public, and these the public will at all all times fight for and postess. There are certain privileges belonging to the community, which, at every hazard the community will cleim, and no wit eloquence, or genius can persuade us that Philadelphia will not both demand and obtain these

BOARD OF SCHOOL CONTROLLERS. - A stated meeting of this Board was held yesterday after-Communications were received as fellows: Communications were received as f. llows:

Second Section.—The following appointments and
changes were announced: Sallie H. Bryan, promoted to
fill vacancy as principal of Raudolph Primary School;
Kate A. Weeks, promoted to assistant in the Raudolph
Grammar School; Sarah S. Strubel, appointed second
assistant in Raudolph Primary; and Mary A. Larney, as
Principal of Tyndal Primary.

Fifth Section.—Asking authority to make two new
divisions in Primary No. 1.

Righth Section.—Appropriate the election of the foldivisions in Primary No. 1.

This was referred to Councils. Twenty-third Section.—The following appointments wro announced: Sidney G. Anderson, second assistant in Decatur Primary; Anna L. Byram, second assistant in Wright's Primary; Charles A. Singer, principal of Fayette Grammar School; Thos Gentry, principal of Montgomery Unclassified School. Twenty fifth Section.—Asking that the grade of the Harrison Primary School be changed to an nuclassified in parting to the teen school. Also, asking for a new division in Tyndall Manad sublime religion. ferred, and the election of teachers in the sections Bills smounting to \$18 607.49 were read and ordered dr. Freeborn, of the High School Committee submit-Mr. Freeborn, of the High School Committee submitted a report of the examination of candidates for the professor; hip of drawing and writing in the Centra. High School. The examination in drawing was conducted by Prof. Becker, of Girard College; Prof. Frank. of the Poly technic College; Dr. Chas. M. Cresson, and Messys. Rotherwell and Sartain; that in writing by Prof. Becker and Mr. Moore, of Critrender's lollege. The report states that the results were not so decided as from the character of the questions it was reasonable to expect. The committee recommend the election of J. seph Besle as professor of trawing and writing in the Central High School.

The Committee on Grammar, Secondary, and Primary Schools submitted resolutions that the Directors of the Fritteenth rection be authorized to open a girls' secondary school, of four divisions, in the new school house corner

Coates and Twentieth streets; also, that a primary school, of three divisions, be created in the Second section; also, that the Directors of the Nineteenth section be authorized to establish a new primary school whenever a suitable building can be obtained. The report was approved

A resolution to pay \$100 for expenses incurred in the investigation into certain charges against Professors Girard and Vogdes, was ordered to be sent to Councils.

A resolution was submitted that an order be drawn in favor of Jacob Rush for \$140, being for new floor and removing and retlacing deaks in the Monroe Scondary.

School, in the Fourteenth section. School, in the Fourieenth section.

Mr. Fletcher, president, took the floor, and strenucusly opposed the payment of the bill, on the ground that the work had not been properly done.

Mr. Sitting said that the work was not only well done, but that the beautiful descriptions. but that the charge was as low as could possibly be ex-

pected.

Mr. Fletcher said that he did not oppose the bill on any personal ground. If the bill were fair, he would have it paid, if the man who presents it were his most have it paid, if the man who presents it were his most inveterate elemy.

Mr. Leech replied, saying that he did not come here to speak of the merits of school teachers, though he was determined to have the bonest bills of meritorious workmen siways paid; neither would he speak of the merits of females, or anything else

Mr. Fletcher, excitedly: The man who says that I ever used such languages is a list before the Roard. ever used such language is a liar before the Bo Mr. Leech said that he cared nothing about the passion of his fellow member, so it might as well subside.
Mr. Potter said that he thought Mr. Leech did not be-Finally, the resolution was referred back to the Committee on Property. ittee on Property. A resolution was adopted authorizing the Committee Property to advertise for plaus and proposals for the section of a two story school house on a lot at Twentieth and Catharine streets.

Mr. Mosset offered a resolution that no teacher be-

elected hereafter who is not a graduate of the Girly High Schorl, or is not possessed of a recommendation from the Comffittee on Qualifications of Teachers of the Board of Control Referred.

The Board then adjourned. A LETTER FROM GENERAL SIGEL .-The following letter has been received from Gen. Sigel by the chairman of the Committee for Promoting Enlist. To the Chairman of the Committee for Promoting Enlistments, &c: Dean Friend: Your communication, enclosing the resolutions adopted at the meeting held on the 30th of Reptember, has been received. I cordially thank the committee and the Germans of Philadelphia for the sympathy they evince on my behalf, and for the onergy with which they are ready to support me. Not being actuated by personal interest, but by the interest and the welfare of the people, I cannot see how the publication of your resolutions could do any harm. What is the army without the people? A mere machine, without power and without life. In this hour of trial and danger the and without life. In this hour of trial and danger the sympathy of the peeple is our best support, and the compensation for the burdens and hardships in the train of this war. The confidence in the power of the tree North ler ds us strength and perseverance, and urges the army to renewed exertion. Whether the individual rises or falls in this gigantic struggle is of little importance. I am sorry that the same principles for the defecce of which I cuttered the carrier way remembers are attacked. estered the service may perhaps compel me to withdraw from it; for no one shall say of me that I raised troops in my name and tuen did not look after them. It is my duty, at least, to maintain obligations as long as I have the power to do so, and not slied to submit to measures which I do not done institled. hich I do not deem justified.

I have not resigned, and I hope the Government will just enough to save me from this last step; but I have be just enough to save me from this last strp; but I have asked to be relieved from my present command, and to be placed in a position wherein I can make myself useful, if my well founded and, as I believe, necessary complaints cannot find redress These complaints have, in some way, reached the public and are known to you—you may judge of them yourself.

It is evident, therefore, that it is neither in my nor in the public interest that respublic should seem and

the public interest that recruiting should cease, and I pray you to do all you possibly can to fill up our old regimen's.

Your faithful (riend, F. SIGEL, Major General. THE INQUEST .- Yesterday morning, the Coroner held an inquest on the bodies of Annie O'Brien, aged 5 years, and Kate O'Brien, aged 2 years, who died suddenly, as it was supposed, from eating poison. The father of the children belongs to the 39th Beginnent P. V., and the mother reside back of 503 North Twenty fourth street, near Spring Garden In addition to the above named children, she has two boys. William. to the above named children, and has two boys. Whilam, eged nine years, and, John, aged seven It seems that about daylight on Baturday morning, Mrs. O'Brien was aroused from her sleep by her children, who were in convulsions. Boon after, procuring a light, she discovered that the youngest child, Kate, aged two years, was dead, and the others were very iii. One child, the eldest boy, may relieved, and was soon able to run about and the others were very iii. One child, the eldest boy, was relieved, and was seen able to run about.

At first the mother attributed the illness to inhaling gas. She had ratired to bed at eight o'clock in the avening, leaving a fire of coke, in a gas oven, in the same room. Thep hysician, however, pronounced the symptoms to have been produced by poison. Annie lingered until Sunday evening, at six o'clock, when she died. The others will recover. In the case of all the children the vomiting was very free. On Saturday the family had partaken of mutton soup, and the children had, in addition, sten raw tomatoes and green walnuts.

An inquest was commenced on Sunday, but was postpored until yes enday morning, when it was resumed. Dr. Updegrove, who had made a post mortem examination, testified that he was unable to discover any evidence of poison in the stomach, ard attributed the cause of death to the inhalation of coal gas. There was not a sufficient quantity in the room to affect Mrs. O'Brien, and the liliness of the other children was not as violent as the two little girls who died. The coroner's jury rendered a verdict of death from suffocation caused by inhaling coal gas

THE FIRST CONGRESSIONAL DISTRICT -WITHDBAWAL OF MR. MORAN.-William Moran, E.q., of the First Congressional district, in a com-

ran, Eq., of the First Congressional district, in a communication, says:

"At the solicitation of a large number of the members of the National Union Party, of the First Congressional district, I. on the 27th ult., accepted their nomination as a candidate for Congress.

"The enemies of the Administration and of our glorious Union are united in their efforts to prevent the election of a friend of the Government from this district. In ordinary times I should not deem it my duty to interpose any obstacle to a free expression of personal preference on the part of the citizens of the district, but at this time when the warm statement in the constraints. ference on the part of the citizens of the district, but at this time, when the very existence of the country itself is in peril, the friends of the country must not, dare not, be divided.

'I cannot, in view of the plain necessities of patriotic duty, suffer any perional appiration on my part for one moment to interfere with a thorough and united organization of all the friends of the Government in his, its hour of peril. And I, therefore, respectfully withdraw my name as a candidate. In doing so, I take this opportunity of expressing to the political gentlemen of my own party, who have so nobly sustained me my heartifeit acknowledgments, feeling that they cannot but approve a course actuated solely from convictions of public duty."

MASS MEETING IN THE FIRST CON-MASS MEETING IN THE SHEST CONGRESSIONAL DISTRICT.—Last night a very large and enthusiastic gathering of the friends of the Administration was held in Jefferson avenue, near Washington street. Major John W. Byau presided. A stirring speech was delivered by Hon Henry D. Moore.

Mr. William Moran was next introduced and made a somewhat lengthy speech, in which he explained the reasons which induced him to withdraw from the contest in the First-Congressional district, in favor of Mc. Welb. He then proceeded to show the causelessness of the rebellion. At the time of its breaking out the Southern peliticians could have controlled legislation in their favor. He proved that Mr. Lincoln could not have it fringed upon the rights of the South, because of have is fringed upon the rights of the South, because of the manner in which the Congressional committees were appointed. Jeff Davis was chairman of the Committee on Military Affairs, without whose consust no progress could be made in the army. Mr. Mallors, as chairman of the Naval Committee, could have prevented any supplies to the navy; and so in all the other committees. Mr. Moran amounced his unflinching support of the National Union nominees, and was throughout greatly

applauded.

Mr. Wm. B. Mann followed in a spirited speech. He Mr. Wm. B. Mann followed in a spirited speech. He said that he had often received the approbation of his fellow citizen, and if defeated at this elec ion he would still be thankful for the many favors he had already received at their hands. He did not intend to abuse any portion of his fellow citizens, he came to address his Union-loving friends whom he believed would do their duty now. He had missed the familiar faces of many of his friends. It had often been asked "where were the Wide Awakes" Some say they are a leep. Yes, they are asleep. They sleep beneath the swamps of the Obickabeniny, and many of them hencalt the adds of Victoria. heminy, and mary of them beneath the sods of Virginia. I et they do not sleep alone. They rest side by side with ltyal. Democrate—Democrate who loved their country and their country's flag. We who live after them should avenge their murder. We are determined that the authors of their deaths shall be punished. The traitors may for a time succeed. But their success is only temporary. Though periods of depression may arise, the end will all be right Our glorious flag will soon be flaunted over every foot of Scuthern soil. Our cminy, and many of them beneath the sods of Virginia. arise, the end will all be right Our glorious flag will soon be flaunted over every foot of Scuthern soil. Our New Ironsides will soon place over Sumoter the glorious stars and stripes, and if that rebellious city of Charleston thould offer reistance, let every house be razed to the ground, and the city be put in asher. [Applause] Unless this rebellion is crushed, our history will be a living disgrace to ourselves and our children. Every consideration of nationality and honor impels us to put down this rebellion, even though it take every man and every dollar to put it down. Jeff Davis may attempt to divide this land, but be cannot succeed. The people will be one people, and so long as the lat of remains we will be one people, Now, will you send a man to Congress who will do all in his nower to embariasy the President in his honest effects to put down the rebellion? or will you vote for Mr. Webb, who is ready to strike every blow he can for the nation and the Administration. Mr. Hann did not desire to slander the Democratic party. There were many loyal men in that party. There are hundreds of them who are loyal at heart, but who resist fir. Lincoln because he is running the machine. They argue like the boy, who, because he did not get the horn, refused to run with the machine to the fire With a Denceratic President, however, there would have been no opposition to the war, in the North If Mr. Bandall is eleated, he will certainly act with Vallandish un, and Ben Wood. [A volce... How about Mr. Hughes?"]

opposition to the war, in the North If Mr. Randall is elected, he will certainly act with Vallandish mn. and Ben Wood. [A voice—"How about Mr. Hughes?"] Mr. Hughes is pretty well used up. If his Democratic frierds will read his letters, they will have sufficient evidence of their treasen. The robel raid in Pennsylvania is part of Mr. Hughes? plan to carry the election. ['That's so!"] The cry of the Democratic party, that the Republicans form a "nigger" party, is a base false-bood. The Euch is the natural home of the negro. The negroes of the North only live here because here alone they are allowed to breath freedom. Give those negroes freedom at the South, and they will stay there. Besides, the blacks are a degraded people here. They are denied every privilege here. They cannot get employment here. Humanity and lenderners seem to be geing backward with respect to the colored race. They are kicked about in a most inhuman manner. All experience shows that negroes have no home in the North, for nubile sentiment is against them. Mr. Lincoln is the first President of the United States who ever took a correct view of this matter. He told a delegation of the Africans that the citizens of this country were indisposed to tolerate their existence in this country were indisposed to tolerate their existence in this country for a long period of time. This cry about millions of negroes coming North to supply the places of free white laborers is entirely an appeal to the prejudices of the laboring men. The workingmen should understand this matter. They should vote for only truly loyal men—nen who will stand by the Union. Seed no man to Congress or the Legislature who is not for the Union ticket. The Union ticket will carry this city by a majority of thousands. The decision of the people has already been made, and they are determined that the rebels and their sympathizers shall equally suffer defeat.

equally suffer defeat. equally suffer deteat.

Other speeches were delivered, and the meeting adjourned at a late hour will much enthusiasm. ANNUAL MEETING OF THE PENNSYL-ANNUAL MEETING OF THE PENNSYLVANIA COLUNIZATION SOCIETY.—The thirty-sixth
annual meeting of the Pennsylvania Colonization Society was held yesterday afternoon. This Society was
instituted in Philadelphia, October 23, 1826, and incorported January 6th, 1830. The cause which it endeavors
to promote is one emphatically interesting to our own
country, and fraught with blessings to another. Liberia
exhibits an importance and promise equal to the predictions of its disin erested friends. It opens before every
free man of color a field for honorable enterprise, politicel privileges, and social enjoyments. It offers to the
American statesman a fessible method of sacuring permanent prosperity to our land, and to the Christian of
inparting to the teeming millions of Africa his perfect
and sublime religion. At the meeting yesterday, Rev. W. W. Spear was called to the chair. The minutes of the last annual meeting were rerd and approved.

Mr. William Coppinger submitted the annual report of the Society, from which we make the following extracts: "Advices of an encouraging character continue to proceed from the Liberian Bepublic. Prosperity attends all interests. Peace has prevailed. Agriculture is meeting with preasily increased attention. It is posquilarly irg with greatly increased attention. It is peculiarly gratifying to be assured that the beneficence and humanity extended to the four thousand five hundred native. Africaus taken by our Government cruisers from slavers, and landed in that thriving State, between August 26, 1860, and May 8, 1861, a period of less than nine months, have been worthily bestowed, and that they are daily advancing in knowledge, virtue, and the more ennobling usages of Ohristan life. We trust that no change will be made in the disposition of recaptured Africans, but that the policy inaugurated by Monree will be faithfully adtent to their native Contract to their native Contract. only the vacancy creation. The committee that the choice for the position by Mary Karlyan, average 85 03, and Kare M Dean, average 81 06—these being the highest among twenty examined.

The report was accepted, and Miss Durantee.

The committee that the choice for the position by the choice of the position by the confined to Miss Blary E. Durantet, average 93 48; Mary Karlyan, average 85 03, and Kare M Dean, average 81 06—these being the highest among twenty examined.

The report was accepted, and Miss Durantee that the shipment of six res from the western regions of Africa have been much reduced of the owner that the shipment of six res from the western regions of Africa have been much reduced of the owner that the shipment of six res from the western regions of Africa have been much reduced of the owner that the shipment of six res from the western regions of Africa have been much reduced of the owner that the shipment of six res from the western regions of Africa have been much reduced of the owner that the shipment of six res from the western regions of Africa have been much reduced of the owner that the choice for the position by the owner that the shipment of six res from the western regions of Africa have been much reduced of the owner that the choice for the position by the owner that the shipment of six res from the western regions of Africa have been much reduced of the owner that the shipment of six results from the western regions of Africa have been much reduced of the owner that the shipment of six results from the control of the new treaty between regions of Africa have been much reduced of the new treaty between regions of Africa have been much reduced of the new treaty between regions of Africa have been much reduced of the new treaty between regions of Africa have been much reduced of the new treaty between regions of Africa have been much reduc suspected craft, in certain localities, by the man search of of each nation. Before many months, we true, too and search of each nation. Before many months, we true, too war gencies of affairs at home will allow our authorities we called the squadron in that quarter, and substitute steamers for sailing vessels. It may not be too much to express the further hope that ere long the Government of Great Britain may, with our own, units in another measure to put an end to this execrable traffic, and that is to demand that the only Government that you are not seen to the converted to measure to put an end to this execrable traffic, and that is to demand that the only Government that now admits of its being carried for within its limits, shall cease to encourage or allow it Settlements of civilized colored mrn, coattered along the African seaboard, are the most effectual barriers in the prosecution of this high crime against humanity. Liberia has swept this territole evil from high seven hundred miles of the coast—her own territory—and in this regard is worthy of the cest wishes, active as mpathy, and liberal support of Ohristondom.
Considering the supployment of our navy in the area.

active si mpathy, and liberal support of Ohristondom.

Considering the employment of our navy in the promotion of valuable public interests, or enlarging the boundaries of science, what more noble and important mission could be prosecuted by our Givernment than an exploration of the interior of Western Africa—that large tract of country lying east of the Republic of Liberia? The preliminary investigations have been made.

The channels of commerce which might thus be opened would, doubtless, prove an ample componention. England has thus long sought employment for her ships, work for her people, and a market for her manufactures. Her appropriation for the exploration of the Niger, during the rears 1861–62, was £7,000 or \$35,000. And her efforts have met, and are meeting, with marked sucher efforts have met, and are meeting, with marked suc-cess. Her importations from Western Africa, for the first six months of the last and the present year, as officially published, are as follows, in American currency: 1861. 1862. | 1861. | 1862. | 1862. | 1863. | 1864. | 1865. | 1865. | 1865. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866. | 1866 This return exhibits also a surprising growth of the products of this region of West Africa, and their absorption by sagacious people. The trade is admitted to be very lumative.
Since the Declaration of Independence by the Republic Since the Declaration of Independence by the Republic of Liberia, July 26, 1847. African colonizationists generally have been desirous that it might be formally welcomed into the family of nations by the Government of the United States. Applications to this end have been made to every subsequent Administration, and the labors of influential men sought in all parts of the land. During the past winter and spring this Board again memoration the state with the state winter and spring this Board again memoration the state with the state winter and spring this Board again memoration the state with the state winter and spring this Board again memorates.

of influential men sought in all parts of the land. During the past winter and spring this Board again memorialized Congress, and readily obtained the signature of several hundred of the prominent and honored citizens of Philadelphia to a petition invoking the prompt consummation of this measure. These were forwarded and presented by Representatives and Senators; and we have reason to say, produced a good effect.

A bill having this object in view was reported by the Senate Committee on Foreign Belations, and passed in that body by a vote of thirty-two yeas to seven nays. It subsequently met with the approbation of the House of Representatives, by a vote of eighty-six yeas to thirty-seven and any and received the signature of the President seven pays, and received the signature of the President June 5, 1862 A diplomatic representative, Abraham Henson, Esq. has proceeded to Monrovia, via England. The Government of the United States, therefore, ranks as the twelfth Power of the world that has acknowledged Liberian independence, and joined in the elevation of the American colored race to the dignity of nationality. An election for officers to serve during the ensuing year was then made, as follows: President, John P. Orczier; recording secretary, Bobert B. Davidson; treasurer, William Coppinger A large number of vice presurents and messengers were also chosen, after which the body adjourned.

THE DRAFT.—President Allen and Mr. Gerhard, Draft Commissioners, have returned from Washington, whither they had gone the child correct in-formation as to the number of volunteers furnished by Philadelphia. This action was rendered necessary, in consequence of flagrant discrepancies between the re-turned of the Whited States departs were the conturns of the United States deputy marshals on the and ict, and the report of the Council committee, which was based upon records in the office of Col. Buft. It is understood that a draft is inevitable in this city, though the commissioners have determined to divulge nothing upon the subject until after the election.

STABBING AFFAIR.—Yesterday afternoon James Smith had a hearing before Alderman Bailer noon James Smith had a hearing before Alderman Bailer upon the charge of having infileted a serious wound with a knife on the person of a young man named Kelly. The affair occurred on Sunday morning, at the corner of Pennsylvanis avenue and Coates street. Kelly with several others had been playing bayatelle, when Smith entered and invited the former to take a drink, which be did. The two then went out logether, when a quarrel ensued and the stabbling occurred. Kelly was conveyed to his residence, on Osprey street, near Biddle, where he still lies in a critical condition. He is wounded in the right side, above the hip Smith was committed, bail being refused, to await the result of the injuries.

DEFACED POSTAGE STAMPS.—In a circular letter to the postmasters, calling attention to the order against allowing defaced stamps to pass through the mails, the Assistant Postmaster General says: "Please cause most careful examination to be made of letters decause most careful examination to be made of letters deposited in your office, and send me specially all suspected
cases, so that the writers may be discovered; or, if in
any case you have means to know the writer, without
having the letter opened here, you will proceed at once
to a proper investigation. The Posimaster General is
anxious to make some public examples under this law, if
violations occur as apprehended, strong temptation being
offered by the extensive use of ordinary postage stamps
as contrants.

To BE ENROLLED.—We learn that the marshal has made arrangements to have his deputies at all the election polls to day, to take the names of all persons voting, or attempting to vote, who are not en-persons voting, or attempting to vote, who are not en-rolled as liable to the draft. It is requested that the officers of election and other citizens in attendance re-port the names to the commissioners in their respective districts. According to this arrangement the number of those liable to be drafted will be greatly increased.)

DEATHS AT THE ARMY HOSPITALS .-The following were the deaths reported at the army hospitals yesterday:
Filbert Street.—Samuel Altman, A, 50th Georgia,
Fifth Street.—Cyrus L. White, K, 31 Vermont
West Philadelphia —James Moody, F, U. S. In-

THE HOWARD HOSPITAL .- The following is a report of the cases registered at the hospital 1518 and 1520 Lumbard street, for September, 1862: umber registered since March 1st, 1862......3,293 during September.....

Stokes, Eq., of Streudsburg, to the firm of Wilson, Anderson, & Cernea.

THE COURTS. - The Criminal Court was not in session yesterday The Court of Niei Frius and the United States District Court were both in session, but transacted no important business. man named Joseph White, bailing from Smyrna, Delaware, was committed upon the charge of larceny.

FINANCIAL AND COMMERCIAL. THE MONEY MARKET.

PHILADELPHIA, Oct. 13, 1862.
There was very little excitement in money or stock oircles to day. The extravagant rumors concerning the invasion of Pennsylvania, received about noon, were generally looked upon as emanating from a bogus office, and but little attention was paid to them, save only to ounce the motives of those coining them Gold opened at 128, and advanced to 129 before the close, at which figure it was rather firm at 3 o'clock. For old demants 124 was freely paid; 124% in some tustances. One year certificates were held at 99% opar; other Governments were firmly held, but without much movement. Money is still very p'enty on the street, the late heavy investments in stocks having caused no perceptible decline in

The Stock market was pretty firm, and a rise in some securities took place which was confined chiefly to the steady interest paying concerns. The fancies were without change, but little being done in them Governments were very stiff; sales of seven-thirties were male 105 %. For the sixes 103% was bid. State five sold a 94%, same as bid on Saturday. The coupon fives at 98, the coupon sixes at 107%, an advance of %. New city sixes were firm at 104 V. Sunbury and Erie sevens sold at 103, no change. Schuylkill Navigation sixes, 1882, rose %. Reading sixes, 1870, more steady at 101%; 1886s rose 1. Pennsylvania Bailcoad 1st mortgage bonds rose 1, 2d do 1. Eimira sevens rose 1. North Pennsylvania Bailrosd sixes rose 1; tens were firm. For

Morris Canal preferred 125 was bid. Schuylkill Navigation common and preferred closed at Saturday's prices Lebigh Navigation scrip rose & Reading shares were somewhat firmer, opening at 37 %, declining %, and closing at 37% firm. Pennsylvania Railroad sold up to 54%, continuing firm. Minehill was steady at 47%. Long Island at 22, both without change. Norristown sold at 51 % o 51 %, the latter an advance of %. Catawissa was firm, the preferred rose &. Spruce and Pine-street Pasgenger Reilway rose &. Chestnut and Walnut advanced 1. with sales. Thirteenth and Fifteenth rose %. Archstreet declined &. Bace and Vine rose &. About 3.490

EDUCATIONAL. MEDICINAL. COMMUNICATED. DROFESSOR HIRAM CORSON'S [Extract from a letter on the Battle field.]

PROFESSOR HIRAM GORSON'S

SECOND ANNUAL GUURSE OF STUDIES IN
ENGLISH POETRY, LITERARY ART, AND ORITIOISM—PROF HIRAM GORSON will commence
on TUESDAY, October 14th 1862, at Leypold's Foreign
Reading Booms, No 1823 ORE ITNUT street, his Secand Annual Course of Lectures on Literature and Art.
The Course will embrace a general review of English
Literature, from Chaucer to the present time, and the
leading and representative authors of each ported will be
separately treated. Of the Poetry of the Nineteenth
Century, that of Byron, Shelley, Wordsworth, Coleridge,
Tennyson, and the Brownings, will receive special attention. The following Lectures wil be distributed through
the Course: 

oc8-wthstu4t THE WEST CHESTER ACADEMY AND MILITARY INSTITUTE, AT WEST CHESTER, PENNSYLVANIA, will commence the winter term of five calendar months on the 1st of November next. The course of instruction is thorough and extensive, designed and arranged to prepare boys and young men for business or college. The Principal, who devotes all his time to the interests of his school and its pupils, is assisted by eight gentlemen of ability and experience. The German, French, and Spanish languages are taught by native resident teachers, an advantage which will be readily appreciated by the patrons of the Institution. tion.

The Military Department is under the charge of Major G. Eckendorff, of Philadelphia, whose qualifications for the position are extensively known. Its duties and requirements do not, in any way, interfere with the Lite-

quirements do not, in any way, interfere with the cadet corps rary departments, while enrollment among the cadet corps is left optiona.

For catalogue, &c., apply to

Missos CHAPMAN, Principals.

CHEGARAY INSTITUTE. BOARDING AND DAY SCHOOL FOR YOUNG LADIES, No. 1627 and 1629 SPEUGE Street, Philadelphia.

The regular course of instruction embraces the English and French Languages and Literatures—Latin if required—and all the branches which constitute a thorough English Education; especial attention being paid to the latter by the Principal, assisted by the best Professors, French is the language of the family, and is constantly spoken in the Institute.

The Scholastic veer commences Sentember 15th, and plastic year commences September 15th, and closes July 1st. oses July 1st.
For circulars and particulars, apply to
aulb-2m\* MADAME D'HERVILLY, Principal.

ault-2m\* MADAME D'HERVILLY, Principal.

TRENCH LANGUAGE.—PROF.

MASSE is now forming a class, of between relieve and twenty boys, to receive instruction in FBENOH, by the oral method. The course will consist of sixteen leasons, of an hour and a half each, four lessons a week, and in the afternoon. Terms, \$4 00 for the course. He will constantly converse with his classes, and afford every facility for attaining a thorough colloquial knowledge of the language. Prof. M. has matured his new system by which those having a slight knowledge of the French language may make rapid improvement, without devoting to the study any other time than the hour passed with the teacher. References: Rev. Bishop W. B. Stevens, D. D., Prof. H. Coppée, of Penna. University, Charles Short, Esq. Apply at his residence, 111 South THIETEENTH street. TRENCH AND ENGLISH DAY. SURCOL FOR BOYS, Prof. E. MASSE, A. M., Principal —This new Institute receives Boys between eight and fourteen years of age. While French is the language of the Institute, the greatest attention will be paid to the English studies. Competent reachers are engaged for all the ordinary branches of a good English education. Latin taught without extra charges. The academical year begins on the 17th of September, and ends on the 28th of June,

Further information can be obtained at the residence of the Principal, No. 111 South THIRTEENTH Street.

BEFERENCES.—Bishop W. B. Stevens. Prof. H. Coppée of Penn'a University, Prof. C. D. Cleveland, Hon. W. H. Seward

I INWOOD HALL, ON CHELTON Avenue, York Road Station, N. P. R. R., seven miles from Philadelphia.

The Third Term of Miss OARR'S Boarding and Day School for Young Ladies, at the above beautiful and healthy location, will commence on the second MONDAY of September.

The number of pupils being limited to fifteen, the establishment has as much of the freedom of a home as consistent with mental improvement. Exercises in the Gymnasium and open air are promoted, for which the extensive grounds afford full opportunity.

Oirculars out be obtained at the effice of Jay Cooke & Co., bankers, 114 South Third street, or by addressing the Principal, Shoemakertown post office, Montgomery county, Pa. county, Pa. DENNEYLVANIA MILITARY

ACADEMY, at West Chester, (for boarders only.)
This Academy will be opened on Thursday, September
4th, 1862. It was chartered by the Legislature, at its
last session, with full collegiate powers.

In its capacious buildings, which were erected and furnished at a cost of over sixty thousand dollars, are arrangements of the highest order for the comfortable
quartering and subsisting of one hundred and fifty coalets.

A corps of competent and experienced teachers will
give their undivided attention to the educational department, and aim to make their instructions thorough and
practical. The department of studies embraces the following courses:—Primary, Commercial, and Scientific,
Collegiate and Military. A graduate of the United States
Military Academy, of high standing in his class, and of
experience in the field, devotes his exclusive attention to
the Mathematics and Engineering. The moral training
of cadets will be carefully attended to. For circulars,
apply to JAMES H. ORNE, Esq., No. 626 Chestnut
street, or at the Book Stand of Continental Hotel, Philadelphis, or to Colonel THEODORE HYATT, President
Pennsylvania Military Academy.

8019-1m Pennsylvania Military Academy. BOARDING SCHOOL FOR GIRLS. BEMOVAL.

The Sixth Session of the BOARDING SCHOOL FOR GIRLS, heretofere conducted by the Subscribers, near Darby, Pa., under the name of "SHABON FEMALE SEMINABY," Will open 10th mo., 1st, 1862, at Attleboro, Bucks county, Pa., under the name of BELLEVUE FEMALE INSTITUTE.

GARDEN VARES.—A great variety of ornaments garden Vases, in Terra Cotta classical designs, all sizes and warranted to stand the weather.

Philadelphia Terra Cotta Works, Office and Warranted Cotta

This battle (Antietam) has been the most sangularry of the war, and the only one fought with design and upon military principles. The arrangement of our cores the overlooking position of the Commanding General

the sending into action the right and the left—the closing up of the centre and final success—excites bewildering admiration, and carries the mind to the great fields of Austerlitz and Wagram, fought by Napoleon Of all this have I spoken. The heart-history of such a conflict, purchased by the life and blood of twenty thousand men, must be found in the hospitals. War has its glories—but it has its ten thousand demons in these human tortures, that nake the eyeballa ache the hear bloed—the lips palsy—and the brain real. The sight is at first positively unendurable. The life blood of some is still trickling away in silent calmuss, while the disse vered limbs and maniac brain of others give rise to sounds God grant I may not again witness. But ve mothers who now seek a son-or wife a har band-or sister a brother-or sons a father-know and be consoled that even here the hand of mercy is watchful, and better care is bestowed upon your loved one than might at first reem possible. It was in the hespital where rested the gallant Booker that I learned the history of those mythical words so often seen and so little understood, "8 T .- 1860-X." Anything alleviating the sufferings and saving the lives of our soldiers is a national blessing. I witnessed some astonishing results

It is well known the effect of burnt gunpowder and ex-

citement is thirst, which, added to the loss of blood in the wounded, creates the necessity of a reviving stimulant. In this particular hospital, the physicians were allowing their patients to drink Plantation Bitters, otherwise called S. T.-1860-X, and although the wounded are most numerous here—this division having opened thfight at 5 in the morning—the men were mostly composed, and there was but very little fainting. The article acts upon the stomach and nerves in a most incomprehensible manner, superior to brandy, and without subsequ at stupefying reaction. It originated in the West Indies, containing calleave bark, winter green, lavender, anise, clove buds, orange, snake root, &c , preserved in St. Croix Rum—the S. T.—1860—X being a secret ingredient, not yet revealed to the public. It is principally recommended for want of appetite, disordered liver, intermittent levers, stomachic difficulties, &c. I understand it was somewhat known in the Southern States previous to the war, and it appears an agent of Jefferson Davis recently applied to the proprietors for the privilege to make it for hospital purposes during the war, to which they made the following reply:

from this article.

NEW YORK, Jan. 16th, 1862. Agent of, etc.:

DEAR SIR: In reply to your communication, offering us "Fifty thousand dollars for the recipe and right to make the Piantation Bitters for hospital purposes during the war," we beg to say your price is a liberal one, considering it would cost us nothing to comply, and that otherwise we can derive no revenue from the Southern States; but, sir, our duries to our Covernment and care States; but, sir, our duties to our Government and our ideas of consistency, would not allow us to entertain it, sathough it night please us to assuage the sufferings of your misguided followers. We remain,

Very respectfully yours, P. H. DRAKE & CO. These gentlemen give the history of certaining redients of their article for over two hundred years—showin that through all changes of the medical profession and its practitioners, strength, composure, and cheerfulness have been derived from these sources. Dr. Woods, in the Washington Hospitals, informed me that he had been upable to produce an hour's sleep in one patient for nearly two weeks, and he was fast sinking and crazy, until the Plantation Bitters came to his knowledge, when one day's trial gave him a night's rest, and he was now fast recovering. I am surprised our Government has not equalled Jefferson Davis in energy, and adopted this invaluable article in all our hospitals. As a lay member, I can bear witness it is "good to take," and affords more energy and life than anything I ever tried. Success to the Plantation Bitters! But I have digressed. In my next I shall speak o gathering in the wounded, burying the dead, &c. B. se25-thetu15t

HAS PROF. BOLLES' DISCOVERY in the application of GALVANISM, MAGNÉTISM, and other modifications of ELECTRICITY, received general favor among the most liberal Medical Men of the Old Schools, and is Prof. B.'s system now being trought rapidly into public tavor? Yes, verily, and if you doubt it, read carefully the following extracts of letters, and also opinious of some of the most eminent Medical Men of this and other States, who have been traveling and lecturing, teaching and applying the different modifications of Electricity, as tament them by Deaf ent modifications of Electricity, as tanget them by Prof. BOILES:

BBAD THE FOLLOWING FROM EMINENT M D's.

The testimony of a Medical Man of the Old Schools, thirty years—fifteen years in the Allopathic School and effiteen in the Homeopathic—and has for two years sluce, being qualified by Prof. B., made Electricity a specialty, has cured thousands never benefited by medicines:

Some five months ago I was attracted by a cird of Professor Bolies, No. 1220 Walnut street, Philadelphia, claiming a discovery that he had made in the use and application of the various forms and modifications of Electricity for the cure of all curable diseases. I called on this gentlemen, and after listening to his theory of the Electrical laws governing life, health and disease, and his discovery in the application of Electricity in accordance with the polarities of the brain and nervour system, I was impressed that he had something new and at once I was impressed that he had something new and at once applied for instructions on the subject. I now speak from experience, as I have remained in his office for two months, watching the result of his operations and having mysel, the charge of one of the treating rooms for nearly mysel the charge of one of the treating rooms for nearly the wilde time, and treated from twelve to fifteen cases daily, comprising nearly every kind and grade of committee disease. Although my expectations were high, I must confess they have been fully realized. I have seen a greatnumber of patients who had availe? themselves of the best medical skill and rem dial agents for years—cases I well knew to be incurable by all other known remedies—permanently cured by a few applications of Electricity; and what has surprised me most, was the repid in provement and once of meny cases pronounced pummons; y consumption by their physicians, because I had been instructed by Dr. Paige to avoit all such cases, as the treatment tended to fojure. I feel impelled by a since of duiy to caution the public against the indiscriminate use of Electricity, as I have known injury to result from its use, in the hands of the ignorant. I would here remain that I have never in my whole experience, or observation from books, pamphiets, or intercourse with men, read or heard of the general or special appliwith men, read or heard of the general or special appli-cation of Electricity to the ourse of disease, as taught by Professor Bolles, and, therefore, conclude it is original Professor Bolles, and, therefore, conclude it is original with him.

I would say to those tampering with this mighty agent of life and death to be ware lest you strike a blow at the citade of life, and never think of applying it to the living organism until you understand its nature, and when, where, and how to apply it.

I would here take occasion to recommend my professional brethren throughout the country to turn their attention to this important zgent as taught by Professor Bolles, who has certainly, in my opinion, discovered the only reliable mode of its application, and thus rendered an important service to the heating art, and a lasting blessing to suffering and diseased humanity

JAMES P. GREVES, M. D.,

206 Pine street, Philadelphia.

206 Pine street, Philadelphia.
Since then Dr. Greves has been qualifying his brethren in the medical profession, who, to a man, endorse the discovery of Professor Bolles

W. B. Wells, M. D., Buffalo, N. Y., after a year's practice, writes to Prof. B. as follows:

I think my faith fully comprehends the fact that Electricity of the state tricity, correctly applied, according to your discovery, is abundantly competent to cure all curable diseases. My experience and success, after extensive practice, fully warrant this assertion. Were I sick with a fatal disease, I would far sooner trust my life in the hands of a skilful Electrician than all the "pathies" on earth besides Buffalo, N. Y. W. E. WELLS, M. D. when understood according to its polarities and their re-lations to the fixed laws of the vital economy, as taught isitions to the fixed laws of the vital economy, as taught by you, is the most powerful, manageable, and efficient agent known to man for the renief of pain and cure of disease. I would further state that I have for the past few weeks used klectricity in my practice, to the exclusion of nearly all other remedies, and have been eminently successful, and consider it a universal therapeutic.

DAYTON, Ohio.

D. MCOARTHY, M. D. PROF. BOLLES: For the last nine months I have made Electricity a specialty, and my faith is daily increasing in its therapeutic effects, and I believe, when applied according to your discovery, it will cure all curable dis cases, among which are numerous cases never benefited by medicine. BUFFALO, N. Y. P.W. MANSFIELD, M. D. PROF BOLLES: What I have now to say is from actual observation, as I have spent most of my time for the last two months with Prof. Boiles, and have wit-nessed the effects of the Rhectical agent on from fifteen to twenty-five patients a day, suffering from almost every to twenty-five patients a day, suffering from almost every form of chronic disease; and, as atrange as it may appear, in a mejority of cases, a perfect cure was effected in trom five to fifteen days. And I will here remark that most of his patients were efficied with long standing complaints, considered incurable by all other known remedis.

H. G. KIRBY, M. D.

Cincinnati, Ohio. PROF. BOLLES: I believe your discovery to be a re-liable therapeutic agent, and feel it my duty to recom-mend it. Since I have received instruction from you, I have applied it in cases of Aphony, Brenchitts, Oscan Amenorrhoea, Asthma, and Congestion, and find that I have the same success that you had when I was under poor instruction. I invariably recommend medical men to avail themselves of an opportunity of becoming ac-quainted with your new method of applying Electricity. DETROIT, Michigan. DAVID TRURSTON, M. D. Prof. Bolles: A great revolution in my mind and practice has taken place since I became acquainted with your new discovery of applying Galvanism, Magnetism, and other modifications of Electricity as a curative agent. and other modifications of Electricity as a circular eagent.

I have found by many experiments that Electricity is a
safe therapeutic agent in all acute and chronic cases when
applied according to your discovery. I desire that medicalimen should become conversant with your discovery.

CLEVELAND, Ohio. MARVIN GODDARD, M. D.

PROF. BOLLES—UBAR SIR: The more I investigate this system of practice, the more confident I am that it is all powerful to meet the ten thousand diseases to which You, who first discovered Electricity to be a reliable You, who first discovered Electricity to be a reliable therapentic agent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the wees and ills of suffering humanity. It is strange that physicians have become so wedded to their several systems, brought up from the darkness of past ages, that they will close their eyes against the light now beaming forth through this system of practice. All other systems I regard as the morning star to the rising sun.

P. SHEDD, M. D. PROF. BOLLES: The nearer I conform to your system

of application, the more successful I am, and as I have examined all the guides and works published upon the aubiect, and seen nothing in reference to your theory, I do not hesitate to say I believe it to be original with you, and the only reliable system extant for ouring disease.

Respectfully yours,

TORONTO. OHAS. BANDALL, M. D. The opinion of a medical man, after thirty years' practice, fifteen in Allopathy and fifteen in Homo-N. B.—In addition to the above extracts, Prof. B. could furnish over one thousand, fully showing that he is well known to the medical and scientific world as the discoverer of all that is reliable in the therapeutic admindiscovered of at that is related in the interapeut admin-stration of Electricity, and that all other operators now in the different cities (except those qualified by him) are using Electricity at hazard, and Prof. B. takes this occa-sion to caution the community as ainst charlatans-uffice 1220 WALNUT Street, Philadelphia. N. B.—Medical men and others who desire a knowledge of my discovery can enter for a full course of lectures at any time. ool3 tf WINCHESTER'S SPECIFIC PILL

is a radical and prompt remedy for Spermatorrhea or Seminal Weakness. From one to three boxes
will effect a cure in the most argravated cases, whether
constitutional or arising from abuses or excesses. Price

81 per box, by mail, or six for 35.
