REGNOH AND ENGLISH DAY.

SCHOOL FOR BOYS, Prof. E. MASSE, A. M.,

Principal.—This new Institute receives Boys between
eight and fourteen years of age. While French is the
language of the Institute, the greatest attention will
be paid to the English studies. Competent teachers are
engaged for all the ordinary branches of a good English
education. Latin taught without extra charges. The
academical year begins on the 17th of September, and
ends on the 28th of June,

Further information can be obtained at the residence
of the Principal, No. 111 South THIRTEENTH Street.

of Penn'a University, Prof. C. D. Cleveland, Hon. W. H.
Seward.

Avenue, York Boad Station, N. P. B. B., seven miles from Philadelphia.

The Third Term of Miss CARE'S Boarding and Day School for Young Ladies, at the above beautiful and healthy location, will commence on the second MONDAY of September.

The number of pupils being limited to fifteen, the extablishment has as much of the freedom of a home as consistent with mental improvement. Exercises in the Gymnasium and open air are promoted, for which the extensive grounds afford full opportunity.

Circulars c un be obtained at the effice of Jay Cooke & Co., bankers, 114 South Third street, or by addressing the Principal, Shoemakertown post office, Montgomery county, Pa.

4th, 1862. It was chartered by the Legislature, at its last session, with full collegiate powers.

In its capacious buildings, which were erected and furnished at a cost of over sixty thousand dollars, are arrangements of the highest order for the comfortable quartering and subslisting of one hundred and fifty cadets.

A corps of competent and experienced teachers will give their undivided attention to the educational department, and aim to make their instructions, thorough and practical. The department of studies embraces the following courses:—Primary, Commercial, and Scientific, Collegiate and Military. A graduate of the United States Military Academy, of high standing in his class, and of experience in the field, devotes his exclusive attention to the Mathematics and Engineering. The moral training of cadets will be carefully attended to. For circulars, apply to JAMES H. OENE, Esq., No. 628 Chestnut street, or at the Book Stand of Continental Hotel, Philadelphia, or to Colonel THEODORE HYATT, President

delphia, or to Colonel THEODORE HYATT, President Pennsylvania Military Academy. BOARDING SCHOOL FOR GIRLS, The Sixth Session of the BOARDING SCHOOL FOR GILLS, heretofore conducted by the Subscribers, near Darby, Pa., under the name of "SHARON FRILALE SEMINARY."
Will open 10th mo., 1st, 1862, at Attleboro, Bucks county, Pa., under the name of county, Pa., under the name of BELLEVUE FEMALE INSTITUTE,

BELLEVUE FEMALE INSTITUTE.

Every facility will be, afforded whereby a thorough and finished course of instruction in all the elementary and higher branches of an ENGLISH, OLASSICAL, and MATHEMATICAL Education may be obtained.

Circulars, embracing full details of the Institution, may be had on application to the Principals, Attieboro, Bucks county, Pa., or to Edward Parrish, Philadelphia.

TERMS.

The charge for tuition in English branches, with board, washing, fuel, and lights, including pens and ink, and the use of the library, is at the rate of \$160 for the school-year. Latin, Greek, French, German, and Drawing, each extra.

ISBAEL J. GRAHAME,

JANE P. GRAHAME,

Principals.

THE WEST CHESTER ACADEMY. AND MILITARY INSTITUTE, AT WEST CHESTER, PENNSYLVANIA, will commence the winter term of five calendar months on the 1st of November next. The course of instruction is thorough and extensive, designed and arranged to prepare boys and young men for business or college. The Principal, who devotes all his time to the interests of his school and its pupils, is assisted by eight gentlemen of ability and experience. The German, French, and Spanish languages are taught by native resident teachers, an advantage which will be readily appreciated by the patrons of the Institution. tion.
The Military Department is under the charge of Major G. Eckendorff, of Philadelphia, whose qualifications for the position are extensively known. Its duties and requirements do not, in any way, interfere with the Literary departments, while enrollment among the cadet corps left optional.

MEDICINAL. CONSUMPTIONI DROPOSALS FOR MATERIALS CONSUMPTIONI

BUPUSALS FOR MATERIALS
FOR THE NAVY.

NAVY DEPARTMENT,
BUREAU OF CONSTRUCTION, &C., September 22, 1862.
SEALED PROPOSAGS to turnish materials for the
navy for the fiscal year ending 30th June, 1863, will be
received at this Bureau until 5 o'clock P., M. of the 21st
October next. These proposals must be endorsed "Proposals for Materials for the Navy, Bureau of Construction," &c., that they may be distinguished from
other business letters.

The materials and articles embraced in the classes
named are part itcularly described in the brinted schedules. named are particularly described in the printed schedules, any of which will be furnished to such as desire to offer, on application to the commandants of the respective yards, or to the navy agent nearest thereto, and those of yards, or to the navy agent nearest thereto, and those of all the yards upon application to this Bureau. This division into classes being for the convanience of dealers in each, such portions only will be furnished as are actually required for bids. The commandant and navy agent of each station will, in addition to the schedules of classes of their owar yards, have a copy of the schedules of the other yards, for examination only, from which it may be judged whether it will be desirable to make application for any of the classes of those yards.

Offers must be made for the whole of the class at any yard upon one of the printed schedules, or in strict conyard upon one of the printed schedules, or in strict c yard upon one of the printed schedules, or in strict con-formity therewith, or they will not be considered. In computing the classes the price tated in the column of prices will be the standard, and the aggregate of the class will be carried out according to the prices stated. The contract will be awarded to the lowest bong fide bidder who gives proper security for its fulfilment. The United States reserves the right to reject all the bids for any class. If deemed exceptions any class, if deemed exorbitant.

All articles must be of the very best quality, to be delivered in the navy yard in good order, and in suitable ressels and packages, properly marked with the name of the contractor, as the case may be, at the expense and risk of the contractor, and in all respects subject to the inspection, measurement, count, weight, &c., of the yard where received, and to the entire satisfaction of the commandant thereof.

Bidders are referred to the commandants of the respec tive yards for samples, instructions, or particular decription of the articles; and all other things being equal preference will be given to articles of American manufac

PROPOSALS.

Every offer, as required by the law of 10th August, 1846, must be accompanied by a written guarantee, the form of which is herewith given.

Those only whose offers may be accepted will be notified, and the contract will be forwarded as soon thereafter as practicable, which they will be required to execute within ten days after its receipt at the post office or cure within ten days actor us receipt at the post omce or navy spency named by them Sureties in the full amount will be required to sign the contract, and their responsibility certified to by a United States district judge, United States district attorney, col-lector or navy agent As additional security, twenty per cenum will be withheld from the amount of the bills until the contract shall have been completed; and eighty per centum of each bill, approved in triplicate by the commandants of the respective yards, will be paid by the navy agent at the points of delivery, in certificates o indebtedness, or Treasury notes, at the option of the It is stipulated in the contract, that if default be mad by the parties of the first rest. in delivering all or made the articles mentioned in any cases bid for in the con-tract, of the quality and at the time and places above provided, then, and in that case, the contractor and his provided, such and in that case, the contractor and his sureties will forfeit and pay to the United States' a sure of money not exceeding twice the amount of such class, which may be recovered from time to time, according to the act of Congress in that case provided, approved March 3, 1843.

In class No. 11, and those following, if a quantity, additin equal to the face of the contract is demanded, it is to be furnished on like terms and conditions, during Which, from a firm, must be signed by all the members I, _____, of _____, in the State of _____, hereby agree to furnish and deliver in the respective navy yard. agree to turnish and center in the respective navy yards all the articles named in the classes hereunto annexed, agreeably to the provisions of the schedule therefor, and in conformity with the advertisement of the Bureau of Construction, &c., of 22d September, 1862. Should my offer be accepted, I request to be addressed at —, and the contract sent to the navy agent at —, or to —, to resignature and certificate.

Date.
Witness.
The schedule which the bidder encloses must be pasted to his offer, and each of them signed by him. Opposite each article in the schedule the price must be set, the amount carried out, the aggregate footed up for each class, and the amount likewise written in words. If the parties who bid do not reside nest the place where the articles are to be delivered, they must name in their offer a person to whom orders on them are to be delivered.

FORM OF GUARANTEE. nated, execute the contract for the same, with good and sufficient surettee; and in case said — shall fail to enter into contract as aforesaid, we guaranty to make good the difference between the offer of the said — and that which may be accepted.

I hereby certify that the above named————are known o me as men of property, and able to make good their

· Signatures of two Guarantors, { C. D.

Extract from a Law of the United States, approved July 17, 1862. or order, or any interest therein, shall be transferred by the party or parties to whom such contract or order may be given to any other party or parties, and that any such transfer shall cause the annulment of the contract or order transferred so far as the United States are concerned: Provided, That all the rights of action are hereby reserved to the United States for any breach of such contract by the contracting party or parties.

SEC. 16. And be it further enacted, That whenever any contractor for subsistence, clothing, arms, ammunition, munitions of war, and for every description of supplies for the army or navy of the United States, shall be found guilty by court martial of fraud or wilful neglect of duty, he shall be punished by fine, imprisonment, or such other punishment as the court martial shall adjudge; and any person who shall contract to furnish supplies of any kind or description for the transfer of the land or havel forces of the United States for which he shall contract to furnish said supplies, and be subject to the rules and regulations for the government of the land and naval forces of the United States.

DR. WISHART'S PINE TREE TAR CORDIAL. WATURE'S GREAT REMEDY FOR ALL DISEASES OF THE THROAT AND LUNGS.

you any of the premonitory symptoms of that most fatal lisease, Consumption? But, ye mothers who now seek a son-or wife a hus-Those who should be warned by these symptoms gen hand_or sister a brother_or sons a father_know and rally think lightly of them until it is too late. From this be consoled that even here the hand of mercy is watchful, and better care is bestowed upon your loved one fact, perhaps more than any other, arises the sad prethan might at first seem possible. It was in the hospital where rested the gallant Hooker that I learned the his-

Have you a Cough? Have you Sore Throat? Have

grave at least one sixth of Death's victims. What are its symptoms? It usually begins with a short, dry cough, which soon ecomes habitual, but for some time nothing is raised ficult, and upon slight exercise much hurried. A sense of tightness and oppression at the chest is often felt. As the disease advances the patient becomes thin in flesh, is afflicted with loss of appetite, great languor, indolence, and dejection of spirits; and may continue in this state for a considerable length of time, but is very readily affected by slight exposure or fatigue. If these occur, the

ough becomes more troublesome, and is attended with expectoration, which is most copious and free very early in the morning. It is sometimes streaked with blood fits of coughing or a sense of fullness or suffocation, is experienced. The pulse becomes full, hard, and frequent. the hectic flush tinges the cheeks, and the dire malady is fast hastening to its close.

You now ask, "Is there a oure?"

Consumption has been and can be cured by the use o my Tar Cordial, even in apparently hopeless cases. This assertion I make with the ability to present the most complete evidence of its truth. Space will not admit of my giving the contents of the many thousands of testinonials to its value, which I have been and am receiving from men and women of unquestionable worth and reputation. I have had a number of these certificates printed tion. Whether you now determine to try the medicine of not, send for the circular. After years of study and exmariment. I offer this medicine, believing it to be the best remedy for all pulmonary and bronchial diseases. I you cannot be benefited by the use of the Tar Cordial, I believe you are beyond all earthly aid. Yet if there are better curative agents, I earnestly advise their use. The best remedies, the best care, are needed by those afflicted with this disease. Because I believe this to be the best, I

Many, not only of the people, but physicians of ever school and practice, are daily asking me, "What is the principle or cause of your great success in the treatmen of Pulmonary Consumption?" My answer is this: The invigoration of the digestive organs—the strengthening of the debilitated system—the purification and ennower, the healing and the strengthening, continue to act in conjunction with Nature's constant recuperative ten.

layed a resort to the means of cure. The Pine Tree Tar Cordial will cure Coughs, Sore

COMMUNICATED. [Extract from a letter on the Battle field.]

* * * * * * *

This battle (Antietam) has been the most sanguinary of the war, and the only one fought with design and upon military p: inciples. The arrangement of our corps the overlooking position of the Commanding Genera the sending into action the right and the left-the closing up of the centre and final success excites be-Wildering admiration, and carries the mind to the great fields of Austerlitz and Wagram, fought by Napoleon. conflict, purchased by the life and blood of twenty thousand men, must be found in the hospitals. War has its glories-but it has its ten thousand demons in these human tortures, that make the eyeballs ache-the heart bleed—the lips palsy—and the brain reel. The sight is at first positively unendurable. The life-blood of some is still trickling away in silent calmness, while the dissevered limbs and maniac brain of others give rise to sounds Gcd grant I may not again witness.

understood, "S T .- 1860-X." Anything alleviating the sufferings and saving the lives of our soldiers is a nasing. I witnessed some astonishing results from this article. It is well known the effect of burnt gunpowder and excitement is thirst, which, added to the loss of blood in the wounded, creates the necessity of a reviving stimulant. In this particular hospital, the physicians were allowing their patients to drink Plantation Bitters, otherwise called S. T .- 1860-X, and although the wounded are most numerous here—this division having opened thfight at 5 in the morning—the men were mostly composed, and there was but very little fainting. The article acts upon the stomach and nerves in a most incomprehensible manner, superior to brandy, and without subsequ at stupefying reaction. It originated in the West Indies, containing callsaye bark, winter green, lavender, anise, clove buds, orange, snake root, &c., preserved in St. Croix Rum-the S. T.-1860-X being a secret ingredient, not yet revealed to the public. It is principally recommended for want of appetite, disordered liver, intermittent fevers, stomachic difficulties, &c. 1 understand it was somewhat known in the Southers States previous to the war, and it appears an agent of Jefferson Davis recently applied to the proprietors for the privilege to make it for hospital purposes during the war, to which they made the following reply:

tory of those mythical words so often seen and so little

Agent of, etc.:

DEAR SIR: In reply to your communication, offering us "Fifty thousand dellars for the recipe and right to make the Plantation Bitters for hospital purposes during the war," we beg to say your price is a liberal one, considering it would cost us nothing to comply, and that otherwise we can derive no revenue from the Southern States; but, it, our duties to our Government. States; but; sir, our duties to our Government and our ideas of consistency, would not allow us to entertain it, although it night please us to assuage the sufferings of

These gentlemen give the history of certain ingredient of their article for over two hundred years-showing that through all charges of the medical profession and its practitioners, strength, composure, and cheerfulness have been derived from these sources. Dr. Woods, in the Washington Hospitals, informed me that he had been unable to produce an hour's sleep in one patient for nearly two weeks, and he was fast sinking and crazy, until the Plantation Bitters came to his knowledge, when one day's trial gave him a night's rest, and he was now fast covering. I am surprised our Government has not equalled Jefferson Davis in energy, and adopted this invaluable article in all our hospitals. As a lay member, I can bear witness it is "good to take," and affords more energy and life than anything I ever tried. Success to the Plantation Bitters! But I have digressed. In my next I shall speak of gathering in the wounded, burying the dead, &c. B.

TAS PROF. BOLLES' DISCOVERY
in the application of GALVANISM, MAGNETISM, and other modifications of ELECTRICITY, received general favor among the most liberal Medicat
Men of the Old Schools, and is Prof. B.'s system now
being brought rapidly into public favor? Yes, verily,
and if you doubt it, read carefully the following extracts
of letters, and size outsigners, even of the receivers. of letters, and also opinions of some of the most eminent Medical Men of this and other States, who have been traveling and lecturing, teaching and applying the differ-ent modifications of Electricity, as taught them by Prof. The testimony of a Medical Man of the Old Schools, thirty years—fifteen years in the Allopathic School and Professor Bolles, No 1220 Walnut street, Philadelphia, claiming a discovery that he had made in the use and application of the various forms and modifications of Electricity for the cure of all carable diseases. I called on this gentlemen, and after listening to his theory of the Electrical laws governing life, health and disease, and his discovery in the application of Electricity in accordance with the polarities of the brain and nervous system, I was impressed that he had something new, and at once applied for instructions on the subject. I now speak from experience, as I have remained in his office for two months, watching the result of his operations and having mysel, the charge of one of the treating rooms for nearly from experience, as I have remained in his office for two months, watching the result of his operations and having mysel: the charge of one of the treating rooms for nearly the whole time, and treated from twelve to filteen cases daily, comprising nearly every kind and grade of chronic disease. Although my expectations were high, I must confess they have been fully realized. I have seen a great number of patients who had availed themselves of the best medical skill and remedial agents for years—cases I well knew to be incurable by all other known remedies—permanently cured by a few applications of Electricit; and what has surprised me most, was the rapid inprovement and cure of many cases pronounced pulmonery consumption by their physicians, because I had been instructed by Dr. Paige to avoil all such cases, as the treatment tended to injure. I feel impelled by a sense of duly to caution the public against the indiscriminate use of Electricity, as I have known injury to result from its use, in the hands of the ignorant. I would here remark that I have never in my whole experience, or observation from books, pamphlets, or intercourse with men, read or heard of the general or special application of Rlectricity to the cure of disease, as taught by Professor Bolles, and, therefore, conclude it is original with him.

I would nay to those tampering with this mighty agent

Professor Bolles, and, therefore, conclude it is original with him.

I would say to those tampering with this mighty agent of life and death to be ware lest you strike a blow at the citadel of life, and never think of applying it to the living organism until you understand its nature, and when, where, and how to apply it.

I would here take occasion to recommend my professional brethren throughout the country to turn their attention to this important *gent as taught by Professor Bolles, who has certainly, in my opinion, discovered the only reliable mode of its application, and thus rendered an important service to the healing art, and a lasting blessing to suffering and diseased humanity

an, important service to the healing art, and a lasting blessing to suffering and diseased humanity

JAMES P. GREVES, M. D.,

206 Pine street, Philadelphia.

Since then Dr. Greves has been qualifying his brothren in the medical profession, who, to a man, endorse the discovery of Professor Bolles

W. B. Wells, M. D., Buffalo, N. Y., after a year's practice, writes to Prof. B. as follows:

I think my faith fully comprehends the fact that Electricity, correctly applied, according to your discovery, is abundantly competent to cure all curable diseases. My experience and success, after extensive practice, fully experience and success, after extensive practice, fully warrant this assertion. Were I sick with a fatal disease, I would far sconer trust my life in the hands of a skifful Electrician than all the "pathles" on earth besides

BUFFELO, N. Y. W. B. WELLS, M. D.

PROP. BOLLES: I am fully satisfied that Electricity, when understood according to its polarities and their re-lations to the fixed laws of the vital economy, as taught by you, is the most powerful, manageable, and efficient agent known to man for the reilef. of pain and cure of disease. I would further state that I have for the past offease. I would further state that I have for the past few weeks used Electricity in my practice, to the exclusion of nearly all other remedies, and have been eminently successful, and consider it a universal therapeutic.

DAYTON, Ohio.

D. MCCARTHY, M. D. Prof. Bolles: For the last nine months I have made Electricity a specialty, and my faith is daily increasing in its therapeutic effects, and I believe, when applied ac-cording to your discovery, it will cure all curable dis-

eases, among which are numerous cases never benefited Buffalo, N. Y. P. W. MANSFIELD, M. D. PROF BOLLES: What I have now to say is from actual observation, as I have spent most of my time for the last two menths with Prof. Bolles, and have witnessed the effects of the Electrical agent on from fifte nessed the circus of the Electrical agent on from litteen to twenty-five parients a day, suffering from almost every form of chronic disease; and, as atrange as it may appear, in a majority of cases, a perfect cure was effected in from five to fifteen days. And I will here remark that most of his patients were afflicted with long standing complaints, considered incurable by all other known remedies.

H. G. KIBBY, M. D.

CINGINNATI, Ohio. Cincinnati, Ohio.

PROF. BOLLES: I believe your discovery to be a reliable therspeute agent, and feel it my duty to recommend it. Since I have received instruction from you, I have applied it in cases of Aphony, Brenchitis, Ozea, Amenorrheea, Asthma, and Congestion, and find that I have the same success that you had when I was under your instruction. I invariably recommend medical men to avail themselves of an opportunity of becoming acquainted with your new method of applying Electricity. PROF. BOLLES: A great revolution in my mind and PROF. BOLLES: A glest revolution in my mind and practice has taken place since I became acquainted with your new discovery of applying Calvanism, Magnetism, and other modifications of Electricity as a curative agent. I have found by many experiments that Electricity is a safe therapeutic agent in all acute and chronic cases when applied according to your discovery. I desire that medical men should become conversant with your discovery. CLEVELAND, Ohio. MARVIN GODDARD, M. D.

BOOMESTER, N. Y., September 10, 1859.

PROF. BOLLES—UBAR SIR: The more I investigate
this system of practice, the more confident I am that it
is all powerful to meet the ten thousand diseases to which
fight is being is all powerful to meet the ten thousand diseases to which flesh is heir.

You, who first discovered Electricity to be a reliable therapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the woss and tills of suffering humanity. It is surange that physicians have become so wedded to their several systems, brought up from the darkness of past ages, that they will close their even saginst, the light now beaming they will close their eyes against the light now beaming forth through this system of practice, All other systems I regard as the morning star to the rising sun. P. SHEDD, M. D.

PROF. BOLLES: The nearer I conform to your system of application, the more successful I am, and as I have examined all the guides and works published upon the subject, and seen nothing in reference to your theory, I do not hesitate to say I believe it to be original with you, and the only reliable system extant for curing disease. Respectfully yours,
TORONTO. CHAS. RANDALL, M. D. The opinion of a medical man, after thirty years practice, fifteen in Allopathy and fifteen in Homos pathy:
PROF. BOLLES—DEAR SIR: I never have, since you gave me instruction in your new discovery of applying Electricity, and God forgive me if I in the future ever do, practice cither Homesopathy or Allopathy. I have been strictly governed by the philosophy you laid down, and for the best of reasons—namely: That I am generally successful, and I frankly say to you that I am done with medicine forever.
My success has been great since I have been in Newark, N. J.

206 Pine street, Philadelphia.

N. B.—In addition to the above extracts, Prof. B. could furnish over one thousand, fully showing that he is well known to the medical and scientific world as the discoverer of all that is reliable in the therapeutic admin discoverer of all that is reliable in the therapeutic admin-intration of Electricity, and that all other operators now in the different cities (except those qualified by him) are using Electricity at hazard, and Prof. B. takes this occa-sion to caution the community against charlatans. Office 1220 WALNUT Street, Philadelphia.

N. B.—Medical men and others who desire a know-ledge of my discovery can enter for a full course of lec-tures at any time.
