CIRCULAR.—ALTHOUGH IN THIS CIRCULAR.—ALTHOUGH IN THIS sesson of national calamity, large demands are being made upon our citizens, we believe an appeal on schalf of the "Contrabands," or Freedmen, under Govornment protection at Washington, Kortress Mouro, Alexandria, and elsewhere, wil not be in vain. Many of these have been been deserted by their former masters, and letters received from those who are endeavoring to supply their wants represent a sad account of the destitution and suffering which prevail among them.

Many of the women and children are without shoes and clothing, and suffering from diseases incident to hardships and expecure. Endeavors are being made to infroduce employments by which they can support them selves, but meanwhite the hand of benevolence must be extended for their help. We would therefore solicit contributions of second hand clothing for the aged and infirm men, and particularly women and children, among whom great suffering exists. Donations of money, and materials to be made into garmonts, will also be thankfully received and faithfully applied to the relief of the fully received and faithfully applied to the relief of th sufficers.

FOR THE SICK AND WOUNDED.—
Under an order from the President of the United
Star s, a national system has been established by the
SANITARY COMMISSION for the safe transmission Stev s, a national system has been established by the SANITARY OOMMISSION for the safe transmission and judicious distribution of articles contributed by the people, for the sick and wounded of the Army and Mayy. The sistem, after being well tried, has been formally approved and recommended by the President, the Generalin-Chief, and the Surgeon General. The security it offers against misappropriation is practically perfect, until the contributions are delivered in the hospitals, where they necessarily pass from the control of the John wission. Of more than a million articles sent through one of the largest of its channels of supply, it has been ascertained that not one hundred have miscarried, or been dishonesily used. Discret and trustworthy agents are constantly employed in visiting all divisions of the army, including those on the Scuthern coast, the Mississippi, and the Western frontier, to observe their wants, to direct supplies where they are most needed, and to secure, as far as practicable, their honest use. The Commission dees not undertake to deliver articles to individuals, and declines to receive contributions with any restriction as to their destination, within the limits of the force employed in the service of the Nation, it being one of its secondary objects to strengthen the sentiment of National unity wherever it can come in autagonism with State or local pride. The distribution of hospital supplies is but a branch of the work of the Commission.

with State or local pride. The distribution of hospital supplies is but a branch of the work of the Commission. It employs the best professional talent which can be obtained in the country, to aid its larger purpose, to do all that is possible for the health and vigor of our fighting men, to lighten their burdens, and to sustain their spirats under the privations and hardships which are an essential part of successful warfare. For this purpose, contibutions to its treasury are solicited. They may be directed to CALEB COPE, Esq., Treasurer of the Philadelphia Agency, No. 563 MABKET Street or to William PLATT, Jr., General Superintendent, at the Deyository, No. 1235 OHE STNUT Street.
