yesterday afternoon at the office, North Seventh street, the President, Mr. Maris, in the chair. The out-door visitors submitted their monthly report, stating that 1,883 persons had received relief at their hands. Of this number there were 524 Americans. 659 foreigners, and 1,700 children. Two hundred and ninetynine persons had been sent to the Almshouse by the visitors, and their total expenditure amounted to \$1,027.64. The out-door agent reported having received from support cases \$126; from emigrant tax \$118. The steward reported having received \$54 08.

The census of the Almshouse was stated as follows:

Granted meals. 104
Several communications were received from candidates for the position of apothecary at the Almshouse. An election for apothecary was then held, the candidates being Mesars. Farley, Webb, Kirkbride, Bull, and

After the first ballot, Mr. Dickinson moved to postpone the election for three months. Not agreed to.

A second ballot resulted in the election of Mr. J. W. Mr. Whitall called attention to the imposition practised upon the out door relief visitors by persons supported by other public charities. Mr. Maris stated that, two years age, a person was ervices were of considerable value. It appeared undoubted that imposition was daily practised upon the

appointed to attend to that particular business. His in which application for relief was made to the Union Benevolent Society by sixteen persons, who stated they were not receiving any support from public associations. An examination proved that all of the persons referred to were dependent upon the Guardians of the Poor. He, therefore, moved the appointment of a committee to confer with the Union Benevolent and other association: upon the subject. The motion was agreed to, and the president, on motion, sppointed chairman of the committee.

Mr. Dickinson submitted the following: Resolved, That the steward be instructed to place the hodies of all who die in the Almshouse after this date, in the receiving vault, there to remain as provided for by the rules which have heretofore governed the officer Mr. Whitail moved that the subject be laid on th

Mr. Erety stated that he had recently been accosted by a gentieman, who called his attention to an article in a New York medical paper, setting forth certain advantages to be derived by medical students from a study of their profession in that city, as compared with the facilities afforded by Philadelphia. He thought that our own city should not be excelled by New York in its facilities for study, and he therefore opposed the resolution. Mr. Dickinson said there had been a traffic in dead bodies at the Almshouse. This trade had continued, notwithstanding all endeavors to suppress it. He had a

knowledge of there transactions, and notified the proper officer, but without effect. He considered an adoption of the motion to table the resolution as in effect declaring that the Board had no intention of further using the After further discussion, the motion to lay the resolution on the table was agreed to. Mr. Erety moved that Dr. Agnew be requested to fur-

nish the Board with a copy of two lactures lately deli-vered by that gentleman at the Almshouse. Adopted. Mr. Server offered the following: Mr. Server onered the committee on Accounts be directed to inquire upon what authority one of the regular officers of this Board is placed upon the steward's pay-roll at \$10 per menth, in addition to his regular salary, and what duties he performs for said extra pay, and report to this body. Adopted.

Dr. M. M. McGoffin was, on motion, elected resident

physician at the Almshouse. Adjourned.

POLICE INTELLIGENCE.—Mary Briler alias Charlotte Briler, was committed by Alderman tier vestorday afternoon, on the charge of having stolen a watch and pawned it at Nathana' branch offic Eighth and Sansom streets. It was valued at \$150. Officer Callanan, who made the arrest, stated at the hearing that he believed Mary to be a person whom, having robbed forty-eight dwelling houses. She was then known by the name of Mary Hildebrand. A boy, named Henry Baker, was before the same magistrate, charged with throwing stones into the windows of the Jewish Synagogue, near Fifth and Catharine streets. Baker is one of a ganglof mischievous boys who have frequently been arrested on the same charge. After receiving a reprimand, he was discharged

his parents pledging that, in the future, they would no allow him to keep company with bad companions. A man, named John Williams, alias Baltimore Pat, was charged with having stolen from B. J. Sutton, a pocketbook, containing \$1,240. as follows: Eight \$100 treasury notes, two \$100 notes on the City Bank, two \$50 treasury notes, the remainder being notes of the denomior oto, \$10, and \$0. It appeared from the evi-Third street, and had gone as far as Noble street, when two men jumped upon the platform and pressed hard upon Mr. Sutton. Another man was standing upon the platform, who was apparently an accomplice. The three got off together in about a square, and jumped upon another car, two or three pavements ahead. About this time Mr. Button discovered that he had lost his pocket-book Mr. Sutton identified Williams as one of the three. H

tric to the car ahead, but they were not to be found. The accused was committed for a further hearing. Yesterday morning, about two o'clock, police barge No. 2 overhauled a batteau containing two men, off the Kensington Water Works. They had a goose in the boat, and they admitted that they had stolen the batteau for the purpose of going after fowl. The prison ers gave the names of Joseph B. Martin and William James Cannon. They were both committed by Alderman Beitler. John Myers was arrested on Saturday night at Twelfth

F. McClain, a young man in the employ of Mr Sutton,

was riding in the car at the time, and he also identified

Williams as the thief. McClain said that he followed the

and Division streets, upon the charge of having stolen 322 from a toldier named George Martin, while the latter was intoxicated. He was held in \$800 bail by Al noon upon the charge of having assaulted a colored

John Carr was arrested in Frankford on Sunday afterman named Davis. The latter is in the employ of Au gustus Vankirk, and at the time was going home with a coach containing a small child. Carr placed his foot on the wheel of the coach, and Davis remonstrated. Carr then seized the colored man by the throat, and in the struggle the coach was overturned and the child thrown out. Carr was arrested. Two men, named John Gilroy and John Bryan, then interfered with the officers, and taken before Alderman Elliot, and committed in default of \$1,000 bail to answer.

Yesterday morning a man named Garringer was committed by Alderman Fields to answer the charge of adultery with his wife's sister. Sarah King was charged before Alderman Williams, yesterday morning, with the larceny of hoop skirts from a store at Fourth and Coates streets. She was commit-

A yourg man, giving the name of William Cucknell, was committed yesterday morning by Alderman White till at the establishment of Enoch Durar. The evidence is that the bar-tender temporarily absented himself, during which the accused, who was left in charge of the place, it is alleged, purloined the money.

Alderman Hutchinson has held Charles J. Stevens for a further hearing, charged on the oath of Miss Guest with seduction.

No less than twenty-two cases of disorderly conduct and drunkenness were disposed of by Alderman Carter on Sunday.

THE FRONT-STREET STABBING CASE. Yesterday morning William McGinley and James Ward had a hearing before Alderman Beitler upon the charge of having stabbed Alice Trump, Ann Jane Creighton, and Ann Welsh, at the residence of Mrs. Trump, No. 242 South Front street, as stated in The Press. At the hearing several witnesses were examined, and it seems from the evidence that the accused went into the yard of the house on Sunday afternoon about three o'clock, and had a difficulty. They went away but subsequently returned, and one witness testified that one of the men was overheard to say to the other that he would commend the work if he would stand by him. They accordingly entered the house, and one of them drawing a blackjack, remarked that he had a pistol, and threatened to Ginley was seen to have a knife in his hand. This alarmed Mrs. Trump, and she went to the assistance of her husband. McGinley is then alleged to have struck her in the head with the knife, inflicting a most shocking wound, and one from which there are slight hopes of her fere, was next assaulted by McGinley, and she received three stabs, one over each shoulder and a third under her left shoulder blade. Mrs. Welch, another lodger in the same house, attracted by the noise, came in and endeavored to astiet, and she too was stabled in the arm; her wound was slight, however.

Mrs. Trump and Mrs. Oreighton were conveyed to the Pennsylvania Hospital. Yesterday they were in about the same condition as when admitted. After the stabbing, McGinley and Ward ran out into the street. The affair caused considerable excitement, and the two men were pursued by the crowd, but succeeded in escaping. McGinley was arrested by Officera Loller and Smith, about a half hour afterwards, at his residence, on Union street, near Third. When taken into custody, he had in his pocket a penknife covered with blood; also, a piece of paper, upon which, from appearances, he had wiped his fingers clear of the blood. McGinley is a cab uriver; his stand is at Walnut street wharf. He has been in the army; and, among other things alleged on the immediate cause of the difficulty, it is said that Mr Trump accused him of being a deserier. Ward could not be found, but Lieutenant Goldey stationed a guard at all the railroad depots, and the man was captured as he was about to take his departure for New York. The testimony of all the witnesses, at the chearing, yesterday morning, agreed, and the men were fully identified. McGinley does not deny his participation in the affair. The defendants were both comsuitted, to await the result of the injuries inflicted.

YOUTHFUL DEPRAVITY. Whether we are not being rapidly estranged from our former souti ments of timidity upon the recital of bloody deeds on the hattle-field, or the concomitant horrors that are suppostd to accrue as the consequences of war, is a quescton for philanti roplets. However that may be, it would appear that the sight of human blood had lost its terror in the minds of youth. We give the following as a case in point : Yesterday morning the wife of one of the po lice officials of the Third district having occasion to ascend to an upper story of her residence, left her only babe, three months of age, asleep in a cradle below stairs. During her absence an urchin of two or three summers obtained a knife and inflicted a series of frightful gashes upon the face of the baby. The daring youngster then endeavored to stop the flow of blood from the wound by covering a pillow over it, and by the time the mother came down stairs, her darling was almost smothered to death. The little one's cheeks were severely out from the eye down to the lower part of the jaw bone. The perpetrator of this cutrage is a fair subject for medical

THE PACKET TONAWANDA AND THE PIBATE ALABAMA .- Much fear and trepidation have scized upon our merchantmen since the capture of the packet ship Tonawanda. It is not a very pleasant affair to be in such bad hands as this ship was in. Alahama is said to mean in its original signification, where we rest," and we hope Captain Semmes will remain true to this meazing, and rest content with his latest achievement. Pirate steamers cannot be made to look romantic and when encountered out on the seas they are sure to

be thought out of season. It will be remembered that the Tonawanda was cleared on Tuesday, September 30th, by Cops & Bro. She is a fine vessel, rating A 1, and was built in 1850. The ship and cargo are valued at \$150,000. The Tonawanda is a vessel of 1,240 tons. Her length is one hundred and seventy-eight feet, and breadth thirty-nine feet. Her freight consisted of forty eight thou and bushels wheat, forty eight hogsheads bark, one hundred and twentyeight bales hemp, fourteen bales hops, thirty-six bales rags, one hundred and seventy-two cases port wine, forty barrels flour, sundry boxes merchandise, and four cases machinery. She carried out seventy-five pastengers, among whom were Messrs. William F. Hacker William L. Walker, Henry McKay, and Francis N. Colboun, well known in this city. She was commanded by Captain Theodore Julius, his son being first mate. It is to be presumed the Tonawanda had no very great available means of defence, or she would not have faller to essy a prey to her captors.

PRESENTATION OF MAPS.—We yesterday saw at the office of the Medical Director a beautiful specimen of maps, called the Washington Map of the United States, and got up by M. F. Maury, LL. D., commander of U. S. Navy, and superintendent U. S. Naval Observatory. It embraces the whole view of the United States, with every county clearly defined, the relative church accommodations of various denominations, a geological map, a schedule of the temperature and ananual fall of rain throughout the States, the zoological distribution, the census for 1860, the distribution of staples, plants, and trees, etc. Righty of these maps have already been delivered into the hands of the medical director for distribution among

the various hospitals. The soldiers throughout the wards will take great interest in contemplating them, and tracing out the past and future movements of the rebels Turner's lane and West Philadelphia hospitals have already been supplied, and the Germantown hospital will be similarly furnished by Mr. Joseph Lesley, the gentleman in communication with Dr. King, the medical director. The design and propriety of this gift are worthy

EXPENSES OF THE COMMISSION FOR THE RELIEF OF THE FAMILIES OF VOLUNTEERS .-During the past two weeks the Commission for the Relief of the Families of Volunteers has disbursed the following sums: First, Second, Third, and Fourth wards, \$5,733 25.

Fifth and Eighth wards, \$2,217.75. Sixth and Seventh wards, \$1,471. Ninth ward, \$640.75. Eleventh, Twelfth, Fourteenth, Sixteenth, Seven centh, and Twentieth wards, \$9,166. Thirteenth ward, \$406.50. Fifteenth ward, \$1,511 75 Eighteenth and Nineteenth wards, \$1,719.

Twenty-first, Twenty-second, and Twenty-third wards. \$2,219 50.

Twenty-fourth ward, \$863. THE SHERIFF'S SALES .- Yesterday afternoon Sheriff Ewing held his monthly sale, at Sausom. street Hall. Under a decision of the Supreme Court, in reference to the sheriff's case, published elsewhere, Mr. Thompson did not sell the properties that were advertised to be sold by him. Nor would Mr. Ewing sell them, he declining to have anything to do with them, because the writs were not directed to him as "Robert Ewing, sheriff of Philadelphia." The writs for those properties must be again taken out, before they can be legally sold at sherifi's sale. Yesterday Mr. Ewing, in the Supreme Court, entered bonds for \$5,000 to pay over to Mr. Thompson the emoluments of this sale, in case the decision of the court on the writ of certiorari shall be in his favor on the 15th of November.

THE CASE OF WM. H. WINDER.-Wm. H. Winder, formerly of this city, but now confined at Fort Warren, states that having at some time taken the oath to support the Constitution, he is now justified in refusing to take the oath of allegiance. The following sentence from his petition, filed in the Circuit Court at Boston, shows the position he takes in relation to the Go-My release was tendered to me on condition of taking the oath of allegiance, &o , &c. I declined to accept re-

ed upon condition of taking the oath, which offer was accompanied by a letter of explanation from Governor accompanied by a letter of explanation from Governor Seward, intended to remove supposed objections, in stating that support of the Constitution did not include support of individual members of the executive. My objection being radical, applied to all tests of conditions which might be supposed to admit that I had done any thing inconsistent with the character of a true American, and I of course declined this second offer of re-

IN DISTRESS.—Captain Burgess of the schooner Coernine, from Turk's Island, reached this port yesterday, and reports having fallen in with the brig H. D. Ruggles, from Philadelphia for Guadaloupe, in a sinking condition; took off captain and crew, and brought them to this port. Captain Cann, of the H. D. R. reports that on the 17th of September, he encountered a violent harricane off Bermuda, which dismasted the brig, swept the deck, got water logged, and was in a sinking condition when taken off. Captain C. states that on the 21st of September, in same lat, and lon., he saw a brig dis-masted, abandoned, and no name on her stern. MEDICINAL. TIM, and other modifications of ELECTRICITY, re-Tabil, and other modifications of ELECTRICITY, re-ceived general favor among the most liberal Medical Men of the Old Schools, and is Prof. B's system now being brought rapidly into public favor? Yes, verly, and if you doubt it, read carefully the following extracts of letters, and also opinions of some of the most eminent Medical Men of this and other States, who have been traveling and lecturing; teaching and applying the differ-ent modifications of Electricity, as taught them by Prof. BOLLES: traveling and locturing, teaching and applying the different modifications of Electricity, as taught them by Prof. BOLLES:
READ THE FOLLOWING FROM EMINENTM. D'a The testimony or a Medical Man of the Oid Schools, thirty years—fifteen years in the Allopathic School and fifteen in the Homeopathic—and has for two years since, being qualified by Prof. B., made Rilectricity a rectalty, has cured thousands never benefited by medicines:
Some five months ago I was attracted by a card of Professor Bolles, No 1220 Walnut street, Philadelphia, claiming a discovery that he had made in the use and application of the varicus forms and modifications of Electricity for the cure of all carable diseases. I called on this gentlemen, and after listening to his theory of the Electrical laws governing life, health and disease, and his discovery in the application of Electricity in accordance with the polerities of the brain and nervous system; I was impressed that he had something new, and at once applied for instructions on the subject. I now speak from experience, as I have remained in his office for two months, watching the result of his operations and having mysel: the charge of one of the treating rooms for nearly the whole time, and treated from twelve to fifteen cases daily, comprising nearly every kind and grade of chronic disease. Although my expectations were high, I must confess they have been fully realized. I have seen a great number of patients who had availed themselves of the best medical skill and remedial agents for years—cases I well knew to be incurable by all other known remedies—permanently cured by a few applications of Electricity; and what has surprised me most, was the rapid improvement and cure of many cases pronounced pulsanonary consumption by their physicians, because I had been instructed by Dr. Palge to avoid all such cases, as the treatment tended to injure. I feel impelled by a same of duty to caution the public against the indiscriminate use of Electricity, as I have known injury to result from its

Professor Bolles, and, therefore, conclude it is original with him.

I would say to those tampering with this mighty agent of life and death to beware lest you strike a blow at the citadel of life, and never think of applying it to the living organism until you understand its nature; and when, where, and how to apply it.

I would here take occasion to recommend my professional brethen throughout the country to turn their attention to this important sgent as taught by Professor Bolles, who has certainly, in my opinion, discovered the only reliable mode of its application, and thus rendered

W. B. Wells, M. D., Buffalo, N. Y., after a year's practice, writes to Prof. B. as follows:
I think my faith fully comprehends the fact that Electricity, correctly applied, according to your discovery, is abundantly competent to cure all curable diseases. My experience and success, after extensive practice, fully warrant this assertion. Were I sick with a fatal disease, I would far sooner trust my life in the hands of a skilful Electrician than all the "pathies" on earth besides

PROF. BOLLES: I sm fully satisfied that Electricity, when understood according to its polarities and their relations to the fixed laws of the vital economy, as taught by you, is the most powerful, manageable, and efficient segent known to man for the relief of pais and cure of disease. I would further state that I have for the past few weeks used Electricity in my practice, to the exclusion of nearly all other remedies, and have been eminently successful, and consider it a universal therapeutic. DAYTON, Ohio. D. MOCARTHY, M. D.

Prof. Bolles: For the last nine months I have made Electricity a specialty, and my faith is daily increasing in its therapentic effects, and I believe, when applied according to your discovery, it will cure all curable diseases, among which are numerous cases never benefited by medicine. BUFFALO, N. Y. P. W. MANSFIELD, M. D. What I have now to say is from actual observation, as I have spent most of my time for the last two months with Prof. Bolles, and have witnessed the effects of the Electrical agent on from fifteen to twenty-five patients a day, suffering from almost every form of chronic disease; and surjent grow amost every form of chrome disease; and as strange as it may appear, in a majority of cases: a perfect cure was effected in from five to fifteen days. And I will here remark that most of his patients were afflicted with long-standing complaints, considered incurable by all other known remedies.

H. G. KIRBY, M. D.

PROF. BOLLES: A great revolution in my mind s Prof. Bolles: A great revolution in my mind and practice has taken place since I became acquainted with your new discovery of applying Galvanism, Magnetism, and other modifications of Electricity as a curative agent. I have found by many experiments that Electricity is a safe therapeutic agent in all acute and chronic cases when applied according to your discovery. I desire that medical men should become conversant with your discovery. CLEVELAND, Ohio. MARVIN GODDARD, M. D. ROCHESTER. N. Y., September 10, 1859. PROF. BOLLES—DEAR SIR: The more I investigate this system of practice, the more confident I am that it is all-powerful to meet the ten thousand diseases to which is all powerful to meet according to be a reliable flesh is heir.

You, who first discovered Electricity to be a reliable therapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the woes and ills of suffering humanity. It is atrange that physicians have become so wedded to their saveral systems, brought up from the darkness of past ages, that they will close their eyes against the light now beaming forth through this system of practice. All other systems I regard as the morning star to the rising sun.

P. SHEDD, M. D.

PROF. BOLLES: The nearer I conform to your system of application, the more successful I am, and as I have examined all the guides and works published upon the subject, and seen nothing in reference to your theory, I do not hesitate to say I believe it to be original with you, and the only reliable system extant for curing disease,
Respectfully yours,
