PROCEEDINGS OF COUNCILS. Resolutions in Reference to Language used by Certain Speakers at a Recent Political Meeting—important Messages from the Mayor Relative to the Vacation of "Un-necessary Offices," Etc.—The Pirate "Ala-bama"—The Annual Appropriations to the Various Departments. The stated meeting of Councils was held yesterday SELECT COUNCIL met at half past 3 o'clock; the president, Theo. Onyler, Communications Presented. Communications were presented as follows: From the Northern Liberty Fire Company No. 1, asking that a suitable location be fixed for housing their ambulance; firm the Superintendent of City Bailroads, ambuilting a statement of tolks etc.; from the Chief Commissioner from the Superintendent of City Railroads, submitting a statement of tolls, etc.; from the Chief Commissioner of Highways relative to the expense of paving fearthin streets; from Robert Ewing, high sheriff of Philadel phia, recommending the passage of an ordinance for settling bills of expense incurred in publishing the proclamation of the last election; from the citizens of Germantown, saking for some improvement in the character of the water supplied to the Twenty-second ward. ward.

Mr. Megary submitted the following from the colonal and officers of the Scott Legion, 154th Regiment (addressed to Councils):

Gentlemen: Whereas, the time having expired on Tuesday last, for the further payment of the \$200 bounty authorized to be paid by your honorable body to all men calisting for sine months' service; and whereas it has become a very serious drawback to the further recruiting of men for the service, in consequence of not being able to pay any bounty; we do, therefore, respectfully petition your honorable bodies to continue the said bounty of \$200, or such amount of bounty as you may be pleased to determine, to all recruits that calisted since the expiration of the act, or who may hereafter enlist in this regiment. Messages from the Mayor.

regiment.
The petition was referred to the Committee on De-The following messages were received from the Mayor:

To the Select and Common Councils of Philadelphis:
GENTLEMEN: The bill entitled "an ordinance presorbing the powers and duties of the City Treasurer," which has been adopted by Councils as part of the new muricipal code, does not embody the provisions of the recolution approved December 5th, 1859, requiring distinct accounts to be kept, and separate deposits made, of money's belonging to the sinking fund of the city, and I therefore return it with the suggestion that if a new bill be provided for consideration such provise should be added thereto.

The ordinance which is designed to conclude the series of enactments for the new code will affect the repeal or all prior inconsistent legislation; and if the objections which may be entertained to each successive bill, either for its declare tery terms or its insufficiency, be postponed until such final ordivance shall be presented for the approved of the Mayor, it will not afford a suitable opportunity for withholding his assent, and I therefore prefer communicating, from time to time, any objections which may prevent my concurrence with the bills as they shall reversily pass the Councils.

In order to meet the objections of the Mayor, and so-cure a more astifactory ordinance. cure a more satisfactory ordinar cure a more satisfactory ordinance,
Mr. Davis submitted a bill, defining the powers and
duties of the City Treasurer, which was taken up and Abolition of Certain Offices. The following message from the Mayor was read: The following message from the mayor was resu:
GENTLEMEN: I return the bill entitled "an ordinated to establish and organize the Depart paned Vity Property, objecting to the control of saveral officers of the believed may be abolished with advange to the city.

The ordinance of May 9th, 1861, making appropria.

tege to the city. The ordinance of May 9th, 1861, making appropriation to this department, did away with the office of Superintendent of Law Buildings, sub-situting therefor a janitor of the grand and petit jury rooms. As there is no good reason why these offices should co-exist, I recommend that one of them should be dispensed with. I also recommend that the offices of the three watchmen of the city buildings, on Chestutt street, and that of watchman of the State House, be abolished, being satisfied, from due inquiry and observation, that they are unnecessary. The three watchmen in the steeple of Independence Hall are no longer essential. The police fire-alarm telegraph, in almost every inctance, anticipates the information which they are designed to obtain, and the ringing of the bell for alarms of fire is obviated by the it stanteneous communication of the locality of a configration to the several slarm fire-engine company houses in the appropriate fire districts.

The records of the municipal telegraph show the numbers of alarms given through the watchmen of the steeple and communicated through the wires to have been in 1857, 22; 1855, 23; 1859, 22; 1860, 18; 1861, 19; 1862, 6. It is probable that no material assistance toward the suppression of fire occurred in any one of these instances, 6. It is probable that no material assistance toward the suppression of fire occurred in any one of these instances, from such momentary priority of notice; certainly none that would compensate for the alarms which are given through the misapprehension of objects or distances, and which necessarily disturb the entire community.

In committing to the Pelice Department the exclusive management of the alarm bell, to which it manifestly nertains, there can be no necessity of burdening the city pertains, there can be no necessity of burdening the city with the payment of \$3,500 in salaries for offices which are without necessary functions.

The appointment by the City Committee of two watchmen for the wire bridge, near Fairmount, is anomalous, as the care or the supervision of the bridge does not belong to the department. If Councils deem it best to retain such officials, inde-If Councils deem it best to retain such omersis, independent of the police, I would suggest that their appointment be vested in the Ohief Commissioner of Highways, to whom they should be immediately responsible. The duties of all watchmen of public property should be perparin ent, from which their appointment should emanate, if additional aid for such purposes be essential.

On motion of Mr. MEGARY, the consideration of the Mayor's message was postponed, and the subjects treated of referred to the special committee, which originated the ordinance relative to city-property. Reports of Committees.

Reports of Committees.

Mr. MEGARY, from the Committee on Water, submitted a report, with an accompanying resolution, directing the laying of water pipe in Hancock street, from Cumberland street to Susquehanna avenue, Nicateenth ward; in Grove street, near Perkiomen, Fifteenth ward, and in Wallace street, from Twenty second to Twenty-third streets, Fifteenth ward. The resolution was adopted.

Also, a report from the same committee submitting an ordinance to make an appropriation to the Water Dapartment for paying certain uppaid bills of 1861, and to refund certain twice-paid water rents of 1861 and 1882. Adopted. [The bill provides for an appropriation of \$512.74]

Mr. Ford, from the Committee to verify the cash ac-Mr. FORD, from the Committee to verify the cash accounts of the City Treasurer, submitted a report stating the cash in hand to be \$1,560.62. Resolutions Submitted. A resolution was adopted entitled "a resolution to enter satisfaction on the official bonds of J. Fieshenresolution was submitted for repaying Steam Mile

The Pirate Alabama. Mr. Craic offered a recolution directing that the Committee on Defence and Protection be directed to inquire of the banking, mercantile, and inturance companies of Philadelphia, in regard to the propriety of fitting out an aimed steamer for the purpose of endeavoring to capture the pirate Semmes and his piratical craft Alabama or \$250,77 and that they report at the next meeting.

The resolution was referred to a standing committee. Resolution in Reference to Language used by Speakers at a Recent Political Meeting. The fellowing was offered by Mr. Lynn: Whereas, At a political meeting hold in Independence Square on the 11th day of October, 1862, the chairman thereef, in speaking of the result of certain State elections, said: "To what advantage are we to turn our success? One of the first things is the putting down of success? One of the first things is the putting down of the Federal Government;" and subsequently, in introducing to the meeting one of the speakers, said: "You will now have a speech from that great traitor, F. W. Hughes," and the said Hughes then said: "His friend had given him the flattering introduction of great traitor. He asked to be permitted to greet his audience as fellow-traitors. The thirty thousand traitors present constituted one-tighth of the traitors in Pennsylvania," &c;

Therefore by the Select and Common Councils, be it Resolved, I. That these Councils have received information of the above recited proceedings with infinite rogret and mortification, and avail themselves of the earliest opportunity of expressing their unqualified condemnation thereof; and they hereby denounce the language above quoted as utterly unworthy alike of the Pennsylvanian and of the Philadelphian, of the pairtiot and of the gentited when it was addressed, and expressions the second of the political party to whom it was addressed, and expressions are a created and expressions. iteman; as uncanctioned by the masses of the political party to whom it was addressed, and as a gross profanation of the sacred precincts in which it was held.

2. Resolved, That, in order to preclude the possibility

of a reputition of an occurrence so derogatory to the fame cf. our city, and in order to yindicate the sanctity of the How the Resolutions were Disposed of. Mr. DOUGHERTY moved to lay the resolutions on the table.

The PRESIDENT said that, according to parliamentary law, the resolutions, like all other papers, would lie on the table. The only motion in order was so suspend the rules and proceed to the consideration of the resolutions.

Mr. Dougherty was about to appeal from the decision of the Chair, but, upon an explanation of its correctness, had saisted. Mr. LYND then moved that the rules be suspended, and the body proceed to consider the resolutions.

Mr. Pougherry moved to lay this motion on the table.

Mr. Lynd then said he had no intention of making a Mr. LYND then said he had no intention of making a speech, for he considered that in themsolves the resolutions were rufficiently explanatory. The fanguage alleged to have been used was regarded as unsound by the matter of the political party to which it was addressed. The recital of the language alleged as having been used at the meeting in question was given by the morning newspapers on the day succeeding. He was not present on the occasion referred to, but he took it for granted that the newspaper report was correct.

Mr. Fox. Is not the gentleman aware that Mr. Chas. Ingured published a card in the afternoon papers of

At Cay denying having used any such language.

Mr. Lynd. I was not aware of it.

Mr Fox. Each a card was published.

Mr. Lynd continued: The fact that Mr. Ingersoll may have published the eard, to which allusion is made, does not explain his subsequent remarks when he introduced Mr. Hughes to a large suddence as "a great traitor;" ner does it explain the language of Mr. Hughes when he said he felt bimself complimented by being called a great traitor; and that he was pleased to address those before him as fellow-traitors.

He believed that this language, taken in connection with the snimus of Mr. Hughes' speech, in view of the place him and under which it was delivered, wroper but positively incumbent.

Schr Knight, Gage, from Boston for Philadelphia; Pearl, Hill, from Saco for do; Elizabeth Ann, West, from Provincetown for do, and Wm B. Genu, Bacon, from Boston for do, salled from Newport 4th inst. Schrs Ecphia Ann, Smith, and A Pharo, Lippincott, salled from Provinces 3d inst. for Philadelphia.

NOTICE TO MARINERS.

NOTICE TO MARINERS.

NOTICE TO MARINERS. upon Connoils to the proper but positively incumbent posed. The elections were over 1 the resolutions prote institution of pandering to the justly chargeable with any partism of the pandering to what he regarded as political pettifogging; but the resolutions had been offered with the single view of sustaining that feeling of reverent sanctity and devoted particularly that feeling of reverent sanctity and devoted particularly the property member of Councils should feel, and feeling which every member of Councils should feel, and feeling which he ought to express at such a time as the present. which, he ought to expers at such a time as the present. The country was now at war with millions of robels; the blood of the best and nob est had saturated our virgin land; the contest had grown in fierceness, and also in importance; it involved the interests not of the North or porfance; it involved the interests not of the North or South, but of civilized liberty throughout the world Yet, with the magnitude of the great cortest pressing upon up, at uch a time, we behold a meeting held in Independence Equare, at which two public speakers were indiscret enough to use the language recited in the resolutions. He thought the necessity of a rebuke to such men was imperative; that there should be a standing rebuke—a monumental rebuke, if you pease—which would go down to future generations, and show them when buke—a monumental rebuke, if you please—which would go down to inture generations, and show them why it was that political meetings were discarded from the purlieus of the sacred edifice of Independence.

Mr. Fox said he had no desire of constituting himself the champion of Mr. Ingersoll, or anybody else, but he stood ready to vindicate the Chamber of which he was a member, and the city of Philadelphia, from a species of viry. *mail. Dusiness. When the municipal legislature attempted to usurp the functions of indical authority and derogate to itself an exclusive and prejudiced consorrship, it was furning away from its legitimate duty. When it was once, undertaken by a municipal body with limited it was turning away from its legitimate duty. When it was once, undertaken by a municipal body with limited specific duties, to cendemn the people, or that portion of them entertaining sontiments adverse to those of their representatives in power, for an avowal of their views at

public assemblages, there would be no cessation of the precice. In such a juncture the time of the body other-wire rightfully and necessarily appropriated to the wel-fare of the community, would be frittired away in the wife lighthlily and necessarily appropriated to the welfare of the community, would be frittired away in the discussion and disposition of matters having no bearing upon the public week. He was not propared to shut the gates upon any public meeting, or deny to the geople free access to the venerated precincts of Independence Hall. The privilege of free speech was a guarantied right which should not be intringed upon. It anything had been said at the meeting in question which might be proven justly liable to censure or pruishment, there was a duly prescribed manner in which the law would vindicate its majesty. If any offence were proven, the offer dery were amenable to the law. The Councils of Philadelphia were not a body so potential as they were the Councils of the city, so far as its numicipal attangements were concerned, nothing more.

In echolosion, Mr. For deprecated any attempt on the part of Councils to criticise the action of the people upon the Councils to criticise the action of the people upon the Councils as the grant of the councils of the city, so far as its numicipal attangements were concerned, nothing more.

In echolosion, Mr. For deprecated any attempt on the part of Councils to criticise the action of the people upon the Councils to criticise the action of the people upon the Councils to criticise the action of Mr. Dougherty to table the motion of Mr. Dougherty to table the motion of Mr. Dougherty to table the motion of Mr. Dougherty to table the metion of mr. L. ad.

The year and nave were called, with the following result: year, 7; Lays, 9. The motion was therefore not The question then being on the motion of Mr. Lynd to proceed with the resolutions,
Mr. Drokson moved to refer their further considera. tion to a special committee of three. for The motion was agreed to, and the resolutions so re-

From Common Council. The resolution to make certain transfers in the appropriation to the City Commissioners, for the year 1862, The amendments to the ordinance relative to the clerks of Councils, rade by Common Council, were non-concurred in red in.

The annual appropriation bills from Common Council were then up. The Police bill was first considered. THE SHEW COUNTY LANGUES OF THE PARTY OF THE AND HE SEE SEE SEE SEE SEE

The bill to make an appropriation to the Law Department was next taken up. Several other similar bills were considered, all of which were passed. Adjourned. COMMON COUNCIL, Wilson Kerr, president, in the chair. Petitions and Communications, as follows, were received:

From Mr. Hufty, Ofty Controller, transmitting the estimate of receiping and expenditures for the following departments for the ensuing year:

A communication was also received from Mr. Ewing, late Sheriff, asking for an appropriation of \$700 to defcay the expenses of issuing his recent election proclamation.

Also, for an extra appropriation of \$100 to the City Controller for the purchase of new books. Reports of Committees. The Cemmittee on Finance reported a resolution to enter satisfaction on certain mortgeges of Benjamin Resolutions.

B., made Electricity as specialty, being qualified by Prst. B., made Electricity as specialty, being qualified by Prst. B., made Electricity as specialty, being qualified by madiging in the property of the prop bring qualified by Pret. B., made Electricity a specialty, being qualified by Pret. B., made Electricity a specialty, bear curred thousands never benefited by medicines:

Some five months age I was attracted by a curd of Professor Boiles. No 1220 Walnut street, Philadelphile, cleaming a discovery that he had made in the use and application of the various forms and modifications of Electricity for the cure of all curable diseases. I called on this gentlemen, and after listening to his theory of the Electrical laws governing life, health and disease, and his discovery in the application of Electricity in accordance with the polarities of the brain and nervous systemy. I was impressed that he had something new and at once applied for instructions on the subject. I now speak from caperience, as I have remained in his office for two months, watching the result of his operations and having mysel—the charge of one of the treating rooms for nearly the whole time, and treated from twelve to fitteen cases dally, comyrising nerrly every kind and grade of chronic disease. Although my expectations were high, I must confess they have been fully realized. I have seen a reat number of patients who had availed themselves of the best medical skill and remedial agents for ware-

coniess they have been fully realized. I have seen a great number of patients who had availed themselves of the best medical skill and remedial agents for years—cases I well knew to be incurable by all other known remedies—permanently cured by a few applications of Electricity; and what has surprised me most, was the rapid improvement and cure of many cases pronounced pulmonary consumption by their physicians, because I had been instructed by Dr. Paige to avoid all such cases, as the treatment tended to injure. I feel impelled by a sense of duty to caution the public against the indiscriminate use of Electricity, as I have known injury to result from its use, in the hands of the ignorant. I would here remark that I have never in my whole experience, or observation from books, pamphlots, or intercourse with men, read or heard of the general or special application of Electricity to the cure of desage, as taught by Professor Bolles, and, therefore, conclude it is original with him. with him.

I would say to those temporing with this mighty agent
of life and death to beware lest you strike a blow at the
citadel of life, and never think of applying it to the
living organism until you understand its nature, and
when, where, and how to apply it. when, where, and how to apply it.

I would here take occasion to recommend my professional brethren throughout the country to turn their attention to this important egent as taught by Professor Bolles, who has certainly, in my opinion, discovered the only reliable mode of its application, and thus rendered an important service to the healing art, and a lasting blessing to suffering and diseased humanity. blessing to suffering and diseased humanity

JAMES P. GREVES, M. D., Fince then Dr. Greves has been qualifying his brethre

in the medical profession, who, to a man, endorse the discovery of Professor Bolles

W. B. Wells, M. D., Buffalo, N. Y., after a year's practice, writes to Prof. B. as follows:

I think my faith fully comprehends the fact that Electricity corrections. tricity, correctly applied, according to your discovery, is-abundantly competent to cure all ourable diseases. My experience and success, after extensive practice, fully warrant this assertion. Were I sick with a fatal disease, I would far econer trust my life in the hands of a skilful Siectrician than all the "pathies" on earth besides BUFFALO, N. Y. W. B. WELLS, M. D. PROF. BOLLES: I am fully satisfied that Electricity. when understood according to its polarities and their re-ations to the fixed laws of the vital economy, as taught lations to the fixed laws of the vital economy, as taught by you, is the most powerful, manageable, and efficient agent known to man for the reilef of pais and cure of disease. I would further state that I have for the past few weeks used Electricity in my practice, to the exclusion of nearly all other remedies, and have been eminently successful, and consider it a universal therapoutic.

Dayron, Ohic.

D. McOARTHY, M. D.

PROF. BOLLES: For the last nine months I have made Electricity a specialty, and my faith is daily increasing in its therepeutic effects, and I believe, when applied according to your discovery, it will ours all curable diseases, smeng which are numerous cases never benefited Buffalo, N. Y. P. W. MANSFIELD, M. D. What I have now to say is from actual observation, a I have spent most of my time for the last two mo Prof. Bolles, and have witnessed the effects of the

rion logies, and have witnessed the cifects of the Elec-trical agent on from fifteen to twenty-five patients a day, suffering from almost every form of chronic disease; and as strange as it may appear, in a majority of cases a per-fect cure was effected in from five to fifteen days. And I will here remark that most of his patients were afflicted with long-standing complaints, considered incurable by with long-standing complaints, considered incurable ball other known remedies.

H. G. KIBBY, M. D. Prof. Bolles: I believe your discovery to be a reliable therapeutic agent, and feel it my duty to recommend it. Since I have received instruction from you, I have applied it in cases of Aphony, Branchittis, Corea, Amenorrheea, Asthma, and Congestion, and find that I have the same success that you had when I was under your instruction. I invariably recommend medical men to avail themselves of an opportunity of becoming acquainted with your new method of applying Electricity.

DETROIT, Michigan. DAVID THURSTON, M. D. Prof. Bolles: A great revolution in my mind and practice has taken place eince I became acquainted with your now discovery of applying Galvanism, Magnetism, and other modifications of Electricity as a curaitye agent. I have found by many experiments that Electricity is a safe therapeutic agent in all acute and chronic cases when anothed according to your discovery. I desire that mediapplied according to your discovery. I desire that medi-cal men should become conversant with four discovery. CLEVELAND, Ohio. MARVIN GODDARD, M. D. PROF. BOLLES—DEAR SIR: The more I investigate this system of practice, the more conddent I am that it is all powerful to meet the ten thousand diseases to which lesh is heir.

You, who first discovered Electricity to be a reliable

vol. who first discovered Electricity to be a reliable therapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of ourse for the woes and ills of suffering humanity. It is strange that physicians have become so wedded to their soveral systems, brought up from the darkness of past agos, that they will close their eyes against the light now beaming forth through this system of practice. All other systems I regard as the morning star to the rising suc.

P. SHEDD, M. D. PROF. BOLLES: The nearer I conform to your system of application, the more successful I am, and as I have examined all the guides and works published upon the subject, and seen nothing in reference to your theory, I do not hesitate to say I believe it to be original with you, and the only reliable system extent for curing discass.

Toronto. CHAS.BANDALL, M. D. Toronto.

The opinion of a medical man, after thirty years' practice, fifteen in Allopathy and fifteen in Homopathy:
PROF. BOLLES—DEAR SIR: I never have, since you have the first particular in which have the property of analyting FROF. BOLLES—DEAR SIR: I never have, since you gave me instruction in your new discovery of applying Electricity, and God forgive me if I in the future ever do, practice either Homesopathy or Allopathy. I have been strictly governed by the philosophy you laid down, and for the best of reasons—namely: That I am generally successful; and I frankly say to you that I am done with medicine is sever.

with medicine ferever. with medicine isrever.

My success has been great since I have been in Newark, M. J.

JAMES P. GREVES, M. D.,

205 Pine street, Philadelphia. N. B.—In addition to the above extracts, Prof. B. could furnish over one thousand, fully showing that he is well known to the medical and scientific world as the discoverer of all that is reliable in the therapoutic administration. discoverer of all that is reliable in the therapoutic administration of Electricity, and that all other operators now in the different cities (except those qualified by him) are using Electricity at hazard, and Prof. B. takes this occasion to contion the community against chariatans. Office 1220 WALNUT Street, Philadelphia.

N. B.—Medical men and others who desire a knowledge of my discovery can enter for a full course of lectures at any time.

TARRANT'S EFFERVESCENT SELTZER APERIENT. This valuable and popular Medicine has universally re-ceived the most favorable recommendations of the Medical Profession and the public as the most Efficient AND AGREEABLE SALINE APERIENT. It may be used with the best effect in

Bilious and Febrile Diseases, Costiveness, Sick Headache, Nausea, Loss of Appetite, Indiges-tion, Acidity of the Stomach, Torpidity of the Liver, Gout, Rheumatic Affections, Gravel, Piles, AND ALL COMPLAINTS WHERE A GENTLE AND COOLING APERIENT OR PUR-GATINE IS REQUIRED. It is particularly adapted to the wants of Travellers by Sea and Land, Residents in Hot Climates, Persons of Sedentary Hebits, Invalids, and Convalescents; Captains of Vessels and Planters will find it a valuable addition to their Medicine Chests

their Medicine Chests. It is in the form of a Powder, carefully put up in bottles to keep in any climate, and merely requires water poured upon it to produce a delightful effervesoing beverage.

Numerous testimonials, from professional and other gentlemen of the highest standing throughout the country, and its steadily increasing popularity for a sories of years, strongly guaranty its efficacy and valuable character, and commend it to the favorable notice of an intelligent public. character, and commintelligent public.
