THE CITY.

The Thermometer. WIND. SF..... Sby W..... SW. SSW...... SSE. SINGULAR ACCIDENT AT A ROLLING-MILL-LOSS OF LIFE.-Yesterday morning between 10 and 11 o'clock an accident of a singular character

happened at the large establishment of Wm. Bollin & Co., on Frankford creek, by which one lad lost his life and several other persons made narrow escapes. The mill is located on Frankford creek, not far distant, to the right of the bridge, on the road to the village. It is a large structure, and quite an army of men and boys are employed there. From some cause or other the fly-wheel burst, a piece of which struck a lad named Samuel Hamilton, sixteen years of age, killing him instantly. The fly wheel was about twelve or fourteen feet in diameter, and weighed eight tons, and at the time it burst into pieces, was making between two hundred and three hundred revolutions per minute

A number of the operatives were busy in pursuing their several branches of business, and five or six of them were in close proximity to the wheel, when all of a sudden a terrible crash occurred, as about two tons of the fly-wheel passed with great velocity through the roof, carrying in its resistless course about twenty-five or thirty feet of the roof. The iron shot up into the air to a great distance, and fell harmless to the ground, where it buried itself. Other pieces of the wheel took a more horizontal direction beth ways, while the heavy spokes flew about in divers directions, amushing and crashing through boits, wheels, and machinery generally, and appalling the men. Unfortunately for the lad Hamilton, he was in the way of one of the ponderous missiles, and in an instant he was

hurried from time to eternity. His body was terribly mangled. It was conveyed, by police officers, to the Twenty-third-ward station-house, and the coroner was summoned to hold an inquest. Another pieco of iron went whirling past one of the blacks with the wind of which knocked him down, and, for a few moments, it was thought he was dead. Four or five men, and as many boys, only a moment before the burst, moved from the course the fragments took. They thus made a very narrow escape from instant death. The pieces of flying iron played fantastic tricks. Parts of the machinery were bent into almost every imaginable shape. Thick bars of iron were twisted and broken as though they were mere pipe stems. Great heams were smarked into splinters, and pieces of them were hurled to great distances. The entire disaster was the work of a moment only. The damage done to

property will reach, it is estimated, over two thousand

Of course it will require a very careful and perhaps scientific examination to ascertain the real cause of the wheel bursting. About three o'clock, yesterday afternoon, the corone held an inquest, and commenced an investigation into the case. Several witnesses were examined, one of whom was the father of the boy who was killed. The unfortunate youth resided with his parents in Adams street, Frankford. At the time of the accident he was working directly in front of the wheel, a piece of which struck him on the head, crushing in the skull. When picked up he was lifeless. The fly-wheel was about sixteen or eighteen feet in diameter, and weighed several tons. It had been in use some time, but at the time of the accident was moving with no greater force than usual. No cause whatever could be assigned for the accident. It is more than probable that the wheel, from use, had become weakened in some of its parts, and while revolving at the rapid rate required flew into

AN OLD TRICK REVIVED .- Professional beggars resert to all kinds of trickery in order to work upon the feelings of the kind-hearted and attain their object. A mendicant appears in the streets with one story to-day and another to morrow; or he is seen with a crutch at one time and his arm in a sling at another The same dodge is never practised two days in auccession, although it is often revived after a spell. Yesterday, at the Police Station, an old trick practised years ago was brought to our notice. It seems that a family residing in the western part of the city a few nights since heard a noise at the street door, and upon opening it to ascertain the cause, found a young man lying upon his back, apparently suffering with a severe fit. He was taken into the house and kindly treated until the effects of the attack had apparently left him, when he stated that he was from New York, was thirteen years of age, and had always been subject to fits, caused lieved, he was furnished with a supper, sixty cents in money, and a good warm coat. Upon leaving. one of and saw him escend another stoop, lie down in the vestibule, and again commence kicking and struggling, but occasionally lifting up his head to see if any one was approaching, and then go through the same manceuvre. The gentleman who was watching the rascal rang the bell of the house, and upon one of the inmates obeying the summons, he explained the whole dodge. It was some few moments before consciousness could be restored to the poor invalid, but, after a series of shakings, he revived to understand that his very clever game had been spoiled. The money previously given to him was taken away, and a pelice officer being called, he was taken to the police station, locked up, and committed to prison as

SELLING LIQUOR TO SOLDIERS .- At the request of the surgeons in attendance at our army hospitals, a number of our notel keepers refuse to sell liquor to our sick and wounded soldiers who may be permitted out enjoying "holiday furlough." Many need no remonstrance, but refrain from a conscientious sense of right, fully aware of the trouble entailed by the administering of stimulants, if not the endangering of life to those whose constitutions are broken and paralyzed from wounds and disease. There are some exceptions to this class. But we are happy to state it is mostly comrosed of those who sell liquor without license, and in violation of law. And no where is the law more openly vio lated than in the brothels in the vicinity of Thirteenth and Wood streets. Night after night numbers of feebles voral rendezvous in an insbriated state, and the very guard sent to look them up are very often the abettors of these dens of infamy and shame. By means of back entrances these parties can escape capture if desired, and when those sent desire to do their duty they are foiled by this means, and forced to report "no capture" at headquarters. Thus accomplices gain a credit by successful arrests, when they really merit condemnation. The parties who violate, and the landlords who rent their properties for such purposes, should be brought to jus-

CHARGED WITH MURDER.—A colored man, named Joseph Pegen, was arrested in Jersey City. near the Morris canal ba in, on a charge of committing a murder in Ponnsylvania nearly two weeks since. It appears that a man named Edwig S. Benner, residing at Bethlehem, Pa , was at a public house on the evening of the 27th ult., engaged in playing a game of bagatelle. Two colored men were present, and one of them getting in the way, Mr. Benner made some remarks, at which the colored men took (ffence, and soon after went out. Later in the evening, Mr. Benner started for home, and on his way was waylayed by the rascals, and beaten with clubs, enstaining injuries which caused his death the following day. The assassins escaped, but one of them, named John G Clark, was arrested in Newark on Saturday, and the other was arrested as above stated. He was sent to Bethlehem for trial.

BEFUSE TO PAY THE PRICE.—At the last meeting of the Controllers of the Public Schools a hill of Lewis S. Rush for one hundred and forty dollars, for laying a new floor at the Monroe school-house, on Buttonwood street, below Eleventh, was presented. The bill gave rise to considerable discussion, and was finally referred to the Committee on Property. The committee had a meeting Monday evening, for the purpose of investinot been taken up, but had been covered with the new boards. The teachers complain that the new floor is lasky. It was also ascertained that the job could have been done at a much less price. The committee, therefore, instructed their chairman to report adversely upon

RELEASED FROM THE DRAFT.-The following additional Ponnsylvanians who were drafted have been released by the Department of State on the ground of alienage:

J. B. Skelton, Luzerne county.
John Welch, Luzerne county.
Jacob Christopher Branes, Luzerne county. Patrick Hanahan, Luzerne county. chael Welch, Luzerne county. en Carbine, Luzerne county. chael Loftice, Luzerne county. John Gleason, Luzarne county.

Franz Joseph Bender, Lancaster county.

Franz Henrick Wagernan, Lancaster county.

Mathias Imbeer, Lancaster county.

Mathias Imbeer, Lancaster county.

Latur Ker verger, Lancaster county. John Kerzeenger, Laucaster county.

John Zell. Laucaster county. Angustus Block, Berks county. Frederick Tres le. Erie county. ohn Losech, Eris county. atrick Wills, Schurlkill county lexander Harrison, Washington county. oh Rodier, Columbia county.

Martin Joyce, Union county. A Horsz Suir.—An action to recover the value of a horse was put on trial, in the District Court, yesterday moral g, in which James Galbraith was plaintiff and Benjamin Rouss defendant. The horse and cart of plaintiff, while crossing Third street at Noble, about one year ago, were run into by the horse and

wagon of defendant, which, it is alleged, was being driven up Third street at a furious rate, and plaintiff's so seriously injured that it had to be killed at once. The accident occurred in the early part of the evening, and, as is alleged by plaintiff, was owing solely to the careless manner in which defendant's wagon was driven. The defendant, on the other hand, asserts that it was not caused by any negligence on his part, but by reason of the plaintiff endeavoring to cross Third street shead of defendant's wagon. The jury had not agreed upon a verdict when we left the court room. SUIT FOR GOODS SOLD -Yesterday, in the District Court, before Judge Sharswood, an a

tion was brought to recover for goods sold and delivered to the defendant. The defence set up was that, while the goods were bought in the name of the defendant, yet he was the nominal purchaser, and was acting for a third party, Mr. Samuel A. Dronkler, who alone was responsible for the goods, and that this was perfectly known and understood by the plaintiff. Sharpless for plaintiff; Clay. ton for defendant. A verdict for \$950 was rendered for the plaintiff.

HOSPITAL CONTRIBUTIONS .- The surgeon in charge of the U. S. A. General Hospital, Hestonville, acknowledges he receipt of the following contributions: From the Ladies' Aid Society of the Church of the Bedeemer, Lower Merion, 22 pairs drawers, 10 shirts. and 26 pairs stockings; from the Belmont Ladies' Aid Society, 17 flannel shirts and 3 pairs of drawers.

FOUNDLINGS.—Some boys, on Monday evening, about 9 o'clock, found a male infant, about ten months old, in Lombard street, below Broad. The little foundling was taken to the Eighth-ward station-house, and was subsequently sent to the almshouse. Another child, a white female, about two days old, was found at a late hour in the entry of a house No. 285 Lombard street. It was property care for.

MEETING OF THE MERCANTILE BENE-FIGIAL ASSOCIATION. — The twenty-first annual meeting of this Association was held yesterday afternoon at three o'clock, at their room, corner of Seventh and Bansom streets. The meeting organized by calling John Sparhawk, Eeq. to the chair, and appointing William A. Bolic, secre ary The board of managers presented the following twenty-

first appual report : In falfilment of their duty, your board of managers present the following report of their administration for present the following report of their administration for the pest year:

The Mercaptile Beneficial Association has this day attained its impority—has reached the twenty-first year of its existence—and during that period has made numerous permanent investments, in the form of loans to its members, which have cheered many a sad and despairing heart, roothed many a sick bed, and in a quiet, unostentations, though prompt and thorough manner, afforded a degree of genuine aid and comfort to desponding members, which has been fully appreciated by those who have been the recipients of your bounty. been the recipients of your bounty.

It is due to the hundreds of members connected with our association, who pay their annual contributions for

its support, without the most remote expectation of ever ng any recupiary benefit, to know how the fund receiving any rectulary benefit, to know how the funds they have convibuted have been appropriated; and whilst it is the duty of the Relieoff ommittee (through whom sid to members is dispensed) to withhold circumstances that may fend to expese the name of the recipient, it is the carnest desire of your board to satisfy every member of the association that, whilst appropriations are liberally and promptly made to members in distress, due expects taken to dispense the funds with caution and underse. In recalling to mind several instances of relief, tendered In recalling to mind several instances of relief, tendered to members in extreme distress, it is gra flying to know, from undcubted evidence, that such appropriations—comparatively small for the degree of good accomplished—have been the means of brightening despairing hearts, and cheering drooping spirits on their gloomy pathway, until brighter and happier prospects have opened before them.

them.

Mouths ego, in the midst of failures and distress in the Months ego, in the midst of failures and distress in the mercantile community, a salesman was suddenly thrown out of employment. With a large family dependent upon his exertions, and uttorly hopeless of securing a position of profit, poverty, sicknoss, and despair seized upon him, until at leagth his mind became dinessed, and he was no longer sane. Assistance was taked by his friends that a home might be secured for him at the asylum. The necessary funds were promptly provided by the Rellef Committee, and after several months of careful nursing, the invalid was restored to health. He has again recumed business, and a pleasing note from his devoted wife bears record of rleasing note from his devoted wife bears record o your bounty, and her gratitude.

A member, who was gradually wasting with consumption, held his position as bookkeeper, at a paltry salary, for some months after he became too weak to lift the ledger from the deak. He died recently, leaving a widow with seven children, with scarcely a dollar in the world. The committee at once called upon the distressed family, provided for their immediate necessition, paid the funeral expenses, and subsequently purchased for the widow a review machine, by the assistance of which, there is

expenses, and subsequently purchased for the widow a rewing machine, by the assistance of which, there is reason to hope, she will be enabled to secure a comfortable support for her family. The widow of another deceased member was provided with a sewing machine about ten members, and having secured constant work on army clothing, has been thus enabled to maintain her little family of three children, comfortably and respectable. A member, who received aid last year, again applied for further relief, which was promptly granted to him. He was not only without employment, but was sick and deeponding, for, on the day the application was made, he had been obliged to borrow money to supply food for his family. This gentleman now holds a satisfactory situataminy. In gentlement now notes a successful to the second to the nercentile house; has regained his health and energy, and has, on several occasions, alinded with grateful feelings to the prompt and efficient aid rendered him by this association.

An old member of our society, who had always been the second to the second able to secure a comfortable subsistence for the support of his family, had been obliged, in his extreme need, to

of his family, had been obliged, in his extreme need, to place one child after anoth r with different friends, and then, after pawning several place of furniture, was eventually, with much hesitation, under the necessity of appealing to the committee for relief. He was, at the time, without coal; had no flour, and but three cents of money in his peasession. An amount sufficient to relieve his wants and cheer his despairing heart was premptly handed him.

About a year ago, a member, who was an unmarried man, borrowed of the association sufficient funds to liquidate his board bill, and pay a debt due to his physician for medical attention. Recently, this loan, with its accrued interest, has been repaid to the association.

The total amount expended by the Belief Committee, during the year, is \$910; distributed amongst 13 members. The whole number of members of the association i

750, of whom 688 are annual, 61 life, and 1 honorary, the latter being a complimentary membership, recently created by your Board, intended for those who, either by ons or otherwise, evidence their interest in the association, and are at the same time incompetent bycause unconnected with mercantile pursuits, of becoming
either a life or annual member.

There have been, during the past year, 15 resignations
and 10 deaths; and the Board regrets to state that 79
members have been ether expelled or dropped from the
roll, for ron, payment of dues for two years or longer.

From the report of the treasurer it will be seen that
the receipts for the fiscal year, just closed, artising from
collection of dues and interest on investments, amounts association, and are at the same time incompa to \$2.346.95, and that the sum new in his hands, induding investments, is \$14,762 12.

The registry department is still nominally existing, not work satisfactorily. Neither the merchant in need

of a clerk, nor the applicant for a situation, seem willing to avail themselves of the opportunity thus afforded them of supplying their need.

Your Board of Manegers, in retiring from the position in which you have placed them, earnestly call upon you individually, not only to continue the cheerful payment of your annual contributions, but to solicit the in terest of others engaged in mercantile pursuits, to assist, by freir money and their influence, the welfare and prosperity of our excellent association.

The treaturer reported \$2,452.95 as the receipts from dues, interest on investments, &c., and \$910 as the amount expended in relief. The total assets of the association are-Five bonds and mortgages......\$10,300 00 Two ground-rents.....

The meeting then proceeded to ballot for a Board of Managers, resulting in the election of the following gen-Board of Managers for 1862-63—Wm. C. Ludwig, Daniel Steinmetz. Aug. B. Shipley, Smith Bowen, Wm. H. Love, Jacob W. Stout, John P. Steiner, Sol. M. Bunn, A. L. Bonnaffon, Thompson Reynolds, L. S. Levering, Samuel B. Colieday, Louis D. Baugh, Henry O. Howell, Coates Walton, William H. Bacon, Edwin Mitcheil, George Bullock, John Osstner, Abram Bitter.

The meeting then adjourned. BOARD OF SCHOOL CONTROLLERS .-This Board held a stated meeting yesterday afternoon Communications were received as follows :

SECTION 2 One notifying the Board of elections and promotions, viz : promotions, viz:

Miss Eliza Ely, promoted to principal of Male No. 3;
Miss Sarah M. Sardgran, promoted to first assistant of
Wharton Secondary; Miss Mary Copeland, promoted to
third assistant; Miss Sarah J. McWilliams, promoted to
fourth assistant of Wharton Secondary; Miss Benchert,
elected to second assistant of Female Primary No 4;
Miss Mary Birch, promoted to first assistant of Secondary
No. 4; Miss Annie Miller, elected as assistant Boys'
Primary No. 8 Primary No. 8.

SEC. 4 Asking the Board to lease the Howard Hail at \$425 per annum; also to increase the rent of Niagara Hose house to \$220 per annum.

SEC. 5. Brauesting the Board for authority to form a girls' primary in the fifth section.

S. C. 8. Stating that Miss H. Gamble was unanimously elected fourth assistant teacher in Primary School No. 2 elected fourth assistant teacher in Primary School No. 2.

SEC. 9. Stating that the eighth section has received pupils into one of their schools, contrary to the regulations of the Board.

SEC. 11 That Miss Fannie F. Hazen, as third assistant teacher in Primary No. 4, and Miss Mary E. Rider as second assistant teacher in Primary No. 6, additional teachers in Beideman School

EEO 12. Informing the Board of the appointment of

Phebe Wilson as assistant teacher in the Roberts Vaux Echcol.

EEC. 15 Asking that the No 3 Girls' Primary be established as a fourth division Girls' Secondary.

EEC. 19 Asking for authority to transfer the Girls' Primary No 7 from Emerald street to the basement of Price Grammar School. Price Grammar School.

SEC 16 Leforming the Board of the following elections: Mary Wildey, third assistant Primary No. 4;
Alice Noble, fourth assistant Primary No. 4; Josephine Montgomery, third assistant Primary No. 5; Fanny Yeager, fourth assistant Primary No. 5; Rebecca Kale fourth assistant Primary No. 6.
SEG. 19. A resolution protesting against certain resolutions adopted at the last meeting of the Controllers prohibiting local boards from electing any lady as teacher without a certificate from an examining con

without a certificate from an examining committee of the Board, or a diploma from the Girls' High School.

SEC 22. Asking for a change in the grade and name of Mt. Airy Grammar School. Also informing the Board of the appointment of Amanda Huston as assistant teacher in the Bittenhouse Boys' Grammar School.

SEC 23 The following appointments were made: Amarda L Ditman to be principal of White Hall School; Annie K. Emery, as assistant.

SEC 24 Asking for the selection of a lot at Venango and Wyoming streets, for the erection of a school-house.

The above communications were amarchizately disposed. The contractor for supplying the school-houses with coal asked the Board for an advance in price, in consequence of the increased price of the article. Beferred. A communication was received from the Union Volunteer Befreshment Salcon, transmitting a picture of that institution. The thanks of the Board were ordered to he sent to the Saloon.

Bills, amounting to \$11,156 89, were read and ordered Bills, amounting to \$11,156 89, were read and ordered to be paid.

If Potter, chairman of the Committee on Property, presented a report in reference to three matters brought before them. The first had reference to the renting of a portion of the Eleventh street M. E. Church, for the use of primary school (authorized by the Board at their last meeting); to be established in the second section. The Committeen report favorably to the renting of the two Law Buildings, at an amount of \$250.

The second item is in paying the bill of Jacob Bush, for laying a floor on the Monroe School Building, four-teenth section. The amount of said bill is \$140. The floor in question is laid over the old floor, and passes neither under the platform nor glass partitions. The boards are made from Jersey sap spongy when wet, absorbing and retaining the water, and are totally unfit for the floor of a school-house. The value of said floor has been estimeted by a builder to be \$91.75 per hundred. The Committee, therefore, report adversely to said bill.

The third item is the bill of Joseph Leeds, for erecting heaters in the school building at Twentieth and Coates street; said heaters have been used for one year. The proportation has not here referred to the Committee. street; said heateres have been used for one year. The appropriation has not been referred to the Committee on Property. They have, therefore, no power to act. A bill is presented, with a resolution, for its payment.

A communication was received from the German Free Sunday school Association, asking for the use of one or two school houses in the Eleventh and Twelfth sections, to be used on Surdays for the purpose of teaching the German language and the rudiments of education. The to be used on Surdays for the purpose of teaching the German language and the rudiments of education. The riquest was not granted.

Mr Riche offered a resolution that the History of the United Ftates be restored to the list of home studies in the grammar schools of the district, and that candidates for examination to the High School be examined in said history. Agreed to.

Mr Riche else submitted a resolution that a committee of Grante Removal.

The Sixth Session of the BOARDING SCHOOL FOR GIRLS, herectofore conducted by the Subscribers, near Darby, Pa., under the name of "SHARON FEMALE SEMINARY." will open 10th mo., 1st, 1862, at Attiebore, Bucks country, Pa., under the name of Subscribers and the resolution that a committee of Grante Removal. of five be appointed to inquire whether the present system of acmission into the Boys' High School is the best that can be suggested. Agreed to, and the Board ad-

THE NEW COMMANDANT AT THE BAVY YALD -Commodore Stribling, who has been appointed Commandant at the Navy Yard in the place of mmodore Pendergast, deceased, arrived in the city on Monday evening, and took quarters at the Continental. Yesterday morning he visited the Navy Yard, and assumed the duties of his position. His arrival at the yard was announced by the usual salute, which was fired about one c'clock. The pannant of the Commodore was also hoisted on the receiving ship. The Commodore also visited the different departments in the yard, and reviowed the workmen as they passed in the main gate at

SOLDIERS' FUNERALS.—Yesterday norning the funeral of William F. Gant, of Company F, 26th Regiment Pennsylvania Volunteers, took place from No. 509 South Thirteenth street. The funerals of Corporal David A. Barry, of Company B, 13th Pennsylvania Cavalry, and Lieutenant Patrick Casey, of the 116 h Regiment Pennsylvania Volunteers, took place on Monday afternoon.

SALE OF PRIZE VESSELS .- Yesterday. by order of United States Marshal Millward, the prize schooner Louisa was sold at public suction for \$775, the bark Fannie Laurie for \$8.800, the schooner Nellie for \$330, and the schooner Defiance at \$550—payable in

RAISING A SCHOONER.—Preparations

are now being made to raise the schooner Adriane, Capt. Crowell, which sunk off Race-street wharf, on Sunday norning last The chains were placed under the yessel yesterday, and the work of raising will be at once PASTOR ELECTED .- Rev. Mr. Walden has been elected pastor of the Trinity Church. He is at

present in Norwich, Connecticut.

Schr J W McKee, Christie, cleated at Balti schr Tel Norte, Dinsmore, from Lubec for this port, at Salem 9th inst.

EDUCATIONAL. DENNSYLVANIA MILITARY ACADEMY, at West Chester. (for boarders only).
This Academy will be opened on THURSDAY, September 4th. 1862. It was chartered by the Legislature, at its last session, with full collegiate powers.

In its capacious buildings, which were erected and furnished at a cost of over sixty thousand dollars, are arrangements of the highest order for the comfortable quartoring and subsisting of one hundred and fifty cadets.

A crrp of competent and experienced teachers will give their undivided attention to the educational department, and aim to make their instructions thorough and ment, and aim to make their instructions thorough and practical. The department of studies embraces the following courses: Primary, Commercial, and Scientific, Collegiate and Military. A graduate of the United States Military Academy, of high standing in his class, and of experience in the field, devotes his exclusive attention to the Mathematics and Engineering. The moral training of cadets will be carefully attended to. For circulars, apply to JAS. H. ORNE, Esq., No. 628 CHESTNUT St., or at the Book Stand of Continental Hotel, Philadelphia, or to Colonel THEODORE HYATT, President Pennsylvania Military Academy.

MEDICINAL. HAS PROF. BOLLES' DISCOVERY in the application of GALVARISM, MAGNETISM, and other modifications of ELECTRICITY, received general favor among the most liberal Modical Men of the Old Schools, and is Prof. B.'s system now being brought rapidly into public tavor? Yes, verily, and if you doubt it, read carefully the following extracts of letters, and also opinions of some of the most eminent Medical Men of this and other States, who have been traveling and lecturing, teaching and applying the different modifications of Electricity, as taught them by Prof. BOLLES:

BEAD THE FOLLOWING FROM EMINEET M. D.'s The testimony of a Medical Man of the Old Schools,

BOLLES:
BEAD THE FOLLOWING FROM EMINERT M. D.'s
The testimony of a Medical Man of the Old Schools,
thirty years—fifteen years in the Allopathic School and
fifteen in the Homeopathic—and has for two years since,
being qualified by Prof. B., made Electricity a speciality,
has cured thousands never benefited by medicines:
Some five months ago I was attracted by a curd of
Professor Bolles, No 1220 Welnut street, Philadelphia,
claiming a discovery that he had made in the use and application of the various forms and modifications of Electricity for the cure of all carable diseases. I called on
this gentlemen, and after listening to his theory of the
Electrical laws governing life, health and disease, and
his discovery in the application of Electricity in accordsince with the polarities of the brain and nervous system,
I was impressed that he had semething new, and at once
applied for instructions on the subject. I now speak
from experience, as I have remained in his office for two
months, watching the result of his operations and having
myself the charge of one of the treating rooms for nearly
the whole time, and treated from, twelve to fifteen cases
daily, comprising nearly every kind and grade of obronic
disease. Although my expectations were high, I must
confees they have been fully realized. I have seen a
great number of patients who had availed themselves of
the best medical skill and remedial agents for years—
cases I well knew to be incurable by all other known
remedies—permanently cured by a few applications of
Electricity; and what has surprised me most, was tho
rapid improvement and cure of many cases pronounced
pulmonary consumption by their physicians, because I
had been instructed by Dr. Paige to avoid all such cases, rapid improvement and cure of many cases pronounced pulmonary consumption by their physicians, because I had been instructed by Dr. Paige to avoid all such cases, as the treatment tended to injure. I feel impelled by a sense of duty to caution the public against the indiscriminate use of Electricity, as I have known injury to result from its use, in the hands of the Ignorant. I would here remark that I have never in my whole experience, or observation from books, pamphlets, or intercourse with men, read or heard of the general or special application of Electricity to the cure of divease, as taught by cation of Electricity to the cure of all seasons.

Professor Bolles, and, therefore, conclude it is original with him.

I would say to those tampering with this mighty agent of life and death to beware lest you strike a blow at the citadel of life, and never think of applying it to the living organism until you understand its nature, and when, where, and how to apply it.

I would here take occasion to recommend my professional brethren throughout the country to turn their attention to this important egent as taught by Professor Bolles, who has certainly, in my opinion, discovered the only reliable mode of its application, and thus rendered an important service to the healing art, and a lasting blessing to suffering and diseased humanity

JAMES P. GEFYES, M. D.,

206 Pine street, Philadelphia. cation of Electricity to the cure of disease, as taught by

206 Pine street, Philadelphia.

Since then Dr. Greves has been qualifying his brethren Since then Dr. Greves has been qualifying his brethren in the medical profession, who; to a man, endorse the discovery of Professor Bolles

W. R. Wells, M. D., Buffalo, N. Y., after a year's practice, writes to Prof. B. as follows:

I think my faith fully comprehends the fact that Electricity, correctly applied, according to your discovery, is abundantly competent to cure all curable diseases. My experience and success, after extensive practice, fully warrant this assertion. Were I sick with a fatal disease, I would far sooner trust my life in the hands of a skilful Electrician than all the "pathlest" on earth besides.

BUFFALO, N. Y. PROF. BOLLES: I am fully satisfied that Electricity when understood according to its polarities and their re-lations to the fixed laws of the vital economy, as taught lations to the fixed laws of the vital economy, as target by you, is the most powerful, manageable, and efficient agent known to man for the relief of pais and cure of disease. I would further state that I have for the past few weeks used Electricity in my practice, to the exclu-zion of nearly all other remedies, and have been emi-nently successful, and consider it a universal therapeutic. DAYTON, Ohio. D. MCCARTHY, M. D.

PROF. BOLLES : For the last nine months I have made Electricity a specialty, and my faith is daily increasing in its therapeutic effects, and I believe, when applied acing to your discovery, it will cure all curable dis-BUFFALO, N. Y. P. W. MANSFIELD, M. O. What I have now to say is from actual observation, as I have spent most of my time for the last two months with Prof. Bolles, and have witnessed the effects of the Elec-trical agent on from lifteen to twenty-five patients a day, suffering from almost every form of chronic disease; and as strange as it may appear, in a majority of eases a per-lect cure was effected in from five to fifteen days. And

fect cure was enected in from ave to inteen days. And I will here remark that most of his patients were afflicted with long-standing complaints, considered incurable by all other known remedies.

H. G. KIEBY, M. D. PROF. BOLLES: I believe your discovery to be a re-liable therapeutic agent, and feel it my duty to recom-mend it. Since I have received instruction from you, I have applied it in cases of Aphony, Brenchitts, Ocrea, Amenorrhoea, Asthma, and Congestion, and find that I have the same success that you had when I was under your instruction. I invariably recommend medical men to avail themselves of an opportunity of becoming ac-

DETROIT, Michigan. DAVID THURSTON, M. D. PROF. BOLLES: A great revolution in my mind and practice has taken place since I became acquainted with your new discovery of applying Galvaniam, Magnetism, and other modifications of Electricity as a curative agent. I have found by many experiments that Electricity is a and to the period of the same and chronic cases when applied according to your discovery. I desire that medical men should become conversant with your discovery. CLEVELAND, Ohio. MARVIN GODDARD, M.D. BOOKESTER, N. Y., September 10, 1859.

PROF. BOLLES—DEAR SIR: The more I investigate this system of practice, the more confident I am that it is all powerful to meet the ten thousand diseases to which flesh is helf.

You, who first discovered Electricity to be a reliable Yon, who first discovered Electricity to be a reliable thorapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the wees and ills of suffering humanity. It is attange that physicians have become so wedded to their several systems, brought up from the darkness of past ages, that they will close their eyes against the light now beaming forth through this system of practice. All other systems I regard as the morning star to the rising sun.

P. SHEDD, M. D.

of application, the more successful I am, and as I have examined all the guides and works published upon the subject, and seen nothing in reference to your theory, I do not hesitate to say I balleye it to be original with you, and the only reliable system extant for curing disease, Respectfully yours,
OHAS. BANDALL, M. D. The opinion of a medical man, after thirty years practice, fifteen in Allopathy and fifteen in Homo-

practice, fitteen in Allopathy and fitteen in Homopathy:

PROF. BOLLES—DEAR SIR: I never have, since you
gave me instruction in your new discovery of applying
Electricity, and God forgive me if I in the future ever
do, practice either Homocopathy or Allopathy. I have
been strictly governed by the philosophy you laid down,
and for the best of reasons—namely: That I am generally successful, and I frankly say to you that I am done
with medicine ferover. My success has been great since I have been in New-rk, N. J. JAMES P. GREVES, M. D.,

N. B.—In addition to the above extracts, Prof. B. could furnish over one thousand, fully showing that he is well known to the medical and scientific world as the discoverer of all that is reliable in the therapeutic administration of Electricity, and that all other operators now in the different cities (except those qualified by him) are using Electricity at hazard, and Prof. B. takes this occarion, to caption the committy assists the latent. sion to caution the community against charlatans.
Office 1220 WALNUT Street. Philadelphia. Medical men and others who desire a know-my discovery can enter for a full course of lec-any time. oc13-tř

MARRANT'S EFFEBVESCENT

SELTZER APERIENT. This valuable and popular Medicine has universally re-ceived the most favorable recommendations of the Medical Profession and the public as the most EFFICIENT AND AGREEABLE SALINE APERIENT. It may be used with the best effect in

Bilious and Febrile Diseases, Costiveness, Sick Headache, Nausea, Loss of Appetite, Indigestion, Acidity of the Stomach, Torpidity of the Liver, Gout, Rheumatic Affections, Gravel, Piles, AND ALL COMPLAINTS WHERE

GENTLE AND COOLING APERIENT OR PUR-GATINE IS BEQUIRED. It is particularly adapted to the wants of Travellers by Sea and Laud, Residents in Hot Climates, Persons of Sedentary Habits, Invalids, and Convalescents; Captains of Vessels and Planters will find it a valuable addition to their Medicine Chests.

It is in the form of a Powder, carefully put up in bottles to keep in any climato, and merely requires water poured upon it to produce a de-lightful effervescing beverage. Numerous testimonials, from professional and other gentlemen of the highest standing throughout the country, and its steadily increasing popularity for a series of years, strongly guaranty its efficacy and valuable character, and commend it to the favorable notice of an

raracter, and contelligent public.

Manufactured only by
TARRANT & CO., TARRANT & Co.,
No. 275 GREENWICH Street, corner of Warren st.,
NEW YORK, And for sale by Druggists generally.

A YER'S CATHARTIC PILLS.—

The sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgstive which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary Medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but pywerful to cure. Their penetrating proporties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every-body, but also formidable and dangerous diseases that have bailled the best of human skill. While they produce powerful effects, they are at the same time, in diminished powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Oures have been made which surpass belief were they not substantiated by men of such exalted positions of the property of the prope were they not substantiated by men of such exaited position and character as to forbid the supsicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent me the assurance of their conviction that our Preparations contribute immensely to the relief of my afflicted, suffering fellow-men. The Agent below named is released to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy,
Heartburn, Headache arising from al foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain atising therefrom, Flatulency, Loss of Appetite, ali Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, curemany complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealars with functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and

powers. The sick went cuts best and tutters and them, and they should have it.
