PROCEEDINGS OF COUNCILS. Retention of Certain Offices - Resolutions Re Retention of the McClellan—Resolutions Relative to Gen. McClellan—Resolutions Relative to England—The Old City Records—Expenses of the Municipal Departments—The Penrose Ferry Bridge. The stated meeting of Ucuuciis was held yesterday afternoon. SELECT COUNCIL met at half past 3 o'clock; the president, Theo. Onyler, Erg , in the chair. Communications Presented.

Communications were presented as follows: For the location of a gas lamp on Delawara avenue bridge at Poplar street; for repaying and grading in the Twenty-first ward; relative to certain bridges in the Twenty-third ward from the Bounty Fund Commission, stating third ward from the Bounty Fund Commission, stating that numerous certificates had been recently presented to them for bourties of \$200. [In consequence of this state of things, resolutions were passed by the commission, setting forth that, in their origion, they were not authorized to pay the city bounty after the 31 just, the draft having then been avoided [Mr. Lynn presented a communication from the Recorder of Deeds, setting forth that there were, at present, in that officer passession, many valuable records, some of which dated back to the 17th century. He desired that rome action might be taken, by which the records, which were of mon entous importance to the city, should be more carefully preserved. Referred to a special com-Mr. Davis presented a communication from R. Wilder, mr. Dayls presented a communication from a water, addressed to M. W. Baldwin & Oo., setting forth as the most available means of harbor defence, a series of land-batteries, supplied with heavy artillery, and arranged in auch a manner as to keep the ships of an enemy within range for a distance of ten miles Beforred. Offices.

Reports of Committees-Retention of Certain Mr. Mrgary, from the special committee appointed relative to a recent veto message from the Mayor upon the abolition of certain offices, reported that they dissected from the Mayor's suggestions. It was deemed essential to retain the offices of watchmen in the State House steeple, at the Wire Bridge, &c.

The question then being on the passage of the original bill vatoed by the Mayor, a vote was taken, the result being: yeas 6, nays 80. The recommendations of the Mayor was thereforewatched and the bill fell. being: yeas 6, nays 80. The recommendations of the Mayor were thereforesustained, and the bill fell.

A new ordinance to establish and organize the Department of City Property, reported by the special committee, was then read.

Mr. WETHERILL moved to amend by striking out the appropriation to the two watchmen at the Wire Bridge, the superintendent and watchman of the public buildings on Obestnut street, and the three watchmen in the State House steeple. In explanation of his motion, he stated his only desire was to save money to the city. The Mayor had control of a large police force, and could designate some of his officers to fill these positions. Mr Diorson said that, in recommending the abolition of the offices named, he did not believe the Mayor was desirous of decreesing the city debt. If such had been the case, he (the Mayor) would have proposed the dismissal of a courle of bundred of his police Mr WETERILL stated that on the ground of necessity
the Mayor was perfectly justified in his proposal. The
statistics stated by him relative to the number of alarms given by the State House steeple watchmen appeared to be conclusive that their services could with propriety be dispensed with. In regard to the two watchmen at the Wire Bridge, the indication of the Mayor was that sub-

After further discussion upon the necessity of retaining the several officers referred to, a vote was taken upon the amendments separately, when they were disagreed to, except the one relative to the efficer known as "superintendent and watchman of the public buildings on Chestnut street," this office being abolished.

The ordinance as meanded was they adopted The ordinance as amended was then adopted An ordinance to make an appropriation of \$1,000 to a Board of School Control, for the completion of a hool-house in the First ward, was discussed and Mr. Fox, from the committee on City Property, submitted an ordinance making an appropriation to cover the expense of drainage, etc. of the public buildings on Chestnut street, which, after discussion, was postponed. Mr Mointres submitted an ordinance making an appropriation for the erection of necessary out-houses and

tes for those offices could be provided from the police

rtenances for the Washington public sch Resolutions Presented. Mr. DAVIS presented a presentle and resolution requiring the Citizens' Passenger hallway Company to run passenger cars on their road, under the penalty of its being advertised for rent after thirty days. Passed. Mr. Fox anomitted a resolution instructing the Highway Committee to report, at as early a day as possible, an ordinance establishing a striam of much supplement. an ordinance establishing a spitem of under su drainage, or covered water course, instead of the pr oranings, or covered water course, instead of the present nuisance of open guiters across the pavements, from the line of the houses to the curb, in all the highways within the paved limits of the city. Adopted. A resolution requesting the contractors for cleansing the streets to clean Aramingo street, from Frankford road to Trenton avenue, was submitted and referred. From Common Council.

A resolution relative to the paving of Hancock and other streets was concurred in.

Also, a resolution directing the opening of Oxford street, from Bidge avenue to Twenty-ninth street.

Also, a resolution to pave Selfridge and other streets. Also, a supplement to an ordinance making an approwrigition to the Department of the City thantroll Also, a resolution relative to the official bonds of Thos. C. Steele.
Several other ordinances were concurred in

Resolutions Relative to George B. McClellan. Mr. WETHERILL (for the President, Mr. OUYLE sented the following resolutions:
Resolved, by the Select and Common Councils of
Philadelphia, That the sity of Philadelphia welcomes
to his native place, Major General George B McClettan, whose noble valor, talent, and patriotism, twice conse crated to the service of his country, in the hour of her extremest peril, have crowned her arms with victory and delivered the scil of Pennsylvania from the peril of invasion.

Resolved, That with every title to a nation's gratitude, founded upon eminent public services, demonstrating his right to be regarded as the bravest and best of her lead-ers, he carries with him in his-retirement the consola-tion that neither jealousy now ingraitude can rob him of the affection of his countrymen, or take from him those rewards which in due time assuredly wait upon him who

rewards which in the time assuredly wait upon him who so greatly serves the State.

Resolved, That in the conduct of General McClellan, in connection with his retirement from the command of the Army of the Potomac, he demonstrates that, having triumphed over the enemies of his country, he has also telamphed over himself, thus giving fresh proof that he is worthy of the confidence which his country men have reworthy of the confidence which his countrymen have reposed in him.

Mr. Lyndraid he was not entirely satisfied with the
wording of the rescintions. He did not oppose them,
but he thought they should be so modified as to express
the affection and gratitude of the ciry without any reflection being cost upon may one. If jestousy existed on
the part of any one against General McClellau, the anplication would be made to General Helleck, the Commander in-Cloief.

Mr. Wetherill said he did not see the force of the
objection. The examics of General McClellau had per-

Mr. WETHERILL said he did not see the force of the objection. The exemies of General McOlellan had persistently endeavored to stab the influence of that commander, even when he had the julil confidence of the Administration. It was owing, to the services of that illustrious man that Washington was twice saved. There was no intention to reflect upon the constituted authorities now in power, but there was a reflection upon those who had continued to villify and attack Gen. Mc-Clellan at a time when every man who was a true pa-triot could not withhold his admiration and gratitude of his distinguished and patriotic bearing Mr. LYND then moved to strike out of the second resolution that portion relative to ingratitude and jealousy, The resolutions were then unanimously adopted.

Resolutions Relative to England. Mr. MEGARY submitted the following preamble and and has been for some time, engaged in resisting and crushing the most wicked armed rebellion of which history has any record; and whereas, the success of the rebellion will be the destruction of American nationality and to overthrow of free institutions, it is natural and proper that all loyal clizens of the United States should view with instant indignation, and promptly rebuke all foreign nations who attempt to give aid and comfort to our enemies—rebels against the fairest forms and most beautifully adjusted equalities in human government; and Whereas. The people of England, by public meetings, secret associations of merchants and manufacturers, and speeches of members of Parliament, have directly and indirectly given aid and great comfort to our enemies, and have, in unexampled peridy, constructed vessels of iron, and armed them with the enginery of war; and have, moreover, sent them forth to break our blockade of the Southern coast, and supply our enemies with the means to our death; and have despitched against our unarmed ships of commerce swift messengers of destruction, and, by adding to their number, propose to attack our Atlantic

And whereas, The action of the English people, as above in part recited, is of the most upjust and unholy character, unparalleled in the history of the nation, when er that years ago the English people, who now pour out millions to sustain slavery and destroy the Government, employed lecturers to harangue the ple of this country, and stir up the heart of the great North against slavery:

And whereas, Evidence is not wanting that the gold drawn from the loyal North in the sale of British goods is shipped to England, and there invested in iron-clad vessels of-war, constructed to destroy our cities and commerce, and supply our enemies with the means for our destruction: therefore,

Rezolved, By the Select and Common Councils of the city of Philadelphia, That, as citizens of the Go-vernment of the United States, whose lives and nation-ality is thereby assailed by the English people, we do enter our solemn protest against the action of the British merchants and manufacturers in giving material aid and comfort to Southern rehears, and we do forther against merchants and manufacturers in giving material aid and comfort to Southern rebels; and we do further recommend to our merchants to cease the importation of British goods, and to our fellow-citizens generally that they discountenance the purchase, sale, or use of British goods of all kinds and descriptions whatever.

Dr. UHLER moved to refer the subject to the Committee on Defence and Protection. nce and Protection Mr. MEGARY said that, although the paper might be Mr. MEGARY said that, although the paper might be considered an extraordinary document, emanating from a local Legislature, the object of its introduction, was to undeceive the English people, and show them that their designs were understood and fully appreciated by our people.

Dr. Uhler said that by every assurance of the English
Cabinet, by every indication that can be given by one
diplomatic Power to another, the nation of England was

neutral. Why should we say they lie? When a British flet came up the Delaware, it would be time for Philadelphians to act like men, not like diplomatists. Moreover, the lides of making a municipal authority paramount to the United States Government was abourd. mount to the United States Government was abaurd.

Mr. Megary stated his unaltered belief that the present war had been in fact originated, and was now being stimulated not sions by the Government of Great Britain, but by the people of that country.

Dr. URLER thought that becunitry considerations exercised an all-controlling influence over the minds of the reople and the cabinet ministers of England. So far as concerned thair present nosition. France was in an exactconcerned their present position, France was in an exact y similar dilemma. It was, therefore, a mistaken policy for Philadelphia to supersede the exclusive function of the National Government, and debate with those two nations upon questions of diplomacy and governmental The motion of Dr. Uhler, to refer the subject, was then COMMON COUNCIL. The following communications were received: Communications. Mr James C. Kelch, Receiver of Tores elect, sent to the Chamber the names of the following persons as his surettee: Samuel Miller, Lane Schofield, Wm. P. Hamm, John H. Jones.

John H. Jones.

A communication was received from the Bounty Fund Committee stating that in consequence of the quota of soldiers for Philadelphia having been filled, the bounty of \$200 was not given to those men who enlisted under the ordinance allowing that sum, as the quota was filled before the ordinance went into effect

A complaint from the City Solicitor was read in reference to the improper grading of the gutters at Twelfth and Market streets

Mr. Trago presented a communication from A. L. Harmer, Recorder of Deeds, requesting the appointment of a committee of Councils to restore the records of that office, which, for want of proper attention, are in a crumbling condition. He referred particularly to the original drafts of property in the city in the seventeenth crumbling condition. He referred particularly to the original drafts of property in the city in the seventeenth century, and also to the deeds of William Peon.

The Chair appointed Mesers. Trego, Baird, and Barnes. Mr. Landy, Commissioner of Highways, sent to the Chamber a communication in answer to a resolution directing him to notify the owners of property on Noble attreet, between Front and Beach, to reset their curb. The Commissioner states that the ground belongs to the North Pennsylvania Railroad Company, and the sum of \$2,000 has been awarded as its value. Until that sum is paid, the notice cannot be observed. Department Expenses.

The Purchase of Penrose Ferry Bridge. Mr. Quinn called up the ordinance making an appro-mation of \$86,442 12 for the purchase of the Penrose-

pristion of \$36,442 12 for the purchase of the Penroseferry bridge.

Mr. Hodgon opposed the passage of the ordinance
because of its great expense and utter uselessness.

Mr. Happer realized the importance to the city of
owning a bridge at that point; but he contended that the
present bridge was the worst construction ever palmed
on a city as a wooden bridge. The plers are light; the
planking rotten, and the whole concern in a most dilapidated condition After a further debate of a tedious character the ordi-Aner's runter decate of a tentous instance was streed to

Mr. Quian, of the Highway Committee, reported a resolution for the paving of a portion of Wallace and Seventeenth streets. Agreed to.

Also, a resolution for paving portions of Levering, Jasper, Newbold, and Hancock streets. Agreed to.

Also, a resolution altering the grade of Thirty-sixth street. Agreed to.
Also, a resolution for the construction of inlets on
Pennsylvania averue. Adopted.
Also, one for the paving of a portion of Ocean street. Mr. Lougelin, from the special committee on the Arr. LOUGHLIN, from the special committee on the draft for soldiers, made a final report, in which it was shown that the result of their investigations proved on-

The committee submitted therewish an ordinance appropriating \$225 to pay the expenses incurred in their investigation. Agreed to.

Mr. Quinn submitted an ordinance imposing a fine of \$5 upon the commanding officer of treops who parmits them to marchain cadent steps upon any of the bridges the city. Agreed to.
A resolution from the Highway Committee was adopted. authorizing the paving of Hancock street, from Susque-hanns to Cumberland street, and Christian street, from Twenty second to Gray's Ferry, at an expense of \$15 The bill from Select Council, in relation to the appropriation to the clerks, was received, and a committee of conference appointed in reference to the section striking out the name of sergeant-at-arms for the messenger

All the other bills from Select Council were concurred in, and the Chamber adjourned. The Passenger Railroads. To the Editor of The Press: Sir: I desire to acknowledge my obligations to you

for your very timely article on the proposed advance in the fares of our city railroads the fares of our CHY PAHIDAUS

I think there, is nothing whatever to justify the proposed change. The prices of all articles of horse feed have been several times quite as high as they now are since the roads were established, and it is well known that great reductions have been made in the salaries of all their employees, as well as in other expenses.

We are not permitted to know much as to their receipts or expenditures, or what has been the true cost of the or expenditures, or what has been the true cost of the different roadways and equipments, though we cortainly, having all participated in the extraordinary privileges which have been granted these corporations, without compensation, have a right to know more about them. I am one of those who hold that eight per cent. per annum is a full, adequate return for the use of capital, and thuse concerns should be brought to that point if there be law to compass it.

I have often noticed with satisfaction the use made of these cars by our laboring population, in going to and returning from their work; and the increase of tax upon this class of the community would be cruel, as many o them have been induced to locate their homes at more remote points of the city, expecting that if any change

should be made in these fares, it would be to reduc rather than increase them
I am, sir, your obedient servant,
NOVEMBER 13, 1862.
A MERCHANT. To the Editor of The Press:

To the Editor of The Press:

Sin: The writer of this resides in Filteenth street, near Columbia arenue; there are twenty houses composing the row in which he resides; on the square between Master and Jefferson streets, there is another row of twenty more; all of the residents use the passenger cars, and the writer's expenses from four o'clock P. M. on Tuesday to the time this communication is penned, not yet forty-light hours, is about sixty cents. A memory ndum of car expenses during the past year shows about sixty dollars spent for himself and family. His wife, and children, and servants, are measurably compelled to ride. children, and gervants, are measurably compelled to ride. the item of expense not being complained of at present rates. If ladies visit his family, and remain in the evo-ning, they are usually accompanied to their homes, and there is another item to be added. On comparison of ex-perience with some neighbors, he finds his case identical Now the companies wish to put the rate un twenty pe Now the companies wish to put the rate up twenty per-cent. If they do so he, for one, and all with whom he has conversed on this intended imposition agree to ride only when dire necessity compels it. Who, then will gain by the change? Will the railway companies? Men will inconvenience themselves often when they feel they are rebuking imposition, and here the case is a plain one. The old adage of the last straw breaking the camel's back is about to be illustrated. If residents throughout the city will show their manhood and resist this move. the city will show their manhood and resist this movethe city will saw their manhood and resist this move, the companies will not dare to make the change.

The fact is, season tickets should be sold to regular riders at reduced rates, and instead of the lines demanding specie they should endeavor to be a little more accommodating and circulate their change, to the public's

I am, sir, your obedient servant, To the Editor of The Press: Sin: I am glad to see you take up the cause of the people against the proposed extortion of the passenger railway companies. The plea of increased expenses does not justify any advance. It is well known they are all making large profits, and instead of raising the fares they should reduce them to three cents a passenger. No city in the Union has given so favorable privileges to railway companies as Philadelphia, and in face of their large profits to raise the fares at this time is an ontrage on the riding public.

The omnibus line on Lombard and South streets charges but three cents, and makes money at this price. harges but three cents, and makes money at this price.

It needs no argument to prove that a railway properly managed can be run at same fares, and return good profits to the stockholders. I am, respectfully, your obedient servant, A DAILY RIDER. PHICADELPHIA BOARD OF TRADE. THOMAS KIMBER, JR., AUGUSTUS HEATON. COMMITTEE OF THE MONTH

G. R. FOX. Clerk District Court. CROWELL'S HAMILTON HOTEL,
I'LAND OF BERMUDA, IS NOW OPEN FOR
THE WINTER SHASON.
To invalids in search of a milder climate, this offers an To invalids in search of a milder climate, this offers an inducement superior to the attractions of any of the tropical reserts, having an even temperature throughout the entire winter sufficiently cool to be bracing, without the severity of froat. The island is remarkable for the beauty of its scenery, its varied floral, piscatorial, and conchological varieties, with numerous crives and rambles of the most picturerage and admiring character. It is the nearest point of land from the Northern States possessing there advantages, with a climate assimilating to that of Florida; being but six hundred miles distant, with weekly communication by packet.

The swift bark Eliza Barss, having excellent accommodations, will sail from New York about the 15th instant. Passage, \$25. Particulars can be obtained by addressing the undersigned, at Boom No. 4, 74 Broadway. N. Y. noll-4t.

MEDICINAL HAS PROF. BOLLES' DISCOVERY in the application of GALVANISM, MAGNETISM, and other modifications of ELECTRICITY, re-TISM, and other modifications of ELECTRISITY, received general favor among the most liberal Medical
Men of the Old Schools, and is Prof. E.'s system now
being brought rapidly into public favor? Yes, versly,
and if you doubt it, read carefully the following extracts
of letters, and also opinions of some of the most eminent
Machael Men of this and other States, who have been
traveling and lecturing, teaching and applying the different modifications of Electricity, as taught them by Prof.
ROLLES. BEAD THE FOLLOWING FROM EMINERY M. D.'s The testimony of a Medical Man of the Old Schools, thirty years—fifteen years in the Allopatha School and fifteen in the Homeopathic—and heafor two years since, being qualified by Prof. B., made Electricity, expecially, has cured thousands never benefited by medicines:

has cured thousands never benefited by medicines:
Some five months ago I was attracted by a outlot Professor Boles, No 1220 Wainut street, Phitsdelphia, claiming a discovery that he had maken the use and application of the various forms and modifications of Electricity for the cure of all curable discases. I cashed on this gentlemen, and after listening to his theory of the Electrical laws governing life, health and discase, and his discovery in the application of Electricity in accordance with the polarities of the brain and nervous system, I was impressed that he had something new, and at once applied for instructions on the subject. I now speak from experience, as I have remained in his office for two months, watching the result of his operations and having myself the charge of one of the treaths rooms for nearly months, watching the result of his operations and having months, watching the result of his operations and having myseli the charge of one of the treating rooms for nearly the whole time, and treated from twelve to lifteen cases daily, comprising nearly every kind and grade of chronic disease. Although my expectations were high, I must confess they have been fully realized. I have seen a great number of patients who had availed themselves of the best medical skill and remedial agents for years—cases I well knew to be incurable by all other known remedies—permanently cured by a few applications of Electricity; and what has surprised me most, was the rapid improvement and cure of many cases pronounced pulmonary consumption by their physicians, because Le had been instructed by Dr. Paige to avoid all such cases, as the treatment tended to injure. I feel impelled by a sense of duty to caution the public against the indisoriminate use of Electricity, as I have known injury to result from its use, in the hands of the ignorant. I would here remark that I have never in my whole experience, or observation from books, pamphiets, or intercourse or observation from books, pamphlets, or intercourse with men, read or heard of the general or special appliation of Electricity to the cure of disease, as taught by rolessor Bolles, and, therefore, conclude it is original

Professor Bolles, and, therefore, conclude it is original with him.

I would say to those tampering with this mighty agent of life and death to beware lest you ettike a blow at the citadel of life, and never think of applying it to the living organism until you understand its nature, and when, where, and how to apply it.

I would here take occasion to recommend my professional brethren throughout the country to turn their ettention to this important agent as taught by Professor Holles, who has containly, it my onlying, discovered the tention to this important right. as adapt by Professor Holles, who has certainly, in my opinion, discovered the only reliable mode of its application, and thus rendered an important service to the healing art, and a lasting blessing to suffering and diseased humanity

JAMES P. GREVES, M. D.,

2008 Pina great Philipteliables

JAMES P. GREVES, M. D.,
206 Pine street, Philadelphia.
Eince then Dr. Greves has been qualifying his brethren
in the medical profession, who, to a man, endorse the
discovery of Professor Bolles
W. B. Wells, M. D., Buffaio, N. Y., after a year's
practice, writes to Prof. B. as follows:
I think my feith fully comprehends the fact that Electricity, correctly applied, according to your discovery, is
abundantly competent to cure all curable dissasse. My
experience and success, after extensive practice, fully
warrant this assertion. Were I sick with a fatal disease,
I would far sooner trust my life in the hands of a skilful I would far sooner trust my life in the hands of a skilful Electrician than all the "pathles" on earth besides
BUFFALO, N. Y. W. B. WELLS, M. D.

PROF. BOLLES: I am fully satisfied that Electricity, when understood according to its polarities and their relations to the fixed laws of the vital economy, as taught ay you, is the most powerful, manageable, and efficient gent known to man for the relief of pais and cure of disease. I would further state that I have for the past few weeks used Electricity in my practice, to the exclusion of nearly all other remedies, and have been eminently successful, and consider it a universal therapeutic. DAYTON, Ohio.

D. MOCARTHY, M. D. PROF. BOLLES: For the last nine months I have made

Electricity a specialty, and my faith is daily increasing in its therapoutic effects, and I believs, when applied ac-ording to your discovery, it will ours all cutable dis-ceases, emong which are numerous cases never benefited BUFFALO, N. Y. P. W. MANSFIELD, M. D. What I have now to say is from actual observation, as I have spent most of my time for the last two months with Prof. Bolles, and have witnessed the effects of the Elec-trical agent on from fifteen to twenty-five patients a day, suffering from almost every form of chronic disease; and as strange as it may appear, in a majority of cases a per-fect cure was effected in from five to fifteen days. And I will here remark that most of his patients were afflicted with long-standing complaints, considered incurable by all other known remedies.

H. G. KIBBY, M. D.

PROF. BOLLES: I believe your discovery to be a re-liable therapeutic agent, and feel it my duty to recom-mend it. Since I have received instruction from you, I have applied it in cases of Aphony, Brenchitis, Corea, Amenorrhees, Ashma, and Congestion, and find that I have the same success that you had when I was under your instruction. I invariably recommend medical men to avail themselves of an opportunity of becoming acquainted with your new method of applying Electricity.

Defeot, Michigan. DAVID THURSTON, M. D.

your new discovery of applying Galvanism, Magnetism, and other modifications of Electricity as a curative agent, and other modulcations of Electricity as a circulty agent.

I have found by many oxperiments that Electricity is;

sefe therapeutic agent in all acute and chronic cases when
applied according to your discovery. I desire that medical men should become conversant with your discovery.

CLEVELAND, Ohio. MARVIN GOSDARD, M. D. ROCHESTER, N. Y., September 10, 1859.

PROF. BOLLES—DEAR SIR: The more I investigate this system of practice, the more confident I am that it is all powerful to meet the ten thousand diseases to which stable between the sent thousand diseases to which

flesh is heir.

You, who first discovered Electricity to be a reliable therapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the woes and ills of suffering humanity. It is strange that physicians have become so wedded to their several systems, brought up from the darkness of past ages, that they will close their eyes against the light now beaming forth through this system of practice. All other systems I regard as the morning star to the rising sun.

P. SHEDD, M. D. PROF. BOLLES: The nearer I conform to your system of application, the more successful I am, and as I have examined all the guides and works published upon the subject, and seen nothing "in Freerence to your theory," I do not hesitate to say I believe it to be original with you,

and the only reliable system extant for curing disease.

Respectfully yours,

TORONTO: CHAS. BANDALL, M. D. The opinion of a medical man, after thirty years' practice, fifteen in Allopathy and fifteen in Homopathy:

FROT. BOLLES—DEAR SIR: I never have, since you gave me instruction in your new discovery of applying Electricity, and God forgive me if I in the future ever do, practice either Homosopathy or Allopathy. I have do, practice either Homosopathy or Allopathy. I have been strictly governed by the philosophy you laid down,

and for the best of reasons—namely: That I am generally successful, and I frankly say to you that I am done with medicine ferever.

My success has been great since I have been in Newark, N. J.

JAMES P. GREVES, M. D. N. B.—In addition to the above extracts, Prof. B. could furnish over one thousand, fully showing that he is well known to the medical and scientific world as the discoverer of all that is reliable in the therapeutic administrative of Plantacture of the state of the istration of Electricity, and that all other operators not

in the different cities (except those qualified by him) are using Electricity at hazard, and Prof. B. takes this occasion to caution the community against charlatans. Office 1220 WALNUT Street, Philadelphia. N. B.-Medical men and others who desire a know ledge of my discovery can enter for a full course of lec-tures at any time. ools-tf

TARRANT'S EFFERVESORNT SELTZER APERIENT. This valuable and popular Medicine has universally re-ceived the most favorable recommendations of the Medical Profession and the public as the most Efficient and Agreeable

SALINE APERIENT. It may be used with the best effect in Bilious and Febrile Diseases, Costiveness, Sic Headache, Nausea, Loss of Appetite, Indiges-tion, Acidity of the Stomach, Torpidity of the Liver, Gout, Rheumatic Affections, Gravel, Piles,

AND ALL COMPLAINTS WEER A GENTLE AND COOLING APERIENT OR PUR-GATINE IS REQUIRED. by Sea and Land, Residents in Hot Climates, Persons of Sedentary Habits, Invalids, and Convalescents; Captains of Vessels and Planters will find it a valuable addition to their Medicine Chesis. It is in the form of a Powder, carefully put up in bottles to keep in any climate, and merely requires water poured upon it to produce a de-lightful effervescing beverage.

Numerous testimonials, from professional and other gentlemen of the highest standing throughout the country, and its steadily increasing popularity for a sories of years, strengly guaranty its efficacy and valuable character, and commend it to the favorable notice of an attaillement public. of years, and commend is so an intelligent public.

Manufactured only by

TARRANT & CO., No. 275 GREENWICH Street, corner of Warren st., NEW YORK,

And for sale by Druggists generally. YER'S CATHARTIC PILLS .-A YER'S CATHARTIC PILLS.—
The sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgetive which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary Medicines, and that they win in excellence the ordinary Medicines, and that they win unprecedentedly upon the esteem of all mer. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge cut the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every-body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished VIA MEDIA.

VIA MEDIA.

TALL ABRANGEMENT.

On and after MONDAY, Sept. 15th, 1862, the trains will leave PHILADELPHIA from the depot, N. E. corner of EIGHTEENTH and MARKET Streets, at 8 and 10.30 A. M., and 2; 4.15, and 6.30 P. M., and will leave the corner of THIETY-FIRST and MABKET Streets, 17 minutes after the starting time from Eightenth and Market streets.

ON SUNDAYS.

Leave PHILADELPHIA FOR the depot, N. E. corner of Eightenth and Market streets.

ON SUNDAYS. to the relief of my afflicted, suffering fellow-men.

The Agent below named is !pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following compaints:

use and certificates of their curse, of the following com-plaints:

Costiveness, Bilious Complaints, Rheumaiism, Dropsy,
Heartburn, Headache arising from al foul stomach, Nau-sea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neu-ralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions. functions.

Be not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

powers. The sick want the best and there is for them, and they should have it.
