The power is greatly increased, and the harmony produced is truly wonderful, giving an entire new quality of tone, which is deep, rich, sweet. and melodious, with a singing peculiarity to each note, unlike to any Piano ever manufactured heretofore. The music-loving public are respectfully invited to call at our Warerooms, No. 1021 CHESTNUT Street, where they can examine this great improvement in the Plano

FOR THE SICK AND WOUNDED.—
Under an order from the President of the United
Stars, a national system has been established by the
SANITARY COMMISSION for the safe transmission SANITABY COMMISSION for the safe transmission and judicious distribution of articles contributed by the people, for the sick and wounded of the Army and Navy. The system, after being well tried, has been formally approved and recommended by the President, the General-in-Chief, and the Surgeon General. The security it offers against misappropriation is practically perfect, until the contributions are delivered in the hospitals, where they necessarily pass from the control of the Commission. Of more than a million articles sent through one of the largest of its channels of supply, it has been ascertained that not one hundred have miscarried, or been dishonesly used. Discreet and trustworthy agents are constantly employed in visiting all divisions of the army, including those on the Southern coast, the Mississippi, and the Western frontier, to observe their wants, to direct supplies where they are most needed, and sippi, and the Western frontier, to observe their wants, to direct supplies where they are most needed, and to secure, as far as practicable, their honest use. The Commission dees not undertake to deliver articles to individuals, and declines to receive contributions with any restriction as to their destination, within the limits of the force employed in the service of the Nation, it being one of its secondary objects to strengthen the sentiment of National unity wherever it can come in antagonism with State or local pride. The distribution of hospital supplies is but a branch of the works of the Oommission. It employs the best professional takent which can be obtained in the country, to aid its larger purpose, to do all that is possible for the health and vigor of our fighting that is possible for the health and vigor of our fighting men, to lighten their burdens, and to sustain their spirits under the privations and hardships which are an essen-tial part of successful warfere.
