The Thermometer W....NW by W..W by N N by W..N by E..W by N CHESTNUT-STREET BRIDGE. - The bridge over the Schuylkill, at Chestnut street, has sufficiently progressed to allow of some speculation as to its final appearance when completed. On the east side of the river, on a line with Chestnut street facing the river, two small piers of neatly-hewn granite, two retaining walls, and the abutment, are about three fourths completed. The latter portion of the masonry will require an addition of some sixteen feet of stone, and the other blocks a corresponding number in proportion. The blocks of stone for the eastern abutment, upon which the arches of the bridge are to rest, are on the ground. They contain about saventy-two cubic feet each, and weigh nearly five

On the west side of the river piles are being stationed for the erection of the retaining walls; the foundation of the western abutment has been completed, and the work is now about parallel with the top of high water. The crib which is to be sunk in the middle of the river, for forming the foundation of the middle pier, will be finished as soon as possible. Its depth is 29 feet. An attempt will be made to sink it in its proper position some time next week, a fair day being required for the purpose. When sunk, the top of the crib will be about four feet above the of the water. In view of the near approach of cold weather, it is probable the masonry of the foundation will not be laid before next spring The iron superstructure will be furnished by a firm at Kaighn's Point, N. J., though probably not before next summer. The force of workmen engaged on the bridge, including carpenters and stonemasons, numbers about forty-five, while the appearance of the vicinity would indicate a atone quarry of formidable extent. For squares around, loose blocks of stone, large and small, lie scattered over the neighboring lots, or partially blockade the public

The construction of the work is under the superintendence of Strickland Knesss, Esq., chief engineer of the city, who is represented in its practical execution by Mr. McClinra, engineer, Mr. J. Powell is the builder of the cribs. Messrs. Clark, McGrann, & Kennedy are the contractors. The bridge will be completed within about one year from next Christmes.

GUARDIANS OF THE POOR.—The stated meeting of the Board of Guardians of the Poor was held vesterday afternoon at the office. No. 42 North Seventh atrest, the President, Mr. Maris, in the chair. The "census" of the Almshouse for the last two weeks was sul mit ed as follows:

Admitted during the last two weeks......

Bound out. Granted lodgings. Granted meals.

Of the whole number in the house 1,386 are females, and 1,078 males. The out-door agent reported baving collected, for sup port cases, \$480.17. The steward of the house reported

the receipts at \$465.75. The Committee on Accounts, by the request of the Buard, at the last meeting, to inquire and report by what authority the superintendent of the vault for dead bodies, at the Almshouse, received an extra compensation, and what were his duties, made a report. The superintendent, it appears, attends to all burials, preserving a record of deceased inmates and performs all the duties appertaining to the office of general undertaker. The extra pay of \$10 per month, voted by the Board for the superintendence of the receiving vault, was considered requisite Some discussion ensued upon the report, the subject being the necessity of making provision for the suitable terment of the doceased paupers. There was a plentitude of space and labor on hand, but the difficulty was hat. After burial, the corpses were dug up from the graves r supplying subjects for the dissecting room. In order to reach the subject, the following resolutions. arately submitted by Mr. Dickinson, were adopted-

MEETING OF THE BOARD OF SURVEY. -The Board met at 10 o'clock. In consequence of the absence of Mr. Knesss, Mr. Haines was called to the chair. The minutes of the 3d and 10th inst. were read and approved. Merers Roberts, Miller, and Shedaker were appointed a committee, to meet on Friday next, at 2 o'clock, to make investigations in regard to a lot. Mr. Davis offered the following resolution : Resolved, That the heights at the corner of Bichmond and Leopard streets be fixed at three feet, and that the grade be altered to suit that elevation.

Mr. Shallcross moved that the canal, as now onened and used, from Samuel street to the river Delaware, be This was agreed to unanimously. Mr. Roberts moved that this day (Monday) two weeks

be fixed for the hearing of the plan of the revision of Pennsylvania avenue, and also Spring Garden street, from Broad to Twenty-third street. Agreed to. Mr. Shallcross presented plans of a portion of th Twenty-third ward lying between Bridesburg and Poquesink creek, and from Bristol turnpike to the river Delaware, and asked that this day two weeks be fixed for the bearing thereof. This was agreed to.

THE CASE OF THE PRIZE SCHOONER ELMIBA COBNELIUS - The statement of the captain of the prize schooner Elmira Cornelius has been submitted in the form of an affidavit, and the case is still open for further proof. The fact that the captain remained at Port Royal for two or three months without discharging cargo, and then cleared for New York, seems to stagger the court, and is regarded as one of the strongest circumstances indicating an attempt to run the blockade. But the vessel and cargo have been ordered to be sold, as it is considered the interests of the claimants and the captors may be best served by the sale of both, the cargo being partially damaged and the vessel being in a leaky condition.

CORONER'S INQUEST.—Coroner Conrad held an inquest yesterday morning upon the bidy of Benjamin Scott, colored, aged sixty four. The deceased died on Sunday, at the Pennsylvania Hospital, and his death was supposed to have resulted from violence in having been pushed down stairs at a house in Seventh street, above Lon bard, on Sunday night. The jury rendered a verdict of accidental death, since the evidence showed that the deceased was very much intoxicated, and fell out of the doorway.

LARCENY CASES.—Mary Quinn and Catherine Barrett were committed by Alderman Beiller, yesterday afternoon, on the charge of having stolen a quantity of underclothing from various houses in the

Two men, nemed Daniel German and Edward Dougherty, were arrested by the Harbor police on the charge of having stolen a canal boat from Kaighn's Point. The boat was in charge of the United States marshal, and the defendants are alleged to have brought it over to Washington-street wharf, where they were captured. The accused were passed over to the custody of Officer Shaw,

DECEASED -Mr. John F. Mascher. late alderman of the Eleventh ward, died on Saturday, after a brief illness. The deceased was at one time a useful member of Common Council, and he took the tend in a number of useful reforms. Among other things, he introduced and pushed through Mr. John McAllister's plan for numbering houses, by allowing one hundred t each square, a system which has put Philadelphia in the lead in this respect. On Saturday Mr. S. S. Sanford, of the Ethiopian Opera, buried his father, Richard San lord, who died a few days since, and resterday the wife of the manager, Mrs. Luressa P. CHARGED WITH CONSPIRACY.—Yesterday, in the Criminal Court, before Judge Thompson. Samuel Hamilton and Matthew Shields were put on trial, charged with conspiracy. The allegation of the commonwealth is, that they conspired together to fraudulently add Shields' name to the assessors' list in the First division of the Eighth ward, as residing at 201 Du-

ponceau street, when in fact he resided in another sec tion of the city.

District Attorney Mann, in opening the case, referred to the care required on the part of the citizens to preserve the purity of the ballot box, in order, that a fair expression of the people's will may be ascertained. There was one class of men who were never content to submit. to this will of the majority, and to this class the defendanis belong. Matthew Shields was for nerly in the habit of being about the Fourth ward ; he was a man who had no fixed residence, but was about the Fourth ward. It was the design of certain persons to have names added to the extra assessment with a view to vote those names There was an arrangement made between Shields and some designing persons that he might be thus registered He was induced to have his name assessed as residing in the First division of the Eighth ward, at 201 Duponceau street, at the house of Mr. Cunningham. After this Mr. Hamilton called upon Mr. Cunningham, and told him that

if anybody asked him if Shields lived at his house, to say The technical proof of the election and the printing of the assessment was given first. John Cunningham sworn.—I live 201 Duponceau st.; I know Matthew. Shields for twenty years; I have always known him to reside in Catharine street, bealways known him to reside in Catharine street, petween Eighth and Ninth; when I was in South street he has been at my house; I have resided at 201 Duponceau street six or seven months; Shields never resided with me there; before the election Mr. Hamilton came to me me there; before the election Mr. Hamilton came to me and said, "If anybody asks you if Matthew Shields lives with you, tell them yes;" I said, "What will I do that for—I am opposed to that—a man ought to yote where he belongs—why don't he voto in the Fourth ward, where he belongs?" Hamilton said, "Well, these are trying times, and we must do something for the party;" I said to him, "What do you take me for!—I am no Demoorat—I belong to the People's party now."

Oross examined—I keep a public house; it was in the moning when Mr. Hamilton came home; nabody present; the first thing he said was, "If anybody comes

moning when Mr. Hamilton came name; nobody present; the first thing he said was, "If anybody comes and asks if Mat. Shields is assessed at your house, say yes" I said, "I will do nothing of the kind." I had seen Shields three or four days before I saw Hamilton; Shields never slept in my house all night.
William Skill sworn—I knew markets voted at the late election, at the Eighth division of the Fourth ward. On behalf of Mr. Hamilton, the defence set up the good character of that gentleman, extending over a period of thirty years. The case was given to the jury, and a verdict of guilty was rendered. .. A motion for a new trial was immediately made, and Saturday next was fixed for the argument.

MEETING OF THE MEMBERS OF THE VE PERAN BEGIMENTS Yesterday, a meeting of the non commissioned officers and privates, who are recruiting in this city for the veterau regiments, was held at Jones' Hotel, to take some action on the death or Sergeant Urish Beszer, of the 82d P. V., who was brutally murdered in the street. Appropriate resolutions were passed, and it was agreed that the fuceral of the deceased. which takes place to-morrow, be attended by the noncommissioned officers and privates recruiting in the city.

ENTERED HIS SECURITY .- Mr. And Zare, Jr, counsel for Frederick Wolbert, Erq, appeared efore court yesterday morning, and presented the securi y of Mr. W. as prothonotary of the Court of Common Pleas. The securities amount to \$16,666.66. This seems to be a singular sum. The fractions arise out of an old English law of pounds, shillings, and pence. The securities offered are worth several hundred thousand dollars each. Mr. Wolbert will enter upon his duties on the 1st of December ensuing.

THE RECENT MURDER IN PRINCETON. -The man who was arrested about ten miles from Princeton on the charge or suspicion of having mur dered Mr. Rowan a jeweler of that place, is well known to the police of Philadelphia. Detective Smith says he hails from Massachusetts, and was in the hands of the rolice of this city some time since on the charge of theft.

FARE TO REMAIN THE SAME.—The Germantown Passenger Bailway Co. (Fourth and Eighth streets) have, we learn, decided not to increase their fare to six cents, in accordance with the resolution of the Board of Presidents. Upon either the city or the Gerrates.

PHILADELPHIAN PROMOTED.—Lieut. Thes. Inskeep Moore, of Company G, 2d Delaware Regiment, and a resident of this city, has been promoted to captaincy and placed on the staff of Gen. Hancock. Lieut. Moore was badly wounded in the battle of Anfietam, and this promotion is on account of bravery displayed by him on several occasions.

DEATHS AT ARMY HOSPITALS.—The following deaths were reported up to yesterday: West Philadelphia Hospital, Hickol Depoe, Company F, 55th New York, and Oliver P. Smith, Company I, 102d New York. Broad at Hospital, Chas. Van Steinberg, Company B, 18th New York volunteers. FIRE. - At about one o'clock yester-

day afternoon a fire occurred at Joseph Bootoff's, No. 1030 Girard avenue. The loss is estimated at twentyfive dollars. The flames were caused by a child playing with matches. SALE OF PRIZE COTTON.—The cargo of the prize schooner Josephine, consisting of 321 bales

of cotton, was sold yesterday morning, by order of the U. S. Marshal. It was disposed of in two lots, the first of 60 bales at 68 cents per pound, and the balance at CHARGED WITH PICKING POCKETS.

On Saturday night a young man calling himself John Smith was arrested for picking pockets at the Continental Music Hall. He was committed by Alderman Carter for A SABBATH GUNNING PARTY .- On funday quite a large party of men went out to Frank-

ford on a gunning excursion. The old law imposes forty shillings upon such offenders. Two men were arrested on Sunday by the police, and fined ten dollars spiece. PRESENTATION.—Captain John S. Struthers, Company K, 13th Pennsylvania Cavalry, has

The November sessions of the District Court of the United States for this district commenced yesterday United States for this district commenced yesterday morning, and — Bullock was appointed foreman of the Grand Jury. There being no business ready for the petit juross, they were discharged until this morning. The colendar for the term is not a very large one. Singular to relate, there is not one case of counterfeiting on the list. They usually occupy it to the exclusion of most all other cases. The case of Louderback, charged with prijury, and the case of one charged with fraudulently obtaining letters from the post office, are the most prominent ones down for trial.

Rose Weish vs. John Berry. This was an action to recover the sum of \$300, and interest from April 23, 1659, the smount of a loan from plaintiff to defendant made then. A short time previous sho had gone to his house as a domestic, and at the date nemade he applied to her for this amount, which she had saved from her wages and earnings of previous years. He was successful in obtaining the money needed, but gave no note or other memorandum at the time Afterwords, however, at her request, he wrote an acknowledgment of indebtedness, which is in the following words:

"County of Philadelphia, I, John Berry borrowed \$300 at 6 per cent, in the year of 1850; three hundred **Mounty of Philaceipnia, 1. Joan Berry porrower \$300 at 6 per cent; in the year of 1959; three hundred dollars at 6 per cent from Rose Welsh, the first year's interest being due on ithe 23th day of April, 1860, the same to be paid yearly; the said Rose Welsh to give six mouths' notice to the said John Berry when she wants the reliable.

the principal.

In August, 1861, Bose left the defendant, and in a few days having failed to obtain the money loaned, otherwise gave the required six months' notice. That interval speedily roller away, but brought not the money, and this suit was instituted.

The defence, while defended the state of the control of the defence. this suit was instituted.

The defence, while admitting the lose, set up the following allegations of defence. Rose, in the capacity of domestic, was employed at defendant's from February 50 to August '61, and during that time was trusted in imto August '51, and during that time was trusted in implicitly, acted as saleswoman for the defendant in hit liquor store, and was looked upon as in every, respect a worthy and reliable servant. Notwithshanding all this, however, the defendant alleges that he was continually meeting with losses in the store, his accounts would not agree and his bewild rement over this state of affairs was only relieved in the following manner: Shorily after Rose left him he discovered a notice addressed to her from the Assignee of the National Safety Fund, requesting her book for settlement. This aroused his suspicion, and an investigation was instituted, which resulted in showing deposits by Rose in the National and in the Bishop's Fund, during the period of her service at his his house, to the amount of \$675. Knowing Rose's position, and low rate of her salary, (75 cents per week), he concluded, and now sets up as a defence to Rose's action for the loan, that this sum was stolen from him by her for the loan, that this sum was stolen from him by her while she was in his employ, and had free access to the

noney drawer.
In rebuttal, the plaintiff proved an excellent character, and the possession of a large sum of money before she went to reside at the defendant's. One witness with went to reside at the defendant's. One witness with whom she had formerly lived as a domestic, spoke of her in the highest terms, and stated that Mr. Tracy Wilson paid him, for Hose, \$300 on account of a larger sum he had borrowed of her. The case was very holly and ably contested by Daniel Dougherty and Edward H. Weil, Esqs., for plaintiff, and Walter Budd and J. P. O'Neill, Erqs, for defendant. At a late hour the argument of counsel couclated, and Judge Hare stated that he would charge the invy this morning. charge the jury this morning.

TISM, and other meditioations of ELECTRICITY, re-ceived general favor among the most liberal Medical Men of the Old Schools, and is Prof. B.'s system now being brought rapidly into public favor? Yes, verify, and if you doubt it, read carefully the following extracts of letters, and also opinions of some of the most eminent Medical Men of this and other States, who have been traveling and lecturing, teaching and applying the differ-ent modifications of Electricity, as taught them by Prof. BOLLES: BOLLES:

The testimony of a Medical Man of the Old Schools, thirty years—fifteen years in the Allopathic School and fifteen in the Homeopathic—and has for two years since, being qualified by Prof. B., made Riectricity a pecialty, has cured thousands never benefited by medicines:
Some five months ago I was attracted by a card of Professor Bolles, No 1200 Walmut street, Philadelphia, claiming a discovery that he had made in the use and application of the various forms and modifications of Electricity for the cure of all carable diseases. I called on this gentlemen, and after Estoning to his theory of the Electrical laws governing life, health and disease, and his discovery in the application of Electricity in accordance with the polarities of the brain and nervous system, I was impressed that he had something new, and at once applied for instructions on the subject. I now speak from experience, as I have remeded in his office for two months, watching the result of his operations and having myselt the charge of one of the treating rooms for nearly the whole time, and treated from twelve to fifteen cases daily, comprising nearly every kind and greate of chronic disease. Although my expectations were high, I must confess they have been fully reakized. I have seen a great number of patients who had availed themselves of the best medical skill and remedial agents for years—cases I well knew to be ingurable by all other known remedies—permanently cured by a few applications of Electricity; and what has surprised me most, was the rapid limprovement and ourse of many cases pronounced pulmonary consumption by their physicians, because I had been instructed by Dr. Paige to avoid all such cases, as the treatment tended to injure. I feel impelled by a sense of duty to caution the public against the indisoriminate use of Electricity, as I have known injury to result from its use, in the hands of the ignorant. I would here remark that I have never in my whole experience, or observation fr BEAD THE FOLLOWING FROM EMINENT M. D.'s or observation from books, pamphlets, or intercourse with men, read or heard of the general or special appli-cation of Electricity to the cure of disease; as taught by Professor Bolles, and, therefore, conclude it is original Professor Bolles, and, therefore, conexude it is original with him.

I would say to those tampering with this mighty agent of life and death to beware lest you strike a blow at the citadel of life, and never think of applying it to the living organism until you understand its nature, and when, where, and how to apply it.

I would here take occasion to recommend my professional prethren throughout the country to turn their attention to this important sgent as taught by Professor Bolles, who has certainly, in my origina, discovered the only reliable mode of its application, and thus rendered an important service to the healing art, and a lasting blessing to suffering and diseased lumanity

I think my faith fully comprehends the fact that Electricity, correctly applied, according to your discovery, is abundantly competent to cure all curable diseases. My experience and success, after extensive practice, fully warrant this assertion: Were I sick with a fatal disease, I would far sconer trust my life in the hands of a skilful Electrician than all the "pathies" on earth besides.

What I have now to say is from actual observation, as I have spent most of my time for the last two months with Prof. Bolles, and have witnessed the effects of the Elec-trical agent on from fifteen to twenty-five patients a day, suffering from almost every form of chronic disease; and as strange as it may appear, in a majority of cases a per-fect cure was effected in from five to fitteen days. PROF. BOLLES—DEAR SIR: The more I investigate this system of practice, the more confident I am that it is all powerful to meet the ten thousand diseases to which flesh is help. flesh is heir.

You, who first discovered Electricity to be a reliable therapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the wees and ills of suffering humanity. It is strange that physicians have become so wedded to their several systems, brought up from the darkness of past ages, that they will clear their eyes against the light, now beaming forth through this system of practice. All other systems I regard as the morning star to the rising sun.
P. SHEDD, M. D.

PROF.
