THE CITY.

The Thermometer. ARRIVAL OF A PRIZE SCHOONER'S

OARGO,-The cargo of the Confederate prize-schoone Emma arrived at this port yesterday, having been captured by the United States gunboat Kittatinny, Charles W. Lameon commanding. The official report relates that on September 27th, at daylight, the schooner was seen, and several boats were sent to take her. She came from Velasce, Texas, cleared for Kingston, Jamaica, loaded with one hundred and twenty-one bales cotton. She was taken thirty miles from Velasco, longitude 95 deg. 82 min., latitude 28 deg. 80 min. The crew (numbering eight) were taken on board the Kittatinny, except the captain, Wm, Baker, the supercargo, Jesse C. Wagner, and one Seaman, W. H. Baker, all of Texas, though the Bakers were formerly of Massachusetts.
At eight P. M., E. E. Pendleton, acting master, was

ordered to take charge of the prize, with a crew of four men and a master's mate, to proceed to Key West or New York, at his discretion, the yellow fever prevailing at the former place. On the 2d October, spoke the gunboat Albatross, which reported yellow fever on board. On the 15th, in the vicinity of the Tortugas, moderate heavy gales were experienced, and head winds during the passage. On the 16th, falling in with brig Harriet, of Portland, the captain furnished them with some provisions. On the 24th, being short of provisions again, shaped their course for Beaufort, N. C., but, head winds prevailing, could not double Cape Fear. On the 25th, however, at one o'clock P. M., they made the place; also, two gunboats, one of which, the Genesee, came down and boarded

The captain, informed of their situation, gave the order to stand in and come to anchor near the United States gunboat Penobscot, and promised assistance after he had spoken the vessel in sight. At 11 A. M. they came to anchor near the Genesee, and at 8 A. M. the 26th, fresh breezes sprang up from E. S. E., and finally tore out the - places and night heads. The Geneses, however, supalled them with provisions, and the gale increasing, they were taken in tow by the steamer Maratauza. During the night the steamer was obliged to steam off shore, keeping them in tow. The tow line caught under the bowsprit, ripping up the same. The vessel being completely immersed at the time, a bale of cotton was washed overboard, and the main and flying jibs washed away. On the 27th, being assisted by the Genesee, with anchor and carpenters' tools, they bore up for Port Royal, and arrived on the 30th. Reporting to Admira; Dupont, he ordered a survey to be held on the vesse the cargo being transhipped and forwarded to this port by brig Julia Ford, Cap ain Payne. The prize schooner is still at Port Royal, her cargo only having been

The Kittatiany was built by Simpson & Neill, of this city, and purchased by the Government, for a gunboat. She sailed from this port in December, of last year, since when she has been on the blockade, on the coast of Loui sians and Texas, and is still there, all her former officers however, having, we learn, resigned.

DEATH OF ADMIRAL LAVALLETTE. On Tuesday evening, at the residence of his son-in-law in this city, died Rear Admiral Elie A. F. Lavallette, U. S. N , in the seventy-third year of his age. His actual pervice amounted to more than fifty years since he entered the navy as a sailing master, June 25, 1812, being appointed from Pennsylvania, though a native of Virginia. On February 23, 1840, he was commissioned as captain, and during the Mexican war, in 1847, he commanded the frigate Congress, and, with the Portsmouth likewise under his command, captured the town Gusyma, near the head of California Gulf. In the capture of Mazatian, late in the same year, he also asalated, and became Governor of the town. In the year 1859 he was last at sea, and in the recent organization of the navy was made a rear admiral on the retired list His death will be much lamented by both his civil and professional brethren.

SERENADE TO A WORTHY LADY .-The accomplished and esteemed lady principal of the Cooper Shop Refreshment Saloon, Miss Anna M. Ross. was serenaded on luceday evening at her residence in Sixth street, above Poplar. The affair was gotten up by a number of the personal friends of the lady, as an appreciation of the unremitting care and attention paid by her to the many sick and wounded soldiers who came under her charge. The services of the Jefferson Cornet Band were secured for the occasion. After repairing to leuce of Mies Ross, the band played in a masterly mapper a number of patriotic and lively airs. This compliment to the worthy recipient was well deserved. resides in the same neighborhood, was also serenaded on the same evening.

THE TAX RATE.—The Finance Comnittee of Councils have not yet reported ordinances to meet the current expenses for 1863, of the various departments of the city government. To-day, they will probably report the appropriation ordinances for the Board of Health, City Property, and Guardians of the Poor. The Board of Controllers, and the Commissioners of the Sinking Fund are the only delinquents, thus far, in not sending in their estimates. The former body met yesterday afternoon, and reported their estimates, which will probably be sent to the Finance Committee this morning. Until these ordinances are reported and acted upon, the committee will not be able to report the tax rate f r 1863. If they should not do so by the 15th of December, the present rate will be, by law, continued.

MATTERS AT CAMP PHILADELPHIA. Large quantities of army clething have recently have received at Camp Philadelphia and been issued to the men. The rations issued by the Quartermaster are excellent-good fresh beef, fine potatoes, and fresh bread every

Of the fifty-eight men drafted from Bensalem, fortytwo have been discharged—one because of a deficient arm, ten on the grounds of physical disability, and thirty-one on account of that number of volunteers having been furnished which the township had not been credited for by the deputy marshal, leaving but fourteen from that town-

ACKNOWLEDGMENTS .- The Christianstreet Army Hospital surgeon acknowledges the receipt of eighly-five dollars, which are the proceeds of a young ladies' fair, held at a private residence, and which are to be appropriated to the benefit of the sick and wounded soldiers of the hospital. The ladies' fair beld at King's Hall, Frankford road, opposite Master street, realized seventy five dollars. This will be distributed among the widows of the soldiers

of the Eighteenth and Nineteenth wards THE PENNSYLVANIA RAILROAD.—The Democratic nember of Council will hold a caucus today, for the purpose of making nominations for three city directors of the Pennsylvania Railroad. Two tickets, we understand, are in the field, the one being favorable to the present management of the road, and the other in opposition to it. The first is represented by Mr. Hugh Oraig, and the second by Mr. Megargee and Mr. James Page, both of whom are known to be opponents of the

road. The election of directors will take place, this afternoon, in Common Council Chamber, where Select Council will also be present. ANOTHER NEW PLACE OF ENTER-TAINMENT .- Messrs. Gardiner & Hemming, the circus proprietors, are fitting up the National Hall, Twelfth and Market streets, as an amphitheatre, and will soon open it with a complete circus company. The place is well calculated for the purpose, and when the improvements in progress are completed will rank as a first-class amphitheatre. The numerous classes who delight in the performances of riders and acrobats will

doubtless find at this establishment entertainments well worthy of their patronage. SALE OF THE CARGO OF THE PRIZE BARK "FANNIE LAURIE."-By order of the U. S. marshal, the balance of the cargo of the bark "Fannie Laurie" was sold yesterday at auction, at 107 North Water street, as follows : 3,470 bushels fide salt at 45 cents; 1,260 bushels ground salt at 44% cents; 100 cases chickory at 7% 07% cents 4 1b; 38 zinc cans for preserved vegetables, \$1. The terms of sale were cash. payable in treasury notes previous to the delivery of the

PROVOST GUARD'S OFFICE. At a late hour on Tuesday night eighty. six men were sent from the Provest Guard's office, some of whom were lodged at Fort Delaware as deserters. Nine were sent to Annapolis, and the balance to Washington. Two hundred more will leave to day; of this number twenty will be sent to Fort Delaware as deserters. The remainder will go to

Washington to be returned to their regiments. CHAMPION OARSMAN.—A gentleman of this city has presented James Hammill, of Pittaburg, for his prowess as an oarsman, a massive gold ring. fashioned like a relt, with a rich setting, and the words, "The Champion" engraved on the outside. Ham nill,

it will be remembered, was declared champion of oarsmen a short time since, at a race he won on the Schuyl-THE REAZER HOMICIDE. - Wm. Fleming had a hearing yesterday afternoon in the Court of Quarter Sessions, upon a writ of habeas corpus, and was ted on Tuesday evening, in accordance with the verdict

aitted to bail in the sum of \$2,500. He was commitof the coroner's jury, for an alleged participation in a riot in front of Wray's Varieties, in which Uriah Beazer, POLICE INTELLIGENCE. - Charles Steward has been held by Alderman McMullin on the

charge of swindling a person out of the sum of \$260. This is an affair growing out of what may be briefly Stated a sailor boarding house case Ann Nugent, charged with selling liquor without a license, at Righth and Bedford streets, was also bound over by Ald. McMullin to answer.

STABBING AFFAIR. - Last evening, about half past six o'clock, a stabbing case occurred at a house in a court on Fourth street, above Carpenter. It appears that a man named John Gibson, a workman In the employ of Merrick & Sons, while under the fluence of liquer, got into an alteroation with his wife. during which he plunged a knife into her side, injuring her seriously, if not fatally. The injured woman was taken to the Pennsylvania Hospital. Gibson was arrested and committed to await the result.

A SAILOR SWINDLED .- Yesterday morning, Alderman McMullin had un Charles Stewart. on the charge of larceny of \$200. The money was the property of a sallor recently discharged from one of our war vessels. Some weeks ago a similar case was tried in the Court of Quarter Sessions. The sailor states he gave the money in charge of Stewart, who keeps a boardinghouse at Front street and Mead alley. Stewart was accordingly committed to answer at court, since it is said he has taken too good charge of the money to return it. SUDDEN DEATH. The coroner held an inquest yesterday morning on the body of Mrs. La vinia Minizer, who died suddenly, at her residence, on Second street, above Christian. She appeared to be in the enjoyment of health, and was in the store a few moments before her death. She had gone into the dwelling

for the purpose of preparing supper, when she fell, and died in a short time. SPECIAL MEETING OF THE BOARD OF CONTROLLERS.—A special meeting of the Board of modifications, after which the Board adjourned.

Controllers was held yesterday afternoon to receive the report of the committee on estimates for the year 1863. The report was received and adopted with some slight COINAGE OF CENTS .- At the Mint, there are now coined daily about \$2 500 of nickel cents, allof which are distributed as soon as made, but still they

PHOTOGRAPH ALBUMS.—More gaicty and more gravity have been exercised over photograp albums than over any other species of compilation They are either portraits or parodies of all the "beauties, harmonies, and sublimities of (human) nature." A great many very bad jokes have been cracked over them, and a few rather good ones. A bewitching little wife and an old satur of a husband have been characterized as a new version of Beauty and the Beast a weak husband and a Jezebel wife, as St. George and the dragon. Sedate clergymen, with very black gloves and very white neck-ties; sedate matrons, pluming themselves on their plumpness, and engaging in their emborpoint green, skinny school-girls, with sickly-looking eyes and hort dresses; middle-aged men about town, excessively polite and exceedingly profane; heads of families, look ing as though they were being asked for money and were trying to get out of it; actors in attitude, and dancers twirling on their toe-tips—all these, and a hundred others

which cannot be illustrated in a local, congregate to gether in a photograph album Some look as if they were visited with strokes o genius; some with sirokes of spoplexy; others as if they should be picking rage; and others, again, as if their proper vocation was picking pockets. A few faces may be called beautiful. Women have often been called angels, and we presume it is for this reason lovers always prefer their sweethearts represented as among the clouds. Bables are bad enough in real life, (mothers, please pass over this portion), but in albums they bloom with a meek, sleepy kind of infantile horror, which is not preferable to their natural gifts of mind and person. However, as we are always in for fashions, so with respect to this fashion we cry with the crowd, vive the photographic

THE CHESTNUT-STREET BRIDGE .-The Committee on Surveys of Councils, Mr. Oning bairman, paid an official visit, yesterday afternoon, to the foundry, at Kaighn's Point, of Mesers. Wilcox Whiting, the contractors for the iron superstructure of the new Chestnut street bridge. The committee were accompanied by Mr. Kneass, chief engineer and surveyor, and Mr. Sellers, assistant city solicitor, and others. The visit was highly gratifying in many respects. An opportunity was afforded to inspect the ample arrangements of this firm to execute their contract with the city in the time to which they are limited. The process of moulding several iron plates, for the exterior of the bridge, was gone through with, much to the satisfaction of the bystanders. The pattern room, machine shop, &c., of the establishment were examined in detail, and afforded much real pleasure and instruction. That portion of the bridge which is to consist of fron has been placed in apparently good hands.

NEURALGIA IN THE ARMY -Surgeons in the army complain that neuralgia in the head, with which so many of our soldiers are afficited in the cold weather, is caused by the want of proper protection from the snow, sleet, and winds. The small cap worn by our soldiers offers no protection whatever to the head and ears, and should be supplied by something more substantial. As the cold weather is now upon us, this matter should be attended to immediately, and our roops furnished with everything that is requisite for them to have in order to endure the hardships of the

DEATHS AT THE ARMY HOSPITALS terday : BROAD AND PRIME .- Henry Aldrich, Co. F, 107th New

BROAD AND PRIME.—Henry Aldrich, Co. F, 107th New York; Wm. Barres, Co. C, Berdan's 1st Sharpshooters; Arthur A. Berry, Co. D, 20th Maine; Michael Tyson, Co. H, 121st New York; Joseph McCullawgh, Co. H, 31 Maryland; Ephraim Dunham; Co. K, 137th New York; G. W M Her, Co. A, 11th New York.

FUMMIT HOUSE—Conrad Kegel, Co. E, 3d Maryland; Wm. Niles, Co. H, 32d Mass.

FIFTH-STREET.—Milton L. Coon, Co. I, 85th New York WEST PHILADELPHIA .- George Hile, Co K, 49th New MASTER-STERET.—Thomas Montague, Co. D, 16th Mass.; Jonathan Wirsinger, Co. K, 11th Pennsylvania; Wm Rebertson, Co. H, 71st Pennsylvania.

Doing Double Duty.-Last night the steamship Saxon, of the Philadelphia and Boston line, arrived at this port, 48 hours from Beaufort. She took in her cargo at-Boston to sall hither, but was pressed into the service of the Government to take supplies to our army at Beaufort, N. C. After she had discharged her cargo she took sail for this port with her Roston cargo.

CREW PAID OFF .- Yesterday morn. ing a portion of the crew of the United States steamer Young Boyer was paid of. Land sharks were not wanting. as they never are on such occasions; but it is to be hoped their rapacity, or the credulous generosity of their victims, was no greater than usual

FRANKFORD ROBBERY.—On Tuesday night, the residence of Edmund Hutchinson, in Pau treet, Frankford, was entered and robbed. Two hundred dollars in money were taken, one-half being Pennsylvania currency, and the other treasury notes.

HELD TO ANSWER. - John Cannon. mployed on the Girard-avenue Passenger Railroad, who was charged before Alderman Beitler with having stolen \$170 from a passenger in his car a short time ago, was held to answer yesterday by that magistrate.

SALE OF FANCY GOODS, &c. Messrs. Viti Bros.' sale of ornaments and fancy, goods took place at their warerooms, No. 639 Arch street, yesterday morning, and was largely attended. The bidding was lively and prices quite fair.

LEGAL INTELLIGENCE. District Court-Judge Hare. ACCOUNT STATED-THE GOLD COAST TRADE-

HEAVY VERDICT.

Foster & Smith vs. John G Sandeman. This was an action on an account stated, and the facts of the case may be thus stated: The plaintiffs are merchants of London, and engaged in the African coast trade, and the defendant was a trader on the cost, stationed at Leios and Badairay. He had been there fifteen years, and during that time was constantly receiving from them shipments of goods designed for trading with the natives. These cargoes of goods were composed of cotton goods, chintzes, and bandanas, elephant guns, rum, tobacco, blue shells, &c. These blue shells form the currency of the country, and are imported from Brazil, and brought in bags. When received there they are assorted, and then exchanged with the natives for the products of the country. In return, the defendant shipped to the plaintiffs gold dust, palm oil, ivory, &c.

In 1854 they sent to him the account stated, on which this suit is brought. He wrote back acknowledging its receipt without, as he alleges, an examina inn-of its items. It was very voluminous, and stated a balance of account against him of £14 873.73 Subsequent examination disclosed objections to it on his part, and he'determined to close up his business and return to England to have these supcosed mistakes corrected. Some two or HEAVY VERDICT.

nation disclosed objections to it on his part, and he'defermined to close up his business and return to England to have these supposed mistakes corrected. Some two or three months clapsed before he could succeed in winding up the business he was engaged in and return; and, when he got there, he was unsuccessful in obtaining any correction. Additional charges had swelled it to £20,915 Is. Id., and suit was brought to recover this. The defence set up was, that he account sued on was not legally an account stated, payments of money, which were established, and large losses by the civil wars among the natives. The defence was not fully made out; and Judge Hare charged against the point that the account was not properly an account stated, and the jury returned a verdict for plaintiffs for \$53,156.21. E Wain for plaintiffs; W. J. McEiroy and C. Guillou for defendant. District Court-Judge Sharswood.

THE ARMY CLOTH CASE. Joseph Dean & Son vs. Robert McKinney.—This case was on trial all day yesterday, the defence having opened early in the morning. The evidence was all in at 4P. M, and counsel commenced summing up. Our report of yesterday so completely set forth the defence that it is not worth while now to repeat it. Witnesses were called to prove that the mixture of shoddy with wool would injure the cloth, and that cloth to pass inspection could not be made from the wool sent by the plaintiffs to defendant, samples of which were in court. It was also in evidence that the delivery of inferior wool commenced in October, and the proportion so increased that in December and the early part of January nothing else at all was used in the manufacture of the herseys save inferior foreign wools and shoddy. Joseph Dean & Son vs. Robert McKinney.—This case and shoddy.

Specimens of this wool were produced in court, and

Specimens of this wool were produced in court, and certain manufacturers of woolen goods testified that army kersey of a quality to pass Government inspection could not possibly be made from it. Dyers testified that it could not be dyed a light army blue. The evidence was not concluded, as we have before stated, until a late hour in the afternoon, and the argument of counsel occupied until seven o'clock in the evening. Judge Sharswood then said he would charge the jury this morning, and the court adjourned.

The Cumberland. The following beautiful poem, by Professor Longfellow, is published in the Atlantic Monthly, the December number of which has just appeared:

At anchor in Hampton Boads we lay,
On board of the Oumberland sloop-of-war:
And at times from the fortress across the bay
The alawam of drum swept past,
Or a bugle blast From the camp on shore.

Then far away to the South uprose
A little feather of snow-white smoke,
And we knew that the iron ship of our foes Was steadily steering its course
To try the force
Of our ribs of oak.

Down upon us heavily runs,
Silent and sullen, the floating fort;
Then comes a puff of smoke from her guns,
And leaps the terrible death;
With flery breath, From each open port.

We are not idle, but send her straight
Defiance back in a full broadside!
As hall rebounds from a roof of slate,
Bebounds our heavier hall, From each iron scale

"Strike your flag!" the rebel cries, In his arrogant old plantation strain. "Never!" our gallant Morris replies; "It's better to sink than to yield!" Then, like a kraken huge and black, She crushed our ribs in her iron grasp! Down went the Cumberland all a wrack.

With a sudden shudder of death, And the cannon's breath For her dying gasp. Next morn, as the sun rose over the bay,
Still floated our flag at the mainmast head,
Lord, how beautiful was thy day!
Every waft of the air
Was a whisper of prayer,
Or a dirge for the dead.

Ho! brave hearts that went down in the seas! Ye are at peace in the troubled stream.
Ho! brave land! with hearts like these, Thy flag, that is rent in twain.

MEDICINAL. INSURANCE COMPANIES. LAS PROF. BOLLES, DISCOVERY in the application of GALVANISM, MAGNETISM, and other modifications of ELECTRICITY, received general favor among the most liberal Medical TISM, and other modifications of ELECTRICITY, received general favor among the most liberal Medical
Men of the Old Schools, and is Prof. B.'s system now
being brought rapidly into public favor? View, verily,
and if you doubt it, read carefully the following extracts
of letters, and also opinions of some of the most eminent
Medical Men of this and other States, who have been
traveling and lecturing, teaching and applying the different modifications of Electricity, as taught them by Prof.
BOLLES: Premiums on Policies not marked BEAD THE POLLOWING FROM EMINENT M. D.'s

BEAD THE FOLLOWING FROM EMINENT M. D. a
The testimony or a Medical Man of the Old Sohools,
thirty years—fifteen years in the Allopathic School and
fifteen in the Homosopathic—and has for two years since,
being qualified by Prof. B., made Electricity a specialty,
has cured thousands never benefited by racdicines:
Some five months, ago I was attracted by a card of
Professor Bolles, No 1220 Walnut street, Philadelphic,
claiming a discovery that he had made in the use and application of the various forms and modifications of Electricity for the cure of all carable diseases. I called on
this gentlemen, and after listening to his theory of the
Electrical laws governing life, health and disease, and
his discovery in the application of Electricity in accordance with the polarities of the brain and nervous system,
I was impressed that he had something new, and at once
applied for instructions on the subject. I now speak
from experience, as I have remained in his office for two
months, watching the result of his operations and having from experience, as I have remained in his office for two months, watching the result of his operations and having myselt the charge of one of the treating rooms for nearly the whole time, and treated from twelve to fitteen cases delly, comprising nearly every kind and grade of chronic disease. Although my expectations were high, I must confess they have been fully realized. I have seen a great number of patients who had availed themselves of the best medical skik and remedial agents for years—cases I well knew to be incurable by all other known remedies—narronality cared by a few applications of cases I went and to be incurable by an other anown remedies—permanently cured by a few applications of Electricity; and what has surprised me most, was the rabid improvement and cure of many cases pronounced pulmonary consumption by their physicians, because I had been instructed by Dr. Patge to avoid all such cases, as the treatment tended to Injure. I feel impelled by a sense of duly to castion the public against the indiscriminate use of Electricity, as I have known injury to result from its use, in the hands of the Ignoraut. I would here remark that I have never in my whole experience,

or observation from books, pamphlets, or intercourse with men, read or heard of the general or special application of Ricotricity to the cure of disease, as taught by Professor Bolles, and, therefore, conclude it is original with bire. with him.

I would say to those tampering with this mighty agent I would say to show tampering want this major, score of life and death to beware leat you strike, a blow at the citadel of life, and never think of applying it to the living organism until you understand its nature, and when, where, and how to apply it.

I would here take occasion to recommend my profeswhen, where, and how to apply it.

I would here take occasion to recommend my professional brethren throughout the country to turn their ettention to this important agent; as taught by Professor Bolles, who has certainly in my opinion, discovered the only reliable mode of its application, and thus rendered an important service to the healing art, and a lasting blacking to suffering and diseased humanity. ssing to suffering and diseased humanity

JAMES P. GREVES, M. D.,

JAMES P. GREVES, M. D., 206 Pine street, Philadelphia.
Since then Dr. Greves has been qualifying his brothren in the medical profession, whe, to a man, endorse the discovery of Professor Bolles
W. B. Wells, M. D., Buffalo, N. Y., after a year's practice, writes to Prof. B. as follows:
I think my faith fully comprehends the fact that Electricity, correctly applied, according to your discovery, is abundantly competent to cure all curable discases. My experience and success, after extensive practice, fully warrant this assertion. Were I sick with a fatal disease, I would far sconer trust my life in the hands of a skillful Electrician than all the "pathles" on earth besides.

Buffalo, N. Y. WELLS, M. D. PROF. BOLLES: I am fully satisfied that Electricity Prof. Bolles: I am fully satisfied that Electricity, when understood according to its polarities and their relations to the fixed laws of the vital economy, as taught sy you, is the most powerful, manageable, and efficient gent known; to man for the relief of pain and cure of tisease. I would further state that I have for the past few weeks used Electricity in my practice, to the exclusion of nearly all other remedies, and have been eminently successful, and consider it a universal therapeutic. DAYYON, Ohio.

D. MOCARTHY, M. D.

Prof. Bolles: For the last nine months I have made Electricity a specialty, and my faith is daily increasing in its therapentic effects, and I believe, when applied according to your discovery, it will ours all curable discases, among which are numerous cases never benefited by medicine. BUFFALO, N. Y. P. W. MANSFIELD, M. D. What I have now to say is from actual observation, as I have spent most of my time for the last two months with Prof. Bolles, and have witnessed the effects of the Elec-trical agent on from fifteen to twenty-five patients a day, suffering from almost every form of chronic disease; and saneting from amous every form of chronic disease; and as strange as it may appear, in a majority of cases a perfect cure was effected in from five to fifteen days. And I will here remark that most of his patients were afflicted with long-standing complaints, considered incurable by all other known remedies.

H. G. KIRBY, M. D.

Prof. Bolles: I believe your discovery to be a reliable therapeutic agent, and feel it my duty to recommend it. Since I have received instruction from you, I have applied it in cases of Aphony, Brenchitis, Cores, Amenorrhesa, Asthina, and Congestion, and find that I have the same success that you had when I was under your instruction. I invariably recommend medical men to avail themselves of an opportunity of becoming acquainted with your new method of applying Electricity. Detroom, Michigan. DAVID THURSTON, M. D.

PROF. BOLLES: A great revolution in my mind and practice has taken place since I became acquainted with your new discovery of applying Galvanism, Magnetism, and other modifications of Electricity as a curative agent. I have found by many experiments that Electricity is a safe therapouto agent in all acute and chronic cases when applied according to your discovery. I desire that medical men should become conversant with your discovery. CLEVELAND, Ohio, MARVIN GODDARD, M. D.

BOCHESTER, N. Y., September 10, 1859. ROCHESTER, N. Y., September 10, 1859.

PROF. BOLLES—DRAR SIR: The more I investigate this system of practice, the more confident I am that it is all-powerful to meet the ten thousand diseases to which flesh is heir.

You, who first discovered Electricity to be a reliable therapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of ours for the wees and ills of suffering humanity. It is strange that physicians have become so wedded to their several systems, brought up from the darkness of past ages, that they will close their eyes against the light now beaming forth through this system of practice. All other systems I regard as the morning star to the rising sun.

P. SHEDD, M. D.

PROF. Bolles: The nearer I conform to your system of application, the more successful I am, and as I have examined all the guides and works published upon the subject, and seen nothing in reference to your theory, I do not hesitate to say I believe it to be original with you, and the only reliable system extant for ouring disease. Bespectfully yours, CHAS. RANDALL, M. D. The opinion of a medical man, after thirty years' practice, fifteen in Allopathy and fifteen in Homopathy:

PROF. BOLLES-DRAM SIR: L never have, since you PROF. BOLLES—DEAR CHE. Le never mayo, punce you gave me instruction in your new discovery of applying Eleoticity, and God forgive me if Tin the future ever do, practice either Homecopathy or Allopathy. I have been strictly governed by the philosophy you laid down, and for the best of reasons—manely: That I am generally and I should not the transfer. rally successful, and I have been in Newwith medicine ferever.

My success has been great since I have been in Newark, N. J. JAMES P. GREVES, M. D.,

206 Pine street, Philadelphia. rally successful, and I frankly say to you that I am done

N. B.—In addition to the above extracts, Prof. B. could furnish over one thousand, fully showing that he is well known to the medical and scientific world as the discoverer of all that is reliable in the therapeutic administration of Electricity, and that all other operators now in the different cities (except those qualified by him) are using Electricity at hazard, and Prof. B. takes this occasion to caution the community against charlatans. Office 1220 WALNUT Street, Philadelphia.

N. B.—Medical men and others whe desire a knowledge of my discovery can enter for a full course of lectures at any time.

TARRANT'S EFFERVESCENT SELTZER APERIENT.

This valuable and popular Medicine has universally re ceived the most favorable recommendations of the MEDICAL PROFESSION and the public as the most REFEIGURAT AND AGREEABLE SALINE APERIENT.

It may be used with the best effect in Bilious and Febrile Diseases, Costiveness, Sici Headache, Nausea, Loss of Appetite, Indigestion, Acidity of the Stomach, Torpidity of the Liver, Gout, Rheumatic Affections, Gravel, Piles,

AND ALL COMPLAINTS WHERE A GENTLE AND COOLING APERIENT OR PUB-GATIVE IS BEQUIRED.

It is particularly adapted to the wants of Travellers by Sea and Land, Besidents in Hot Climates, Persons of Sedentary Habits, Invalids, and Convalescents; Captains of Vessels and Planters will find it a valuable addition to their Medicine Chests. It is in the form of a Powder, carefully put up in bottles

to keep in any climate, and merely requires
to keep in any climate, and merely requires
water poured upon it to produce a delightful effervescing beverage.

Numerous testimonials, from professional and other
gentlemen of the highest standing throughout the country, and its steadily increasing popularity for a series
of years, strengly guaranty its efficacy and valuable
otherstands and commend it to the favorable notice of an
intelligent public. naracter, and connected public.
