FOR THE SICK AND WOUNDED.

Juder an order from the President of the United States, a national system has been established by the SANITARY COMMISSION for the safe transmission, and judicious distribution of articles contributed by the President, the General in-Chief, and the Surgeon General. The security it offers against misappropriation is practically perfect, until the contributions are delivered in the hospitals, where they necessarily peas from the control of the Iomnission. Of more than amillion articles sent through one of the largest of its channels of supply, it has been ascertained that not one hundred have miscarried, or been dishonestly used. Discreta and trustworthy agents are constantly employed in visiting all divisions of the army, including those on the Southern coast, the diffusion for the control countries where they are most needed, and to secure, as far as practicable, their honeat use. The Commission dees not undertake to deliver articles to individuals, and declines to receive contributions with any restriction as to their destination, within the limits of the force employed in the service of the Nation, it being one of its secondary objects to strengthen the sentiment of National unity wherever it can come in antagonism with State or local pride. The distribution of hospital supplies is but a branch of the work of the Gommission. It empleys the best professional talent which can be obtained in the country, to sid its larger purpose, to do all that is possible for the health and vigor of our fighting men, to lightes their burdens, and to sustain their spirits under the privations and hardships which are an essential part of successful warfers. For this purpose, contibutions to its traceury are solicited. They may be directed to OALEB OOPE, Req. Treasurer of the Phiadelphia Agency, No. 503 MARKET Street.

Contributions of the following articles are earnestly solicited, at the Depository, viz.

This volume of adventures will be found fully equal, in point of narrative and description, to "John Brent." It is a record of the author's own youthful wanderings in a wild region of country, and is full of remarkable scenes of travel, not without danger. Winthrop's best powers are evidently put into this capital volume of rere incidents. His Indian experiences are new and graphically told throughout.

gilt, \$1. Velium cloth, gilt top, \$1.25. In the "Poet's Journal" is related the history of Bayard Taylor's domestic life in verse—a histery full of romance and incident. It consists of a series of poems addressed to his present wife, whom he styles the "Mistress of Cedarcroft,"—the name of his country residence in Pennsylvanis,—and he has interwoven in exquisite lyries the story of his love and his sorrows. The narrative is related in "Three Evenings on the Lawn at Cedarcroft," and the whole action and execution of the story are managed with great skill and beauty.

This autoblography in verse, is wholly unique, and cannot fail to interest the admirers of one of our most successful American writers, whose fame has steadily grown with his years rown with his years
