AN EEL IN A TIGHT PLACE.-A day or two since, the supply of water to the Bulletin establishment suddenly ceased. As there is but one remedy waterpipe, this was accordingly done, yesterday morning. A breach was made in the pipe, where an eel was found tightly plugged, several inches of his nether extremity having been drawn into the aperture and kept there, until the poor fish wriggled out a miserable existence. The eel was about three feet in length, and so tightly was he wedged in the pipe that he had to be cut to pieces and forced out. This is the second of the kind that has paid a visit to this establishment within a short time.

BEAD THE FOLLOWING FROM EMINENT M. D.'s

The testimony of a Medical Man of the Old Schools, thirty years—fifteen years in the Alichathic School and fifteen in the Homeopathic—and has be two years since, being qualified by Prof. B., made Electricity a specialty, has cured thousands never benefited by medicines:

Some five months ago I was attracted by a card of Professor Bolles, No 1220 Walnut struct, Philadelphia, claiming a discovery that he had made he he use and application of the various forms and medications of Electricity for the cure of all carable disease. I called on this gentlemen, and after listening to his theory of the Electrical laws governing life, health and disease, and his discovery in the application of Electricity in accordance with the polarities of the brain and nervous system, I was impressed that he had something tew, and at once spelled for instructions are the subject. I now speak from experience, as I have remained in his office for two months, watching the result of his operations and having mysels the charge of one of the treating rooms for nearly the whole time, and treated from twelve to fifteen cases daily, comprising nearly every kind and trade of chronic disease. Although my expectations were high, I must confess they have been fully realized. I have seen a great number of patients who had availed themselves of the best medical skill and remedial agents for years—cases I well knew to be incurable by all other known remedies—permanently cured by a few applications of Electricity; and what has surprised memost, was the rapid improvement and ours of many cases pronounced pulmonary consumption by their physicians, because I had been instructed by Dr. Paige to avoid all such cases, as the treatment tended to injure. I feel impelled by a sense of duty to caution the mubble against the indiscriminate use of Electricity, as I have known injury to result from its use, in the hands of the ignorsat. I would here remark that I have never in my whole experience, or observation from BEAD THE FOLLOWING FROM MMINENT M. D.'s

JAMES P. GREVES, M. D., 2006 Pine street, Philadelphia.
Since then Dr. Greves has been qualifying his brothren in the medical profession, who, to a man, endorse the discovery of Professor Bolles
W. B. Wells, M. D., Buffalo, N. Y., after a year's practice, writes to Prof. B. as follows: W. B. Wells, M. D., Buffalo, N. Y., after a year's practice, writes to Prof. B. as follows:

I think my faith fully comprehends the fact that Micotricity, correctly, applied, according to your discovery, is abundantly competent to cure all curable diseases. My experience and success, after extensive practice, fully warrant this assertion. Were I sick with a fatal disease, I would far sconer trust my life in the hands of a skilful Electrician than all the "pathies" on earth besides

BUFFALO, N. Y. W. B. WELLS; M. D.

Prof. Bolles: I am fully satisfied that Electricity, when understood according to its polarities and their relations to the fixed laws of the vital economy, as taught ay you, is the most powerful, manageable, and efficient agent known to man for the relief of pain and cure of isoase. I would further state that I have for the past few weeks used Electricity in my practice, to the exclusion of nearly all other remedies; and have been entinently successful, and consider it a universal therapeutic.

What I have now to say is from actual observation, as I have spent most of my time for the last two months with Prof. Bolies, and have witnessed the effects of the Electrical agent on from fifteen to twenty-five patients a day. suffering from almost every form of chronic disease; and as strange as it may appear, in a majority of cases a perfect cure was effected in from five to fitteen days. And I will here remark that most of his patients were afflicted with long-standing complaints, considered incurable by all other known remedies. H. G. KIRBY, M. D.

Prov. Bolles: I believe your discovery to be a reliable therapeutic agent, and feel it my duty to recommend it. Since I have received instruction from you, I have applied it in cases of Aphony, Brenchitis, Oorea, Amenorrhões, Asthma, and Congestion, and find that I have the same success that you had when I was under your instruction. I invariably recommend medical men to avail themselves of an opportunity of becoming acquainted with your new method of applying Electricity.

Detroit, Michigan. DAVID THURSTON, M. D. PROF. BOLLES: A great revolution in my mind and practice has taken place since I became acquainted with your new discovery of applying Galvanism, Magnetism, and other modifications of Electricity as a curative agent. I have found by many experiments that Electricity is a safe therapeutic agent in all acute and chronic cases when applied according to your discovery. I desire that medical men should become conversant with your discovery. GLEVELAND, Ohio. MARVIN GODDARD, M. D.

BOCHESTER, N. Y., September 10, 1859.

PROF. BOLLES—DEAR SIR: The more I investigate this system of practice, the more confident I am that it is all powerful to meet the ten thousand diseases to which fiesh is helr. fiesh is heir.

You, who first discovered Electricity to be a reliable therapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the woes and ills of suffering humanity. It is strange that physicians have become so wedded to their several systems, brought up from the darkness of past ages, that they will close their eyes against the light now beaming forth through this system of practice. All other systems I regard as the morning star to the rising sun.

P. SHEDD, M. D.

PROF. BOLLES: The nearer I conform to your system PROF. BOLLES: The nearer I conform to your system of application, the more successful I am, and as I have examined all the guides and works published upon the subject, and seen nothing in reference to your theory, I do not head at the to say I believe it to be original with you, and the only reliable system extant for ouring disease. PROF. BOLLES—DEAR SIA: I never have, since you gave me instruction in your new discovery of applying Electricity, and God forgive me if I in the Inture ever do, practice either Homeopathy or Allopathy. I have been strictly governed by the philosophy you laid down, and for the best of reasons—namely: That I am gene-

and for the best of reasons—namely: Inat I am generally successful, and I frankly say to you that I am done with medicine ferever.

My success has been great since I have been in Newark, N. J.

JAMES P. GREVES, M. D.,

206 Pine street, Philadelphia. N. B.—In addition to the above extracts, Prof. B. could furnish over one thousand, fully showing that he is well known to the medical and scientific world as the discoverer of all that is reliable in the therapeutic administration of Electricity, and that all other operators now in the different cities (except those qualified by him) are using Electricity at hazard, and Prof. B. takes this occasion to caution the community against charlatans.
