Manul of Geology: Treating of the principles of the Sciences, with special reference to American Geological History. By James D. Dana, M. A., LL D., Professor of Geology in Yale College.

We have satisfaction in announcing the completion of this important work, the earlier publication of which has been delayed, by the opinion of those capable of indging of its merits, in stating our conviction that no work which has been issued on Science will be hailed with more satisfaction than this, or will mark more clearly an era in the history of Geological Literature.

The work forms an octave volume of 800 pages, illustrated with over one thousand figures, and in its entire mechanical execution we have hesitated at no expense or labor which would in any degree add to its beauty, clearness, and value. Price, in beveled muslin, \$4; half Turkey morocco, marble edges, \$4.50.

It is at once light, simple cheap; comfortable, durable, and reliable, acting not only as a remedy for disease, but also as a preventive! It is endorsed by the highest authority in the land! Among the eminent practitioners who have examined and approved its medicinal properties are Surgeon General Hammond, U. S. A.; Surgeon General Dale, of Massachusetts; Dr. Hall, of "Hall's Journal of Health:" Dr. John Ware, of Boston; Drs. Bellows and Mott, of New York; and all the prominent members of the faculty of Philadelphia.

The Safegnard is composed of Red Flannel, medicated cotton being placed between two thicknesses of flannel and quilted in small diamonds. The elastic fastenings, and whalebone are arranged so as to prevent the Safegnard is from wrinking or rolling up, or getting out of place when the weaver is in motion. It does not take up room in the knapsack, as it is worn on the march, and gives strength to the soldier.

The "MONEX BELT" ATTACHMENT is made of fine water-proof rubber cloth, stamped with a patriotic device, and affords a safe and convenient receptacle for the soldiers' bills and private papers.
