RELIGIOUS INTELLIGENCE.

THE RELIGIOUS PRESS ON THE RISE IN PAPER. A meeting of the publishers of the religious news-papers of New York and Boston has just taken place in the former city, for the purpose of considering what ought to be done in view of the late enor-mous increase in the price of paper, and in the general expense of publishing. The result of their deliberations is given in a preamble and resolutions of which the following is the substance: That the recent increase in the price of paper—from 50 to 100 per cent.—has made it an imperative necessity on the part of publishers of newspapers, either to suspend their issues, raise the terms of subscription. or liminish the size of their sheets; that the advertising rates of the several papers, as published, should be more rigidly adhered to, and that hereafter notices of marriages and deaths, obituaries, statements and appeals by all societies and institutions ing funds from the public, should be paid for as advertisements; that the law of the last session of Congress levying a heavy tax on the materials of their business, the advertisements, and on the tocome of the publisher, is peculiarly oppressive; and finally, that a committee be constituted to transmit

the latter resolution to the President of the United States, to each member of the Cabinet, and to the chairman of the Committee of Ways and Means, in A PLEASANT REUNION.—The Rev. J. Hyatt Smith, the eloquent and justly-popular pastor of the Eleventh Baptist Church of this city, who has been for some months past sojourning in Europe and the East, has been formally welcomed home by the peo ple of his charge. The interesting event took place the lecture-room of his church, where a table was net amid a scene of innocent festivity in which about four hundred of his members and friends partici-

four hundred of his members and friends participated, including almost all the aged members of his congregation. The chair was occupied by Mr. Smith, and the welcoming speech delivered by the Rev. Mr. Dickerson, editor of the Christian Chronicle. The occasion was, emphatically, "A feast of reason and a flow of soul;" and, although mingled with fare of a more material character, it was, nevertheless, the outfolder suggestive of the spiritual and unending a more material character, it was, nevertheless, beautifully suggestive of the spiritual and unending reinion reserved for the faithful in the world to THE TALMAGE FAMILY-ANOTHER REUNION.

Prominent, if not first among the preaching families of this country, are the Scudders, the Becchers, and the Talmages. In all three of these the missionary spirit has been conspicuous, and occasionally, when one of their number, after an absence in beathen lands for many years, returns to his former home and friends in America, his brethren according to the flesh, if they will allow the figure, "bring forth the best robe, and kill the fatted oalf, "Jin honor of the event. On the recent return of the Rev. John V. N. Talmage, missionary of the Reformed Dutch Church to China, after an absence of many years, a call was made for a meeting of all the sons and daughters of Mr. David T. Talmage, and Catharine Van Ness, his wife. The latter came with their partners and children to the number of fifty persons, at once to greet the returned brother, and to honor the parents who have been spared to a good old age. The occasion was celebrated by religious services. The opening prayer was offered by Rev. James Talmage; a sermon was preached by Rev. John V. N. Talmage, and the closing prayer was offered by the Rev. Goyn Talmage. On Friday night following, they all convened in the ample mansion of another member of the family, Col. Daniel Talmage, whe they sat down at a well-supplied table. The Rev. T. De Witt Talmage, pastor of the Second Reformed Dutch Church of this city, who is also a son of the venerable couple above referred to, in a short address upon this occasion remarked, as we learn from the New York Christian Intelligencer, that the Talmage family is a ministerial family, in reference to which allusion was made to the four brothers already named; also to Rev. Jehiel Talmage, de ceased; Rev. Samuel K. Talmage, D.D., of Georgia; Rev. Peter Stryker Talmage, son of Jehiel; Rev. T. Adrian Talmage, also deceased; and Rev. Stephen Mershon, who married into the family:

THE CHURCH OF THE NEW TESTAMENT .- The congregation composing this church, of which the Rev. Thomas H. Stockton, D. D., present Chaplain to Congress, is pastor, have secured the house of worship at the corner of Eleventh and Wood streets, where they purpose regularly to hold worship every Lord's Day hereafter. We are authorized to state that during the absence of Dr. Stockton at Washington, the pulpit of this church will be occupied as frequently as convenient by the Rev. Dr. Krauth, editor of the Lutheran and Missionary. Dr. K. is a learned and effective preacher, and we congratulate this congregation upon having this promise

ILLNESS OF THE REV. BENJAMIN KELLER.-The numerous friends in this city, and elsewhere, of the renerable Lutheran divine, Rev. The Chapel will, therefore, soon be reopened for English worship by the Congregationalists. PETITION TO THE POPE OF ROME.—It is stated in

foreign journals that nine thousand Italian priests have just presented a petition to the Pope, in which they entreat of him, in the name of religion, to abandon the temporal power. CONSECRATION OF THE ALBANY CATHEDRAL CHIMES.—The Albany Cathedral chimes were con-secrated at 3 o'clock Sunday afternoon by the Right Rev. Dr. McCloskey, assisted by the Catholic clergy of the city. The cathedral was crowded to excess, and many were unable to gain admittance to the edifice. The following is a complete list of the bells,

edifice. The following is a complete list of the bells, with the names, weights, and inscriptions:

In addition to the above, for the purpose of giving greater scope to the ringer of the chime, another bell is cast, called a flat seventh; the letter is D Flat; weight 560 Ess; and it bears the following patriotic inscription: "Dominis sal. fac Republicam."

PARTROTIC RESOLUTIONS.—The Seventh-D.19.
Baptist Church of Welton, Iowa, held a meeting November 15, to discuss the moral aspects of the war, and after mature consideration, adopted a series of resolutions on the duty of the churches out he subject of slavery, giving cordial support to the President's proclamation, the critical nature of passing events, the solemn responsibility of the nation to the the president's proclamation, the critical nature of passing events, the solemn responsibility of the nation to "let the people go," the certainty that God has espoused the cause of the oppressed, and the duty of the churches to lift up their voice in vindication of the right.

cation of the right.

DIVISION OF PROTESTANT METHODISTS.—The organization of Protestant Methodists has been divided in the interest of slavery—the General Conference having countenanced the revoit in the South. The churches in the free States thereupon appointed a "convention with plenary powers," which met at Clicinnati on the 10th of November, and passed a series of loyal resolutions supporting the war and the proclamation in the fullest manner. They then appointed the quadrennial conference to be held at Allegheny, Pa., the second Wednesday in November, 1866, thus reconstructing the M. P. Church on its old basis.

NO SYMPATHY FOR MURDERERS.—The people of New Ulm, Minnesota, one of the towns sacked by the Indians, recently held a meeting to take action regarding the rumors that the President intended to pardon some of the savages who had been sentenced to death for participation in the outrages. Among the resolutions which they adopted was one to the following purport: "Thal if the policy of our Government should lead to the restablishment of the Sioux Indians upon their old reservation in the State of Minnesota, it will become our sacred duty as it is our unshaken determination, to wage a war of extermination against them—those murderers of our fathers, mothers, wives and children—and not to spare either man, woman or child of that infernal tribe, until Minnesota is either cleared from every Indian, or reduced to an Indian Territory."

NO DIFFICULITY TOO GREAT FOR A PAIR OF LEGS AND A LONG HEAD.—When the President landed at Acquia Creek, going to see Burnside, there were boards in the way on the wharf, which the men hastened to remove, but the President remarked, in his usual style, "Never mind, boys, my legs are pretty long; have brought me thus far through life, and I think they will take me over this difficulty."

TOBACCO CROP IN ILLINOIS.—The Vincennes Sus is surprised at the breadth of tobacco planted in Illinois. There cannot be less than 15,000 planted in Illinois. There cannot be less than 15,000 acres in addition to the usual crop, which is as much more, for some counties on the Ohio tiver have raised it many years. THE PRICE OF GAS.—Gas bills at present are reduced one-ninth of the whole amount, with an additional national tax of fifteen cents per every thousand feet consumed. The one-ninth deduction is allowed upon all bills paid within five days after presentation, or being lest at the house of the conumer.
The Trustees of the Gas Works, in the soje view of neeting the national tax, so that it would not be onerous upon the consumers, made the arrangement to allow one-ninth discount, which is equivalent to furnishing gas at two dollars per one thousand feet. being twenty-five cents less than the previous rate.
The national tax is fifteen centson every thousand feet, which, after calculation, will be found to nearly feet, which, after calculation, will be found to nearly balance the old arrangement of five per cent. discount on the whole amount—a bill for one thousand feet at \$2.25, would yield an abatement of eleven cents, making the net amount to be \$2.14. Under the new arrangement, one-ninth of the whole amount, twen-ty-five cents, is thrown off, and the national tax of fifteen cents is added; this, it will be seen, only adds

four cents per thousand feet to consumers, while at the same time they are contributing to the support of he National Government. We learn that the coal contractors are bringing considerable pressure to bear upon the trustees to relieve them from their contracts, because there has been an advance in the price of coal. How they will succeed remains to be seen. A CHAPTER OF SAD ACCIDENTS .- A

frightful accident took place on Saturday about noon, at the soap-stone quarry on the line of the Norristown Railroad, above Manayunk. A bank of earth fell in, crushing three workmen and causing their instant death. The unfortunate men were all married, and two of them resided in the immediate ricinity of the place where the accident took place. The scene, when the families of the deceased learned of the death of their protectors, was most agonizing. The names of the victims were as follows: Christian Rex, aged 45: Peter Teague, aged 38; Thomas Sinet, aged 45. The last-named resided at Spring Mills. George Carr, fifty-six years of age, was caught in the picking machine at Hill's mill, Twentysecond ward, on Saturday, and was so seriously hurt that he died soon after. On Saturday morning, while a horse attached to a milk wagon, was stand ing near the North Pennsylvania Railroad depot a splinter of wood was accidentally stuck in his thighs. This caused the animal to rear and plunge about with the pain. In doing so, he slipped on the ice and broke his neck. John Bennett, aged 24, while engaged in moving coal cars at the yard of Charles Weiss, in the Twenty-second ward, on Saturday, fell, and a wheel passing over his arm, crushed it in a shocking manner. Late on Friday night, while the snow was falling thick and fast, under the power of a western blast, a large branch of one of the trees in Independence Square, opposite Library street, was torn from the parent stock. In its descent, it came very near smashing a car that was detained on the track, in consequence of the fire at the stable of the States Union Hotel. The passengers were dreadfully frightened.

MYSTERIOUS SHOOTING AFFAIR.-In the latter part of last week a lady, residing in Market street, Camden, whose husband deserted her about eleven years ago, and who has since married another. with whom she is living happily, and by whom she had several children, was surprised by a visit from her first husband, who was thought to have been dead for many years. His manner was kind, particularly toward the oldest child, which belonged to him. After a pleasant chat he left, promising to call the next day. That evening a gun or pistol was fired, the ball from which entered the window where the lady was sitting, and struck the opposite wall. Suspicion rested upon the truant husband, who, on visiting the house the next day with presents for his child, was arrested and taken before the Mayor. There being no evidence against him, he was re-leased on that charge, but, proving to be a deserter from the 4th New Jersey Regiment, was handed over to the provost marshal of this city.

Whereas, It is our firm belief that the minority should be ruled by the majority, the few by the may; and whereas, in the present condition of society, the direct reverse of this proposition is in many instances the case; and whereas, under no circumstances has the truth of this assertion become more apparent than in the history of the trade to which we belong, where the workmen have ever been subject to the whims and caprices of their employers, who have hitherto possessed the power to pay to the workmen just such prices or wages as the plenitude or scarety of labor, or their ownsconvenience, enabled them to bargain for; or, in other works, the employers, being the few, have literally been enabled by the power of capital, to mile the workmen, who are the many, which is in direct contradiction to the principles of our belief, as set forth in the beginning of this pteamble; and whereas; the spirit of unity has not hitherto been sufficiently manifested in the conduct of the journeymen of our trade, who will, we hope and believe, lay safile all petity jealeusies, and cast into the common lot the full weight of their united influence for the furtherence of the principles herein set forth: Therefore belt leading, That wa, the journeymen timplate and sheet-iron-workers of Phaladelphia, make a deternation effort to organize ourselves into a society, the objects of which shall be the promotion of our mutual interests, the advangement of our moral, intellectual, and social condition, and the giving; of weight and influence to our acts, as well as the forming of a nucleus around which we can rally for the attainment of any desirable object.

For seve-ral days past he lodged at the Penrose Ferry Hotel, and said that he had been discharged from his regiment because of sickness, or from one of the hospi-tals because of his recovery. From his actions and conversation it was supposed that he was insane, and that he intended to drown himself. He was watched pretty closely. Yesterday he was seen walking across the bridge very leisurely, and when he reached about the centre he stopped for a moment, and then suddenly sprang into the river. His cap floated and was recovered. A soldier's coat was found upon the bridge. Efforts were made to find the body, but were abandoned after several hours'

THE BOCK HAVEN GAS AND WASTER COMPANY—APPLICATION FOR APPOINTMENT OF A RECEIVER.

Maskey vs. The Lock Haven Gas and Water Company.
This was an application on the part of complainant, trustee under a mortgage alleged to have been issued by it for the appointment of a receiver. The bill and affidavits set out the incorporation of the company, the exceution of this mortgage, the issue of the bonds thereunder, and that since July, 1861, when it became due, no part of the principal debt has been cancelled; that the company has been deriving a large revenue from the sale of gas to the citizens of Lock Haven, mone of which has been applied to the payment of either principal or interest, and that it is insolvent, and, unless a receiver is appointed, creditors will suffer loss. It also prays that an account of the income-of the company may be taken, that the property, consisting of gas works, meabliery, kc., mentioned in the mortgage, shall be sold and a receiver appointed. No answer has been filed to the bill of complaint, the present application being made before that could be done, but the affidavit of the secretary of the company, in opposition to the averments of the bill, was presented and read this morning. It sets out that the complainant has sued out a sci. Az. on the mortgage in the Court of Common Pleas of Clinton county, which is now pearling; that an affidavit of defence has been filed to in the bill was executed by unauthorized parties and not byl defendants, and no such bonds as are therein described were ever issued by defendants. That the alleged mortgage and bonds are signed D. K. Jackman, president; C. S. Mayer, treasurer; and the mortgage is acknowledged by them as "their act and deed." That at the time they executed these papers they were not the owners of a single share of stock, having previously assigned all they held to Berkenbine & Mears, who, at the date of the mortgage, no such necessity existed. That no money was ever borrowed or rece

Common Pleas - Judges Thompson and Allison.

THE SHERIFF'S CASE AGAIN-APPLICATION FOR WRIT OF MANDAMUS AGAINST THE CITY FOR WITNESS FEES. WITNESS FEES.

On Saturday morning, before the judges of the Common Pleas, James E. Gowen, Esq., made an application for a writ of mandamus to be directed to the City Treasurer, requiring him to pay the bill of costs filed in the Court of Quarter Sessions, in the late contested election case. Mr. Gowen stated that at the termination of that case the court entered a decree, drawn up by the counsel of Mr. Thompson, providing, among other things, that the county should pay the costs of the proceeding, and this application was made not on behalf of Mr. Ewing, but on behalf and at the request of parties interested in recovering their fees for attendance as witnesses; that he had notified the City Solicitor of the present application, and had requested him to have the bill

plication was made not on behalf of Mr. Ewing, bit on behalf and at the request of parties interested in recovering their fees for attendance as witnesses; that he had notified the City Solicitor of the present application, and had requested him to have the bill taxed.

Messrs. Charles E. Lex and David Sellers, on behalf of the city, opposed the motion, contending that they should have been heard on behalf of the city before the decree had been entered, and that if the present application was to be pushed they would move to open the decree. They further argued that the act of Assembly only contemplated the payment of the costs of a successful contestant, and not the costs of a respondent who had been in the possession of an office which the decree of the court declined he was not entitled to.

In reply, Mr. Gowen urged that the county was not a party to that proceeding, and that the decree which had been entered was a proper one, and the only one which under the law, the court could have entered; that the City Solicitor might with equal propriety apply in the criminal court whenever judgment that the county should pay the costs was there rendered, to open the judgment and be heard; that it was proper that the bill should be taxed, and to that extent it was the City Solicitor's duty to intervene. He further said that in a recent case of contested election in the Ommon Pleas, a heavy bill of costs had been paid without objection; that the law allowed the payment of both parties costs in a contest of determine his right to an office, and that as it had always been the rule of the court to allow them, as of course he could not see any reason for making this an exceptional case.

Judge Allison said that if the court had hitherto been doing wrong it was no reason why they should continue it.

Judge Thompson said this contested election case had occupied over a year, and yet counsel expected the court for the year of the proper township or county, as the case may be. If they do ye on the paid without probable cause th

The object of the following certificates is to show that
cures at 1220 WALNUT Street are permanent and reliable. The first cure was performed nearly three years
ago, the second was performed nearly two years ago, the
third about one year, and hundreds more of like cases
might be shown.

READ THE FOLLOWING CAREFULLY.
About twelve months ago I had a severe attack of Disbetes, attended with other difficulties too numerous to mention. My desire for drink was constant, and although I drank gallons per day, my thirst was never allayed; I was only able to sleep at short intervals, which seemed like a trance. The mucous surface of my mouth and throat had become so parched and feverish, that I was in constant misery. I was also suffering from all the horrors of Dyspepsia, loss of appetite, Mansea, and frequent and severe attacks of vomiting; and so prostrated was my general system; that I was carcely able to move about. I had availed myself of the science and skill of distinguished medical men, both of the Allopathic and Homœopathic school, and exhausted their catalogue of remedies, but found only temporary relief. In this condition, when every ray of hope seemed paralyzed, I heard of the discovery of Professor Bolles in the use of Electricity, and the wonders he was performing in curing disease, and placed myself and friends, in two operations my Disabets was controlled, and other difficulties soon disappeared; my appetite has returned, sleep undisturbed, and, in fact, I feel like one made anew.

I would further state that I have seen other remarkable cures performed by Prof. Bolles, and would adviss the diseased to call at 1220 Walnut street, and be restored to health. I shall be glad to give any one information calling on me.

Rose Mill, West Philadelphia.

Philadelphia, May 1st, 1880.

Read the following from a preacher of the Methodist Enisconal Church. No. 1884 Helmuth street Philiddel.

Episcopal Church, No. 1633 Helmuth street, Philadelphia:
In attempting a definition of my disease, I can only give some of the many symptoms which, taken altogether, were the most horrid; and even medical men did not know my disease from pathological symptoms. How ever, Professor C. H. Bolles, by whom I was cured, located my disease in the pelvic viscera, in five minutes after I entered his office, and offered to warrant a perfect cure in eight applications. And I frankly admit that in eight applications of Electricity, administered by Professor Bolles, 1220 Walnut street, Philadelphia, I am perfectly cured; and to me this is most astonishing, for I had exhausted the eatalogue of old-school remedies, and grew worse all the time.

I had long believed that in Electricity resided a potent agent for the cure of disease, if a right application could be made; and now I can comprehend, from its powerful effects on me, for a speedy cure, although no shocks were given. All was pleasant, and accomplished as if by magic.

magic and she betasant, and accompliance as it by magic in the benefit of suffering humanity. I had dyspepsia, had marasmus, or wasting of the tissues of the whole body; at times a difficulty of breathing, some papipiation of the heart, much bronchitis, trembling of the limbs after exercise, aversion to business and company; at times gloomy, inability to collect my thoughts vigorously on any subject, a loss of memory, pain in various parts of the body; suffered much from lumbago, deranged secretions of the kidneys and other glands of the system, constant dragging pains in the lumbar region, and severe nervous dizginess.

knaeys and other granas of the system, constant dragging pains in the lumbar region, and severe nervous dirgings.

I be leve it is my duty, as a lover of humanity, to recommend this discovery of Professor BOLLES to the afflicted of all classes. There's seems to be moguesswork, no confusion, no matter of doubt in his treatment. He proceeds on fixed principles, and actording to fixed laws, which seem to me infallule and harmonicus. He warrants, by special contract, the most obstinate, chronic and acute cases, and charges nothing, if he fails. I advise all of the diseased to try his treatment.

ANOTHER CURE OF PARALYSIS OF THE LOWER
LIMBS (Paraplegia) AND APOPLEXY COMBINED.

Read the following: PHILADELPHIA, March 31, 1852.

PROPESSOR BOLLES, 1220 Walnut street: The remistrable cure which I have derived from your method of applying Electricity compels me to thus acknowledge the great obligations I am under to you for suatching me, as at were, from immediate death. About two years ago, while a resident of Cincinnati, Ohio, I was visited with rendered me almost entirely unable to stand upon my limbs. I employed some of the most celebrated physicians to be found in that section, but received me apprent benefit, and after a lapse of about eighteen montas was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians was taken with a spasm, which one of my physicians can be promounced valuable treatment. After my arrival in Philadelphia my attention was called to your treatment by a pamphlet handed me by my father, which contained the names of some gentlemen whom blad been formerly acquainted with and whose statements I could rely upon. I immediately made up my mind to place myself under your treatment, I have now been the recipient of four treatments, and I now feel perfectly satisfied that I am restored to a sound condition, and thefore feel it my duty to gratefully acknowledge the benefits which I have received wrough your treatment.

Very respectfully yours, &c.,

N. B.—It will be well for the diseased to recollect that Prof. B. has given a word of caution in his pamphlet to guard them against trusting their health in the hands of those in this city claiming to treat diseases according to his discovery.
