OVER 1500 VOLUMES OF CHOICE ENGLISH American Books have been added to W. totherhead's Circulating Library within the last months-certainly unprecedented in this city. The makes of this institution arises from the fact that a books are allowed at one time, and less rigorous tales, than any other Library in the nation. Special UNE OF OUR GOVERNMENT OFFICIALS, est returned from Peru, tells us that, among the first and most frequent inquiries made of him there ever seen the celebrated American chemist, Dr. J. C. Ave., of Lowell. His remedies are found in Andes down to the coast, and their remarkable cures seem to attract even more attention there than in s country. The sentiment of wonder at their effects takes a far deeper hold on a half-civilized alsuperstitious people than it does with us where estionale of medical problems is so much more sterally understood. No other American has made imself so familiarly known to the masses of the Peple in foreign countries, or excited in them so rely an interest in himself, as the Doctor has by skilful application of chemical science to the teatment of disease. That must be a dull man who does not feel some tide of country when he finds among distant nabas' that he is alreay known and welcome there, nough the labors of our statesmen, merchants, ad scholars, whose renown has become national importy, and consequently in some measure his cute more than others or not, they have secured the with disease, and where great numbers in any comlatinity believe that they owe their health and lives one's skill, they are sure to feel an interest in him which will find expression when they meet his Puntrymen.-National Era, Washington, D. The frame being of iron, thoroughly galvanized, all danger from rust is removed, and the liability to shrink, swell, split, &c., so unavoidable in wooden machines, is prevented.

THIRD. The spiral springs over the rolls render this machine self-adjusting, so that small and large articles, as well as articles uneven in thickness, are certain to receive uniform pressure.

FOURTH. The paient fastening by which the machine is tightened to the tub, we believe to be superior in simplicity and efficiency to any yet offered.
