BOARD OF CONTROLLERS .- The Board held a stated meeting yesterday afternoon. The

certificates of election of Messrs. John B. Green, in place of Lewis Bitting, resigned ; R. Riche, in place of G. Inman Riche, resigned; James Lee, of the Twenty-first section, in place of W. D. Wallace, resigned, were presented.

Previous to administering the oath of office to the three newly-elect Controllers, Mr. Holland raised a question whether a person returned to this chamber as a Controller could be sworn in unless he had the same qualifications as those necessary to entitle a person to become a member of the Legislature. He had understood that one of the new-elected members was not a citi-zen until October last. The President decided this question that the per-sons whose credentials are presented must be sworn in. This is not the time to discuss the matter. One of the members desired to know whether

THE IMPROGLIO IN THE TWENTY-FOURTH WARD One from J. Alexander Simpson, H. C. Town-send, and others, stating that the directors of the Twenty-fourth section have not yet organized. Several attempts have been made to organize, but Several attempts have been made to organize, but on each occasion there was no quorum present. The time of Mr. Leech has legally expired, and as the Board has not reorganized there has been no person elected to succeed Mr. Leech as controller. The petitioners, therefore, as directors, protest against Mr. Leech being permitted to retain his seat in the Board of Control, because it has been vacated under the operations of the law.

Mr. Haines moved that a committee of five be ap-pointed to inquire into the right of Isaac Leech to hold a seat in this Board as a member, and to report

at the next meeting. Mr. Reed said that Mr. Leech is a member of the Common Council, and as such his seat of course is vacated here. This being the fact, there is no use in the committee being appointed. He is not in his seat to day.

the committee being appointed. He is not in his seat to-day. Mr. Haines explained that he had some conversa-tion with Mr. Leech a day or two since; he then claimed to be a member of this board. Mr. Holland advocated the passage of the bill, as it relates to a subject of some importance to us as a body. He could not suppose for a moment that Mr. Leech would object. She was not aware that she violated any of the rules of the School Board in so doine. She had compiled this book at her own expense, and would like it accented by the Roard. would like it accepted by the Board. Mr. Freeboin said the authoress of this book was a teacher in the Normal School, and he was rather surprised that such a one was ignorant of the rules made for the government of the school. The com-

munication was referred to the Committee on Text Books. COMMITTEES,

public interest, Mr. Holland offered a resolution that a commit-tee of five be appointed to inquire into the right of Mr. Lee retaining his seat as a member of this

If we do his we máy have our hands full. Mr. Fitzgerald appealed to the common sense and dignity of the members whether they could enter-tain such a resolution, offered, as it was, under the circumstances. Control of the tunnel route through the Broad Moun-tain into the Mahanoy coal basin. The coal lands and mines of the Little Schuylkill Railroad Com-pany are not included in the lease. The Philadelphia and Reading Railroad Company have also leased the Union Canal Company's rail-road and the Lorberry Creek Railroad, in the Pine Grove region.

NAVAL.-- A large quantity of fine timber is being received at the navy yard now. The double-bowed steamer Tacony will be launched in a couple of weeks. A large number of fifteen-inch shells have been received in the yard within the past week or two, which were brought to this city on the Pennsylvania Railroad. Before being filled, these shells weighed about 400 pounds. From the large number of carpenters engaged in preparing timber for the new iron-clad irigate at the navy yard, it is expected that the frame will be raised within the next two weeks.

It seems from the evidence that on Monday night, between 8 and 9 o'clock, a party of men proceeded to the house of Mr. Haskins, and attempted to force their way in. They were re-sisted. The party then made an attack upon the place, with boulders and other missiles. The door was pretty well broken, and the windows smashed generally. During the height of the disturbance, it is alleged, the proprietor defended himself with a revolver, five barrels of which he discharged into the crowd, with what effect was not publicly ascer-tained. The excitement was short, but decidedly great; there being at least five hundred persons at-tracted there in a few minutes. The police officers interposed at the risk of their lives, and finally cap-tured the two prisoners. The alderman thought there was sufficient cause to bind them over to an-swer. He required bail in the sum of \$800 each.

Hanley, and Robert Lawson, were takken before Alderman Shoemaker, yesterday morning, on the general charge of pilfering. They are accused of belonging to a crowd of hopeless, reckless, profame boys, who go loitering in the market houses, or along stores and business places, awaiting an oppor-tunity to steal whatever light articles they can con-veniently lay their hands upon. In the course of a year, the store-keepers have missed many articles, time after time, and finally the officers under Lieut. Spear, whose duty calls them especially in business places, have been ordered to pay especial attention to that class of juveniles who are permitted to grow up without morral culture, like so many-rank weeds in the garden of life. The result is the arrest of the trio above named. One of the lads entered bail, and the other two were sent to the House of Refuge.

Mr. Lee finally arose, and put a perfect extin-guisher on the whole affair, by stating the rumor in-troduced here by the gentleman from the Second ward was a poor way to promote the cause of popu-lar education. THE INSANE DEPARTMENT OF THE ALMS. HOUSE.-In his annual report for 1862, presented to the Board of Guardians of the Poor on Monday, Dr. Butler, the Resident Physician, says that during the year 152 men and 208 women were admitted. With those in the institution at the beginning of the year, 188 men and 335 women, there were 883 patients under treatment during the year. Of these there were discharged : Men. Women. Total.

Cured	1.4.5	Mien.	Women.	
Improved			73 70	126 112
Unimprov			33	59
Died			28	55
004		 148	204	352

148 204 352 Of those discharged improved, scarcely any re-turned, and it is fair to suppose that they nearly all recovered. The proportion of the cured and im-proved to the number treated was 27 per cent., which, considering that the insane wards of the Almshouse are generally made the receptacle of cast-off patients from more favored institutions, shows a very favorable result for the year's work. The admissions this year were 55 less than. last, the discharges 15 less, and the increase is only eight-four of each sex. The mortality has been very low, only about six per cent. of the number treated. A table, showing the nativity of the patients, ex-hibits the fact, that about 25 per cent. were natives of Philadelphia; 31 per cent. of Pennsylvania; 38 per cent. of the United States; 38 per cent. of Germany, and 59 per cent. of foreign countries. The average number of patients under treatment daily during the year was about 195 men and 347 women-543 in all. One man was discharged cured during the year who had been in the institution between five and six years. He is now making good wages as a la-borer in the Goverpment service. One women were

six years. He is now making good wages as a la-borer in the Government service. One woman was discharged cured who had been in between eight and nine years, and who had been some years in and nine years, and who had been some years in another institution in this city. She is now sup-porting herself. A very interesting table is given, showing the cost per week of supporting the insane as compared with other similar institu-tions. In the McLean Asylum, at Boston, Mass., being the highest on the list, the cost is \$6.80 per week for each patient. In the Pennsylvania Hospi-tal for the Insane it is \$5.73. In the New York City Lunatic Asylum (almshouse) it is \$1.31. The insane department of the Philadelphia Almshouse is the lowest on the list, being only \$1.12 a week for each

department of the Philadelphia Almshouse is the lowest on the list, being only \$1.12 a week for each patient. The average cost of fifteen institutions given is \$3 62 per week for each patient. The Doc-for thinks, as the result of a great deal of observa-tion and intercourse among the citizens of Phila-delphia, that they would not complain if fifty per cent. were added to the above cost of supporting her insane poor, and he thinks that it would be real economy to make the addition, and thus secure bet-ter facilities for treatment. In a brief discussion of the causes of insanity, pro-minence seems to be given to intemperance and its concomitant vices. The Doctor expressed himself as an uncompromising opponent of the drinking usages of society, and he does not see how any one connect-ed with the almshouse, who daily witnesses the amount of poverty, wretchedness, and sin that flows from intemperance, can be an apologist for the use of intoxicating beverages. Among the causes of insani-ty given in the report, is the sad lack of family dis-cipline that is so prevalent, and which seems to be increasing.

Gipline that is so prevalent, and which seems to be increasing. In 1861 the war excitement caused a great many cases of insanity. As the public seems to have ac-customed itself to a state of war, these have greatly diminished, yet there are cocasional heart-rending cases caused by the loss of husbands, brothers, or lovers. Great prominence is given in the report to the subject of employment of the insane both as a curative and an economical measure. This sub-ject was dwelt upon in last year's report. Dr. Butler fortifics his position in this respect by quoting the opinions and practice of several of the most prominent physicians in this coun-try having charge of the insane. Their testi-mony to the benefits of employment and outdoor exercise as a curative measure is uniform and de-

. FEIGNED ISSUE-EXAMINATION OF PARTIES AS. WITNESSES.

Cooper vs. Lucas. There was a feigned issue di-rected by the court to determine the validity of a judgment executed by Mr. Cooper to Louisa Lucas lor \$10,120. The judgment was regularly entered, and Mr. Cooper then obtained a rule to show cause why it should not be opened and he let into a de-fence, and on that rule this issue was framed-Jus-tice. Read onleiner that the parties themselves fence, and on that rule this issue was framed-Jus-tice. Read ordering that the parties themselves should be called to testify in the case. The allega-tions on which the issue was ordered are as follows: In May, 1836, Mr. Cooper commenced the manufac-ture of cotton and woolen goods at the Globe Mills, which place he had leased and purchased from Nessrs. Thomas H. Craige & Co. seventy power looms, with the necessary machinery, beltings, and fixtures, and certain merchandise and stock, for the sum of \$10,120, for which he gave eight promissory notes. In June James Lucas agreed with him to take up these notes at maturity if Cooper would exceute a bond to Louisa Lucas for the amount thereof. The bond was executed, but it is alleged that Lucas failed to perform his agreement, and that

that Lucas failed to perform his agreement, and that therefore the consideration of the bond had failed. On trial, Wm. Ernst, Esq., for plaintiff; M. A. Drop-

The defendant insisted on making an explanation. He said that the prosecutor spent all the money at his house, and he admonished him to be careful, as it was going pretty fast; even after he spent all the money he leat him one or two dollars. The soldier said he was sober when he enlisted, and when he handed the money to Freed; that he had no occasion to borrow any money from him, as he was using the sist hat he retained of the bounty money. The de-fendant desiring the case to go over for another hearing, the prosecutor not objecting, the alderman demanded bail, which was entered last evening. A final hearing will take place at 4 o'clock on Thurs-day afternoon. CHARLES ELLIS AND HIS SON EVANT. ELLIS, of the late firm of CHARLES ELLIS & CO. have associated with them WILLIAM M. A YER'S SARSAPARILLA IS A CON entrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidole for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of im-mense service to this large class of our afflicted fellow-ettizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints: SCROFULA AND SCROFULORS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SAIT RHEUM, SCALD HEAD, STPHILES, BLOTCHES, THORS, SAIT RHEUM, SCALD HEAD, STPHILES, BLOTCHES, THORS, SAIT RHEUM, SCALD HEAD, STPHILES, BLOTCHES, TRUE, and indeed the whole class of complaints arising from LAPHETY OF THE BLOOD. This compound will be found a great promoter of health when taken in the spring to expel the foul hu-mors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disor-ders are nipped in the biod. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions. if not as-sisted to do this through the natural channels of the body by an alterative medicine. wrong, and the great machinery of life is disordered or overthrown. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsa-parilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but offen no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which food the market, until the name itself is justly deepised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irre-sistible by the ordinary run of the diseases it is intended to cure. SEALED PROPOSALS are invited united. How ever, Professor C. H. Bolles, by whom I was cured, lo-cated my disease in the pelvic viscera, in five minutes after I entered his office, and offered to warrant a perfect cure in eight applications. And I frankly admit that in eight applications of Electricity. administered by Pro-fessor BOLES, I220 Walnut street, Philadelphia, I am perfectly cured; and to me this is most astonishing, for I had exhausted the catalogue of old-school remedies, and grew worse all the time. I had long believed that in Electricity resided a potent agent for the cure of disease, if a right application could be made; and now I can comprehend, from its powerful effects on me, for a speedy cure, although no shocks were given.
