PRINCIPLES OF ARITHMETIC. 1. Give the reason for the rule for abbreviating, the operation in division when there are ciphers to the right of the divisor,
2. Define a billion, also a billionth; and illustrate THE LATE HOMICIDE CASE. -The coroner's inquest, in regard to the late homicide case, came off yesterday afternoon, at three o'clock, in came off yeaterday afternoon, at three o'clock, in the Eleventh-ward station-house, Third street, below Green. Cooper and Shuler, the two against whom the charge has been preferred, are quite young. The hearing commenced with the examination of Dr. Fred. Thomms. The room, as is usual, was crowded. The witness stated that he was passing by the neighborhood about 11% o'clock; heard singing in house, listened; lady in house came out, and shut windows; "why don't you come in?" she said; "no time to come in," I answered; but went in, and they had some amusement together; Kramer saw me; said, "don't you know me no more?" I don't know you—I know your face."I answered; "I was in the Camerom Dragoons," he said; he asked me to take a glass of beer; took it; sat back by last table; my friend wound up a musical clock; all at once Kramer asked to try a jump with him; we were asked to stop, and we did; Kramer went in the house with other two men (John Shuler and Henry Cooper); they knocked my hand on table; I remonstrated; they let go, and interfered no more; Mr. Meier opened the door and asked them to go out; I was still sitting at the table; I heard a cry, "Oh! I am stabbed;" jumped up, went to look after it, and find out, who was stabbed; went next to the door; Cooper put his hand on me; I took my left heard and delean and down this officer. 3. Give the principle of the rule reducing a decimal to a vulgar fraction.

4. Why are numbers divided into periods before the required root can be determined?

5. What is meant by the reciprocal of a number? What is the fifth power of a number?

6. Explain the theory of the rule for computing interest for months at 6 per cent.

7. What is the reason for inverting the divisor in the division of a fraction by a fraction?

8. What is the principle for solving a question in proportion after the statement has been made?

9. What is understood by discounting a note?

10. What is the least common multiple? In what operation is it employed?

This affair occurred in a house in a narrow alley or court, back of Sixth and Lombard streets, on Monday evening. Jealousy, it is alleged, was the cause. It seems the two women happened to meet at the house where the sanguinary affair occurred. Catharine seized Margaret with all the ferocity of a tigress, and a severe struggle ensued, but it was a matter of doubt who was likely to come off victorious. Catharine, it is alleged, then seized a heavy pitcher, and broke it to pieces over the head of her antagonist, also fractured her skull badly, from which she may not recover. Murder was cried, the whole neighborhood was aroused; police Officer Patten reached the bloody conflict, and arrested the defendant. She was committed to answer. Probable Homicide. Jonathan Bulloch, the contractor for the construction of the Brond-street Railrond, and other gentlemen directly interceted in that work, appeared before Recorder Eneu yesternay on the charge of unisdemeanor in maintaining a public nuisance, in obstructing the public highway, by allowing the material of said road to remain upon the street. The case had been pending before the Recorder for some time, without bail having been entered. The parties, by common consent, were liberated, under an implicit understanding that all the obstructions should be removed; but this not having been done to the satisfaction of the prosecutors, the defendants were held to bail in the sum of \$2,000, yesterday, to answer at court. In the Wool and Rag Business.

A bad-countenanced man, giving his name as George Phillips, whose speech indicated Teutonic origin, was arraigned yesterday afternoon, before the alderman at the Central Station, on the charge of stealing a bag of wool, valued at \$42, the property of Philip J. Aubin, wool dealer, 210 Front street. This case came up in rather a bungling or complicated manner. The witnesses spoke so low, and the noise made by police officers and others so great, that it was difficult to hear anything that was said. We have called attention on several occasions to this annoyance. The time was when the High Constables were present at the hearings to preserve silence. The alderman himself is sadly put to it to hear the proceedings. Constables were present at the hearings to preserve silence. The alderman himself is sadily put to it to hear the proceedings.

It seems that for some time past bags of wool, rags, and other articles have been missed from a number of stores on Front street, Water street, and Delaware avenue. A few days since a man stopped at the store of Mr. John McCully and sold that gentleman a bag of wool. The purchaser ascertained in a day or two that the said wool had been stolen from Mr. Aubin. Information was given at the police office, and Messrs. Levy and Taggart, of the detective force, were delegated to "work the case up." On Monday the same man called upon Mr. McCully and offered another bag of wool for sale. This contained about seventy-five pounds. Mr. McCully sgreed to purchase it, and the seller said he would bring it on Tuesday (yesterday) morning. Officer Levy was sent for, and he "laid in wait" for the fellow. Yesterday morning about seven o'clock he left the wool at the store, and several hours after this came for his money. He was then arrested by Mr. Levy. A desperate struggle ensued. Mr. L. struck him over the head with his pistol, and was on the eve of shooting him, but did not. The prisoner broke loose, and dashed through alleys, streets, and round corners, and finally jumped down a cellar window by the same to the contraction of the surphyrachetic and be some the contraction. loose, and dashed through alleys, streets, and round corners, and finally jumped down a cellar window. Some time elapsed before his whereabouts could be learned. Mr. Levy and one or two officers of the Sixth ward procured a light, descended into the cellar, and found the prisoner secreted among some rubbish under the cellar stairs. The fellow was taken to the Central look-up. The wool was identified by Mr. Aubin.

At the hearing yesterday afternoon, Mr. Levy preferred another charge against the defendant that of stealing a bag of rags, the property of John Dobson, 39 Frontstreet. On this charge, Wm. Dolan was called to the stand. He testified that he worked for Mr. Dobson; a short time since the prisoner came to the store with an order from Mr. Thompson for a bag of rags; prisoner said he had left the bag there and had simply come to get it; he selected out the bag and took it away; this is the last seen of the rags.

The following dialogue ensued between the alderman and the prisoner:

Alderman. Well, George, what have you to say about the wool?

Alderman Did you buy that meerachaim you threw down and broke the other night!

The magistrate alluded to one of some of the meerschaums that had been stolen recently from the store of Mr. Doll, in Sixth street.

The prisoner stammered out, with considerable surprise—"Yes, I puys-him, too; I puys ebery thing."

He was committed, in default of \$2,000 bail, to answer. He was committed, in default of \$2,000 bail, to answer.

him to be temperate and firm. The order for the suppression of the Jeffersonian was then issued. After this Mr. Coffey had a number of interclews with the plaintiff in reference to the proceedings, and he distinctly stated to the plaintiff that, if he would give a written pleage not to oppose the war for the restoration of the Union over the thirty-four States, he would stop all proceedings and release the paper. The plaintiff said he would restorate a Give plaintil' said HE WOULD RATHER DIE THAN GIVE SUCH A FLEDGE.

Mr. William B. Reed asked Mr. Coffey whether he did not advise the plaintil' to employ Mr. Harrison as counsel? Mr. Coffey replied that he had no recollection of having done so, but it was possible he did. Mr. Reed then inquired whether Mr. Harrison was not in Richmond as well as the Christian Observer? Mr. Coffey promptly replied, "I have been told that he is in Richmond defending the Union prisoners there; he certainly is not assailing the Union here." This testimony closed the case for the defence. the Union here." This testimony closed the case for the defence.

The plaintiff then recalled Mr. Hodgson, the father, for the purpose of explaining away that part of Mr. Coffey's testimony as to plaintiff's refusal to sign a pledge against opposing the war for the restoration of the Union, and he testified in substance that the pledge was refused, because it might convey the impression that the plaintiff had been doing wrong. With this muddy explanation the case closed on both sides, and George W. Biddle, Esq., commenced the argument for the plaintiff. When he concluded the court adjourned until this morning. William B. Reed and George W. Biddle, Esq., appear for the plaintiff, and Hon. John C. Knox and David Webster, Esq., for defendants. THE UNITED STATES TAX ON CLOTHING—IMPORTANT DECISION BY JUSTICE READ.

Bennett et al vs. Keith et al. Mayer et al vs. Budd et al. These were-bills in equity praying an injunction against the defendants, United States Collectors and Assessors, to restrain them from proceeding with the assessment and collection of a tax of three per centum on all clothing manufactured by the complainants since the ist of September last. The complainants alleged that the tax is unlawful, because they have paid in full, the duty or, tax on the materials used in the clothing, and have added nothing thereto but the labor in making them into garments. The application for the injunctions were argued on Saturday, and vesterday morning Justice Read delivered the following opinion refusing them:

Bennett et al. vs. Keith et al.; Mayer et al. vs. Budd et al. Sur motions for special injunctions. It is not my intention to examine into the question of the jurisdiction of this court on the subject matter of these bills, nor to dissuss the propriety of the present remedy, because I have a clear opinion that in no form of proceedings in any court have the plaintiffs anything to complain of. They style themselves manufacturers of clothing. By the twenty-ninth paregraph of the sixty-fourth section of the "Act to provide internal revenue to support the Government and to pay, the interest on the public debt." passed July '1, 1882, "Manufacturers shall pay ten dollars for each license. Any person or persons, firms, companies, or corporations, who shall manufacture, by hand or machinery, and offer for sale any goods, wares, or merchandise, exceeding annually the sum of one thousand dollars, shall be regarded a manufacturer under this act. By the 66th section it is enacted "that nothing-gontained in the preceding sections of this act, laying duties on lice Supreme Court at Nist Prius, in Equity-Justice Read:
THE UNITED STATES TAX ON CLOTHING-IMPORTbefore the same has been dyed, bleashed, or prepared in any other manner, have a duty upon them of three per centum ad valorem, and such cloths when dyed, printed, bleashed, manufactured into other fabries, or otherwise prepared, on which said duty or tax shall have been paid before the same were dyed, printed, bleached, manufactured or prepared, the duty or tax of three per centum shall be assessed only upon the increased value thereof. The effect of this provision is simply a duty of three per cent. on the value of the cloth in its finished state. But, when the cloth by the process of manufacture becomes clothing, then it is subject in that form to a duty of three per centum ad valorem; which is to be paid by the manufacturers of clothing, which these plaintiffs allege themselves to be. The tariff act of the 4th of July, 1789, imposed a duty on clothing ready made of seven and a half per centum ad valorem. In the act of the 30th of August, 1842, which imposed a duty of fifty per centum ad valorem, it is described as "ready-made clothing of whatever materials composed;" in the act of the 30th of July, imposed a duty of fifty per centum ad valorem, it is described as "ready-made clothing of whatever materials composed," in the act of the 30th of July, 1846, where the duty was thirty; per cent., it, is de, scribed as "clothing ready-made; and wearing apparel of every description, of whatever materials composed," and similar language is used in the act of the 2d of March, 1881.

In the tariff acts the duty is imposed upon the manufactured, article, and is paid by the importer; in the internal revenue acts it is in the same way levied upon the manufactured article, and is an this instance the clothing, and is paid by the manufacturer. It is laid upon the person providing the capital and who styles himself the manufacturer, and not upon the poor operative who is employed by the capitalist, and is finally paid by the consumer, as it forms a part of the cost of the articles purchased by him.

I see no difficulty in this simple and plain construction of the act. The Commissioner of Internal Revenue, in his decision of the 1st of December last, appears to me to have exhausted the subject, and I do not feel disposed to repeat his reasoning.

The motion for a special injunction in each case is refused. CUSTOM HOUSE, PHILADELPHIA,

THE CONTROL POWERS OF ELECTRICITY DEMONSTRATED, at 1220 WALNUT Street, Philadelphia.

The following report is not based on rumors or hear-says; neither is it the result of casual observation or some lar-off reference to some unknown persons, but from reliable business and professional men of this city, in our very midst, and was arrived at after a careful observation of facts, transpiring from day to day, in the presence of the undersigned; and hundred, were daily witnessing the results of Professor B.'s successful treatment; at 1220 Walnut Street, where he has cured over four thousand acute and chronic diseases which had resisted the skill of the medical profession in this and other offices. thousand acute and chroute diseases which had resisted the skill of the medical profession in this and other cities.

READ THE FOLLOWING FROM A FEW RELIABLE MEN OF PHILADELPHIA

We, the undersigned, having been treated for obstinate diseases by Professor Bolles, at 1220 Walnut street, Philadelphia, which had resisted for a long time the treatment of the most eminent medical men in this city; and also having witnessed the results of his treatment on a great number of our acquaintances and friends, for acute and chronic diseases, do therefore take great pleasure in recommending to the public the important discovery of Professor C-H. Bolles, located at 1220 Walnut street, where he has been located over three years; testing his treatment ou many thousands of our most reliable citizens, by his new discovery of applying Galvanism, Magnetism; and other modifications of Electricity, and having watched his success in the speedy and permanent cures of hundreds of our friends, as well as ourselves, and especially that class of diseases never benefited by medicines; therefore.

Resolved, That we, the undersigned, regard the great success we have witnessed for months in the treatment of Consumption, Rheumatism, Paralysis, Insanity, Diabete, Bronchitis, all Nervous Diseases, Catarth, Amaurosis, Aphony, Asthma, Ague Chills, Contraction of Limbs, St. Vitus Dance, Coldness of Feet, Hands, or Head, Deafness, Dyspensia, all forms Epilepsy, Henorrhage, White Ewelling, Mental Depression, Neuraligia, Withered Limbs, Convalsions, Palpitation of the Heart, and Lockjaw as indultable evidence of Professor B.
