RELIGIOUS INTELLIGENCE. Pastoral Letter of the Southern Bishops. By far the most creditable public document of a religious or denominational character that has yet religious or denominational character that has yet emanated from any branch of the Church in the so-called Southern Confederacy, is the Pastoral Letter of the Bishops of the Episcopal Church, who recently held their General Convention at Augusta, Georgia. The "Letter" is marked with ability, singular good temper for the section from which it singular good temper for the section from which it comes, and, upon the whole, a degree of candor that demands respect. Its most remarkable feature, however, is the confession made in it with regard to the false and unchristian position which they have heretofore maintained on the subject of slavery. It is true their defence, that they "have hitherto been hindered in their work of justice and mercy to the slave by the pressure of Abolitionism," is a little awkward, still this weak retort can be cheer fully overlooked in view of the fruits which this pressure has evidently developed. The ground taken in the letter, that God may, "by these inscrutable measures," (the blockade and the pressure of the free North upon their institution,) be shutting them up to the great work of instructing and elevating the negroes, is a bold and manly confession, as are, also the solemn declarations that "the time has come when the Church should repudiate the fallacy that the slaves of the South are merely so much property, and that there is much in their system that is inconsistent with the duties of Christians and that ought To be annulled."

But we will let the Bishops speak for themselves in the following extract, upon the great crime of which they have at last been convicted:

"Voices of supplication come to us also from the distant shores of Africa and the East, but only their each oreaches us from the thorous and the East, but only their each oreaches us from the thorous the transcape of the Church are the convergence. The policy of man has shull only the transcape of the Church are the convergence of the convergence to be annulled." But we will let the Bishops speak for themselves its objective worship, attracts and enchains them. So far from relaxing, in their case, the forms of the Church, good will be permanently done to them just in proportion as we teach them through their senses and their affections. If subjected to the teachings of a bald spiritualism, they will find food for their senses and their child-like fancies in superstitious observances of their own, leading, too often, to crime and licentiousness.

"It is likewise the duty of the Church to press upon the masters of the country their obligation, as Christian men, so to arrange this institution as not to necessitate the violation of those sacred relations which God has created, and which man cannot, consistently with Christian duty, annul. The systems of labor which prevail in Europe, and which are, in many respects, more severe than ours, are so arranged as to prevent all necessity for the separation of parents and children, and of husbands and wives; and a very little care upon our part would rid the system upon which we are about to plant our national life of these unchristian features. It belongs, especially, to the Episcopal Church to urge a proper teaching upon this subject; for in her fold and in her congregations are found a very large proportion of the great slaveholders of the country. We rejoice to be enabled to say that the public sentiment is rapidly becoming sound upon this subject, and that the Legislatures of several of the Confederate States have already taken steps toward this consummation. Hitherto have we been hindered by the pressure of Abolitionism; now that we have thrown off from us that hateful and infidel pestilence, we should prove to the world that we are faithful to our trust, and the Church should lead the hosts of the Lord in this work of justice and of mercy." Works of the Late Dr. Robinson.—There are High and Normal School The or largely or as well to the literature of the Church as the late Rev. Edward Robinson, D. D., whose death occurred in New York on the 27th ult. His works, although numerous, are more to be prized for their intrinsic value than their number. His translation of Buttman's Greek Grammar, his Greek and Earlish Lexicon of the New Testament, his Harmony glish Lexicon of the New Testament, his Harmony of the Four Gospels, in Greek and English, his edition of Calmet's Biblical Dictionary, and his translation of Geseniu's Hebrew Lexicon, in addition to his noted Biblical Researches in Palestine and the adjacent countries, (probably the greatest and the adjacent countries, (probably the greatest standard book extant upon this subject,) have all an acknowledged value among scholars, irrespective of creed or country. It is an interesting personal fact of Dr. Robinson that, although an incessant student, he burned no midnight oil, but studied by the morning lamp, in the avowed belief that the early hours of the day bring the scholar his best strength and the thinker his freest inspirations. Dr. Robinson was by many regarded as the most distinguished living Biblical scholar out of Germany.

The Rev. Matthew Hale Smith's Bartist Congregation," which has just been organized, affords a signal illustration of how a church can be made to "flourish" at the present day. It is said Congregation, which has just been degrated, affords a signal illustration of how a church can be made to "flourish" at the present day. It is said that when, four weeks ago, a few Baptist families took the Athenaum-one of the largest audience rooms in Brooklyn—the congregation became gigan-tic in a week, and in proof of the success being genuine, a "a fine choir of fifty persons has been organized, who have given their names as permanent worshippers. On Sunday last, at the Sunday-school service, over three hundred were present. The congregation has been self-sustaining from the start, and a fine chapel has been engaged for social and prayer meetings." So says the Examine, whereupon the Independent adds, that the preacher who furnishes all this attraction is "the famous Matthew Hale Smith, formerly of the Universalist, Congregationalist, Episcopalian, Presbyterian, and Reformed Mr. Smith has not entered his new field without experience, and suspect that what a smart preacher has not learned in passing through such a denominational mill can scarcely be worth studying. CATHOLIC ANNIVERSARY AT CHARLESTOWN, MASS.—The Boston papers give an interesting account of an anniversary held by the Catholics of Charlestown, of the patron saint of their elegant new church, St. Francis de Sales. The grand High Mass on the occasion was celebrated by the Rev. A. Varsi, S. J., of Boston College, and the Rev. Father Maguire, S. J., of Washington, delivered the first sermon from the new pulpit, in which he descanted upon the virtues of the saint, and alluded with much feeling to the suffering soldiers in the hospitals at UNION PRAYER MEETINGS AMONG THE NEWunion prayer meetings is now in progress in this city which is more likely to be characterized with the smoothness and harmony that should always prevail in meetings for worship than in the forced Union meetings that are now passing away, in which the interdiction of "controverted points" was a standing caution; we refer to the meetings that are now being held on some specified afternoon each in some one of its own churches. The meeting of this character, for the present week, of the N. S. Presbyterians, was held on Tuesday, in the North Broad-street Church, Rev. Mr. Adams, which worships in Spring Garden Hall, until the completion of their fine, new edifice, now in progress on Broad street. The next of this series will be held on Tuesday afternoon next, in the church of Rev. John Chambers, on Broad street, the latter being in closer affiliation with this than the Old-Schoo branch of the Presbyterian Church. THE THIRD REFORMED DUTCH CHURCH,-This physich corner of Tenth and Filbert streets, which has been without a pastor since the resignation of the Rev. Wm. J. R. Taylor, D. D., has recently ex-tended a call to the Rev. Mr. Conklin, the present pastor of Scott Presbyterian Church, Spruce street, lowing deaths are reported: tral Presbyterian Church, Coates street, below Fouth, gave an exhibition and concert on Tuesday evening last, in connection with the choir of the church, of a highly interesting character. The house was beautifully decorated with flags, and the songs and recitations were all very creditable, alike to the performers and those who had the entertainment in charge. The exercises were conducted by the pastor of the church, the Rev. J. Y. Mitchell. THE REV. CHARLES WADSWORTH, D.D., formerly pastor of the Arch-street Presbyterian Church in this city, and lately installed as pastor of Calvary Church, San Francisco, is reported to be "drawing large congregations." THE Church Journal (Episcopal) announces the dissolution of the partnership heretofore existing between Rev. Mr. Hopkins and Dr. Houghton, as publishers of that paper. Mr. Hopkins will hereafter conduct it alone.

CHURCH ADVOCATE.—This is the title of a neatlyprinted and well-conducted eight-page weekly, published at Lancaster, Pa., "for the General Eldership of the Church of God," and edited by Mr. E. H. Thomas, its avowed purpose and object being to "earnestly contend for the Faith which was once delivered to the Saints." REV. A. C. WEDEKIND,—The Lancaster Express, speaking of Mr. Wedekind's opening sermons, January 17, at Lancaster, in St. John's (Lutheran) Church, says : Church, says:

"These sermons were marked by great vigor of thought and purity of diction, and gave general satisfaction to the congregation over which the gentleman has been called to preside. That he will prove a valuable acquisition to St. John's, which of late has been languishing for the want of a pastor, we had the best evidence in the crowded congregations which attended his introductory discourses, and the marked favor with which they were received." cratic City Executive Committee, the Democrats of the various wards will meet on Monday night, for the purpose of forming ward associations. THE CHURCH OF THE PILCRIMS, Brooklyn, (Rev. Dr. Storrs,) recently made their collections for foreign missions for the year 1863, amounting to \$6,238.60. One gentleman of that church has given and pledged \$5.000 to the funds of the board. The collection in this church last year was \$2,945. Isaac Isaacs was arraigned before Alderman Beitler, vesterday morning, on complaint of a countrycollection in this church last year was \$2,945.

Rev. Dn. Riddle preached his farewell sermon as pastor of the Pirst (Reformed Dutch) Church, Jersey City, on Tuesday evening, December 30, when he was presented with a pure containing \$433.

Statistics.—The Baptist Almanae for 1862 gives, as the statistics of the denomination in the United States, 788 associations, 13,648 churches, \$918 ordained ministers, 1,089,576 members. In the British Provinces and West India Islands are 18 associations, 714 churches, \$63 ministers, and 71,763 members.

ler, yesterday morning, on complaint of a countryman, named William W. Rhodes, who hails from Douglessville, Berks county. The defendant, it is alleged, keeps a clothing store, on South Second street. According to the evidence, it seems that Mr. Rhodes came to town on Thursday, in search of a load of cysters. He obtained what he desired, and then took a leisure stroll through the city. While walking along Second street, near Chestnut, and "seeing sights," he was hailed at the door of de-

Col. Hermann Segebarth having entered bail in the sum of \$5,000, was again arraigned, before Alderman Beitler, yesterday afternoon, on the oath of Capt. Edward S. Ulman, of Company E, 152d Regiment P. V., charging him with having drawn the \$200 bounty money from the city treasury on December 26th, 1862, on warrant 8,009, in the name of Wm. R. Hall, a private of said regiment, who had died some time before. Another Charge. work yesterday, united with the influence of the warm temperature, was to utterly demolish the hopes of skaters, and drench earth and sky with Hall, a private of said regiment, who had died some time before.

Col. Segebarth is suffering under the effects of a heavy cold. He says that he is entirely innocent of any intent to cheat anybody. That even, to some of the soldiers of the regiment, he had advanced his own money. That this whole affair can be explained to the satisfaction of any number of impartial men. That he had already entered \$5,000 bail, and being again arrested, he considered too bad, as it prevented him from arranging his accounts and papers in order to show the truth of all his transactions. He supposed that his character was now gone, and that this second arrest would still add a deeper disgrace to it. We think it proper to state that the evidence against the defendant is simply exparts. The cloud twhich now surrounds him may become dissipated by the sunlight of truth, and the colonel may yet come out like refined gold. Arrested.

A man employed as a porter in a Market-street store was "run into" the Central Station, last evening, on the charge of stealing from his employer. It is said that he is the same fellow who was arrested more than a year ago on a similar charge, but was let off on the principle of "go and sin on more." It is alleged that he has been pilfering various things ever since that time, although his present employers had forgiven him, as above stated. The accused will probably have a hearing at 2 c'olock this afternoon. Case Dismissed.

The keeper of a small junk-shop on Moyamensing avenue, was arraigned before the alderman at the Central Station, yesterday afternoon, on the charge of receiving stolen goods. He had received a composition easting, worth five or six dollars, stolen from the navy yard by some one unknown. There were circumstances connected with the case of a mitigating character. The defendant was admonished by the magistrate, and then suffered to depart, having entered bail in his own recognizance.

The little boy Graham, who was arrested, asstated yesterday, and whom the alderman was going to send to the House of Refuge, but revoked the order, has been handed into the custody of his mother, a poor woman, who promised to send him to the country. The petty thefts that have been committed in the yard will probably cause the commandant to issue an order that no one shall be permitted to enter the gataway without a pass. Quite a number of cakewomen have made a few pennies daily by being permitted to go into the yard among the men. The commandant will probably issue passes for them to continue their visits. A doughnut or gingerbread between breakfast and dinner are very acceptable to the workmen. Case Dismissed. The examination yesterday consisted of "Questions in Defining" and "Constitution of the United States." The former were prepared by Prof. H. Hartshorne, and the latter by Dr. Rand. "No. 304 N. 18th St.,

"Philadelphia."

Written across the face of the draft, are those words, in red ink: "Acceptance waved.

"GEO. W. MEARS."

The case has been tried three times, and two new trials granted.

The learned judge who tried the case first, charged the jury that the words "acceptance waved" was an acceptance; and unless they found from the other evidence that no acceptance was intended in point of fact, the plaintiff was entitled to a verdict.

A new trial was granted, because the court was of the opinion that by his laying so much stress on the draft without particularizing the other evidence, he might have drawn the attention of the jury from the letters put in evidence. (See bill of exceptions.)

The learned judge who presided at the second beer brewers of this city have unanimously agreed to petition Congress to reduce the present tax on malt liquors. The petitioners request particularly: 1. 2. To annul the decision of the Commissioner which requires brewers to give bond for the pay 2. To annul the decision of the Commissioner, which requires brewers to give bond for the payment of taxes.

3. To amend the fiftieth section of the revenue law, which directs "that casks holding less than one-quarter and no more than one-eighth of a barrel shall be taxed as one-quarter barrels." Lager beer is generally sold in one-sixth casks, and therefore a tax of \$1.50 instead of \$1, is exacted.

4. To change the specific tax, one dollar per barrel, to a tax of three per cent. ad valorem, which is paid by all other manufacturers, or, in lieu of this, reduce the tax to fifty cents per barrel. DEATH OF A POLYTECHNIC STUDENT. the letters put in evidence. (See bill of exceptions.)

The learned judge who presided at the second trial declined to charge that the words "acceptance waved!" was in law an acceptance, but told them it was a question of fact for them to determine, from the draft and letters, as to whether an acceptance was intended by the parties.

A new trial was again granted, because the learned judge did not instruct the jury peremptorily to find for the defendant.

At the third trial the court so charged, and the jury found for the defendant.
