office in the city ever was. In old times this im-portant department of the Government service was located in Front street, and the city itself extended but a very few squares beyond that street. says the "Diokeys" are coming into vogue again. They have been out of fashien for twenty years. This summer their use is to be revived as a matter of economy. Two plain shirts and a half doze dickeys are equal in point of utility to six shirts. Necessity is the parent of this revival. For the information of those concerned, we would state there will be entire new spring styles introduced this season by Granville Stokes, the Fashioner and Clothier. No. 609 Ohestnut street, Philadelphia.

THE following beautiful and patriotic song was writtten by a young soldier only nineteen years of age, in the 27th New York Regiment. This noble boy has been in no less than twelve pitched battles, the brave McClellan and Burnside commanding the brave McClellan and Burnside commandate At Antietam he was severely wounded. It was while he hay in the hospital, slowly but surely, recovering his wounds from the scotting effects of Drake's Plantation Bitter, that the score was composed. It fell into the had of General Bartlett, who was respectively his general in his major, his colonel, and has a plantation the world is indebted for its appearance. His parents and friends reside at Binchamton. N. Y. and well may they be mound at Binghamton, N. Y., and well may they be proud of him. The grand army of the Potomae should adopt and sing the song :
