OPERATIONS ON LAKE PROVIDENCE. IAKE PROVIDENCE, La., Feb. 20.—Soon after the arrival of General McArthur to send one brigade from his own division to this point, for the purpose of ascertaining the practicability of letting the Missis-sippi river into Lake. Providence, and of opening a passage for gunboats and small stern-whicel boats hom the lake into the Red liver. General McAr-thur ordered Colonel Deitzler to execute the order. Accordingly, on the list inst, the 1st brigade was put on board transports, and arrived at this place the next day. Immediately upon landing, Colonel Deitzler mounted about one hundred in-lake, a distance of some fifteen miles, meeting and capturing Captain Williams and three rebel sol-liers. This reconnoissance astified Colonel Deitz-ler that the project of cutting the levee and letting ine Mississippi into Lake Frovidence, and of open-ng a canal from thence into Bayou Macon, which s navigable to Red river, was entirely practicable, ind so reported to General Grant. Without waik-ng for further orders, the gallant and energetic olonel 300 ment to work wore the assol according **OPERATIONS ON LAKE PROVIDENCE.** 

Succeeden in gering to the end of the pass, bit some impediments still exist in the upper end of the Coldwater river. The Coldwater is quite a small stream, scarcely navigable for steamboats. From the mouth of the Pass down to the mouth of the Coldwater, or its junction with the Little Tallahatchie, is thirty, miles. The Coldwater and the Little Tallahatchie rivers; joining, form the Big Tallahatchie. This is a navigable river, one hundred and fifty miles in length. In them unites with the vaters of the Yal-labusha river, forming the Yazoo river. The Yazoo river is two hundred and twenty miles long to its junction with the Mississippi. Thus the total dis-tance to be traversed in going by this route from the head of the Pass to Vicksburg is four hundred and sixty miles. head of the Pass to Vicksburg is four hundred and sixty miles. In this distance the enemy has fortifications at the junctions of the Big Tallahaitohie and the Yallabusha rivers, at Yazoo city, one hundred miles above the mouth of the Yazoo river, and at Haines' Bluffs, near Vicksburg. It is prohable that the sole object of the expedition is to get a force into the rear of Haines' Bluffs, to accomplish which we have only to fight by the fortifications at the mouth of the Yallabusha and at Yazoo city. Our iron-clad gunboats-those of them detailed for this expedi-tion-will hardly find any trouble in reducing any works the enemy may have at these localities. LAKE PROVIDENCE OUT OFF.

The lake is 430 miles above New Orleans in Lou-isiana. At no remote period the present lake has been the bed of the Mississippi river. At its lower extremity, the water in the lake reaches to within less than a half mile of the river, the old bed of the draw highly lake bollow between the two the bed river is still a deep hollow between the two, through which the river is prevented from flowing a high water by two immense levees across its mouth or whater by two immense levees across its mouth on the river bank. The surface of the lake is fifteer feet below the present level of the river, so that, by

Rebel Torpedoes, &c. EMPLOYMENT OF SLAVES. [Oircular.] HEADQUARTERS DEP'T OF THE GULF,

 The stated as follows:
 Controports BELL'S REPLY TO THE CONSULS.—
 The following communication was sent in yester-day by Com. Bell, commanding the enemy's fleet off our harbor, in answer to the communication from the foreign consuls at this place, protesting against the firing into the city, without giving time tor the removal of foreign subjects, women and children:
 U.S. SLOOP-OF-WAR BROOKLYN, OFF GALVESTON BAR, Jan. 21, 1663.
 To the Consuls of France, Spain, and Erigland, and all others whom it may concern:
 Whereas the city of Galveston is occupied and garrisoned by the troops of the Confederate States, and the said troops are diligently employed in erecting defences in and around the said city, in de-fiance of the laws of the United States:
 The foreign consuls and foreign subjects, and all others persons concerned, are hereby warned that the city of Galveston and its defences are Hable to be attached at any day by the forces of the United States under my command.
 Twenty-four hours will be given, from 5 o'clock P. M. of this daie, for innocent and hepless persons to withdraw from the said city of Galveston and its vicinity.
 M. Othis daie, for innocent and hepless persons to withdraw from the said city of Galveston and its vicinity.
 M. Gommodore com'g U. S. forces of Galveston.
 Commodore com'g U. S. forces of Galveston. o steal a man and to sell him [loud cheers]; that s no less an abomination to breed a man and to: own offspring for gold [loud cheers]; that it is an abomination to expose men and women on th auction-block and feel their muscles and hand then wer to the highest bidder as you would cattle shame!]; that it is an abomination to deny to a woman the rights of charity and maternity [hear] that it is an abomination judicially to declare that a

the 21st January, 1863. Consul for France and Spain.

Thursday, again, a flag of truce was sent out to the enemy's fleet, carrying communications from the commanding officer at this place, Col. X. B. DeBrazy, and of the French consul, the former relating to some small matters in controversy between, our au-thorities: and Con Ball and of the French consul, the former relating to ome small matters in controversy between our au-horities and Com. Bell, not of interest to the general public, the latter merely acknowledging re-scipt of Com. Bell's notification of the preceding lay.

Thursday morning one of the Federal two-master ropellers moved up to the channel in the north reakers, and took position in the Cylinder channel and by sundown a third a ll three lying in the f the breakers, opposite Fort Poir inother propeller, and by sundown a third anche acar the first one, all three lying in line of battle al two miles distant, and northeast from Fort Pr The Brooklyn took position immediately in frohe main bar by sundown. It was supposed that ar ttack on Fort Point was meditated early Friday corning, but the attack was not made up to the time un bulletin went to press. The three propellers in einorth c tion of the fleet at 8% o'clock Friday morning

The three propellers that were in the north chanrice in the pipeline into well in the north chain-nel yesterday are going ensitvard, and are some six-teen or twenty miles off. The Brooklyn and a gun-boat, lying off the main entrance of the harbor, are going southward, apparently to meet a vessel which has just come in sight; near her a crippled brig and one gunboat that arrived last night, inside the bar.

THE RED FLAG. We are informed by an old and experienced navi-gator that it is custom in the navies of the world, to raise a red flag when they are about to bombard a town. If this custom is observed by the Federal fleet off Galveston, we have yet to learn.

FEDERAL RAID THROUGH YAZOO PASS.

FEDERAL RAID THROUGH YAZOO PASS, IFrom the Vicksburg Whig, Feb. 16.] Considerable danger seems to be apprehended by a portion of the community, from the movement of the enemy into the interior of Mississippi, via the Yazoo pass, but we have heard a number of gentle-men, who profess to be well acquainted with the nature of the water courses that must be navigated; give it as their opinion that but little will be accom-plished, except a disturbance for a short time of our collecting supplies in the country threatened. The passage from the Mississippi to Moon lake is two miles in length; thence on the lake to the mouth of the pass, nine miles; thence through the pass propressing. The enemy's boats passed through the pass with their forces, a heavy land force marching on either side, and in advance of the boats. On Sunday morning the land forces reached the Cold-water, and it was expected the boats would arrive during the day. Our forces, engaged in adding to the obstructions, were driven back, and compelled to abandon the work, and reached the mouth of the obstructions, the land forces of the enemy are estimated at eight or ten thousand. We are confident that energetic steps have heen

woman the rights of charity and maternity (henri; that it is an abomination judicially to declare that a colored man has no rights which a white man need respect [hear, hear]; that it is an abomination to flog a naked woman, whether she be a Hungarian Countess or an African slave [hear, hear]; that it is an abomination to fine, imprison, flog, and on a repe-tition of the act hang a man for teaching another man to read the Bible, [hear, hear]; that it is hideous blasphemy to eite that Bible of a God of love in de-fence of such abominations [hear, hear]; that a Con-federacy of men, fighting in order to commit these abominations, should be regarded as engaged in a portentous piracy rather than in legitimate warfaro [cheers]; that the conscience and heart of free Eng-land can never wish to recognize an empire avowing as its corner-stone the right to maintain and extend these abominations [cheers]; and, lastly, as the' re-cognition of an empire involves reception of its am-bassador, that the loyalty of Great Britian loathes basendor, that the loyalty of Great Britain loathe the very idea of such an indignity being offered t the royal lady we delight to venerate as that he puye, matronly, and widowed hand, which wield bury the sceptre of love over the free, should ever be contaminated by the kiss of any representative of so foul a conspiracy against civilization, human-te and Cod D. v. and God THE CHASSEURS D'AFRIQUE. - Governor burn, of Maine, recently gave a farewell enter-nment at Augusta, to some of the officers just oointed by him to the Louisiana African Briga ich is to be commanded by Brigadier Gene o be commanded by Brigadie ong those present were Lieutenant Bangs, Jr., Captains McFadden and Laine, Li Nickerson, Page, Berry, Getchell, and Downer, hey are to report to General Ulman at New York, nd will proceed theree to Baton Rouge, Louisiana,

THE MONEY MARKET. PHILADELPHIA, March 4, 1863. Third street was in a fever to-day over the promising

news from the several sections of the war departments Gold very suddenly received an immense " black-eye. and fell from 160 to 165, with a very weak market. The "shorts," of course, were in ecstacies, and a general disosition was manifest to "buy in" and settle. Should onfirmatory news arrive to-morrow, describing the all or compulsory evacuation of Vicksburg, gold would celline from six to ten per cent. Such news may come, s the immeuse preparations made for that purpose ould hardly fail of success. The loss of two valuable iron clads might not be the key or turning point of nccess, when the massiveness of the morements are onsidered. Depressing as the acknowledgments of the apture of the Queen of the West and Indianola were at list, we will have to congratulate ourselves if they are the greatest losses to be suffered in the reduction of Vicksburg. Porter, Grant, Rosecrans, and Dupont are the true ingredients of the mercury which exhibits the value of gold, and as they succeed or fail will the Old demauds

feet below the present level of the river, so that, by only cutting the levee, boats of nearly any capacity could run into the lake to-day. The lake is connected with a chain of bayous southward until the exploration comes out on the Tensas river. These bayous are being connected with short canals, and when once Bayou Baxter and Bayou Blacon are thus joined, the Mississippi turned into Lake Providence, will go rolling toward the guil. Down the Tensas, a deep, not wide river, and even now navigable for one hundred and fifty miles by large steamboats, we pass through the richest colton region of Louisiana. "At Trinity it unites with the Washita, to form the Black river, which flows into the Red river thirty miles from its mouth. uth of Baxter's Colonel Bissell's mouth. The Washita river is navigable for large boats for three hundred miles from its mouth, The Red river is the southernmost of the great western tributaries of the Mississippi, and, with its tributaries, has an entire length of two thousand one hundred miles. entire length of two thousand one hundred miles. It is navigable by steamers to Shreveport, five hun-dred miles from its mouth, and traverses through-out a region of pre-eminent fertility. That is the Red river to which the Lake Providence cut-off will

THE ATCHAFALAYA PASS. Atchafalaya means "Lost Water," and the water that was lost to the region it traverses was missed when the Red river gave up its own independent channel to the Gulf. But once a channel always a channel in the Southwest, and the neglected Lost Water set up for itself as a bayou two hundred and fifty miles long, by which the rebel steamers have been finding their way from the Gulf through to Vicksburg, thus giving New Orleans the go by. All this the Lake Providence cut-off will correct.
