artillery fire from the Newbern side of the Neuse.
 inter.
 artillery fire from the Newbern side of the Neuse.
 artillery fire from the shells of the spanks of the Neuse.
 A deserter reports that the enemy suffered severe-ily from the shells of the grunboats and our twenty-gruns seldom reached the Newbern side of the Neuse. One gun of the enemy built during several.
 THE ATTACK UFON THE NINETY-SECOND RECHIMENT
 was a much more formidable one than I at first sup-posed, as by deserters I learn that the rebel force consisted of no leas than sever regiments of infantry seventeen pieces of artillery, and a regiment of from the works. The demand was imperative, and thus inside the works were riddled with shot- and shell, but we lost for to regiments of cavalry, under Rigadier General Det Remy but four neucess is completed, and from the shells of the State severes the obstructions in the flag.
 The rebel force on the Trent road consisted of no lease in faint: SUNDAY, March 16-Noon.—The rebels have re-itired towards Kinston, and a lis quiet. The works and was simperative affain has been a super b failure.
 ARMY OF THE MINSUSSIPEN.

to some unit quantum out. The Confederate gunboat Webb, is lying close in to the Mississippi shore, evidently sinking. Her severe encougier with the Indianola proved too much for her. Before Vicksburg, March 13, via Cairo, March 18.

UNSUCCESSFUL REBEL ATTEMPT AT LE-VEE OUTTING.

VEE CUTTING. Night before last, twenty five rebel soldiers crossed the river from Vicksburg in small skiffs, and at-tempted to cut the State levee below the mouth of the canal. They were discovered, and taken, every man of them. For a time we were apprehensive of an attack. The long roll was beat in the campic the alarm bells rung on the rams and iron-clads, and, all hands piped to quarters, as if to. repel boarders. The captured men, with the prisoners taken by CoL Ellet, were sent up the river this morning.

Gen. Stoneman, now in command of the cavalry of Gen. Hooker's army, an officer formerly among, in a private letter recently received here, saysi "Judging from what I see and hear, I ahould have no hesitation in saying that the Army of the Poto-mac is improving every day, and that it was never in as good and efficient condition as at the present time. The study of the science of war is not per-mitted to do away with the necessity of a knowledge and practice of the art of war. I think the three requisites to constitute a good military organiza-tion, the physical, the moral, and the intellectual, are now in more happy accord than they have ever been before, and I trust and pray that they may re-main so; and that this army has ceased to be an engine with which to experiment and to test greate man so; and that this army has ceased to be an engine with which to experiment and to test greate the study of the science of war is not per-mated to do away with the necessity of a knowledge and practice of the art of war. I think the three preduction, the physical, the moral, and the intellectual, are now in more happy accord than they have ever main so; and that this army has ceased to be an engine with which to experiment and to test greate main so; and that this army has ceased to be an engine with which to experiment and to test greate main so; and that this army has ceased to be an engine with which to experiment and to test greate main so; and that this army has ceased to be an engine with which to experiment and to test greate main so; and that this army has ceased to be an engine with which to experiment and to test greate main so; and that this army has ceased to be an engine with which to experiment and to test greate main so; and that this army has ceased to be an engine with which to experiment and to test greate main so; and that this army has ceased to be an engine with which to experiment and to test greate main so; and that this army has ceased to be an engine with which to experiment and to test greate
