The difference between fact and faction, of permanently curing the sick and suffering of their diseases or adver-tising to care, and showing but little or no evidence of cares, can be well appreciated by the anxious inquirers after health, upon attentively reading the following synopsis of certificates from some of the most reliable gentlemen in Philadelphia, who were permanently curred by Prof. Bodes, 1220 WALNUT, Street, and after they had been given up as incurable by the most emi-nent medical men of this city.

ANOIHLE REMARKABLE CURE.

For the past three or four years my health has been gradually running down, and I for some time could not understand the cause of it. At first I was not much slarmed, but, as time wore on, my sufferings kept getting worse. I began to lose flesh, my natural color left me, and my appetite became very irregular. I applied to several physicians, but they did not seem to understand my disease, for I kept growing worse. I was troubled with palpitation of the heart, difficulty of breathing, offentimes trembling of the limbs, soreness in my throat, loss of memory, and great aversion to business and to society. At times I was very gloomy, and what caused me to feel w rse was my inability to collect my thoughts vigorously on any subject; suffered much from swimming in the head, and much from fears of getting insane, for my physicians had told me that I had symrtoms of fits; but, after persevering for a long time in the old school remedies, and in the homoopathic also, I was informed my case was beyond cure.

Seeing the advertisement of Prous. Boxes & Gultoway in The Press and Bulletin, I called on them at 1230 Walnut street, and, after conversing with them a few minutes, they told me that they could cure me, and that without throwing poleonous druss into my system. This to me was rather astonishing; still I believed it, for I badk nown some persons they had cured, who had been worse than even I wms. I commerced their treatment, which is perfectly pleasant, and I am happy to say that, in direction to my own wonderful cure; and I know the persons they had cured, who had been worse than even I wms. I commerced their treatment, for sufficient time has slapsed for a return; therefore I feel certain. I shall take pleasura in being referred to by any person or persons who may be suffering fell, w-men. I have made this statement of facts in relation to my own wonderful cure; and I know it is perm person. Such was the case yesterday morning, when I went up stairs to remonstrate with them, as I had frequently done before, and finding them in one of DR. LIGHTHILL, 34 St. Mark's place (Eighth st.). The Alleged Contraband Case.

Judge Cadwalader sat as a committing magistrate, yesterday, in the case of the parties arrosted a few days since on supposition of being engaged in the attempt to give aid ann comfort to the enemies to the United States Government, by fitting out a vossel with an assorted cargo, and, under color of law, run to Fort Royal, or Nassau, or any other port that might be opened. The testimony, aral and written, was very voluminous, but not a single point was developed that seemed to impicate any of the deiencents in any act contrary to any law of the United States. The District Attorney almost broke down, and his Honor frankly stated that, up to the close of the hearing, there was nothing against the parties. 23. P. M. frem Walnut-street Wharf. (The 6 A. Prop. Bolles—Dear Sir: As you have frequently requested me to give you my opinion of the therapentic effects of Electricity, when applied according to your discovery of its physiological relations to the human system; in producing and curing disease; and this being the first favorable opportunity. I will give you a brief statement of my success since I closed my instructions with you, and also my faith in it as a remedial agent, for the cure of all curable diseases. At every step as I have proceeded in the practice, my astonishment has been increased when witnessing its power in controlling and curing all forms of diseases. I can hardly say to what class of disease a Electricity is bost adapted—but think it adapted to all—but its power over Paralysis, Consumption, Rhenmatism, Acute or Chronic Neuralria, St. Vitus; Dance, all Female Diseases, and all derangements of the nervous system. The above diseases having been treated by me since I took instruction from your asson many others: therefore I speak positively of its power to control without any medicine being given according to Allopathy or H-meopathy—cures ten to one of all that other systems claim to cure.

John J. The principal witness was C. lia Connell. It seems, from the widence, that a number of females are employed as watters in this establishment. On Thursday evening Mary leceived a one-dollar note for some refreshments. This note was a counterfeit. She told Mr. Fullerton of the person from whom she received it. At a subsequent period the young man alleged to have passed the counterfeit was asked about it, and he made a flat donial of the charge. After he left the restaurant some words ensued between Fallerton and Sarry, which ended by fullerton making an strack upon the detenceiess female. He struck her four blows with his fist, about the head and face, and she fell insensible up in the floor. The firl was summomed. Yesterday it was thought that she could not survive. The attending physician entertained little or no hope of her recovery. This being the case, the alderman committed Fullerton, to await the result of the injuries the girl had received.

John O'Brien was arraigned yesterday before the same magistrate, on the charge of stealing the sum of \$150 from Marien Glynn, a superintendent of the business of Mr. Barry Pollett, in Front street. To evolvery, as alleged, occurred on the 23th of February. The accused disappeared from that time up to within a day or two. False Pretence Case.*

A man giving the name of Charles Hermann was also arraigned before the same magistrate, on the charge of obtaining the sum of one hundred and twenty-five dollars, uncer false pretences, from Mrs. Mary A. On the following, day the harde was taken sick. A vereinary physiciau was called in, and he pronounced the horse broken and diseased; he had the heaves in their worst-stage.
