PENNSYLVANIA IRON ORE LANDS FOR SALE-TO CAPITALISTS AND IRON MA-NUFACTURERS.—I have for sale four thonsand across of the very best iron-ore lands in the state. They are stin-ate in the JUNIAT VALLEY, along the line of the Bed-ford Railroad, in Bedford county. The land is well set with timber, and a portion of it is imestone. The soft fossil seam, by leet in thickness; the large benefitie seam from ten to tweive feet in thickness. The Bord Railroad cuts through the ore and lime-stone measures at Bloody Run, and both ore and lime-stone measures at Bloody Run, and both ore and lime-stone can be placed in the cars at once. The Great Broad Top Coal Fields are only nine miles distant by railway. Parties who desite to erect Coke Farnaces can purchase a valuable tract of coal land connected with the ore lands by rai. There are reveral fine locations for furnaces. The ore is the same as the Bloomfald ore, out of which the iron for the large-Pittaburg cannons are made. Undivided intercets in the land, or if preferred the whole will be sold together. Parties requested to visit the lands. Terms easy.

In a few minutes more the retrest of the sleep- ing inmates would have been out off, and they would have been, in all probability, burnt to death. The Fire Marshal, after a long examination, found out that the in- cendiary had two motives in view in firing the building. He was told that as the new buildings were now so far progressed, he would not be required as watchman much longer. He fired the building, therefore, to prove that it would be best to keep him employed as watch- man. The second motive was that he wanted to see the sleam-engines play. It is thought that he is about balf- witted. The possibility is that he is about balf- fool. He was committed, in default of \$2,000, to answer, the charge of arcon.
