The Schuvlkill County Mines. MEDICAL. AUCTION SALES. MEDICAL. A YER'S PILLS.—ARE YOU SICK,

A FEBELE, AND COMPLAINING? Are you out of order, with your system deraged and your feelings uncomfortable? These symptoms are often the preluda to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take AYER'S PILLS, and cleanse out the disordered humors—purity the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general agravation, suffering, and disease. While, in this condition, oppressed by the derangements, take AYER'S PILLS, and see, how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-sasted and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the health again. What is true and so apparent in this trivial and common complaint, is also true in many of the body, they are rapidly and many of them surely, oured by the same means. None who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Billons Complaints, Indispection, Derangement of the Liver, Costivenes, or Constipation, As a Dinner Pill they are both agreeable and effectual. Price 25 cents per lox, or five boxes for \$5 reparted by D. M. Marils & Go., at wholesale, and by FREDERIOK BROWN.

To the Editor of The Press:

Sir: Thinking a few lines from this locality as to the general progress of our borough, its political standing, and its present and future trade, would be of interest, as well as useful to your readers, I shall briefly recite them. Whilst the prolonged stay of your Philadelphia salesman indicates activity in the smaller trades which bring us in wealth, our coal and iron, those great levers to commerce and manufactures, are yielding an income as yet unsurpassed in the history of the county. Indeed, so great is the demand, that our railroad and canals are taxed to their utmost capacity to receive, and still the de-PROPOSALS. AUCTION SALES. PROPOSAL. Indeed, so great is the demand, that our railroad and canals are taxed to their utnost capacity to receive, and still the demand for our coal increases. Private enterprise is doing much to enrich this community and State, 2nd enhance the value of future operators, by the results which are now proven. Facts and figures are the best illustrations, however. Here is the shipment by rail and canal for the present year—1,446,329 tons—which is an excess over the same period of last year, of 410,000 tons, and yet the demand is increasing. Truly, as Pennsylvanians, ought we not to be proud of our superior natural wealth, as compared with that of sister States yet, with all these opportunities of prosperity, our prospects are not secured to us. Treason and rebellion, the offspring of the pits, have found a retreat in our mountain home, and bid fair, through the imbecility or sympathy of some of our officers and judicators, to become a permanent element of our society. Fearful of the influence which the punishment of armed resistance might bring upon their cause, some of the functionaries of our county have winked at the insubordination which exists at the different mines, beginning first at Heckscherville, until now scarce an operator but who, if not suffering by an outbreak, is threatened with one. Only last night, at the works of one of our most enterprising and extensive men, George S. Repplier, Eq., without any cause, except nationality, he boas of one of the slopes having been ordered to quit the county, and failing to comply, was waited upon by a body of armed men of over a hundred, and after being brutally beaten, was daningerously shot; yet no effort is made at arrest, or if it should happen a boy was arrested, he is sure to be acquitted. This disaffection is spreading, whilst the sheriff looks tamely on, and our administrators of justice, fearing the loss of votes for their (the Democratic) party, blindfold, their eyes to the existence of rebellion. So universal has the venom of the M. THOMAS & SONS,

LICT OF PENNSYLVANIA, SEPERISH DISTRICT PRESIDENT OF THE UNITED TATES, IE MARSHAL OF THE EASTEN DISTRICT PENNSYLVANIA, ETING: AND SPECIFIC REMEDY VANISM. MAGNETISM, and other modifications of HLECTRICITY, the following resolutions were unanimously passed:

Resolved, That, as we have been eye witnesses for many weeks in the Institution of Frof. Bolles, and have good reason to believe that he has discovered new principles in the application of the different modifications of Electricity to the various diseased conditions of the harding and the sases, we have been convinced that, in his hand, as also his Students, the application of Electricity is a reliable therapeutic; and that he has taught us a new, rational, and scientific Philosophy, and we believe the only reliable theory of disease and mode of care.

Resolved. That, in our judgment, the philosophy advanced, and so clearly demonstrated in the Course of Lectures; is entirely new and original with Prof. Solles, and not known to the Medical Profession, and that the great success which has attended his practice in this city is alone the result of his scientific discovery of Electrical laws hitherto unknown to man, and that the many failures of other men in this city using this mighty agent is their ignorance of the true principles of Electricity.

Resolved. That we, in duty to suffering humanity, and for the great progress of the human race in approximating to a condition of health and happiness, commend the Professor and his theory and practice to the public, and bid him God speed, as we believe his great mission is one of benevolence and mercy, and calculated to benefit humanity in the only scientific and reliable way to a final restoration of health and physical happiness.

Resolved. That we tender to Prof. Bolles our thanks for his lucid instruction and kind attention to us, in dividually and as a class; that he has redeemed every pledge or assurance made by him, and that in parting from him he has our best wishes for his happiness and prosperity, and we heartly commend thim to all scientific investigators, and also to the diceased of body or mind. I have often wondered that our miners did not league together and refuse to receive in their employ any man having been engaged in a riot at any other mine. This would, in a measure, supply the remedy for defective justice. At present, some of them make \$3.50 per diem, of six or seven hours, and in some instances are demanding \$4, or will close the works themselves. As the consumer has to pay this advance, all are interested in the matter. This state of things has been brought on by the influence of Copperhead traitors.

We have in our borough a little band of as staunch Union men as are to be found. Last night we held our meeting which was one of much spirit. The Union League of Pottsville, whilst numerically in the ascendant as to voters, above the other party, is unhappily the best show which can be made in most every other township. Its object is a firm, zealous, and hearty support of the Government of the United Meet, and advocacy of a determined and uncombut one prosecution of the war, against traitors have past and domestic foes. Malicious Mischief-Assault with Intent to Kill.

John Mortimer and Joseph Mortimer are the names given by two persons arraigned before Alderman Dougherty yesterday on the charge of malicious mischief and assault upon Geo. W. Fisher, with intent kill. The evidence adduced developed the following points: It is alleged the defendants took boarding and lodging at the public house of Mr. Michael Geieslas, No. 624 Market street. On Monday the boarders commenced taking their trunks away, but were stopped by the landlord, on the ground that they had not paid their bill. Mr. G. removed the trunks that had already been carried out, and placed them in the bar-room. Words ensued between the parties rather of an exciting character. Several men were in the bar-room, and one of them, named Geo. W. Fisher, interposed and said;

"Come, gentlemen, don't get angry; the difficulty can be settled better by keeping quiet,"

"What the — is it your business?" replied one of the Mortimers.

Thomas P. Maviz. | Lumas R. (Eamball) Not a few of the worst disorders that afflict mankind arise from the corruption that accumulates in the blood. Of all the discoveries that have been made to purge it out, none can equal in effect HELMBOLD'S COMPOUNDEXTRACT OF SARSAPARILLA. It cleanses and renovates the blood, instils the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the blood. Its extraordinary virtues are not yet widely known, but when they are, it will no longer be a question what remedy to employ in the great variety of afficting diseases that require an alterative remedy. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Patrick McLear and his wife, who keep a place of business on Lombard street, and James McBride, who keeps a place on South street, were arraigned, yesterday, before Mr. Alderman White, on the charge of receiving stolen goods. Wm McClure, a lad recently arrested for stealing brass dies from his employer. Mr. T. B. Dyott, was p aced on the witness stand. He testified that he sold some of the dies which he had stolen to all the defendants; the last one he sold to the McLears weighed fifteen pounds, for which he received \$1.64. The foreman of Mr. Dyott's establishment testified that such a die was worth \$16. The defendants were required to enter bail in the sum of \$1,000 to answer at court. These new and substantial steamships form a regular line, sailing from each port punctually on Saturdays. Insurances effected at one-half the premium charged by sail vessels. This Railroad Bridge is now being constructed in the best manner with stone piers and abutments, and iron superstructure, after a plan prepared by J. H. Linville, civil engineer and approved by J. Edgar Thomson, President of the Pennsylvania Railroad Company.

This bridge, when completed, will form part of a through line from Pittsburg to Cincinnati, under one management, twenty-nine miles shorter than any other route, and fifty-eight miles shorter than the present route, via Crestline. It is expected that the line will be ready for business throughout its whole extent by July 1, 1884; and it must eventually become the great through route for both passengers and freight to and from the South end Southwest.

The Tolls that will be charged by the said company under its charter, for the use of this bridge, are specifically pledged to the payment of the interest on the bonds, and twenty per cent. per annum of the earnings, after payment of interest and such expenses as may be necessary to a sinking fund for the redemption of the principal of the bonds at maturity.

The amount of traffic passing over this bridge will yield, under a limited estimate, a fund amply sufficient to provide for the interest and the necessary accumulation for a sinking fund, to provide for the principal of the bonds before they mature. The bonds are, therefore, recommended as a first-class security.

Any further information desired will be Donds are, therefore, recommended as a first-class security.

GENUINE EXTRACT SARSAPARILLA: MR. FERNANDO WOOD.—This gentleman has written a letter of correction to the New York press as follows: It is not true, as stated, that while in Washington last week, I denied to the President that my late speeches in New York has been correctly reported. On the contrary, I repeated, in my interview with him, the substance of them as idelivered here. Nor is it true that at Baltimore I was ansulted by opprobious language by New York soldiers, or any other soldiers. So far as I know and bélieve, New York soldiers. So far as I know and bélieve, New York soldiers are gentlemen, not blackguards. I make this statement in justice to the reporters of this city, who deguerrectyped the speeches referred to with wonderful accuracy, and to the soldiers of New York, who have always treated me with respectful courtesy.
