THE COMMERCE IN SAND.—In some parts of our adjoining counties the country is as flat and level as a western prairie, and the soil is mostly of a clayey texture, and destitute of sand. This is the case in the extensive regions in Haffield, Montgomery, and Towamencin townships in Montgomery country, and also in the western parts of New Britain and Hill-town, where this deficiency is much felt when building operations come to be carried on. Further to the eastward more hilly becomes the country, and the soil of a more sandy formation. In the eastern part of New Britain, during the past few years, extensive sand quarries have been opened, from which sand is hauled in wagons from four to seven miles, in a westerly direction, during the building season. Hundreds of thousands of bushels are annually due in the vioinity of the village of New Britain, and a ARMY CLOTHING AND EQUIPAGE IN THE COURT OF COMMON PLEAS

MELTONS. AND LYONS BLICK SILK VELYETS.

2 bales,74 London colored meltons. PENNSYLVANIA.—Thursday morning—Second Day, President called the meeting to order at 10 o'clock. Minutes of yesterday's session were read and approved.

Dr. Condie read a letter from the Union League, per their secretary, Geo. H. Boker, inviting the members of the body to visit their rooms. Also, letters from the Board of Managers of the Almshouse, and Deaf and Dumb Asylum.

Committee on Oredentials reported progress—three additional delegates present.

Dr. W. S. Linn, or Chill, Illinois, was introduced to a seat in the body.

Dr. Condie moved a vote of thanks be given the Union League for their invitation, and offered a resolution to visit the League in a body this (Friday) afternoon, on adjournment of the session.

Upon this motion there was some debate.

Dr. Condie thought the invitation should be considered a great compilment to the Society, and, as it did not refer to politics, though he presumed they were all Union men in this body, and, therefore, moved, &c.

Dr. Mayburry thought a vote of thanks should be returned to the Union League, but hoped the Society would not visit the rooms in a body. He considered himself as loyal as any man in Philadelphia, and had contributed as far as in his power to the support of the Government. He desired, however, that politics should not be brought into this body. He believed the Union League to be a political organization, and had heard that they proscribed men who did n't think as they did.

Dr. Bell thought differently. Politics were not in troduced by the invitation, the only qualification for that body being that the members should be Union League Rooms, not as Democrats or Republicans, but as Union men. The late General Presbyterian, as well as Episcopal, Conventions, responded with alr cot a unanimous voice to the invitation to visit the League Rooms.

Dr. Dutcher was very loath to introduce politics into this body, or anything strictly of that character; but, in the orisis at prespond to country, some sympathy should be shown for our Government, and that this bod gets, &c.
