SPECIAL MEETING OF SELECT COUNCIL.

SPECIAL MEETING OF SELECT COUNCIL. At three o'clock yesterday afternoon a special meeting of Select Council was held, President Lynd in the chair. The business transacted included the passing of the resolution in regard to the visit of the City Councils of Cincinnati—viz : on Fire Depart-ment and on Contracts—will arrive in this city to-night. The principal object of the yisit is to examine the workings of the Police and Fire-alarm Tele-graph, but during their stay in the city they will visit all the public institutions. Common Council has appointed a committee, consisting of Messrs. Barger, Baird, Harper, Wolbert, and Marcer, for the purpose of giving the Cincinnatians an appropriate reception. From here the visitors contemplate a trip to New York and Boston. The salary of the assistant engineer of the creation of a municipal flooptial; the revision of the grade on Robinson street; the paving of Scotland street, and the dis-charge of the committee from the further considera-tion of applications for certain culverts, were con-curred in. Messrs. Wetherill, Gatherwood, Spering, Weaver, and Uhler were appointed a committee to make arrangements in regard to the Cincinnati Councilmen, and Messrs. Wetherill, Manuel, and King a committee on the municipal hospital. After the appointeet of these committees the meeting adjourned.

SUICIDE.-A young German, named Otta SUICIDE.—A young German, named Otta Harting, about twenty years of age, was arrested on Sunday morning, upon the charge of the larceny of a lot of valuable German papers, some money, and other articles, the whole amounting to about a thou-sand dollars, the property of Mr. Fisher, of the Upton House, on Dock street. The prisoner was taken to the Fifth ward police station, and was locked up. He was to have had a hearing yesterday morning, before Alderman Beitler, but, upon open-ing the door of his cell, he was nort of a rone, which ing the door of his cell, he was found dead upon the floor. Around his neck was a part of a rope, which had been made by tearing his undershirt into strips. The supposition 'is that Harting tied the rope around his neck, fastened the other end to the bars over the door, and then jumped from a bench. The fall was to violent that his neck was broken. It is not known where the deceased belongs. He said that he recently came from Washington. The stolen papers were not recovered, but are supposed to be in his value, which had been left with a friend in Camdea.

B. Geo. W. Irwin. 117. Frank-McLaughlin. FAIRS. — Yesterday afternoon, the second annual fair of the Union Volunteer Refreshment Committee opened at the saloon. The proceedings were opened with prayer and the firing of a salute. A fair and festival of a delightful character also commenced yesterday at the Musical Fund Hall, in aid of the Church of the Evangelists. Extensive preparations for this affair have been made, and the Hall will present a scene of great beauty, life, and mirth during the continuance of the featival. The prices for admission have been placed at the very low price of twenty-five cents for the season, and ten cents for atomission have been placed the the very low and wardberry featival will be held on the Darby road, for the benefit of Summit Hospital. It will be a pleasant festival.

THE WATER WORKS OF THE TWENTY-THE WATER WORKS OF THE TWENTY-FOURTH WARD.-The Twenty-fourth ward water works have been completed. The trouble, it was found upon examination, was caused by the stop-cook giving out, and one of the joints of the main having been blown out by the great pressure of water. Two of the check-valves were found en-lirely broken off, and they had already got so far up in the main that they were only got out by a man entering bodily and extracting them by hand. The concussion upon these valves had been tremendous, as they were working under a head of 101 20 100 lbs, to the square inch...The old ones were made of iron, but those now introduced are of brass, and will last as long as the works themselver.

Its extraordinary virtues are not yet widely known, but when they are, it will no longer be a ques-tion what remedy to employ in the great variety of af-flicting diseases that require an alterative remedy. Such a remedy, that could be relied on, has long been sought for each new for the first time themphile have one for, and now, for the first time, the public have one on which they can depend.
