CITY COUNCILS. ecial meetings of the City Councils were held orday afternoon, having been called by the or. The following business was transacted:

SELECT BRANCH.

At 4 oclock, to the moment, Mr. JAMES LIND called the Council to order. A quorum answered. Mr. Horace M. Martin, clerk of Council, intro-duced Mr. Ray, the 'Mayor's clerk, who presented the following message: OFFICE OF THE MAYOR OF THE CITY OF PHILADELPHIA, August 7, 1863.

To the President and Members of the Select Council of the City of Philadelphia:

To the President and Members of the Select Council of the City of Philadelphia: GENTLEMENT I return for your reconsideration the bill emilied "An ordinance providing for the admission of one hundred additional pupils into the Girard College for Orphans," believing that the appropriation of manicipal revenue towards the maintenance of that college is uplain contravention of the will of Staphen Girard, and that as a preceden, it is highly objectionable. A careful examination of Mr. Girard's will must satisfy every impartial inquirer that the testator, in setting apart particular funds for the support of that institution, intende that its annual expenses should be need by annual income, and in the 21st exciton of his festament, he "enjoins and requires that if at the close of any year the income of the fund devoted to the partposes of the said college shall be more than unflicient for he m intenance of the fund devoted to the partposes of the said college shall be more than unflicient for he m intenance of the institution excited in good securities, thereafter to be and remain part of the explain." This clause will suffice to prove that if the explaint." This clause will suffice to prove that institution excited in good securities thereafter to be and remain part of the explicit. "This clause will suffice to prove the if the explicit." This clause will suffice to the under accompanying bill, for if, during the aexit and subsequent years there to be any circular of the result of the college buildings, and the income of the result for the college the reput as proport of the institution. If such income should prove the addition of the result of a conserve we at each of the subset of reput as proport of the institution all form the result of the college is properly the thousand that the the monitemate of the college is properly with the term of the result of the college is properly with the section of the result of the subset of reput as a properly of the institution all freducity for the any state of the institution

Respecifully, ALEX AN OER HENRY, Mayor of Philadelphia. Mr. LYND, president, said that unless other sation be taken, the question now stands, shall the bill pass, notwithstanding the vero of the Mayor! Mr. BRIGHTLY said that he could not see any force in the argument of the Mayor, nor could he see how it contravened the will of Stephen Girard, as stated by the Mayor. Mr. B. now entered into some-thing like a dissertation on the will of the great be-nefactor of Philadelphia, and finally concluded by aaying that he considered it eminently proper to pass the bill.

My is una toolinate the first of the passage of the bill, Mr. GINNODO advocated the passage of the bill, and said that it would give him pleasure to vote for it/over the Mayor's veto. Mr. KinG had paid some attention to this subject, and though he was not exactly clear upon it, yet, if the question was now taken, he would vote for the bill over the Mayor's veto ; at the same time he felt desirous to sustain the Mayor. Mr. MILLER said he thought there was a very nice question of law involved in this case, and therefore moved a reference to the Committee on Law. This was agreed to.

The call of the Mayor for the assembling of Coun-cils was read by the clerk. A measage from the Mayor in regard to the bills to be considered by the Councils was also read. The resolution authorizing the paving of Norris atreet, in the Nineteenth ward, was then taken up. Considerable debate ensued. Mr. LougaLin was in favor of passing the bill over the veto of the Mayor. He though it was high time that the work should be done. He knew of no other way of this being accomplished than by Common Council faking action on the matter at once. He wanted the two branches to set at naught all attempts of any officer to oppose their actions. The resolution was not agreed to-yeas 15, nays 13-two-thirds not voting in favor of it. FINANCIAL AND COMMERCIAL. THE MONEY MARKET. PHILADELPHIA, August 7, 1863.

amall interest.

The market to-day was dull, though firm, money still remaining plenty, and easily to be had at

about 250 bales have been disposed of in lots at 63@ 69c, for middlings and good middlings. DRUGS AND DYES.—There is very little doing; small sales of Sulphuric Acid are reported at 2%@ 2%c; Alum at 3%c; Cutch at 6%c, and Cream Tar-tar at 46c. A cargo of Logwood sold on private terms. Indigo is scarce and high, with small sales at \$1.5672 26 \$ M. FEATHERS are unchanged; we quote Western at 476602 fb, as in quality and dul. FISH.—Supplies of new Mackerel are coming for-ward more freely, and an invoice new No. 3 sold, from the whai fon private terms, said to be a decline. ()id Mackerel rangefrom \$12.50 to \$16.60 for bay and whore is, \$110012.50 for old ann new 23, and \$5.75@ 8 60 for new 3s, medium and large size. Nothing doing in Herring or Codfish worthy of notice. FRUIT.—A cargo of Sicily Oranges and Lemons has arrived, and colu private y at full rates. Pine-apples for \$902 \$ 100. Green Peaches are more abundant, and cell at \$102 \$ basket, the latter for rare ripe; for Dried Peaches prices are entirely no-minal. • Dried Apples Tange from 5% to 70, the latter for choice New York. FRUIT. Owing probably to the hopeful appearance of the siege of Oharleston, and the dismal moanings of the rebel press, gold, which opened at 27% premium, fell to 26%. This is an index of the fall it will eventually have when the rebellion shall receive its (we may hope) fatal blow in the fall of Charleston. This, no doubt, is the reason why the gold market is dull. If Charleston fall, so will gold : but the bears as yet are not enough certain of its future surrender to guaranty selling short to any extent, and, con-sequently, every bear-both in New York and here

or choice New York. FREIGHTS to Liverpool and London are dull. -is very careful to keep clear. FREIGHTS to Liverpool and London are dull, and the rates nominally unchanged; to the West Dodies there is not much doing. There is little or no un-clarified here. GUANO is steady at \$95@100, for large and small lots of Peruvian. Prices of Ichaboe and Pacific Coast Guapo remain as last quoted. HEMP is quiet, there being but little stock here to operate in. The subscription to the national loan still continues with unabated zeal, having to day reached very nearly to a million and a quarter. If any one can doubt the confidence of the people in the Government, the energy and zeal displayed since the first opening of the subscription books to this loan, ought most certainly to dissipate not only all doubts

The stock market was not as active or as firm as n Wednesday, the sales at the board amounting

#### THE POLICE.

Elefore Mr. Alderman Haines.] Alleged Highway Robbery. A man, named Isaac Sides, was arraigned yester-day on the charge of having been one of a party who made an attack upon and robbed a young German, named Joseph Leidy, Jr., of a gold watch and chain. The evidence adduced set forth that Mr. Leidy and a young lady had just left Eogel & Wolff's farm. Three or four men made a sudden attack upon him without any provocation whatever. He was knocked down and robbed. The defendant was subse-quently arrested and identified as one of the party. He was committed in default of \$1000 bail.

He was committed in default of \$1000 Dall. Attempted Escape. Frank Williams alias Charles Collins, arrested a day or two since on the charge of the larcency of a watch, attempted to escape from the city lock-up, about two o'clock yesterday morning, by filing through one of the iron bars. He had nearly accom-plished his o'ject, when the noise of the filing was heard by a detective offider up stairs. The prisoner was placed in another cell, and, after the morning hearing of yesterday, was committed to prison. The charge of malicious mischief will probably be preferred against him because of his attempt to escape in the manner named.

## [Before Mr. Alderman Beitler.]

[Before Mr. Aldorman Beitler.] **A Well-known Hotel Robber Caught.** Ephraim Pharo, alias Edward Fisher, alias J. Ronde, who recently served a term of three years and aix months in the prison at Troy, New York, and more recently had been opegating in the hotels at Washington, D. O., was arraigned last evening at the Central Station on the charge of being a hotel thief. A number of witnesses were examined, from whose evidence we present the following narrative. It seems that yesterday morning Pharo and an ac-complice in crime arrived in town, and took board-ing and lodging at the St. Louis Hotel. Room 36 third floor was placed at the disposal of the new-comers. They appeared to have just come from abroad like hurried travellers, had long dusters on, and seemed to put on airs. A shrewd domestic had her suspicions aroused and watched them. After awhile she called the at-tention of a couple of other domestics, and a strict wat was kept upon the pastments. The watch-ing domestic good down the passage-way between the range of noom, peeped through the keyholes, looked cautiously about the apartments. The watch-ing domestics could not be seen, though they could exsily see all his movements. His accomplice stood in the door way of room number 36. Presently Ephrain, with a skeleton key, entered room num-ber 39. "The domestic hastened there and asked him what he was dong." "Nothing particular," said he. " Ublieve you're a thie(;" she said. He thereupon knocked her down and escaped into his own noom. The other domestics come to the rescue, and the the thory of the serve the trained there and the there a watched there there the there the trained there

"I believe you're a thei," she said. He thereupon knocked her down and escaped into his own room. The other domestics came to the rescue, and the friend of Pharo leaped from the third-story window to a bled below, thence to the pavement, and by means of an alley, effected his escape into Market street and eluded the crowd, who were running af-ter him, orying "stop thiel" Pharo was not so luoky in his stiempt to escape. He was secured, and in a few moments Officers Benkert and Dale, of the Reserve Corps, were in attendance, and the prisoner was taken to the Central Station. At this place he was at once re-cognized, by some of the old detectives, as the origi-nal of a likeness that had been in the Rogues' Gal-lery for a number of years. I betective Lamon immediately proceeded to the St. Louis Hotel and secured the valise of Pharo. It was found to contain a full set of instruments used by hotel-thieves, such as sorews, nippers, ske-letons, picks, wires, drivers, &c. The defendant had no questions to ask nor any explanation to make. He has been known to the police for a period of mearly fourteen years, but he never was convicted in Philadelphia. He was com-mitted, in default of \$2,000 bail, to answer at the present term of the criminal court. (Before Mr. Alderman White.]

The New York Evening Post of to-day says: The speculative feeling at the Stock Exchange is much less active, and the business of the morning aboves an increasing tendency on the part of those who have made good profits to make sure of them by selling out, while a number of persons who are apprehensive of a reaction in the prices of stocks from some of the numerous causes which the rumors of the street suggest have also thrown their stocks on the market. The result has been that the sellers have outnumbered the buyers, and quiotations have receded, Hudson River, Harlem, Illinois Central, and Prairie du Chien being the only stocks which advanced, while nearly all other descriptions of rail-road shares went down 3/62 per cent.
