But the ignorance of himself and Cabinot in not yielding to the spirit sand progress of the age, and in vainly hoping that they can sustain the antiqueted policy of monopolies and restrictions, abanded by every enlightened country, will prove the downfall of centrality and of tyrannical exac-tion. Guerrero maintains her independence, Miobiocan is following suit, and the recovery of State sove-reignty by those two States, open to the Pacific and accessible to commerce, will enable them to sustain a separate nationality, or to force back the federa-tion of States which has been absorbed under one nationality. If the leaders of Guerrero and Michi-ocan understand the trumps of State Sovereignty they will achieve a victory, and either remain as se-parate sovereignties or reunite with the old mem-bers under a new federation. It is generally under-stood that the States along the Rio Grande, with Sonora, Zacateasa, and Durango, are in a feverish that e, and that most of the exiled republicans are in wat on the frontier, prepared to take part in the mat explosion. South knows; his is no doubtful record, it is inseparably united with that of this loyal Commonwealth, and one with that of the patriotism of America. He has never spoken the North for the war, or defended the right of secession. It was not he who advised the Government to permit the Southern States to break up the Union peaceably. Believing that in time of war it is the duty of Americans to support the American Government, and convinced that the Union is worth fighting for, he has energetically given his aid to the prosecution of the war, and, with the vast majority of his countrymen, is determined that the war shall only end with the submission of the South, and the restoration of the old Republic.

In the bright light in which the two candidates stand before the people, the contrast between their histories, their principles, and their aims is deepened, and as the great campaign is closing, men cannot fail to see in what antipodal opposition they stand. Between loyalty and disloyalty we must choose, and the fate of this nation may depend upon the issue. If Pennsylvania elects GEORGE W. WOODWARD, she commits herself to his principles, and gives her great influence into the hands of men hostile to the Government. But if she maintains ANDREW G. CURTIN in the high office which he honors, she pledges herself to the defence and vindication of the Government, to all that has made this country free, and all that will keep it great. Earnestly as we love America do we hope for his election ; then will great principles,

Country free, and an any maximum construction of the cons them under the sanction of the paid and recognized authority of these same leaders. It will not be forgotten that the so-called Democratic State Central Committee cir-culated the first letter of this Bishop Hor-kins under their solemn seal, and it is in simple consistency and character with this act that they disseminate and endorse his second and if possible his more scandalous justifi-cation of his atrocious opinions on the grave and momentous question involved in this mighty struggle. Yours, one of the most powerful Christian 'churches in the world uttering what, unless he has sunk into dotage, or has become the slave of treason, is a bald and reckless falsehood. NEW YORK, Oct. 9.-The steamer Locust Point has arrived at this port, with New Orleans dates of the 1st inst.

The headquarters of the 19th Army Oorps, under Gneral Franklin, and part of the 13th Army Corps, under General C. C. Washburne, were at Camp Bisland, fifty miles from Brashear City. As yet, they had met with no enemy. Their foraging parties had gathered up large quantities of mules, horses, and cattle. The plantations were generally found to be

descried by their rebel owners. The advance of the army was delayed on account The obstructions in the Bayou Teche. These obstructions were blown up, and Bayou

Seche is now open for steamers to New Iberia. On the 23d of September, at one o'clock in the morning, a raid was made on the telegraph office, situate d opposite Donaldsonville, by a band of guerillas, and fourteen men of the 14th New York Cavalry, and a telegraph operator, Mr. Allen, of Illinois, were captured.

In consequence of this raid, and reports of bands of guerillas being in the vicinity of Donaldsonville, an expedition of 1,000 strong was set in motion to

clear the country in that neighborhood. This expedition left Carrolton on the night of the 26th of September, under the command of Brigadier General Burbridge. He reconnoitred the whole country to Amite river, without meeting any enemy, and returned to Carrolton, on the 28th, without agualties.

Lieutenant Earl, of the 4th Wisconsin Regiment. n command of a squad of forty cavalrymen, marched from Baton Rouge, on the 29th of September, as far as Amite river. He captured 14 prisoners, their arms, horses, and equipments. Among the prisoners were the notorious guerilla chiefs, Colonel Hunter

and Captain Perry. It is known that the rebel General Logan is on the cast side of the Mississippi, seven or eight million below Mergansia Bend, with 2,500 ment and four pieces of artillery. He is supposed to be marching to Liberty, Mississippi, Where a rebel force is con-centrating. ORDERS-GUARDING THE MISSISSIPPI

ORDERS-GUARDING THE MISSISSIPPI. Three important general orders have been insued by General Banks. The first sets forth, that in con-sideration of the fact that the Mississippi river has been opened, that it is the duty of the people of Louisisans to assist in guaiding it. All persons lia-ble to do military duty have been enrolled, and are highle to be called on as such time and in such a man-ner as may hereafter be designated. In the mean-time, officers have been charged with the duty of raising volunteer regiments for the defence of New Orleans.

EMPLOYMENT OF NURSES. The second provides for the employment of female nurres in the hospitals, to relieve the soldiers who are now detailed for that duty.

INSTRUCTING THE CORPS D'AFRIQUE. The third authorizes the commanding general of the Corps d'Afrique to detail an officer of the rank of capitain as instructor of the corps, and regimental officers to appoint competent officers from their re-spective regiments, as regimental instructors. These instructors are charged with the duty of teaching the negroes the rudiments of learning, and they are authorized to make requisitions for the necessary books and apparatus to enable them to carry this order into effect.
