QUESTION, TO BE ANSWERED BY MEDICAL

MEN OF ALL THE PATHLES IN THIS CITY.

Shall we any longer continue in the practice of Allopathy, Homeopathy, or any otherpathy, which has ever
proved so uncertain in its reliable curative effects, while
in our very midst we have daily and hourly the most
incontrovertible demonstrations of the success of PROF.

BOLUSS, 1220 WALNITS Isreal, in his discovery of
the aprilication of GALYANISM, MAGNETISM, and
other modifications of BLECTRICITY, for the speedy
and reliable cure of nearly all acute and chronic diseases which have bid defiance to all medical skill;
if any medical man has any doubts as to his duty
in this important answer, we would invite him before
he makes application to Prof. BOLLES for private
lectures and instructions, to read exercally the following complimentary resolutions and extracts of etters
from medical men who have been instructed by Prof.
B., and also bear in mind that Prof. B. has sixty
different complimentary tokens, and has qualified nearty one thousand medical men of all of the different
schools who now use Electricity as a specialty, and that
in no other system is there union of thought and
practice.

A case of considerable interest came up yesterday atternoon, for a preliminary investigation, before Commissioner Smith. It is the first one of the kind to which the attention of the authorities has been called. Joseph Detwiler, a farmer, of Salem township, York county, Pennsylvanis, was arraigned on the charge of evading the payment of the national income tax. Mr. J. Y. Ashton appeared on behalf of the United States Government and J. P. O'Neill for the defence. The hearing progressed as follows: Edward C. Eply, assistant assessor of the Fifth division of the Fifteenth district of Pennsylvania, was callen to the stand. He testified that he handed a blank form to Mr. Detwiler to be filled up by him; this was in the latter part of May, 1862; when I handed him the form I requested him to make a statement of his income for the year 1862, from January 1 to December 31, inclusive; I showed him the first page of the form, and told him that the gross amount of income must be stated; I then read all the items carefully, and stated to him as plainly as I could the meaning of then; I turned the paper and showed him the right hand columns for reddits, that he was entitled to; that each oredit should be placed opposite the item as specified; then I closed the paper and showed him the reddit, then I closed the paper and showed him the ecrtificate on the back thereof, where he could see the date of 1862 in case he did not remember it; I told him to be very accurate in making the statement, as it would have to be sworn to by him; he then left and returned me the paper on the first of June following; when he returned the paper I read off each item; he returned \$1,500 as interest, on bonds and mortgages, and other securities not of the United States; he returned that he had no interest in stocks, banks, or radiroad corporations, he had only a little turnpike stock; I then entered the amount myself; to the item number 11, he returned, farms and profits, \$1,000; to the other items he replied, Nothing; I then turned to the credit s A case of considerable interest came up yesterday afternoon, for a preliminary investigation, before Commissioner Smith. COMPLIMENTARY RESOLUTIONS.

At the close of a Course of Lectures, delivered to us. members of one of the many Classes of Prof C. H. BOLLER, who has been developing his discovery for nearly four years, at 1220 WALNUT Street, in the City of Philadelphia, in the application of GALVANISM, MAGNETISM, and other modifications of ELECTRICITY, the following resclutions were unanimously passed: Resolved. That, as we have been eye witnesses for many weeks in the Institution of Professor Bolles, and have good reason to believe that he has discovered new principles in the application of the different modifications of Electricity to the various diseased conditions of the human system; and that, in the treatment of different diseases, we have been convinced that, in his hand, as also his Students, the application of Electricity is a reliable therapentic; and that he has taught us a new, rational, and scientific Philosophy, and we believe the only reliable theory of selesses and mode of cure of the control of the c NOW LANDING. Blank forms for proposals can be seen at this office.

Proposals must be endorsed "Proposals for Army Supplies," stating the particular article bid for.

G.H. GROSMAN,

Occ7-5t Ass't Quartermaster General U. S. Army. tion of a new school-house in the Nineteenth school section.

Mr. Ginnodo said that he hoped Councils would not allow such things here. When a man takes a contract he should carry it through at the price agreed upon, and we should not pay him an advance of 30 per cent., when he might have purchased the materials at the time he made the contract, and not delayed it till the articles had advanced.

Mr. Zane said the contractors were delayed one month by the city; and four months by the architect, making five months in all, which prevented them from going on with the work, and during that time articles oreded for the erection of the school-house had advanced.

Mr. Wetherell moved to amend the ordinance so that the money might be paid out of a loan to be hereafter created for that purpose.

Mr. Zane moved that the amendment of Mr. Wetherill be so amended that the money be reimbursed after the loan is created, which was lost.

The amendment of Mr. Wetherill was agreed to, and the bill, as amended, passed.

Mr. Wetherellt, chairman of the committee in regard to the paying of North Broad street, presented a report, saying that they have given the olacks.

Professor Bolles:

DEAR Sin: As you have frequently requested metogive you my opinion of the therapeutic effects of electricity, when applied according to your discovery of its physiological relations to the human system, in producing and curing disease; and this being the first favorable opportunity. I will give you a brief statement of my success since I closed my instruction with you, and also my faith in it as a remedial agent for the cure of all curable diseases. At every step as I have proceeded in the practice, my astonishment has been increased when witnessing its power in controllice and curing all forms of disease. I can hardly say what class of diseases electricity is best adapted to—but think it adapted to all; but its power is complete over Corsumption. Rheumatism—acute or chronic—Feuralgia, Bronchitis, Catarrh, Asthma, Amaurosis, Erysip-las, Si, Yilus' Dance, all fema's diseases, and all derangements of the nervous system. The above diseases having been treated by me since I took instruction from you, as also many others, therefore I speak positive of its powers to control, without any medicine levir given accoording to Allopathy or Homeopathy, cures ten to one of all that other systemical me cure. You have a knowledge of many astonishing cures performed by me since I took instruction of you, and when I find time I will give you some more account of my doings. S me people in Mt. Morris rejoice that I broke away from my old system, and took instruction from you. Dr. Thomes, Miss Bun, Mr. Mayee, and some others, entirely honeless ca: es, especially feel as though it was to them as life from the dead. I feel strong in the faith of Electropathy, and have entered the field of labor with unbounded success, and can say, with one of old. "the harvest is truly great and, labore sare fix." With the highest regard. I remain your friend.

MODEL BUSINESS SCHOOL FOR THE MERCHANT AND BUSINESS MAN.

Extensive improvements have recently been made in the matter and method of instruction, combining Theory and Practice by means of Banks of Issue, Loan, and Discount, several Business Offices, and other facilities for crrying on Actual Business Practice.

Attention is called to the unrivalled facilities of this School. Young mea are trained practically, as well as theoretically, by passing through first the Theoretical Department, then the Jobbing, Commission, Insurance, and Banking Houses. They bandle money, buy and sell Merchandise. Compile original sets of Books, and make out all the Business Papers involved. Thus many of the mysteries of Double-Entry Bookkeeping are elucidated, and the whole course rendered more attractive and casier of comprehension. Business men and others are invited to call and examine our facilities for Commercial Instruction. James Borke

PROF. POLLES: A great revolution in my mind and practice has taken place since I became acquainted with your new discovery of applying Galvanism. Magnetism, and other modifications of Electricity, as a curative agent. I have found, by many experiments, that Electricity is a safe therapeutic agent in all acute and chronic cases, when applied according to your discovery. I desire that medical men should become conversant with your discovery. MARVIN GODDARD, M. D. CLEYELAND, Ohio. ources.

Prof. Bolles—Dear Sir: The more I investigate this system of practice, the more confident I am that it is all powerful to meet the ten thousand diseases to which flesh is heir.

You, who first discovered Electricity to be a feliable therapeutic sgent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the woes and tills of suffering humanity. It is strange that physicians have become so wedded to their several systems. brought up from the darkness of past ages, that they will close their eyes against the light now beaming forth through this system of practice. All other systems I regard as the morning star to the rising sun.

An ordinance was introduced appropriating \$10,000 for relaying and removing certain portions of the City Exitered. Prof. Bolles:
The nearer I conform to your system of application, the more successful I am, and as I have examined all the guides and works published upon the subject and seen nothing in reference to your theory, I do not hesitate to say I believe it to be crisinal with you, and the only reliable system extant for curing disease.

Respectfully yours,
TOBONTO.

CHAS. RANDALL, M. D. An odinance was introduced appropriating \$10,000 for relaying and removing certain portions of the City Railroad.

Mr. Simpson moved to postpone.

Mr. Simpson moved that the motive for asking a postponement was to take the patronage out of the hands of the Democratic party that it might fall to the Republicans, who would be in power after January next.

Mr. Simpson stated that in all his acts, as a member of Council, he was never guided by party aims when the interests of the public were a stake.

Mr. Harper said that Councils should be slow to approve this ordinance, for there was very little guarantee that the impose would be spent judiciously. It was only last week that the chairman of the Highway Committee stated that there was corruption in the Highway Department.

The bill finally passed.

Mr. S. F. Addams, chairman of the Police Committee, reported a resolution conveying to the use of the Mayor the room now occupied by the Committee, reported a resolution conveying to the use of the Mayor the room now occupied by the Committee, reported a resolution conveying to the use of the Mayor the room now occupied by the Committee, Rayor of Markets, at Filth and Chestaut streets. Agreed to.

Mr. Quin, chairman of the Committee on Surveys, offered an ordinance appropriating \$1,250 for a sewer on Eighteenth street, between Coates and Walace. Adopted.

A resolution to change the name of Adams street, Nineteenth ward, to Hulseman street, was adopted.

Mr. Canwrong offered a resolution instructing the committee to whom was referred the matter of a male teacher for the Grits' High School, to report two weeks hence. Agreed to.

Council resolved itself into committee of the whole for the purpose of making general amendments to the bill authorizing a loan for the further extension of the water wonks.

Mr. Harper moved to strike out in the fourth forth eight inch connecting main, from the Spring Garden reservoir to that on Corinthian avenue, and insert "thurty."

Mr. Loughlin was not properly prepared.

The smendment was ag ground rent of \$7.50, and out of lot No. 5 a ground rent of \$15. (D C, 562; S.T., '63. Debt, \$559 98. Gowen & Johnson.]

Court of Oyer and Terminer and Quarter Sessions—Judge Thompson.

David R. Porter, a conductor on the Tenth and Eleventh streets Passenger Railway was put on trial yesterday, charged with having committed an assault and battery on a Mr. Reifstein, a passenger. From the evidence for the prosecution, it appeared that Reifstein had a trunk on the front platform where he was standing, and the defendant demanded five cents for carrying it, when Reifstein told him he had not any more money than the five cents he had paid for his own passage. The defendant then, it is alleged, struck him several violent blows in the face, threw him off the car, and threw the trunk after him. On the other hand, the defence showed that when the defendant demanded pay for the trunk Reifstein refused, and on having his five cents handed back, and being ordered to get off, raised a hammer he held in his hand in a threatening manner, and said he would pay him with that. The jury were unable to agree upon a verdict, and were discharged.

John Walker was put on trial charged with having committed an assault and battery on a German by knocking him down, and also with larceny, for having, as is alleged, stolen his watch. From the evidence it appears that the defendant, in company with some others, did attack and knock down the German, and that at the same time, it is alleged, some one of the party atole his watch. One witness testified that she saw the defendant grab at the watch after the man had been knocked down. The defence did not deny the assault and battery, but did deny having stolen the watch.
