stretch of the imagination to form some idea what kind of people the next generation would likely prove to be, if the youth of to day were properly trained in military exercises Since the introduction of steam engines into our Fire Department, there are far less numbers of boys found lottering about engine houses. They should have something, however, to occupy their attention, besides the work of learning trades or professions. In other words, the idle hours of boyhood could not be better spent than in military training.

of the same age. The period these policies have been in existence (seventeen years) has given ample opportunity to test the two modes of insurance, and the public are deeply interested in knowing the ra-suits. By an advertisement in another column it will be seen that these pamph'ets may be had, free of expense, at 400 Walnut street ; The unparalleled success of the Mutual Life In-surance Company of New York is too well known to need any recommendation from us. Its cash re-ceipts this year will we believe, exceed two millions of dolars, and the INTEREST on investments more than covers the losses and expenses, leaving the enormous revenue from premiums to accumulate for the benefit of insurers, who are the only ones that participate in the profils. This accounts for the large dividend dealered by this company this year, and which exceeded in amount. and in propor-tion to premiums paid, that of any other life insu-rance company in the world. As each policy holder thas the option of applying his dividend in adding to the sum insured, or in reducing his premium, itung fiving a "DEFINITE FOLICY WITH A DECREAS-ING PEEMIDIA, OF EN INFORMANCE POLICY WITH A DECREAS-ING PEEMIDIA, OF EN INFORMANCE PERION IN THE A DECREAS-ING PEEMIDIA, OF EN INFORMANCE PERION IN THE A DECREAS-ING PEEMIDIA, OF EN INFORMANCE PERION IN THE A DECREAS-ING PEEMIDIA, OF EN INFORMANCE PERION IN THE A DECREAS-ING PEEMIDIA, OF EN INFORMANCE PERION INFORMANCE PERION IN THE A DECREAS-ING PEEMIDIA, OF EN INFORMANCE PERION INFORMANCE PERION IN THE A DECREAS-ING PEEMIDIA, OF EN INFORMANCE PERION INFORMANCE PERION IN THE A DECREAS-ING PEEMIDIA, OF EN INFORMANCE PERION IN thus giving a "DEFINITE FOLIOY WITH A DECREAS-ING PERMIUM, OF AN INGREASING FOLIOY WITH A DEFINITE FERMIUM," the great objection to life in-surance is removed. in samuch as the dread of having to drop the policy for want of funds, and thus lose all that has been paid, is overcome by having no-thing to pay for the policy. There are gentlemen in this city holding policies in this company who not only need not pay premium, but may receive a cash annuity during the remainder of their lives. In other words, this company, after a few years, pro-vides for the family of the assured, free of expense to him, ard gives him a cash income for his support the rest of his days.

THE STORM.—A northeast rain-storm pre-vailed yesterday, and resulted in swelling the ice-bound atreams to so great an exteat as to remove f the wintry enamel. It was broken into small fields and carried away by the swelling current. This is a tide that is not at all likely to carry the ice mer-chants on to fortune A rain storm like that of yesterday damped their aspirations for a supply of the great luxury of summer. The wholesale dealers ought to have everything in readiness to gather in the ice as soon as it has reached a clever thickness, and not wait until the ice is formed before employ-ing hards sufficiently strong to gather it in. Have the men ready, or there will not be ice enough for the solders of the Union next summer. She makes many specious pretexts, such as having a son in the army, her desire to get a little money to assist her in traveling. Of course, these swindlers may go ahead ad infinitum with all sorts of stories to extort a few dollars. About the best plan to pursue when such persons call upon the citizens of the State of Pennsylvania, is to hand them over to the 'constituted authorities. The woman in question has been practising her imposition for several months, and it is believed that she has col-lected a considerable amount of money. The ladles of the United States Sanitary Commission, if they can, should by all means give a full description of the woman to the detectives, at Filth and Chestnut atreets. The bill making an appropriation of \$525,928 to pay the expenses of the Department of Police for the year 1864, was taken up. The Chamber went into a Committee of the Whole to consider it, Mr. Davis in the chair. Mr. BritGHTLY moved to strike out the first sec-tion, appropriating \$6,200 to pay the salaries of the cierks in the Mayor's office, and insert \$5,900. Messis. BRIGHTLY and KING opposed any in-orease of salaries. In reference to increasing the policemen's salaries, Mr. GINNODO said he had, a short time previous, introduced a bill to this effect, and was always in favor of the project. He thought the Police De-partment of Philadelphis was composed of better material than in any other city, yet here they receive the possest pay. If we do not give them an equiva-last for their labor they will leave the department, and their places will be filled with inferior men. Mr. G. paid a high compliment to the efficiency of the department, and stremuously urged the passage of the bill. After some further discussion, the bill was post-

After some further discussion, the bill was post-poned, and Mr. MILLER presented an ordinance in-creasing the salaries of all eity officials under \$1,200 per annum, at the rate of 10 per cent. Mr. SPERING moved to strike out 10 per cent. and insert 16. Agreed to. The ordinance, as amended, then passed. The bill from Common Council to pay the expenses of the committee on reception of the 29th Regiment Pa. Vols., was concurred in MAGjourned.
