REPORT OF THE FIRE MARSHAL .- Fire Maishal A. W. Blackbuin has presented to the Mayor his report of fires occurring in the city during the part year, from which it appears that from Ja-nus; 1 to December 31, 1563, inclusive, there were only 332 fires within the limits of the whole consolidated eity, being less than an average of one for every twenty-four hours; of which a very large pro-portion were triflirg. The total amount of loss sourcely exceeded \$400,000, on which there was about

The must destructive fire during the year was the burn-ing of the extessive rankway or works of Murphy & Alizon, corner of Nineteenth and Market streets, on the morning of the 24 of May. The highest es-timate by this conflagration did not exceed \$75,000. There were but two other fires the loss by which house corner of Sixth and Jayne streets, on the afternoon of the 6th of July, and that at the store-house of Schober & Co., South Delawate avenue, on the 16th of December. There five fires foot up more than one half of the footal losses of the year; but I am gratified to state the philadelphile of astionality, and many exciting immore prevailed. In reference to the fire at Gray's Ferry Bridge, on the 23d of last month, Mr. Blackburn says: The fire originated from a spatk from a locomotive. This bridge is old and a perfect finder-box. Portions of the woodwork have fir quently caught fire from parsing locomotives, but the flames were always dis-covered and extinguished in time to prevent injury. At this time, there is hardly a more important bridge than this in the country. As a local conve-nicuce, it is an absolute meressity; to the market people and the traveling community it is indispen-rable; and to the astion in the present crisis, its studie he stion in the fabric, and its continual likeling to be universal trains of the Philadel-phia. This swill and agonizing calamity is without a parallel in the annals of conflagrations, and the grave lesson it teachers should not be lost on us. From the sad and sickening details of the catastro-ple, the mind instinctively turns to our own church-es, pucht halls, amphithcatres, and temples of tra-gedy and comedy.

In most of them the coorways are too marrow, the doors are hinged so as to swing inward instead of outward, as they should, and the staircases are of insufficient capacity. Some of the latter are steep, with the doors at the bottom opening inward. In looking at the exits of some of our places of amusement, I have some-times shuddered at the bare thought of the scome of a panie-stricken audience wildly rushing and franti-cally struggling to make their escape. In justice to the architecture of the Academy of Muwic, I am bound to say that the vomitories of that house are models. Those of the Chestrut-street Theatre are somewhat similar, but far less perfect. In all the

Saturday. Court of Oyer and Terminer and Quarter Sessions—Judges Allison and Ludlov. The Commonwealth vs. Fransis Nibert and Bridget Nibert. Indictment for the murder of Patrick Meighan. The whole of yesterday's ses-sion was taken up in the hearing of evidence for the defendants. The defence which was set up, and which was attempted to be established, was that the defendants acted entirely in self-defence; that the deceased was the aggressor, and that they only used so much violence as was necessary, as they thought, to protect themselves from his assaults, which were first made upon the wile, and after wards persistently followed up upon Nibert. The evidence having closed, counsel summed up, and the case under the instructions of the court by Judge Allison, was given to the juty, who at a late hour had not agreed upon a verdict. A young man named Henry Thomas was arraigned at the Central Station yesterday afternoon on the charge of stealing nearly two thousand dollars, be-longing to a victualler named Richard S. Wilson, Jr., tesiding at the Fox Chase. Mr. Wilson last saw the money on Wedneday of last week, and dul not miss it until Sunday. He lodged information of the robbery at the residence of Detective Lamon, and this officer finally arrested a brother of the ac-cured, from whom he obtained a point or so, which led to the arrest of the defendant. He was taken into enatody on Monday evening, near Girard ave-nue and Frankford road, and upon his person was found over sixteen hundred dollars. There were one hundred and fifty dollars and a half in gold and silver also stolen. The young man, on being arrest-ed, admitted the robbery to the officer and said the coin was buried near a tree back of the Fox Chase. He went with the official, and the money was ex-humed. After this the speaker related soveral instances of the utter destitution of the refugees who arrive at Cairo, which appealed strongly to the hearts of those present. Among the instances told was one of a lady, who is now working as a house servant in Chicago. Her husband was murdered in her presence by a guerills rand, who surrounded the house, and as she field from it to the woods with her babe in her arms, one of the rufflans, siming his gun at her, shot her child dead in her embrace. At the close of his remarks he made an appeal to those present for contributions of money or clothing, to aid the suffering refugees. A collection was then taken up, and the audience dismissed with the benediction. Persons desiring to aid this benevolent purpose may send their contributions to Mr. H. N. Thissell, secretary of the American Tract Society, at No. 929 Chestinut street.

TESTIMONIAL TO THEO, CUVLER, ESQ.— The public will probably recollect that soon after the retirement of Theo, Cuyler, Erq., from Select Council, a year ago, a correspondence took place at the instance of all the members of the Chamber, which resulted in placing a very fine, life-size por-trait of Mr. Cuyler in the Chamber in which he had served so long, and over which, for three consecu-tive years, he had presided with so much dignity and ability. This correspondence, together with the resolutions of Select (found) expressive of their high regard for Mr. Cuyler as an able and impartial presiding officer, and their regret at his retirement from a position where his experience, foresight, and public spirit had been of so much advantage to the direction of the late clerks of Select Council, and placed in a frame of very beautiful design, for pre-sentation to Mr. Cuyler. The testimonial cannot fail to be appreciated as expressive of the generous confidence and warm regard in which Mr. Cuyler is so deservedly held by those who were associated with him in a long course of public service. In all the other theatres improvements are needed, and their stockholders would only be discharging a sacred duty to the patrons who nightly crowd them, by having such alterations effected as might be deemed necessary by skillul architects for complete safety. This subject strongly appeals to the heart of every lover of humanity, and I hope the hints I have here thrown out may arrest attention.

At a meeting held therein on Monday evening, it was unanimously resolved that any person who is subject to the draft shall pay to John M. This is about all the public business these officers have to do. But it seems that they close their eyes to gross intractions of the law by the passenger cars, daily, simply because they have the privilege of free riding in the cars. Mayor Henry has set a laudable example, steadily refusing the tender of free ticheta. Chief Ruggles does the same thing; and so ought all the police force, detectives as well as the ward officers. Then the laws of the city would be probably better enforced and the peo-ple be protected in their rights. Section 6 of the ordinance to regulate passenger railways, approved July 7, 1857, provides that "the running speed of the cars upon any city passenger railways, approved July 7, 1857, provides that "the arons miles an hour in the paved and built up portions of the eity, nor shall they incommode the crossing, nor slop at ift corner of any streed or discubereto solicit passengers." If half the fine should go to the informer it would have a good effect.
