CURTAIN GOODS Some Additional Facts About the Wheeler & Wilson Sewing Machine. It would be folly to attempt any higher eulogy upon the world renowned Sewing Machine of Wheeler & Wilson, (sold in this city at their Regant warerooms, No. 704 Chestnut street,) than the state-

ment of the fact that wherever the Wheeler & Wil-son Sewing Machine has been exhibited for compe-tition, either on this or the other side of the Atlantiq, it has, without a single exception, taken the highest premium. So true is this, that wherever this compliment has been extended to any other machine, it may be taken as proof positive that the Wheeler & Wilson instrument was not exhibited at all; this, in itself, is such a telling fact that to multi ply words about it to people of intelligence would be useless. Nevertheless, there are a number of inci-dental facts connected with this favorite machine that the people ought to know, a few of which we take the liberty of introducing here, in the following 1st. The yearly sales of the Wheeler & Wilson

Sewing Machines (sold in this city at No. 704 Chest-nut atreet) are larger than those of all the other 2d. The immense manufactory of the Wheeler & Wilson Sewing Machine Company, at Bridgeport, Connecticut, is one of the wonders of the world. It couples upwards of four acres of ground, employs occupies upwards of four acres of ground, employs more than a thousand of the best workmen in the United States, and, with the most improved machinery, the Company find it impossible to supply the great demand for their machines in this country 3d. The Wheeler & Wilson Machine is an instrument of infinite versatility in its operation. It will braid, cord, bind, tuck, gather, fell, and hem more beautifully than any other machine in use; and by ttaching a small arrangement called a "trimmer," any kind of trimming may be sewed on dresse vithout previous basting 4th. Bindings may be put on the edges of any kind of garment, hat, or cap, without any other adjusting than that performed by the machine itself while in

the act of sewing them on. 5th. The Lock-stitch made by the Wheeler & Wil. son Sewing Machine is more durable and more beau. tiful than made by any other, and has these advantages, that it presents the same appearance on both sides of the fabric, and will not ravel. It is, also, more economical, requiring one-third less cotton than any other kind of stitch, Again, this beautiful stitch being the same on both sides, it is not necessary to use the extremely fine sewing cotton required by those machines which make a stitch with a ridge on the underside that can only be concealed by a thread too delicate and fine to bear ordinary wear. 6th. The bobbin which holds the under thread in

the Wheeler & Wilson Machine is so constructed that when empty no care and very little time is required to fill it. The bobbins on the shuttle ma-chine, on the contrary, require considerable care in order to wind the cotton on them evenly, and if the winding is done by an inexperienced hand, the result is the thread will not unwind freely, and will 7th. The simplicity of the Wheeler & Wilson Machine renders its movements so easy that a child can work it, the weight of the feet alone being sufficient to move it. It will work with all kinds of sewing silk, cotton, or linen thread, and will sew all kinds of materials, from the thinnest gauze to the heaviest cloth or leather. It is used by thousands of Tailors, Dressmakers, Hatters, Capp Hoop Skirt Manufacturers, Shirtmakers, and Seam 8th. For rapidity of motion, the Wheeler & Wilson Machine exceeds all others, as has been demontrated a thousand times by comparison

versation may be carried on in the ordinary pitch of voice in a work-room where a score of machines are 10th. Another very great advantage that the Wheeler & Wilson Machine possesses over others, is found in the fact that the work on it is carried on in the natural way, from left to right, which enables the operator to adjust the work more readily, and without any change from the upright posture, while machines which carry the work from the operator require an inclination of the body (detrin health), in order to adjust the material as it passes from under the needle 11th. As an ornamental piece of workmanship, the

9th. It is so noiseless in its operations that con-

Wheeler & Wilson instrument is worthy a place in the most elegantly furnished parlor; a fact which enders it peculiarly desirable and appropriate as a gut. Some of the cases are of rosewood, walnut, or mahogany, furnished with sets of drawers for the reception of cotton, sewing silks, &c., and when the doors are closed there are few articles of furniture more exquisitely beautiful. For these and sundry other reasons, no household in the land is complete without a Wheeler & Wilson nade to suit all tastes and circumstances; and the

We advise our readers to observe these facts, and preserve them conveniently for future reference, and suggest that when they want the best Sewing Maine in the world, they go to the office of Wheeler & Wilson's New Agency, in this city, 704 Chestnut SOME OF THE GRAND RESULTS OF THE WHEELER & WILSON SEWING MACHINE

it as one of the benefactions of the age, and one which will constitute an era in the history of woman. Its song should be:

'Click! slick! slick!

While the cock crows loud and free,
And slick! slick!

And click! click!
Is a merry sound to me.
With bodies trim and neat
I seam, and gusset, and band,
With my dainty slippered feet,
And a small, white fingered hand.
Sitch to the click of the steel,
And never an aching head,
While I turn the glittering wheel,
With the gleaming sliver thread.
Oh, woman! no more a slave
To seam, and gusset, and band,
Shall beautiful grow and brave,
In the light of our happy land.
o fully has the Wheeler & Wilson S

So fully has the Wheeler & Wilson Sewing Machine commended itself to public favor, that it is now looked upon as indispensable to every branch of industry requiring sewing. Not only are the wants THE CONFEDERATE EAMS IN ENGLAND.

Some months ago we stated, on the authority of an officer attached to the United States steamship Tuscarors, now in European waters, that Mr. Laird was solicited to sell his rams to the British Government. The story has been repeated since, with the assertion that the proposition was refused. A navel officer, however, has received a letter from a European correspondent stating that the English Government and Mr. Laird differ only about the price of the vessels, and that, if the Government give the figure stated by him, they can have the craft, not withstanding the statements to the contrary recently published by the British newspapers.

NEWSPAPER CHANGE. of housekeepers fully met, but the machine is found a necessity for the seamstress, dressmaker, tailor, manufacturer of shirts, collars, cloaks, mantillas, manuacturer or surres, coracts, cloaks, manuals, clothing, hats, caps, corsets, ladies boots, silk and linen goods, umbrellas, parasols, etc. Some of these branches of business have attained gigantic proportions, and it is not unusual to find 100 to 400 sewing machines used in a single manufactory. This is not surprising, when the efficiency of the machine THE PECUNIARY ADVANTAGES OF THE WHEELER

hours. Indeed, in thousands of cases has the pre-sentation of a sewing machine rendered an object of charity self-supporting, and converted her into a eminent opinions of the wheeler & wilson SEWING MACHINES. SEWING MACHINES.
We could add the names of thousands who are now using the Wheeler & Wilson Sewing Machines in this vicinity, but we will conclude by inviting all to some and examine these wonderful machines and see them work. Wheeler and Wilson's highest premium Sewing Machines are the best, the simplest and the cheapest. Nearly one hundred and fifty thousand of these welltried Sewing Machines have been sold. Five thousand are in use in Philadelphia. Don't be deceived. The Wheeler & Wilson Sewing Machine is acknowledged by all competent judges to be the best. Call and examine. No charge for instruction, whether you wish to purchase or not. Instructions given at the houses of purchasers when desired. ladies' and children's ready-made clothing. Family

Send for Ladies' Pocket Almanac and Hand Book of useful information. No charge. PENNSYLVANIA RAILBOADS.—The annual report of the railroad department of the State was presented to the Legislature on Thursday. It is a document of more than ordinary interest the present year, since it shows that the receipts have been nearly double the expenses, and that thus in still another department of business we have prosperity. The expenses of the roads during the year have been \$20,602,504 56. In the same time the receipts have been \$40,522,571.45, which leaves a profit of \$19,920,766.89, or a sum very nearly equal to the whole annual expense. During the same period our passenger railroads have earned \$1,513,218.10, and expended \$1,257,044.62, which leaves them a profit of \$646,173,58. 173,58.

— Brigham Young is in no hurry to have the mines in Utah worked. He says: "When it is necessary that we should possess gold in great abundance the Lord will show it to us in vision, and we shall not have to prospect and dig to find it as the wicked have to do,"

Seventh.

Cut this out and preserve it.

SATURDAY, FEBRUARY 6, 1864.

New Publications. A new series of Brownson's Quarterly Review has just been commenced. We have received the January number from T. B. Pugh, Sixth and Chestnut streets, agent for the publication here. This Review, al ways written with ability, used to be a decided olic organ. It promises hereafter to be "devoted to philosophy, politics, literature, and the general interests of civilization." In the number before us are six articles, supplemented by a few pages of literary notices and criticisms. Five of those articles are political, viz: the introduction to the new (or national) series of the Review; an essay on the Federal Constitution; a paper on popular corruption and venality, the text of which is Mr. Dougherty's carnest, truthful, and eloquent address (July, 1863) before Union College, Schenectady, and Marshall College, Lancaster; an examination of the President's message and amnesty proclamation; and a review of General Halleck's report of the war in 1863. The sixth article is a criticism on Ruffint's Italian novel called "Vincenzo; or, The Sunken Rocks," and out of twenty pages occupied by this article, less than one-third is devoted to reviewing the story assessment.

voted to reviewing the story, as a story, the remaining sixteen pages being a defence of the Church of Rome in its relations with the King of Italy, and a severe censure of Victor Emmanuel for having assumed the sceptre of Italy without having first obtained the consent of the Princes as well as of the Peoples of the Kingdom of the Two Sicilies and the Three Duchies. Sixteen pages devoted to literature, and one hundred and twelve to politics, in a quarterly review, reminds us of the tavern bill that Prince Hal and Poins found in Faistaff's pocket, among the items of which were one halfpenny worth among the atems of which were one nanpenny worth of bread to two gallons of sack. Such a dose of politics as this would swamp any periodical. If Dr. Brownson would see his Review prosperous, he must make it readable by introducing a variety of subjects. A single sound and searching article on a political topic ought suffice to maintain the "Nacharacter of any literary periodical, quar-The last number of the Medical and Surgical Re-

porter, published in Philadelphia, contains, among other papers of interest, the first of a series of passing the question, Who discovered the practical application of anæsthetics in surgery? and giving the credit of it to the late Horace Wells, and not to Wm. T. G. Morton, who claims it. We must say that, while the writer shows that Morion himself permitted a chemist named Jackson to share the credit, for a time, of the discovery, all he asserts on the other side, is that in December, 1844, Horace Wells had a tooth painlessly extracted while under the influence of the laughing gas, and that in September, 1846, Wm. T. G. Morton drew a tooth, without pain, having placed the patient under the influence of inhaled sulphuric ether, the substitution of sulphuric ether for the laughing gas having been suggested by Charles J. Jackson, a chemist, also of Boston. The tone of this communication, as regards Morton and Jackson, is reprehensible, on account of its personality. The second number of The Lady's Friend, a new

periodical published by Peterson & Deacon, gives a double fashion-plate, a pretty fancy frontispiece, several wood-cuts, a piece of music, and a fair quantity of letter-press. We should like to see some character infused into the latter. The February number of the Dental Cosmos, published in this city, contains several articles of interest to the medical profession at large, besides the usual quantity of information for the particular class usual quantity of intermination for the paracular stands to which it addresses itself. We would notice among the former, Professor A. M. Mayer's "Observations on the Amenthetic Called Muhrite of Oxygen." which show that Sir Humphrey Davy discovered, nearly sixty five years ago, that protoxide of nitroton's paper on the "Physiological Relations of Phosphorus" read before the Odontographic So-ciety, of Philadelphia, is worthy of the reputation

The American Literary Gazette and Publisher's Circular, of February 15th, ought to have been acknowledged before this. However, it is never too late to notice a thoroughly good and reliable publication which conveys the latest and fullest information about American and Foreign Literature. Mr. Childs has shown judgment and spirit in the improvements he has effected in this periodical. A trio of new novels is announced by T. B. Peterson as almost ready for publication. These are "The Bridal Eve," by Mrs. Southworth; "The Wife's Secret," by Mrs. Stephens; and "The Wo man in White," also by a female writer, whom Mr.
Peterson will have the honor (and, no doubt, the profit, largely,) of introducing to American readers

News from the Capital.

BORGANIZATION OF THE ARMY OF THE POTOMAC

It is rumored in military circles here that, when the Army of the Potomac is reorganized, it will be formed into three grand divisions, with a separate cavalry corps. The names of General Hancock, Sedgwick, and Augur are mentioned in connection with the new order of things.

SEVERE SENTENCE OF A CONTRACTOR.

SEVERE SERVENCE OF A CONTRACTOR,
A gentleman connected with the Navy Department stated to-day that a Government contractor has been tried recently at the instance of Secretary Welles, and sentenced to a year's imprisonment and a fine of \$5,000. It is said that this gentleman is engaged in business of considerable importance, which requires his personal attention Saily, and that the execution of the verdict will destroy his means of living as well as character. This should be a warning to swindlers.

THE CONFEDERATE BAMS IN ENGLAND.

NEWSPAPER CHANGE.

Mr. Clephane, who has been a slient paper in the National Republican, of this city, has been bought out by the two active partners, wm. J. Murtagh and S. P. Hansoom. The editorial management remains in the hands of Mr. Hansoom.

A Note from Major General McDowell.

SIR: My attention was called, this afternoon, to a republication, in the New York Evening Post, of the 2d instant, of an article from a Pennsylvania paper, giving what purports to be testimony from the case of the Carbon county "Buckshot" prisoners.

To the Editor of the N. Y. Tribune:

The article states that :

was saved. Seventeen hundred workmen are employed in the works, about 900 of whom will be thrown out of employment. The loss will reach at least \$500,000; indeed, the machinery alone was valued at that sum. There is an insurance of \$750,000 in New These three novels will appear in 12mo, neatly York and New England offices. bound and gilt. A Thank Offering. A Steamer Burned at Louisville. To the Editor of The Press: To the Editor of The Press:

SIB: In the recent issue of a Secession journal,
my allegory entitled "Gilead; or, the Vision of
All Souls Hospital," is cursed without stint. The
especial wrath of the editor is because of the mention

Louisville, Feb. 5.—At two o'clock this morning the steamer D. G. Taylor took fire, in the oilon, and was burned. She was owned in St. Louis, and valued at \$32,000, on which there is an insurance of \$16,000. of the "everlasting negro" in the book. It seems The fire is supposed to have been the work of an inhe has found a place in "World Town," known as "Union Square," and that in South Union Square he discovers a something called "Man-Mart." At sight of this the servant of Mr. Davis goes into a violent rage, exclaiming "Yankee!" "Yankee!" "Abolitionist!" "A preacher of the Gospei of Hate!" &c. The flames communicated to the towboat R. E. Lee. She was valued at \$2,000, on which there was The steamer Taylor had seven hundred tons of "Abolitionist!" "A preacher of the Grosper of Hate!" &c.
I suspect, Mr. Editor, that your good neighbor is secretly angry with another page of Gilead, in which the "traitor family" in Union Square is described; and that portion of the family dwelling in North Union Square is declared to be infinitely worse than the misguided brothers in the Southern Square. ommissary stores for Nashville, and the loss to the lovernment, by the fire, amounted to \$20,0 Captain Rhodes, Engineer Jones, of Pittsburg, and another person, whose name is unknown jumped off the boat, and were probably drowned. A negro boy belonging to the steamer is missing, Both of the boats are a total loss. quare.
You will permit me, through the medium of the liberty-speaking Press, to express my thanks to the Age for this notice. Its curse is a kindness; its praise would have been cruelty.

J. HYATT SMITH. The Nova Scotian Gold Fields.

HALIFAX, Feb. 5.—Among the Arabia's passengers are Captain M. D. Field and Messrs. Carlos, Pierce, and John E. M. Gilley, of Boston, who have made various explorations in the gold districts of this province. They take with them over \$25,000 in gold, the product of mines in this vicinity for the past fortnight. The excitement here in consequence of the recent discoveries of gold is increasing, and ENLISTMENTS IN THE REGULAR ARMY TO BE CRE-DITED TO STATE QUOTAS. The Secretary of, War has issued a circular letter to the Governors of loyal States, informing them that all men enlisted into the regular army since September 3, 1862, will be credited upon the quots of the State in which they were enlisted. A list of all men enlisted in the regular army by recruiting officers under their commands from September 2, 1862, to January 1, 1864, giving the names of the men, and, wherever they can do so, the district in which they were enlisted, has been forwarded to the several State capitals. Hereafter tri-monthly reports of men thus enlisted will be forwarded to the State authorities, such reports to commence from January 1, 1864. bids fair to rival the Colorado and California gold

BALTIMORE, Feb. 5.—A Russian sailor was nurdered at Annapolis last night, by a man named League, who has been arrested. The circumsta attending the murder are not known, but the affair will be investigated to-night. A Steamer in Distress.

New York, Feb. 5.—The steamer Whirlwind, from Boston for Fortress Monroe, with troops, has put into this port with her machinery deranged. The Canada Outward Bound. HALIPAX, Feb. 5.—The Canada arrived from Boston at 8 o'clock this morning, and sailed for Liver-Affairs on Johnson's Island.

Affairs on Johnson's Island.

There are some 2,600 rebel prisoners, all commissioned rebel officers, now confined on Johnson's Island. Gen. Terry, with his usual foresight, has had a sufficient quantity of provisions stored on Johnson's Island to last the garrison and prisoners two months. A complete system of espionage is maintained between Point au Peleé and the various islands in Sandusky Bay, some of which are inhabited by Englishmen who are bitter rebel sympathizers, but principally by Canadians, engaged extensively in the grape culture. Gen. Tetry has likewise ordered a stronger guard, and the utmost vigilance is shown by Col. Bassett, the present efficient commander of the island. The artiflery is in position, and woe be unto the raiders from without, or the captive conspirators within, should either venture to interfere with the military regulations of this important post. The arms and ammunition of the garrison are daily inspected, and are in excellent condition while the traverses. important post. The arms and ammunition of the garrison are daily inspected, and are in excellent condition, while the troops were never physically or mentally in finer spirits, nor better prepared to have what they call "a little fun" with invaders just from Cahada. The present military force, with the extra precautions taken to guard against disturbances of any kind, place Johnson's Island out of all danger.

REBEL OFFICERS ANXIOUS TO TAKE THE CATH. A large number of the prisoners are anxiously awaiting an opportunity to take the oath of allegiance to the United States Government. By officer is a stimated that giance to the United States Government. By offi-cers familiar with the prisoners, it is estimated that upward of 500 will avail themselves of the privileges of the oath. A periest reign of terror is maintained by the incorrigible and bitter traitors within the prisons, who threaten the life of any of the repentant rebels whom they may suspect of being desirous to take the oath to our Government. A few cases will suffice to illustrate how intense is this treasonable and fiendish feeling among these relentless and des-perate traitors. and fiendish feeling among these relentless and desperate traitors.

Not long ago a captain wrote a letter to one of his rebel intends in Alabama, commenting upon Gen. Glimofe's ability to destroy the city of Charleston with Greek fire. He said he rejoiced to hear the news, and he prayed God Amighty would aid the Yankees to rain brimatone and Greek fire on the sink of iniquity. One of the clerks detailed to examine the letters sent from the prisoners to their relatives South, copied this letter and sent it to a small local paper.

THREE CENTS.

the corporals visiting the prison yard a slip of paper solioting the privilege of taking the oath. Unfortunately the corporal dropped the note, and it was soon picked up by one of the rebels. In a few seconds one of the visiting officers in charge of a detail of our men observed commotion near one of the barracks, and starting for the spot found the crowd kicking and abusing the luckless prisoner, who had signified his desire to become a loyal citizen. To resone the man whom they swore would be hung as soon as the rope arrived, he called the guard, and after a vigorous use of the buttends of their muskets the guard succeeded in getting the man outside the walls. He is now acting as a nurse in one of the Union hospitals on the island, and is reported loyal and jaithful to his duties. Several cases similar to the above have occurred, all showing the hatred of the rebel leaders toward those of their deluded countrymen who favor reconciliation, or who repent of their foolish course.—Cor. Tribune, Jan. 30. A Tornrdo and Rising of the River—The Provisional Government.

FORT SMITH, Feb. 3.—A terrific storm swept over the entire Southwest last Sunday. About 11 o'clock in the morning it rose to a tornado, which raged with tremendous violence some twenty minutes, and extended over a portion of the f dian Territory, and down the Arkansas Valley. It aense damage was done. The telegraph wires were prostrated for miles. The line to Little Rock was almost totally de-

he bars, and rising. The rise has amounted to British Pacification of Japan. Brilish Pacification of Japan.

FAILURE OF THE ANGLO-CHINESE NAVAL EXPEDITION.

(From the Washington Intelligencer, February 4.1

Dr. Magowan communicated to a literary circle last evening some recent intelligence from Japan and China, The Prince of Satsuma has been brought to submission by the recent bombardment of Kagosima, his capital. He admits the offences charged against him by the British Minister, and consents to make all the reparation demanded by the English. A satisfactory arrangement was made between Col. Neale and the Prince's envoys on the 15th of November. Gèneral Thayer, accompanied by his staff and his wife, was out in all the Sunday storm. They suffered terribly while the tornado raged, being unable to obtain shelter. The Union Convention, at Little Rock, has nominated Judge Isaac Murphy for Provisional Go-vernor, and have organized a Provisional State Government. Its proceedings are to be submitted to a vote of the people in May next. County officers will be elected in many parts of the State in March.

Major T. J. Anderson, chief of staff, has been relieved from duty at his own request. He will join
Gent at Blunt, at Leavenworth, in a few days. Neale and the Prince's envoys on the 15th of November.

To such a degree has Satsums yielded to the new order of things that he has made proposals for sending to England some of the young men of the nohility of his territory for travel and education. No more will be heard of the threat of the Gorogia, made lately to Mr. Pruyn and the Dutch minister, for the claims of the port of Yokohama, and the transfer of all foreign commerce to Nagasaki.

Prince Kung, Chinese Minister of Foreign Affairs, having repudiated the arrangement made with Captain Osborne, the formidable fictilla which had reached the Chinese waters has been dispersed, and a portion returns to England and another to Bombay to be incorporated with the royal navy. The Manchu Government feels strong enough to suppress the Paping rebellion, without hazarding the employment of such dangerous auxiliaries. The Rebels Driven by Col Mulligan-His Cavalry in Pursuit.

the Chesapeake case was continued on Saturday.

Dr. Luke P. Blackburn being sworn, said: I am a resident of the Confederate States; I was appointed Mcdleal Director of the State of Mississippi in January, 1863; am intimately acquainted with Jefferson Davis; know his handwriting; have corresponded with him.

Mr. Gray here placed in the witness' hands Capt. Parker's authority, and asked him to identify the aignature and seal.

Witness. The signature is that of Jefferson Davis, and the seal is that of the Confederacy.

Eren Locke sworn.—Am a Nova Scotian; have a brother called Vernon G. Locke, who goes by the name of Capt. Parker; saw my brother at Nassau, commanding a Confederate vessel called the Retribution; he was received and recognized as captain; he showed me his commission; the paper placed in my hands is the one he showed me at that time; don't know why my brother changed his name; don't know that he sailed out of New York; never saw the Chesapeake.

Cantain T. H. Davis. Alonzo G. Coleman, and

Money continues to be very plenty and rates are softening. Borrowers are not so much troubled as to the real value of a security. Gold was quiet at 187% @109; no change. Government securities are firm.

After the board there was a considerable uniness done, and prices are 10% per cent the close there was a drooping tendency. Philada, Stock Exchange Sales, Feb. 5.

SINCE FIRST BOARD. South, copied this letter and sent it to a small local paper.

The extracts were extensively copied in the various State papers, and finally found their way into lation among the prisoners. The seditious paragraph was read amid the greatest excitement to the exaperated rebels, and in a few moments the news pread throughout the prison among the 2,500 prisoners, and such howls of indignation, and threats of eternal vengeance, coupled with the vitest profanity, never before assailed the human ear. An investigating committee, consisting of three prominent contents, was appointed to wait upon the suspected Claptain, to learn if he was the author of the objectionable article. The rope dangled in the world.

investisating committee, consisting of three prominent cflicers, was appointed to wait upon the suspected Captain, to learn if he was the author of the objectionable article. The rope dangled in the would be murderers' hands, who stood ready to launch the vicitim of their hatred into eternity. The doomed man was approached, and soon read his terrible fate in the looks of the chivalrous assassins. He was asked if he wrote the letter.

Reading the paper slowly, he told the infuriated rebels that he would give them an answer in fifteen minutes. The deputation were loth to depart, and were urged by the crowd of prisoners to hang the did of the expiration of the allotted time. Ten minutes of dreadful suspense had flown, and, wherever he turned his eyes, he saw the prisoners impatiently watching the hands on their watch-disls for the appointed time which they felt sure was to witness the execution.

One of our corporals came from a distance, leisurely advancing towards him. But five minutes the captor the expiration of the prison yard, rejoicing at a narrow escape from a horrible death.

DRESS GOODS.
BLACK AND COLORED LINENS.

ALPACAS.

LIBEN HORS.

BALMORAL SKIRTS, &c.

fed-lm*

From what has been already said, it will be seen that the Wheeler & Wilson Sewing Machine, sold in riment to be tried, but a success achieved, with here fits far exceeding the most sanguine expectation. The steam engine and the magnetic telegraph have not proved more beneficent in the commercial world than has this in the domestic. From feeble beginnings, in 1852, and embarrassed by prejudices from the imperfections of machines then before the publle, it has entirely revolutionized needlework, and won for the Sewing Machine a recognition as being work for the sewing manning a recognition as being second to no mechanical agent.

With the invention of this machine a new era dawned upon woman, which will not fail to be marked upon the health, virtue, and happiness of future generations. Poets, orators, divines, philosophers, and economists have descanted upon its bearings on aocial interests and the destiny of wo-man. Major General Nathaniel P. Banks, in his address at the Crystal Palace, declared that "The Sewing Machine will work as great a change in

families as railways have in communities and States." The ladies themselves have been most earnest in its praise. Not only in private, but in public, through the press, ladies of the highest social standing, and authoresses of the first distinction, have exerted their influence in its behalf. Mrs. E. Oakes Smith has, for more than four years, earneatly employed her pen in advocating its gene-ral introduction into families. She says: Of the Wheeler & Wilson Machine we can speak with entire clearness and confidence, after the use of one four years or more in our family. We look upon

& WILSON SEWING MACHINES.

Nor are the pecuniary advantages less. Instead of the half dollar paid for a day, lengthened far into the night, she receives from three to five times that amount for a day's employment of reasonable thrifty and willing almoner. Mothers support families and young women become capitalists. It is not unusual to find the owner of a sewing ma-

sewing done to order. Operators, with or without machines, furnished at short notice.

The article states that:

"The prisoner belonged to the sworn secret organization known as the 'Golden Circle.' They held their meetings at the thouse of Conrad Horn, above Hazleton. Ed. Winters was the president, and administered the cath. The members of the Circle were instructed and sworn to support 'the Constitution as it is, and the Union as it was,' to ald each other in evading the draft, and to discourage all efforts to raise men for the army. According to the instructions of the president (Winters), the leading members of the organization are General Lee. of the rebel army, and Generals McClellan and Me lowell, of the United States army. In case a member is forced into the army by draft, he is lustructed when on picket, to go over to the casemy in the following manner." on picket, to go over to the enemy in the total war per: "&c.

As this statement purports to have been given under oath, and is circulated in a paper of such high standing as the New York Evening Post, it seems to call for notice, which I otherwise would hesitate to give.

I desire, therefore, to state that I do not now belong, nor have I ever belonged, to the Order of the Golden Circle, nor do I know of any such organization, or of any one belonging to it, or to anything of the kind; that I do not belong, nor have I ever belonged, to any secret society for any political, social, or other nurnous whatever, nor have I ever had belonged, to any secret society for any political, social, or other purpose whatever, nor have I ever had
anything to do with anything of the kind.

I had hoped the stupid stories concerning my loyalty and intemperance, having served the purpose
for which they were set on foot, and done me the
desired harm, I should be spared further troubling
the public with anything concerning merely my personal character or habits, and were I in private life
I should not now do so; but in justice to the service
in which I am now, and hope to be further engaged,
I cannot avoid asking this may be made public, in
the hope to counteract a portion of the mischief the
circulation of this falsehood will undoubtedly make.

Very respectfully, your obedient servant,
IRVIN MCDOWELLI,
Major General.

The Ninth Abny Corps.—The 5th Army Corps, Major General Burnside commanding, contains the 45th, 48th, 56th, 5ist, and 100th Regiments Pennsylvania Volunteers, with Durell's battery. It is the earnest object of the Major General that these regiments be at once recruited to their maximum strength, and to accomplish this purpose, and secure the speedy success of thus filling up these regiments, Captain John A. Morris, A. Q. M., has been appointed chief of the recruiting service of the 9th Corps, for Pennsylvania, with headquarters at Harrisburg.—Harrisburg Telegraph,
