Nearly five years age; Prof. C. H. BOLLES located bimself in the city of Philadelphia, at 1220 WALNUT Street, and announced his great discovery in the therapeutic application of Magnetism, Galvanism, and other modifications of Electricity for the cure of the most obstinate, acute, and chronic diseases.

In announcing to the public a discovery so intimately connected with the well-being of our rase, it may be deemed proper to make a few prefatory remarks to prepare the mind of the reader for the reception of evidences and facts too incredible for belief.

This discovery is the result of more than ten years' hard and telentific investigation. It develops not only a reliable system for the diagnosis of disease, but the only efficient and reliable means of cure. Its great superiority over all other systems for the cure of disease has been practically tested for more than ten years, and for nearly five years in Philadelphia, where twelve thousand invalids have been treated, suffering from almost every form and condition of disease empart of the second to be seen to the second to the second to the second is true, it is at the same time marvellous. Many of the most obstinate of the above cases treated, have been warranted by special contract, and notice failure has been made in any warranted case. As Indubitable evidence of the foregoing statement, Professor BOLLES has adduced in the following advertisement, testimonials from citizens of Philadelphia, who had suffered from a complication of diseases, for four, ten, and even thirty year, and had availed themselves of the hast medical skill in this and other cities, and were given up as incurable, but afterwards were fully restored to health by a few applications of Blectricity. Thousands of the most reliable it dividuals in this city
who have been treated by Profesor B. 1220 Walnut
street, can and will wouch for the above statement of
facts in their own astonishing cures. He verily believes
that he has cureu more obstinate diseases during the five
years, or nearly, of his practice in the city of Pulladelphin, than all the medical men that have ever practiced
in this city, either allogathically, homosopathically, or
by say other pathy. This assertion may look like boastling, but it is true, every word of it; for who ever heard
of such autonishing cu-se? As if by magic obstinate diseases, which have for many years resisted all other
treatment, are often cured in twenty minutes, and often
in less time; and in all cases a warrantee is given when
the patient desired it. Who shall properly estimate the
incalculable blessing thus so speedily conformed on suffering humanity, when, inslead of being drugged for
months, and thrown on beus of languishing, health is
restored by Professor BOLL68; treatment in many cases
almost instantaneously? In conclusion, we would say,
for the encouragement of the dyseptic, neuralistic, consumptive, rheomatic, paralytic, ept-eptic, and, in fine
all those on whom medical treatment ever did and ever
will prove a total failure, that there is still hope in your

Ausolucal. That as we have been eye witnesses for many weeks in the Institution of Froi Bolles, and have good reason to believe that he has discovered new principles in the upplication of the different modifications of the human system; and that, in the treatment of different diseases, we have been convinced that, in his hand, as also his students, the application of Electricity is a reliable therapeutic; and that he has taught us a new. rational, and scientific Philosophy, and we believe the only reliable theory of disease and mode of ourse.
