RELIGIOUS INTELLIGENCE. DEATH OF THE REV. ROBERT TAYLOR .- A few weeks ago we noticed in this column the fact that the Rev. Robert Taylor had been called to the pastorate of the North Presbyterian Church. He was then suffering from an attack of intermittent fever-This morning we regret to announce that he expired at his residence yesterday. He was favored with the best possible medical attendance, and until

within the last day or two his physicians had strong hope of his recovery.
In the death of Mr. Taylor the church to which he was called inour, we had almost said, an irre-parable loss, as there are few clergymen of his years who have won for themselves a more enviable name in everything that pertains to an efficient parname in everything that pertains to an efficient patter, a polished preacher, and a learned divine. We are authorized to state, in this connection, that the pulpit of the North Presbyterian Church, Sixth pareet, above Green, will be occupied to-morrow arreet, above Green, will be occupied to-morrow morning by the Rev. Stuart Mitchell, and in the afternoon by the Rev. Nathabiel Conkling, of the Arch-street Presbyterian Church.

The Powells Of Heaven to be Shaken.—Prof. Newmager, on a three years' scientific visit from Re-Newmager, on a three years' scientific visit from Ba-varia, tells us that in 1865 a comet will come so close as to endanger the earth, and, should it not attach liself to our planet (as one globule of quickellver to itself to our planet (the sight will be most smother) nor annihilate us, the sight will be most beautiful to behold. During three nights we shall darkness, but be bathed in the brillian light of the blazing train! As the Professor is now on his way from Australia to Bavaria, we shall no doubt hear more from him on the subject on his arriving in Europe.

se who, with no slight Scriptural warrant, look for the premilicanial advent of Christ, and who see around them the "signs of the last times," can without any great stretch of the imagination read in Professor Newmager's calculation a partial fulfiment of the predictions concerning the signs and nders and shaking of the heavens at "the coming of the Son of Man," contained in Luke xxi. APPOINTMENT OF A CHAPLAIN FOR NEW OR-LEANS.-Rev. John C. Gregg, of the Philadelphia M. E. Conference, and late chaplain of the 127th M. E. Collerence, and said unaplain of the 127th Regiment Pennsylvania Volunteers, has been ap-pointed by President Lincoln hospital chaplain at New Orleans. Mr. Gregg served his regiment with marked faithfulness and acceptance, and the selection of him for the post to which he has now been assigned is an unexceptionable one in all respects.
THE SANITARY FAIR—We have been informed, pays the Universe, that the Catholics of the State are acting in regard to the Fair with a most generous spirit. The example of the Bishop, in contributing one hundred dollars, and the skilful agency of the Committee on "Labor, Incomes, and Revenues," have had much to do in this. The cause of the Union is the cause of us all; our soldiers are not enaries; we all owe them semething besides cold admiration; bence we all should do something for this Fair. There is not one of us who has not friends in the army who have not been generously relieved by the Sanitary Commission. Let this fact borne in mind, and let the proper action follow. The gentiemen of the Committee on "Labor, In comes, and Revenues" are L. Montgomery Bond, chairman; Mrs. (Rev.) E. W. Hutter, J. W. Clag-

horn, treasurer; and M. J. Mitcheson, secretary. It was to this committee Bishop Wood gave his li-Sunday the Rev. T. De Witt Talmage preached his second anniversary sermon from the text, 1 Cor. ii. 3: "And I was with you in weakness, and in fear, and in much trembling."

From this discourse, we gather the following statistics: During the year, one hundred and twenty-one persons had united themselves with the church; one persons has united accessed with the called a six thousand eight hundred and eighty-nine dollars have been raised for religious purposes.

There are nine hundred and thirty scholars and teachers in the sabbath-school service. The pastor had, during the year, delivered one hundred and cighty-aix sermons, religious lectures, and addresses, During the two years of this pastorate the income of the church, from pew rents, had increased twentyseven hundred dollars beyond what it was, and the membership had enlarged by the addition of one hundred and fifty three persons. It was a somewhat interesting sight to look at the people as they came into the Mint, some of them for the first time in their lives.

"Do you pay gold here to-day?" said an old lady, upon applying at the door.

"Yes, madam; walk in," replied Dr. Harned, who happened to be there.

"My son, who's in the army, bought a bond, or five-twenty, and I guess I cut the right coupon off." Scenes such as these were of common occurrence. The gentlemen at the Mint were certainly very kind in receiving the bondholders, and instructing them how to proceed. We understand that one broker alone drew out half a million of dollars in interest, and carried it away. Other tolerably heavy bondholders reinvested their interest in Government stock. The holders of light amounts either took the "yellow-boys" home or sold them as the current premium. We heard several of them say they wished they could invest their little golden gains so as to benefit the Government.

aingular Charge of conspiracy. Defendants, the first named of whom is a licutenant in the 9sth kegiment Pennsylvania Volunteers, and the latter an enlisted soldier of the same regiment, were charged with having conspired together to procure the enlistment of such soldier (the defendant, Willlard), in the army of the United States, the object of such conspiracy being to deprive the father, Francis Willard, of the services of the son, he being a minor of less than eighteen years old. The youth, though a large, lusty fellow, was shown to be not yet sixteen.

There is a provision in the act of Congress regulating such matters that no officer shall enlist a minor less than eighteen without the written consent of parent or guardian, and there is also an act of Assembly of this Commonwealth which forbids, without qualification of any kind, the enlistment of a minor under eighteen years old. It was in evidence that the boy swore at the time of his collistment that he was eighteen, and was of course accepted, there being nothing in his appearance to indicate that his statement was false; and the officer, under the chroumstances, not deeming it necessary to require the written consent of his father.

As regards the conspiracy, the boy stated there to require the written consent of his father.

As regards the conspiracy, the boy stated there was no conspiring that he was conscious of. He said he had not, in fact, been influenced or persuaded by Lieut. Soistman to enlist, but by an entirely different pressure. by Lieux. Solutions to centre, but sy an entirely different person.

Judge Thompson said it required that two persons should combine together unlawfully to sustain a charge of conspiracy. If the jury believed such was the case here they should convict, if not they should acquit. The jury rendered a verdict of not guilty. District Attoiney Mann for the Commonwealth; District Attoiney Mann for the Commonwealth; District Tiernan was charged with having committed an examile and better on Bridget Roseb.

Patrick Tiernan was charged with having committed an areault and battery on Bridget Roach, with intent to kill. The case was remarkable, chiefly on account of the directly conflicting character of the testimony, it being evident that the witnesses on one side or the other were guilty of wilful pejury. The prosecutor testified that on a certain evening she was assaulted by Tiernan in his own house, knocked down, and then stamped upon by him until one of her legs was broken. None of the witnesses for her saw the act, but two of the number testified to the fracture of the limb, and to having assisted to remove her into her own house. All of them, however, some half dozen, awore positively that Mrs. R. was not drunk at the time, and was not a drinking woman.

Enticing Soldiers to Desert.

Henry Adair, the one-armed man, who was arrested on the charge of enlisting men and then enticing them to desert, was committed, yesterday, to appear to day before United States Commissioner A. H. Smith. The recruit who had deserted was present. He stated to the alderman that he had deserted at the instigation of the defendant. This belongs to a class of cases that are very seldom tricd. In the first instance the deserter s'ands self-sonfessed. He is therefore liable to be dealt with under military law. He may be sent to the front, and either shot by order of a court martial or in battle. The cay of trial will come; the main witness may not be there, because of the above contingencies; hence the defendant will go free. This is just exactly the state of the case. It is on a par with robbing a countryman, whe goes home, and, of course, does not appear in court at the time of trial. Hence an acquittal. The business of bounty-jumping and enticing men to desert has arrived to that extent that it may well be considered a most glgantic fraud. This man Adair, according to testimony, is "dead to rights." The only way that justice may be mated out to him would be to give him a speedy trial, while the attendance of the winness is oracticable. The law's delay in such cases is entirely vexatious.

Larceny of Five Dollars.

A colored woman answering to the high sounding title of Lucy De Bracker, was arrested by Officer Fergueon, on the charge of stealing the sum of \$5 from a sailor named Uharles Stewart It seems that Charles found himself in the classic thoroughfare, St. Mary street, where he met with the defendant. She entertained him; he listened to her sprea song, and when he retired he found that his pocket had been picked of \$5. She was committed in default of \$600 bail, to answer. Of course, when the day of triel comes, he will be at \$2, perhaps, and the accused will go clear, after having been fed at the expense of the public in the mean time. There ought to be a magistrate's court, for a prompt despatch of business, and a house of correction for such petty thieves as the above.

A woman, rejoicing in the lunar title of "Chip Moon," was arraigned yesterday on the charge of robbing a soldier, fresh from the front. The son of Mars, though he had done the State some service, seemed to be particularly verdant. He visited a house on Beach street, near Goates, where he was relieved of his pocket book, containing \$140 in "greenbacks." A set of false teeth, mounted with \$40 worth of gold, was also stolen. The articial affair was recovered, but the money could not be found. The defendant was committed.

PRICE, FIVE DOLLARS.-No boring with instrunents; no pouring medicines down the throat. Awake, ye slumbering world and behold yourselves and (your children in the prison house of disease, from the cracle to the grave, betake yourselves to thought—think and live. The world writhes in pain and passes into untimely graves. It is for lack of knowledge, mark and learn, that your friends dio through experimenting on. Every effect driven is a death blow to the physical system. I have never met an individual who was treated for anything but effect. There are many agonizing hearts, and sorrowful homes, and grassy graves, through the use of instruments which terture, and menizing hearts, and sorrow/ut homes, and grassy graves, through the use of instruments which ter'ure, and medicines which rot the system, poured down the throat. These destroy the system and are antagonistic to truth; they are polsonous and death-dealing.

Heathen natirus would not tolerate the barbarous treatment our people are subjected to. Diseased individual, whoever thou art, ever remember that there is but one root in any human system from which disease springs, and that your disease can only be removed by the deatruction of this root. Test and prove that the Metaphysical Discovery will utterly desiroy this root, lifting you physically and mentally into a state of health and strength.

lifting you physically and mentally into a state of health and strength.

Mrs. M. G. BROWN'S principal Depot and Laboratory is at No. 410 Arch street. Philadelphia, where her "ME-T.PHYSICAL DISCOVERY" has been thoroughly ested during the past eighteen months. Poor Bichard's Eye Water has been before the public for four years, and has gained a reputation which words fail to express The Mc:aphysical Discovery, for the cure of the above discases, has proved a perfect triumph. Thousands have been cured by it when all other remedies have failed. There are three distinct mediciaes in the discovery—one for the Eyes, one for the Ear, and one for the very-one for the Eyes, one for the Ear, and one for the These work in conjunction, and strike at the root of all These work in conjunction, and strike at the root of all disease, utterly destroying the cause, thus lifting the whole machinery of the body to a higher state of mental and physical life. All cures attempted by instruments, or medicines poured down the throat, agaravate disease, and destroy the physical system. Thousands in this way suffer martyrdom, and are hastened to an untimely grave. When desiness or any head or throat diseases are aggravated by instruments, they take a stronger hold and firmer grip of the constitution in another form, as effects cannot die while the cause exists. There is but one legitimate aguse for all disease, which sprims from one legitimate cause for all disease, which springs from a law-connected with the eyes.

Mrs. M. G. BROWN, inheriting the power to trace effects to their first cause, confidently assures the world that her "Metaphysical Discovery" strikes at the roo of all disease; there is but one root which throngs the human system with disease. The first effect is a stoppage connected with the eyes, which cuts off the least fountain from the feesh; the feel gets soft and mattery; this is the true cause of all impurities of the blood. No blood can be pure without the preservation of the flesh. This can only be accomplished through the use of my "Metaphysical Discovery." It opens every tube, gland. one legitimate cause for all disease, which springs from

To the Fuelic: It is well known to the citizens of Portland who know me that I have been deaf from childhood. By the recommendation of some friends, I was induced to call on Mrs. M 6. Brown, and while I had not a particle of confidence in her ability to relieve me, still I thought I would give her a trial. She has at this time of my writing made two applications to my head, and two only, and I am sure no amount of maney could pay for the benefit I have received. As a proof, I will state that, for the first time in twenty years, I last night heard my watch ticking when it was hung up some six feet from me. My head has been a great source of annoyance to me through a constant pain in the back part, passing through the front with a continued noise. These things pievented me from proceeding the object of my studies, as my head felt heavy a. d. hick. I am low the continued of all this and data though I memend Mrs. M. G. I. Mr. William Lee, of Gloucester, Camden county,
M. J., do certify that my wife, Eilen, has been suffering severely with a complication of diseases for eight years.
The first symptom of disease was a womb complaint.
On its first appearance she was conflied to her bei for seven weeks: diseases of various kinds set in, one after another, till my wife was an entire wreek. She has been under the tr'alment of ten of the first physicians, all of whom failed to reader her any relief, 2nd she was last sinking in the arms of Death. It is more than four years since she was the to attend to household duties. I have been compelled to employ a housekeeper. We had given up doctoring as useless. Most providentially, and through the blessing of God, my housekeeper went up to Kingsessing, Fenna. to see her sister. She found that her sister's neighbor, John Richmond, had given up all work, and was at it ne point of death. He sent for Mrs. M. G. Brown's "Metaphysical Discovery," had been restored to health, and is at his work again. When my housekeeper returned she told me the circumstances, and prevailed on me to write to Mr. Richmond and ask him the particulars. I did so, and received an answer, which you will find at the bottom of my certificate.
