It will be seen from the above that justice unas compromised. No better proof is wanted of the ourrage
committed, and the illegality of the whole transacpromisted. And the illiganty of the whole transaction.

It may be stated that the schooler Starlight was commanded by Capt. Thomas Stack, and hai regular clearance papers, from the custom-house at Philadelphia, dated April 2a, 1864. The vessel was in ballast, and was bound in the port of Point Lookout, Md., at the time of her capture.

The schooler was regularly headed, as appears by the public records heared by the proper officers of the customs of the part of Prelated pride.

The tax of ten cerns per 100, as imposed by the act of Congress of July, 1862, was paid, amounting to \$4.90—the schooler registering 42 year. The incense of fity cents was also paid, and the sum of \$7.13 hospital duty, making a tetal of \$12.53. The incense reads as follows: "District and port of Priladelphia. In pursuance of an act of Ungress of the United States of America, entitled Au act for enrolling and licensing ships or vessels to be employed in the crastics trade and ficencies, and for regulating the tame, "2 &c. &c. It was under this public paper the vehocour resultant arcated on a voyage to the port of Point lock at: The business of the vehicles were entitled legit inste, under the laws of the United States (2 or puriod. But all these papers were entitled legit inste, under the laws of the United States (2 or puriod. But all these papers were entitled legit inste, under the laws of the United States (2 or puriod. But all these papers were entitled legit inste, under the laws of the United States (2 or puriod. But all these papers were entitled legit inste, under the laws of the Cantago and an act of the check of a more of Kanjaland. It may be constituted to the respective as a sport optical "Ally Manjaland."

There have been more of less conflicting authorities ever alone optics were first necovered in the waters of the Check may have a first discovered in the waters of the Check and the country to yield the lawaives. The optical response of shore property and insecuring the country to yield the lawaives. The optical response t the waters of that section of the country to yield the bivatives. The opstertuness increased; owners of above property and land speed afore account wild. The untured and ignorably has tasts of Ascomas, Northampton, Aone Arandel, 'Calvert, St. Mayy's, and the other adjace or countres conditions to the Chesspeake and tightful at streams, entered into the business. Philadetonia enterphize planted beds of oysters; Philadetonia enterphize planted beds of oysters; Philadetonia enterphize planted to the work; and disady it was found assessay to pass laws for the protection of the belafrom invasion. This was all proper. The Philadetonia ovarieties and work the protection of the belafrom invasion. This was all proper. The Philadetonia ovarieties and belafrom invasions. This was all proper. The Philadetonia ovarieties and work them. It seems, however, that each county has its cide of laws; the State at large has its laws; castricts have their laws; and among such a viry law-shiding set of rebel land-pirates and trebe onth-takers they make laws to suit themselves—it claw of might instead of the law of right—stile Philadelphia vessels, run them into some place most convenient, condamn them into some place most convenient, condamn athem, impose an orerous flue, and then conveniently compromise in the manner we have already shown by a copy of a receipt above introduced. Ever since the breaking out of the rebellion, there seems to have been as warfare wazed against the Philadelphia ovater boats. Some of the extent of thousands upon thousands of dollars. Their vessels have been made to suffer to the extent of thousands upon thousands of dollars. he hivaives. The opater tueness inc essed; owner owners of vessels have been made to suffer to the extent of thousands upon thousands of dollars. Their vessels have been setzen roubed, confiscated, men buttally treated or murniered; and all this under the simple pretext of the violation of nome county law that confine's with the law of a higher power. In the countral to dering on the Gnespeake it may well be said, that "justice hash field to brutish beasts, and men have lost their reason." If such a state of things continues, the supply of cysters at Philadelphia will dwindle to a mere nothing. Is it any wonder that oysters run up in mine as high as from \$20 to \$25—the same kind that used to bepurchased at prices varying from \$3 to \$6 per thousand, the scriety, which was read at the Calvery Preabyterian (Durch on Tuead, v ev-nice, stated that it
was organized in March, 1814, by a number of ladies
who assembled in the nouse of Mire Robert Riston,
in this city. The meeting received the support of
the venerable Bishop White, who wrote an address
for the occasion, in which he stated that the Bible
should be distributed without note or comment, and
that the society should combine persons of different
religious denominations, ther-by promoting harmony and kind feeling "under irrec-missible differences
of opiolon." The association was organized, a consituation adopted, measures tak-n to secure a charter, which was subsequently obesized, meagers
and officers were elected, or who me but one veneraable lady survives, and the first Femals Bible Society in this cur Western World, second to a similar
attempt which had recently beed carried into successful operation in England, armed with all its
powers to guide, to instruct, and to save, commensed its work of mercy and of love.

During the past fifty years about \$51,000 have been
collected and paid into the treasury, and during the
same period about 46,000 Bibles have been distributed. Reference was made to an annual conation
from Mir. Robert Barclay, of this city, amounting to
\$50, during the nine years preceding his death, and
to a legacy of £100 at the time of his decease, Two dwellings and lot, E. Washington lane, Ger-DROWNING CASES.— Yesterday morning a man named Enoch Armory fell into the Delaward from a canal boat lying at Pier No. 12, Port Richmond coal wharves, and was drowned.

The body of an unknown white man, about thirty years of age, was found on Tuesday evening, in the Schuylkill, at Gibson's wharf, about a mile below Gray's Ferry bidge. Near the spot where the corrse was found was a mineral water bottle in which there was a note. This note was written in lead pencil and stated that the writer was about to commit suicide by drowning himself, and he wished his body taken to the Central Station for recognition. The paper was signed "Wm. Rymon." on. The paper was signed "Wm. Brown." TYNERAL OF A COLORED SERGEANT.—
This morning, Sergeant Major Robert Bridges
Forten will be buried from the residence of his
mother, Lombard street below Fourth. The deceated was a son of Mr. James Forten as wealthy
and respected colored man. Mr. R. B. Forten lived
for some time in England, where he married. When
the tilligence reached him of the collatement of colored
thops for the war, he returned to his native city,
and accepted a sergeant mojor's position in a colored
regiment. SINGULAR EXPERIMENT.—An experiment will be made to day, at the Bridesburg arsenal, with a view to test the explosiveness of gunpowder. It is designed to creat a number of one-story from buildings, with loose roof, in which to manufacture cartridges. One of them will be erected, and a quantity of powder placed in it and exploded. It is necessary to know whether the explosion will entirely destroy the building, or merely blow off the roof. Brie Carbon Oil Companyers, R. & G. A. Wright. This was an action to recover damages for an aliesed breach of contract. The defendants bought of the phinxiffs. by their agent to this city, 161 barrels of coa: oil, to be delivered in Philadelphia on the list of May. 1832, in good order for shipment. The oil did not arrive until the 7th of May, and the idefendants refused to take it. It was subsequently sold at a untion, and this action brought to recover the difference between the price at which it sold then and the inveice price.

The defence aliegs that the contract was for the delivery of the oil in this city on the last of May, in good order for shipment, with a suarantee that it could be shipped with an assorted cargo. That the oil did not arrive until the 7th of May, and had been put up in barrels that leaked so bedly that a great portion of the oil was wested; and in addition, that the guarantee of the agant that it could be so put up as to be hipped with an assorted that the cli could be shipped with an an of complied with. The plaintiffs allege that there were no contract that the cil could be shipped with an assorted cargo, and no guarantee; the contract being simply for the delivery of the oil in good order for shipment, and that it was desivered here in such order.

What Mr. Osgood Says.

Poerhand, Me. Nov. 28, 1862.

To the Fublic; It is well known to the citizens of Fortland who know me that I have been deaffrom childhood. By the recommendation of some friends, I was induced to call on Mrs. M G. Brown; and while I had not a particle of confidence in her ability to relieve me, still I thought I would give her a trial. She has at this time of my writing made two applications to my head, and two only, and I am sure no amount of mensy could pay for the benefit I have received. As a prof. I will state that, for the first time it twenty years, I last night heard my wash ticking when it was hung up some six feet from me. My head has been a great source of annoyance to me through a constant pain in the back part, rawing through the front with a conduced noise. These things prevented me from prosecuting the object of my studies, as my head fill leavy a d thick. I am now relieved of all this, and de the stance, I commend Mrs. M. G. Brwn and her successful mode of treatment to all who are afflicted as I have been.

Gloucester, R. J., Jan. 33, 1864.

I, Mr. William Lee, of Gloucester, Camden county,
M. J. do certify that my wife, Ellen, has been suffering
reverely with a complication of diseases for eight years.
The first symptom of disease was a womb complaint.
On its first appearance she was confined to her bei for
seven weeks: diseases of various kinds set in, one after
sucher, till my wife was an entire wrock. She has
been under the tr-aiment of ten of the first physicians,
all of whom failed to render her any relief, and she was
sat sinking in the arms of Death. It is more than fur
years since sie was able to attend to honsehold duties.
I have been compelled to employ a hounekeeper. We
had given up decoring as useless. Most providentizity,
and through the blessing of God, my honsekeeper went
up to Kingsessing, Fenna. to see her sister: She found
that her sister's neighbor. John Richmond, had given
up all work, and was at the point of death. He sent
for Mrs. M. G. Brown's "Metaphysical Discovery,"
ind been restored to health, and is at his work again.
When my bousekeeper returned she told me the circumstances, and prevaited on me to write to Mr. Richmond
and ask him the particulars. I did so, and received an
answer, which you will find at the bottom of my certificate.

We then sent for Mrs. M. G. Brown's "Metaphysical ROAD, via MEDIA.

We then sant for Mrs. M. G. Brown's "Metaphysical Discovery," and my wife has need it faithfully, and the result is that the womb disease, which was so had, is entirely gone. She can now do the work of her own house, which she has not done for many years. I consider hat disease is fast leaving her system, and she is regaining her original health. Her eyes, which were so weak through all her affliction, are new clear and strong, and I unhesitetingly ascribe my wife's recovery from the gaws of death to Mrs. M. G. Brown's "Metaphysical Discovery," and heartily recommend it to those who are suffering from any disease, ag it must certainly strike at the root of all diseases. It has tone so in my wife's case. Should any person wish to all on me in reference to the above. I am willing to see them personalty or write to them if they desire. Letter of John Bichmond, Kingsessing, to

New Levery Win Lee, of Gloucester, Camden County New Jersey.

Kingsessing. September 27, 1963.

Mrs Lee: Please to accept this as my testimony in behalf of Mis M. G. Brown's "Mataphysical Discovery."

I was upwards of nine months afflicted with a severe pain in my head, ringing noise in my ears, deafness, and dinners of sight. I was forced to give up work entirely. I was moder the treatment of several medical men, who did all they could to relieve me, but their medicines were of no avail. I was four times at the sates of death, and had made up my mind that death alone could end my misery. had made up my mind that death alone could end my misely.
On the Linth day of April a friend called on me and adviced me to give Mrs. M. G. Brown a trial. After some hestistical I did so, and in less than three weeks I was at my work again, as well as ever I was in my life, and am atili in the chjoyment of excellent health. Brown's great "Metaphylical Discovery," I am once more enabled to earn my daily bread

I am yours truly, with respect.

I. THOMAS SOUTH, of Old Cambridge, do sertify that I have been deat for the past nine years; could not hear conversation; have not heard my watch tick during all that time; have spent much time and money trying to recover my hearing, but all to no purpose. During the past week I called on Mrs. M. G. Brown, at the American House; I obtained her Metaphysical Discovery, and Last pight I hears my watch tick on the mantle piece after I had gone to bed. I can now hear conversation, which I could not deefore. I feel quite beaseited in other respects, and commend the Discovery to all who are afflicted.
