One or two instances that have been brought to our notices show this feeling. On the morning after the explosion at Measrs. Cornelius & Balter's manufactory, a little girl was seen lottering about the door of a boiler-room, adjacent to her home. She seemed to be doubting about entering or leaving. She was observed by the engineer, who asked her what she wanted. She beckoned him to the door. "Please sit," said ashe, "mother says, won't you be careful with your boiler?" Upon saying this she hastened home, having delivered her metaage under very trying circumstances. We heard of another instance, which shows the nervouncess of mankind. Four or five gentlemen were standing in an engine room, discussing the subject of the recent explosion. The engineer pushed up the safety valve, to try his steam. Instantly upon the puff being made, these gentlemen took "French leave." They thought the boiler had buist. They recovered themselves though one of the meald that for a moment he "felt a goneness about the etomach."

A very large steam boiler, located not far from a jubic school house, became over-heated, steam valves were opened, the damper was closed, and the fire put out. The screaming ateam resounded in the neighborhood, and residents, for the moment, left their houses. Luckily for nearly 800 children, the school had adjourned some time before. These ocurrences point like index fingers to the general feeling, of course. If it is electricity that explodes a boiler, and not simply steam, it is very clear that a proper agency, simple in its construction, can be and should be applied at once, so as to appease the minds of thousands of our citizens, who are thrown into convulsions almost upon hearing the sound of escaping steam. or the tree use of the pastor, Rev. What Mr. Osgood Says.

Postland, Me., Nov 23, 1832.

To the Public: It is well known to the citizens of Portland who know me that I have been deaf from child-bod. By the recommendation of some friends, I was induced to call on Mrs. M G. Brown; and while I had not a particle of confidence in bor ability to relieve me, still I thought I would give her a trial. She has at this time of my writing made two applications to my head, and two only, and I am sure no amount of money could pay for the benefit I have received. As a proof, I will state that, for the first time in twenty years, I last night head my watch ticking when it was hung up some six feet from me. My head has been a great source of annoyance to me through a constant pain in the back part, passing through the front with a continued noise. These things prevenud me from prosecuting the object of my studier, as my head felt heavy a. d thick. I am now relieved of all this, and feel as though I enter a new life, G. Brown and her successful mode of treatment to all who are affilied as I have been.

Gloucester N. J., Jan. 30, 1884.

I, Mr. William Lee, of Gloucester, Camden country.

J., do certify that my wife, Ellen, has been suffering severely with a complication of diseases for eight years.

The first symptom of disease was a womb complaint.

On its first appearance she was confined to her bed for seven weeks: diseases of various kiads set in, one after another, till my wife was an entire wreek. She has been under the treatment of ten of the first physicians, all of whom falled to render her any relief, and she was fast sinking in the arms of Death. It is more than four years since sie was able to attend to household duties. I have been compelled to employ a housekeeper. We had given up doctoring as mesless. Most providentially, and through the blessing of God. my housekeeper, went up to Kingsessing, Fenna, to see her sister. She found that her sister's neighbor, John Richmond, had given up all work, and was at the point of death. He sent for Ars. B. C. S. When the sister is the sent of the sister of the sent of the sister's neighbor, John Richmond, had given my all work, and was at the point of death. He sent for Ars. B. C. S. When the sister is the sent of the sister's neighbor, John Richmond, had given when my housekeeper returned she told me the circumstances, and prevailed on me to write to Mr. Richmond and ask him the particulars. I did so, and received an answer, which you will find at the hottom of my certificate.

We hen sent for Mrs. M. G. Brown's "Metaphysical Discovery," and my wife has used it feithfully, and the result is that the womb disease, which was so bad, is entirely zone. She can now do the work of her own house, which she has not done for many years. I consider that disease is fast leaving har system, and she is regaining her original health. Her eyes, which were so weak through sill her iffliction, are now clear and strong, and I unhesitatingly sacribe my wife's recovery from the jaws of death TER PROM THE SECRETARY OF WAR.—The following letter has just been received from the Hon. Buy a Pencil or be Shot.

Rebecca Anderson was arraigned on Thursday afterroon, on the charge of threatening to blow out the brains
of Mr. Geo. Pfier, merchant, on Front street near Market. It seems the woman had lead-pencils to sell. According to the evidence, she went into the store, and
asked Mr. P. If he would not buy a lead-pencil, to which
he replied no; the then began to praise the quality of
them, but still he refused to negotiate; suddenly the woman pulted out a double-barreled pistol, heavily-loaded, and pointing it at the head of Mr. P., said, "she
would blow his brains out, if he did not buy one." The
marchan extricated himself from the dilemma he was
in, and had the woman arrested. Upon being questioned by the aldigman, as to her conduct on this occasion,
she said that she was a poor woman, and paddled leadpencils, and other useful things suitable for countingnoness, stores. Sc. She had experienced many insuits
from men to whom she simply offered things for sale,
and she had made up her mind to shoot the first one who
offended ner moral feelings.

In reply to a question whether Mr. P. had insuited
her, the replied in the negative She was committed to
answer the charge of carrying concealed deadly

Guernesser, Washington, D. G. Guernesser, Guerness Health of the Pope.—It is difficult to arrive at the truth with regard to Roman intelligence. Each correspondent gives his own peculiar tinge to the information he conveys. The health of the Holy Father continues to be the great topic, and each little attack of the malady (crysipelas), to which he has been long a victim, is magnified into a death illness. Still, in the natural course of events, the dissolution of the Pontiff must affact the Uatholio world at no very remote period, for at seventy, three the risks of a life that is always uncertain attain their highest, and it is well to know that the Sacred College is prepared for every eventuality. Hatboro, Montgomery Co. Pa. had made up my mind that death atone could saw major misery.
On the ninth day of April a friend called on me and advised me to give Mrs. M. G. Brown at tial. After some kesitation I did so, and in less than three weeks I was at my work again, as well as ever I was in my life, and am attill in the enjoyment of excellent health.

By the blessing of God and ars. M. G. Brown's great 'Metaphysical Discovery,' I am once more enabled to earn my daily bread
I am yours truly, with respect.

Ton cent Counterfeit Currensey.
John Fox, a bar-tender of a public place in Islington lane near Camp Gadwalader. was arraigned at the Central Statical yesterday afternoon on the charge of passing counterfeit ten-cent currency notes. It seems that a soldier received in change for a ten-dollar note one handrad ten-cent motes that were counterfeit, as well executed and printed as the genuine. The soldiers at Camp Cadwalader have been flooded with these counterfeits, given in exchange for genuine bills. Fox was committed to await a hearing, to take place this afternoon at the Central Station. CAPITAL 10.000 SHARES-\$100 EACH. THE UNDERSIGNED DESIRES TO volution reckon far and wide without their host, as there never was a stronger loyal feeling in the Patimony than at present, or a more thorough unanily of sentiment amongst the Oatholic Powers as to the necessity of the strict preservation of integrity of Papal rights.—Boston Pilot,

I. EMM LOGAN, do testify that I have had a sewers cough for six years, would cough and raiss for three hours at a time, oiten I could not lie down at night; going up stairs, any work would quite exhaust me; I have been taking medicine and doctoring all the time, but was still retuing worse. Providentially a friend procured Mrr. M. G. Brown's Metaphysical Discovery. I have used it one week, and my cough is nearly gone. I have got rid of the lightness across my breast, the soreness and tickling in my throat; I can now take a long breath, which I could not do before; I can go up and down slairs without feeling any fatigue. I feel my disease is fast leaving my system.
