TEN-FORTY BONDS.

FINANCIAL:

These Bonds are issued under the Act of Countess o March 8th, 1864, which provides that in lieu of so much of the loan authorized by the Act of March 3d, 1883, to which this is supplementary, the Secretary of the Treasury is authorized to borrow from time to time, on the credit of the United States, not exceeding TWO HUN-DRED MILLION DOLLARS, during the current fiscal year, and to prepare and issue therefor Coupon and Registered Bonds of the United States, and all Bonds issued under this Act shall be EXEMP FROMT TAXATION by or under any State or municipal authority. Subscriptions to these Bonds are received in Willfel States notes or notes of National Banks. They are TO BE RE-DEEMED IN COIN, at the pleasure of the Government, at any period not less than ten nor mere than forty years from their date, and until their red-implies FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually, and on all other Bouds semi-amually. The interest is payable on the first days of March and September in each year. The semi-annual Coupous are payable at those dates, and the annual Coupons on the 50 and 100-dollar Bonds are payable on the first of March. Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are re

corded on the books of the U. S. Treasurer, and can be tausferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses. Registered Bonds will be issued of the denominations of Fifty Dollars (\$50), One Hundred Dollars (\$100), Five Hundred Dollars (\$500), One Thousand Dollars (\$1,000). Five Thousand Dollars (\$5,000), and Ten Thousand Dolars (\$10,000); and Coupon Bonds of the denominations of Fifty Dollars (\$50), One Hungred Dostars (\$100), Five Hundred Dollars (4500), and Crie Thousand Dollars (\$1,000). Subscribers to this loan will have the option of having their Bonds draw interest from Efarch Est, by paying the accrued interest in coin (or in United States notes,

or the notes of National Banks, adding fifty per cent. for premium), or receive them drawing interest from the date of subscription and deposit. As these Bonds are exempt from putnicipal or State taxation, their value is increased from one to three per cent. per annum, according to the rate of tax levies in Various parts of the country. At the present rate of premium on gold they pay over eight per cent. interest in currency, and are of equal onvenience as a permanent or temporary investment. It is believed that no securities offer so great induce ments to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness the faith or ability of private parties, or stock companies, or separate communities, only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin. These Bonds may be subscribed for in sums from \$50

up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the Benefit of the The fact that all duties on imports are payable in pecie furnishes a fund for like payment of interest on all Government Bonds largely in excess of the want of the treasury for this purpose.

Upon the receipt of subscriptions a certificate of deposit therefor, in duplicate, will be issued, the original of which will be forwarded by the subscriber to the Secretary of the Treasury, at Washington, with a lettertating the kind (registered or coupon) and the denomi-

nation of bonds required. Upon the receipt of the or ginal certificates at the Treaury Department the Bonds subscribed for will be trans mitted to the subscribers respectively.
