In 1266 the Core Exchange Bank of Philadelphia purchased one of Evans & Watson's Bank and Burglar-proof Safes, which is now in nee in their vazilt, constructed in the maximer that Evers & Watson's Safes are for that purpose, with their Tatent Alphabetical Lock on. Since that time the above mentioned Bank purchased one of "Lithe's (so-called) Burglar-proof Safes." The officers of the Bank, in parchasing Lithe's Safe, presumed that they were gatting a better Safe than those made by Evans & Watson for that purpose, and said Core Exchange Bank officers having recommended this New York Safe, and, in doing so, have diverted many thousands of dollars to Troy, New York, instead of retailing it among Philadelphians, upon whom they depend for patronage, I, David Erans, will now give an opportunity of proving whether the Safe they purchased off. Lithlie is the best Burglar-proof Safe. I will place ONZ THOUSAND DOLLARS in cash, and they (the Bank officers) or Little, or any other person in the United States who has confidence in Little's Safe, civall place the same amount in the hands of a respectable person; and I, with one man to assist me, will operate on their (Lithlie) Safe, and they may get any two mon fa the United States to operate on the Burglar-proof Safe sooner than they shall get into the Evans & Watson Safe; then I am to receive the two thousand dollers; but, if they acceed in getting into their Safe sooner than they shall get into the Evans & Watson Safe; then I am to receive the two thousand dollars. Provided that they shall not make any more noise than I make in getting into Lithle's Safe, as noise is what burglars froed mak. It is also provided that han alterations have been made since June 1st, 1864. Now, as I have given this opportunity of feeting the qualities of the two Safes, I hope the Bank officer's will be as wilking to have the test make of Safe-in'use, I consider this Banb the best place test them.
