EUROPE. THE CITY. The Russians are guilty of additional barbarities in Poland. In the village of Prushavka, in the district of Bierch, the inhabitants beat a Russian spy who was too closely scrutinizing their actions. A few days after, some Russian tropy entered the village and dragged out of their houses the whole of the inhabitants, men, women, and children. They allowed no one to put on the most necessary articles of clothing, such as caps, and even hoots or shoes, and in this state they were driven into the open space in the middle of the village, where they were forced to remain until the soldiers had plundered their houses of every article of value, and then burnt the whole village to the ground before their eyes, after which these ruillans drove the half-naked before them with oaths and blows to the town of Rielsk, whence they have been since despatched to Siberia. The recruiting of one-hundred-days men took an upward start yesterday. Crowds gathered around the various recruiting stations, and hundreds were induced to enlist. Several tents in Independence Square are used for recruiting purposes, and scores of men put down their names there during yesterday. Squads of men, carrying a fiag and accompanied with the fife and drum, marched up and down the main streets all day long, and succeeded in obtaining a number of men. The fifty dollars bounty has had a great effect in securing volunteers. It is a very powerful inducement to those able to bear arms. The many regiments now being formed in the city are rapidly filling up. The 5th Union Lougue Regiment, Colonel Harmanus Noff, has been accepted, and will be mustered in and equipped at once. Captain Hastings, of the Keystone Artillery, has the requisite number of men. The Philadelphia Union Artillery, Captain A. J. Fitzwater, has been accepted, and the roll is being rapidly filled up. The officers of the 1st Regiment Gray Reserves are taking measures to reorganize the regiment for service. The 49th Regiment P. V. M. (Corn Exchange) is also to be get ready for service. The Navy Yard Battery, accompanied by about one hundred marines, left for Maryland at an early hour yesterday morning. In Germantown, Frankford, and Manayunk, recruiting is also looking upwards, and the residents there will give a good account of themselves. The following despatch has been received from General Couch by the Supervisory Committee for Recruiting Colored Regiments:

"If a regiment can be raised of the minimum strength, I will give the order to have it mustered. By command of Major General Couch is South Tee."

This singular request was owing to a piece of family history which must be familiar to every one. All have heard of the lady who was buried, being supposed dead, and who bore with her to the tomb, on her finger, a ring of rare price, which rescued her from her prison-house. A butler in the family of the lady having his cupidity excited, entered the vault at midnight in order to possess himself of the ring, and in removing it from the finger the lady was restored to consciousness, and made her way in her grave-clothes to the mansion. She lived many years afterwards before she was consigned to the vault. FOR SALE.—The death of George W. Pearce, Esq., proprietor of this paper, makes it necessary to dispose of the establishment. In the hands of a loyal, earnest, and enterprising man, this long-established journal cannot fail to be profitable. Circulating, as it does, extensively in a county of seventy-four thousand inhabitants, and in a Congressional and Senatorial District of one hundred and five thousand, prominent for wealth and intelligence, and where the Union party at the last election had a majority of over four thousand votes, and with a constantly increasing popularity and patronage, it requires nothing but judicious management to make it alucrative investment.

Persons contemplating a purchase should make that fact known at once, as it is desirable to sell at the earliest day.
