Miss Clemson NEW SEIRT FOR 1864. NEW BOOK BY PIERCE EGAN. ELECTRICITY-A ROOK KEEPEH IS OPEN TO EN-TO THE COMMENT OF A NEW AND GREAT INVENTION IN

HOOP SKIETS.

THE DUPLEX ELLIPTIC (OR DOUBLE) STEEL
SPRING.

J. L. & J. G. WEST, NO. 97 CHAMBERS STEET,
NEW YORK,

Are the owners of the patent and exclusive manufacturers of this,
J. W. BRADLEY'S

PATENTED DUPLEX ELLIPTIC STEEL SPRING
SKIRTS.

This invention consists of Duplex (or two) Elliptic
Steel Springs, ingeniously braiced tightly and armly
together, edge to edge, making the toughest, most clastic, flavible, and durable spring everused, enabling the
wearer, in consequence of its great elasticity and flexibleness, to place and fold the skirt when in use as easily
and with the same convenience as a silk or muslin
dress. It entirely obviates and silences the only objectious to hoop shirts, viz: the annoyance to the wearer
as well as the public, especially in crowded assembles,
carriages, railroac cars, church pews, or in any crowded,
place, from the difficulty of contracting them to occupying a small space. This entirely removes the difficulty,
while giving the skirt the usual full and symmetrical
form, and is the lightest and most stylich and graceful
appearance for the street, opera, promenade, or house
from a distance of wearing the Duplex Elliptic
Spring Skirt for a single day, will never afterward
willingly dispense with the use of them. They are the
best quality in every part, and by far the lightest, most
durab e, comfortable, and economical skirt made. Merchants will be supplied as above, and ladies in most
first-class retail stores in this city and throughout the
different States. The Continental m. Baltimore
