State Defence-Hints to Legislators. To the Edilor of The Press : 'SIR: There will, no doubt, be many and differing

an other interval and the second seco plans presented to the Legislature for the proper defence of the State, but they will all fail of permanence unless they are interesting to the pockets or the passions of the people. The former hints at the usual rascality, and the latter is left as a field obvious reasons. Jules Jared's 'Kmail de Paris' is not a paint, not a powder, not a paste, but a most delicate preparation that gives both the complexion and texture of polished for an experiment which would perhaps be worth trying. If you think my hints are worth anything please work them up into a proper shape for the public eye; if not, do with them as I dare say you ry to the skin. Ladies solourning in the country, the watering places, will find the "Email de Paris do with a good many others. You know what a avaluable for removing discolorations caused by sunburn or salt air. EUGENE JOUIN, No. 111 South TENTH Street, be great love and pride the fireman has for his "machine." Now, can we transfer this to the country low Chestnut, is the agent for "L'Email de Paris." Orders by mail should be addressed to JARED & RENE, Importers of "L'Email de Paris, Philadelphia. boy and his gun? If it should be found possible, the following plan will work well and permanent ly: Let each township in the State, of the assessed CURTAIN GOODS. for it, according to their ability. Let the company to anage it be drafted to serve, say two years, one third of the members going out every two years, in order that a knowledge of the tactics may be diffused. We ought to become familar with this drafting business, and, if possible, let it be considered a privilege to be-I. E. WALRAVEN, long to the "Gun Company." In order to do this let every chosen one serve, unless he can find some one to buy him out for not less than \$--, one-half of this to go to the company. There will be no difficulty in this on a peace establishment and while any (SUCCESSOR TO W. H. CAREYL.) novelty remains about the affair. Let them meet MASONIC HALL. for drill, with volunteer-horses, six times each year, one or two days each time, and let additional meetings be encouraged by agricultural fairs and target matches of adjoining townships, with premiums for 719 OHESTNUT STREET. best performances. Let every member be exonerated from a portion of his tax. Let none but legal voters be members. Let there be a colonel and other officers, whose office shall be at the coun-ty town, and whose business shall be to visit, inspect, and drill every company ---- times each year. Let each arsenal be only one story high, and large enough to hold only the guns and what belongs to WINDOW SHADES, it, or it will become a skulking and a drinking Let the whole matter be so arranged that it may OURTAINS. not grow up into a corrupt and jealous State institu-tion, but that its first allegiance be due to the United states; and while enough should always be avail-able for State defence, the remainder must answer

all calls of the United States, and all losses incurred in the Federal service be made good to the State. MOSQUITO NETTINGS There are, of course, other features which the know ing ones will suggest, but there is enough here to give you a general idea of the plan, and I leave it now in the hands of your judgment whether to make any use of it or not. You have some idea of the wisdom and honesty of our State Legislature, and I have not a doubt that many a crudity will be proposed and battled for that will not be any more COMMISSION HOUSES. acticable, and I am sure not half as honest as this. THE ATTENTION OF THE I do not propose this as a substitute for the regular militia musket companies. They, of course, must be kept up if they can, and I think the gun compa-nies will be a stimulating adjunct in keeping up the. TRADE existence of the former, which should meet with the latter for company drill. Discourage everything larger than a company drill; they are nothing but mobs for carousing, drunkenness, and fighting. OUR STOCK OF SAXONY WOOLEN CO. all-wool Plain Fiannels. THE GUEBILLA WAR. Quiet Somewhat Restored in Missouri-The Platte Country Threatened with Depopulation—The Troubles in Kenincky-Murder of Union Prisoners on the Cumberland.

The St. Joseph (Mo.) correspondent of the Mis-souri Republican asserts that the excitement in that locality is nearly over, and the people are again en-deavoring to attend to their regular business conpierre, Danton, and Marat. At one time they were almost in a state of siege, which was only raised by

pierre, Danton, and Marat. At one time they were almost in a state of siege, which was only raised by the avalanche of men which came from all direc-tions in response to the call of General Fiske. Of recent occurrences the correspondent thus speaks: Thornton and a good portion of his men are re-ported to have crossed the river the latter part of last week. The crossing was effected between Mis-sourd City and Lexington, and extended up and down for a. distance of about twenty miles. The steamer Fanny Ogden came along while the cross-ing was going on. The crossing ceased long enough to permit her to pass, and was then commenced again. They crossed in small boats, swimming liker horces after them. It is to be höped that in future they will " keep their own side of the question." There are some guerillas, however, still in Platte. Information reached headquarters, Saturday, that a bend of 300 or 400 were again in that disaffected re-drom. Gen. Fisk immediately had steam raised on the steamer West Wind, now laying up on the oppo-site side, for the purpose of conveying the Illinois troops down to drive them out, but he afterwards changed his notion, and the troops, all being caval-ry, mached down by land. It is feared that Platte will share the fast of Jackson and the depopulated counties back of Kansas City. Indeed, it must be almost already, depopulated. The arrivals here of refuge efform that region averaged from one to two hundred per day for several days. This exodus was owing to the bad conduct of the Kansas troops un-der Jeinison. An officer of the 5d Cavairy M. S. M., who accompanied the first expedition, stated on his return 'that he and a detachment of men, hay-ing been left at Platte City, on trying to overtake the main force, met a lady mounted on horse-back, who rode up to them in the road weeping, and begred of them for "God sake to spare the lives of Herself and daughters; that if they would only do that, she would give them everything she posenses in in the avaid. Summediate vi-cinity withi

most, shd the King of Terrors would have claimed him as his own in a natural way. DETAILS OF THE MURDER OF THE UNION FRI-SONRES ON THE OUNDERLAND RIVER. The Louisville Journal says the soout sent out from that city on Monday week to search after Lieutenant Gamble, and furnish him safe conduct into our lines, returned early on Tuesday morning, having been successful in its mission. The lieuten-ant was found secreted in the woods not far from where he made his escape from the gang of villanous cut-throats. He was pale, almost devoid of cloth-ing, and appeared to have suffered much in dodging through the brush, trying to elude the watchind eyes of those bent on his mur-der. He informed the scout that he had been robbed by the guerillas of his pants, boots, watch, and seventy-five dollars in money. After crossing the Cumberland river, and travelling about six miles in a southerly direction, the gue-rillas halted and arranged their prisoners in line, tailing them that they were going: to parole them. After a short consultation, the leader of the gang, who was called by his men Capt. Por-ter, ordered the members of his gang to draw their pistols, saying. We have but one way of paroling Federal prisoners, and that is with our revolvers." The whole party advanced in line, and commenced rapidly firing. The lieutenant said that he well knew that there was no hope for life only in predi-pistol fight, so he started on the full rurf. A vol-ley of pistol shots was fired at him as he disap-peared in a narrow strip of bruch, and another as he passed an open space a short distance beyond. For tunately none of the balls struck him, and he made good bie scoape. He was forced to lie in the woods.

FOUR CENTS. but these are useful only in the manufacture of pa-per for newspapers, and for similar purposes. [They are not suited to the production of fine papers, and the consequence is that in the production of fine pa-pers we compate with France and Beigtum by sell-ing such paper at a very small prodit. It did not appear, but it was nevertheless a fact that the war in America has interfered very considerably with the paper trade in the manufacture-ootton re-iose, alkali, and resin. The curtafiment of the cotton trade ronders cotton wasts scarce and dear. The price of resin fast been augmented considerably, owing to the war, and alkali and bleaching powder, for the same reason, are very dear. If the war ter-minated speedily, the paper-makers would have less cause to complain; but, as the seesion was wains to a close, the Chancellor of the Exchequer contemi-ed himself by saying the question of a commission would, us considered at the next session of Parila-ment. points the piney woods, low, sandy, level, with wide swamps budgering all the streams, and extending from 160 to 200 miles to the sea or the Guif. The mountain region is for farming-almost exclusively for grains ane grapes. Wheat is usually a good crop. The middle region, from Atlants to Macon, is a mixture of corn and cotton. It will produces very little of the smaller grains, and no grass. It is cut up into small plantations, and occupied by men of moderate means, with thriving villages at the county seats. The third division, the low country, is almost exclusively in possession of large planters, and cotton is the staple, although it will grow corn, but no small grain or grass. Doubtless the lands are cultivated in ceregis as if as practicable at this time, so that Gen. Sherman has a productive re-gion of a hundred miles all round him from which he can draw supplies without going back to Tennes. time, so that Gen. Sherman has a productive re-gion of a hundred miles all round him from which he can draw supplies without going back to Tennes-tee. The railroad from Atlanta to Macon runs 101 miles on the dividing ridge, between the waters of the Atlantic and the Gulf, and has not a bridge, not even a culver, in the whole distance, scarcely an embankment or excavation. All the destruc-tion either army can do to that is to the rails and ties and water tanks. The roads to Augusta and to West Point, toward Columbus and Mont-gomery, cross the numerous streams and ravines, and can be broken in many places by destroying bridges. These roads are all of one gauge. The Chaitahoochie does not empty into the Alabama, as some correspondent stated, but, runs directly south between Alabama and Georgia, into the Gulf of Apalachicola. It is navigable for steamboats to Columbus, at which point it falls some sixty feet in half a mile, coming down from the undulating to the pine country, and forming an inexhausible water power. Here are the most extensive factories in the State. Several large cotton mills, a large variety works, (tub and bucket, sash and blind, &c., and extensive flouring and saw mills. There are also several steam cotton mills at Greensboro', about seventy miles below Atlanta, toward Augusta, and water mills at Extonton and Thomaston, and Athens. It will be seen from these facts that General ment.

would, be considered at the next session of Parlia-ment. MDLLE. TITIENS.—A magnificent diamond brace-let and a pair of diamond ear-rings, of the richest and costilest design, with an appropriate inscription, recording the occasion of the glit and the names of the donors, engraved on vellum, were presented to Mdlle. Titiens, at her residence in the Regent's Park, on the 13th of July. The distinguished party presenting the gift represented a large body of nota-bilities in the fashionable world, who were subscri-bers to the token to the filturtious artist. They were headed by the Counters of Lincoln, who was accom-panied by the Lady Sandys, the Duke of Leinster, the Earl of Lincoln, the Earl of Strathmore, the Earl of Hardwicke, the Earl of Strathmore, the Earl of Hardwicke, the Earl of Witton, Major Blake, and Mr. Bligh, M. P. ENGLISH DIVORON COURT.—The number of peti-tions for dissolution of marriage last year exceeded the number in any previous year since the court has been established. There were 255 such petitions filed in the year 1863, besides 7 for declaring the marriage null from the first. Forty-three persons petitioned for a judical separation, and 12 applied for protec-tion of property. Two hundred and thirty-seven judgments were given in the year; 1,059 have been given in the last six years. But which way the judg-ments went is not toold i strange as it must seem, the Registrar makes his return to the Scoretary of States, year after year of the business done in this court, giving some details. of little intorest or importance,

Aregistrar makes his return to the Secretary of State year after year of the business done in this court, giving some details of little interest or importance, but never states how many marriages are dissolved n the year.

and water mills at Eatonton and Thomaston, and Athens. It will be seen from these facts that General. Shorman already controls the regions of the small grains and the ores. Their child iron works were at Etowah, Bomes and Atlanta, and all are dependent on the mountain region for ore. The whole country is open, wellsettled, and the roads good, below the Kenesaw Mountain. The Stone Mountain, is a solitary granite rock, rising one thousand feet high, in the form of a sugar load, a few miles east of Decatur- not a bill of any size around it. It is perpendicular on one side, but on the other a carriage way has been made by cutting in places into the solid rock to the summit. It is a fashionable summer resort, and there, doubiless, treason was plotted. From these facts may readily be seen the prospect of gathering colored soldiers from Sherman's de-partment. The mountain country has searcely any negroes. The country raids in those regions will gather up many, but the great bodies of them are below Macon, Augusta, and Columbus. in the year: OOPYRIGHT.-The Chancery suit between Samp-son Low & Co., and Messrs. Routledge, which turned on the point whether an alien, living in a British colony, and there publishing a book, could secure for himself the benefit of the English act of copyright, was decided on July 18th by Vice Onan-cellor Kindersley. The learned judge decided that, on principle, a foreigner publishing under the cir-cumstances stated. was entitled to the benefit of the set in the meriumar case before the convrt the

act; but in the particular case before the court the benefit was lost from non-compliance with some chnical points.

FINANCIAL AND COMMERCIAL.

Gold is weak. There is very little demand, and with the present prospect of a protracted duliness in the demand for export, if not, indeed, a return of gold from Europe, speculation for a rise is very feele. The demand for customs continues below the average demand, owing to the indisposition of mporters to take their goods out of bond. At nine o'clock, the asking rate for gold was 255, and it steadily declined during the day, closing at about

. The subscriptions to the new 7-30 loan continue large. All over the country these subscriptions are going into the Department through the National banks, and for the time the loan has been before the people it is proving a greater success than the \$500,000,000 5-20 popular loan in its early history. The latter, which dragged at first at par, is now selling on the Stock Exchange at 109@110 per cent. The new loan is practically another gold-bearing 5-20 stock at the end of three years, the liberal cur rency interest of 7-80 per cent. being paid in the meanline. The new 7-30s, notwithstanding the ad-verse effects of the recent decision relative to their liability to taxation, are in active demand, and the

ales are increasing. The stock market was inactive yesterday, except for Government loans, which continued in demand. The '81s sold largely at 108%, and the 5-20s at 109%. At the close of the day the latter declined $\frac{1}{2}$, and the bars of the appended table at the Board compare scarcely anything doing. Allegheny Valley 7s sold at 105; Pennsylvania Railroad first mortgage at 125. United States 6e, 1851, com

and second mortgage at 121. Schuylkill Navigation 68 of '82 advanced %; Camden and Ambe, 68 of '75

(PUBLISHED WREKLY.) Larger Clubs than Ten will be charged at the same rate, \$1.50 per copy. The money must alreave accompany the order, and In no instance can these terms be deviated from, as they afford very little more than the cost of paper Ar Postmasters are requested to act as agents for THE WAR PRESS. AP To the getter-up of the Club of ten or twenty, an extra copy of the Paper will be given. ings of the Atlantic and Great Western Railroad

previous return, and a decrease of £3,200 when com-pared with the corresponding period last year. The London Stock Exchange has decided that no company shall be admitted to quotation in the offi-cial list unless a member of the Board be authorized by such company to give full information as to the formation and bora fides of the undertaking, the ap-plications for and the distribution or allotment of shares, and every other particular that may be re-quired.

plications for and the distribution or allotment of shares, and every other particular that may be re-quired. The drinkers of tea, coffee, cocca, chocolate, and chickory contributed £5,073,938 to the public reve-nue of Great Britain in the last financial year end-ing with March, 1864. In the same year the drink-ers of spirits, wine, and malt liquors paid £20,020, 550 of taxation. This is without reckoning the tax on licenses for making and for selling these articles, or on sugar to sweeten them. The New York Post of yesterday says : Gold is depressed by the good news from Mobile, Opening at 255, it sold down to 252%, and closed dull at 253%. Exchange is dull and feeble at 277 for our-rency and at 109 for gold. The stock market is unchanged. Seven per cent. is the current rate, but there is very little demand. The stock market is unchanged. Seven per cent. and coupon sizes of 1881 at 00630. Gertificates have advanced to 95%, and ton-forties to par. State stocks are heavy, railroad bonds dull, bank shares steady, coal stocks strong, mining shares more ao-tive, and railroad shares firm. Before the board gold was quoted at 255, Cumber-land at 61%, Quicksliver at 89%, Erie at 113, Hind-son at 32%, Recaling at 138%. Michingan Southern at 91%, illinois Central at 134@149. Port Mayne at 116, and Ohio and Mississippi at 52. After the Board the market advanced ½% per cent.; Erie cloced at 113%, Hudson River at 123%, Reading at 138, Michingan Southern at 91%, Pitts-burg at 138, Michingan Southern at 91%, Northwestern at 57%, Northwestern Preferred at 91%, Quicksliver at 79%.

The appended table exhibits the chief movements t the Board compared with the latest prices of

cerns. The change must be most welcome, for the accounts we have published from day to day show that the people of Northern Missouri have passed through scenes and trials almost equalling those which visited France in the dark days of Robes-

the avalanche of men which came from all direc-

A liberal discount allowed to the trade. au3-1m.	DE COURSEY, HAMILTON, & EVANS, 33 LETITIA Street, and 32 South FRONT Street. HAZARD & HUTCHINSON, No. 113 CHESTNUT STREET. COMMISSION MERCHANTS, FOR THE SALE OF my14-6m] PHILADELPHIA-MADE GOODS.	(now General) Vaughan, of the Confederate army, had been stationed at Kingston, and, with about 1,260 men, mado an inroad into Scott county, burn- ing and plundering as he proceeded. Scott county is one of the most mountainous counties bordering on Kentucky. Vaughan had not proceeded far when he got into a defile, which was commanded by sixty sharpshooters, posted on high rocks, and form- ing part of a home guard. The Confederates suf- fered greatly, while the Scott county men lost only	good his escape. He was forced to lie in the woods, hight and day, intil the scout relieved him on Mon- day afternoon. He piloted the cavalry to the spot where the execution had taken place, and three dead bodies; niddled with balls, were found stretched on the green sward. On the breast of each was pinned a strip of paper, dated July 30, with the fol- lowing words written in pencil mark upon them: "These boys are executed in retallation for our friends hung in Nashville." The bodies were much decomposed when found, and were buried upon the spot. One of the dead was a soldier of Co. C, 833"	a letter which gives a view of the state of affairs. It details the suffering from extreme high prices and general scarcity, and hints rather broadly the dis- content of the people under the rule of the Rich- mond usurpers. It is dated Dale county, Georgia, and says: "Times are hard here. Corn is \$5 per bushel, and hogs \$1 per pound (fat or poor) gross; bacon, \$2.50 per pound; salt, \$15 per bushel; chickens, from \$1 to \$1.25 per head; peas, \$6 per bushel; ground peas, \$5 per bushel. There will be a great deat of suffer.	Railroad at 72. Camden and Amboy shares de- clined 1; Catawissa pref. $\frac{1}{2}$; Norristown Railroad rose to 66, an advance of 1. Of the coal companies there was a sale of Big Mountain at $\frac{1}{2}$. Walfs from Rebeldom. A correspondent of the Mobile Register, writing from Atlantis, tells the following sad story: "Not many months ago there arrived at a Confe-derate port, upon one of the most notable of our blockade-runners, a very unassuming woman-scarce such, indeed, for she was hardly out of her teens-of an extremely handsome person. She had come to Nassau from Paris, and salled thence for the South. She brought with her an abundant wardrobe, and sufficiency of means to last her two or three years at the present high rates of living. Her object in visiting this country was to discover the face of an only brother, a colonel in our service, who had placed her at Geneva at school when the war began. "She had not heard from him during six months, became anxious, and finally set out on her long and perilous journey. Her anxiety proved too well founded. Her brother had been killed at Gettys-burg, and she found herself alone and a stranger in her native land. She went first to Augusta, then to Mobile ; here she lost a trunk containing all her gold. At this critical juncare of affairs she met a-very handsome field officer-fell in love-engaged first in filtation, then in a amour-and accom-panied him as far as Atlanta, on his way to the hont. He fell at Chickamange. What her life be-came you can guess. She died last week, and was tumbled into the ground in the public cemetery. There's a story for you-weep over it? the rebel population, and particularly of the people of Georgia and Alabama. Sherman's march through Alabama and Georgia has necessarily de vastated a great extent of country; and now, just at the time for gathering in the crops, every available man in Georgia, Alabama, and Florida has been called to arms to drive our troops away from Atlan-ta. The harvests are, therefore, left to the women, children, and negroes, and the consequent distress
