S50 BOUNTY! THE DRAFT!

AROUSE! If you would escape the Draft you must be up and doing! No time should be lost! Give us the money, and we can get the men! We want yet over 300 men to fill our quota! Your Executive Committee has laid, before you a plan of action in their circular, by which you may avoid the burthens of the draft, but you must act easy getically, and at eace. Each one must hand in his subscription without delay, and induce his neighbors to do likewise. Other wards and the country districts are getting the men by their energy and liberality. You red not wait to be called on, as there is not time to carvass the ward, but come for ward with the money to the gentlemen appointed to receive -it. There is no other way of escape from this draft, as there will be no postponement, and no commutation. The following named parties are authorized to receive subscriptions:

To do this before the 5th of September will require the most carnest and vigorous exertions, and the Committee appeal to the patriotic and public spirited to aid them by their influence and by contributions of the necessary means to offer inducements equal to those offered by other communities. The Committee have appointed a sufficient number of recruiting lieutenants in various quarters of the citr, and all recruits obtained will be distributed pro rata among the wards, and, of course, will benefit most largely those that are most deficient.

By united and continued effort the Committee hope, if not to avoid the d. aft altogether, at least to reduce it to insignificant proportions.

This invention consists of Duplex (or two) Elliptis
Steel Springs, ingreniously resided tightly and firmly
together, edge to edge, making the toughest, most elastic, fawihe, and durable spring ever need, enabling the
wearer, in consequence of its great elasticity and fiexiblones, to place and fold the skrit when in use as easily
and with the same convenience as a silk or muslin
dress. It entirely obviates and silences the only objections to hoop shirts, viz: the annoyance to the wearer
as well as the public, especially in crowded assembles,
carriages, railrose cars, church pews, or in any crowded
place, from the difficulty of contracting them to occupying a small space. This entirely removes the difficulty,
while giving the skirt the usual full and symmetrical
form, and is the lightest and most stylish and graceful
appearance for the street, opera, promenade, or house
dress. A lady having enjoyed the pleasure, comfort,
and great convenience of wearing the Duplex Elliptic
Spring Skirt for a single day, will never afterward
willingly dispense with the use of them. They are the
best quality in every part, and by far the lightest, most
durable, comfortable, and economical skirt made. Merchants will be supplied as above, and ladies in most

TO THE DISEASED.

Nearly five vegration Professor C. H. BOLLES locate himself in the city of Philadelphia, at No. 1220 WAL-BUT Street, and announced his great discovery in the therapentic application of Magnetism, Galvanism, and other modifications of Electricity for the cure of th most obstinate, acute, and chronic diseases. In announcing to the public a discovery so intimately connected with the well-being of our race, it may be deemed proper to make a few prefatory remarks to prepare the mind of the reader for the reception of evidences and facts too incredible for belief. This discovery is the result of more than ten years

hard and scientific investigations. It develops not only reliable system for the diagnosis of disease, but the superiority over all other systems for the cure of dis ase has been practically tested for more than ten year and for five years in Philadelphia, where twelve thon sand invalids have been treated, suffering from almost every form and condition of disease common to all sections of our country, who, after treatment by the mos minent medical men in Philadelphia, Boston, New York, and other cities, had been given up as incu rable; and in nearly every case a perfect cure had been effected. Many of the most obstinate of the above cases treated

have been warranted by special contract, and not a failure has been made in any warranted case. As indubitable evidence of the foregoing statement, we have adduced in the following advertisement testimonials from citizens of Philadelphia, who had suffered from a complication of diseases for four, ten, and even thirty years, and had availed themselves of the best medica skill in this and other cities, and were given up as incurable, but afterwards were fully restored to health by a few applications of Electricity. Such an array of evidence as will hereafter appear in this advertisement is not merely to show that Professor BOLLES has made an important discovery in the application of Electricity as a therapeutic agent, but em

phatically to show that nearly all diseases which have been considered incurable in all past ages, and are so considered at the present time by the most eminent medical men, can be speedily and permanently cured by the different modifications of Electricity, when ap-We are curing, and further pledge ourselves to cure, a certain class of diseases acknowledged to be incurable by any known process of medication—diseases that never have, nor never can be controlled, only by his mode of applying the various modifications of Electri-

Thousands of the most reliable individuals in this city own astonishing cures. We verily believe that we have cured more obstinate diseases during the five years o every word of it; for who ever heard of such astonish-

Who shall properly estimate the incalculable blessing thus so speedily conferred on suffering humanity, when, instead of being drugged for months, and thrown on beds of languishing, health is restored by this treatclusion, we would say, for the encouragement of the dyspeptic, neuralgic, consumptive, rheumatic, parareatment ever did and ever will prove a total failure, that there is still hope in your case, and a fair chance for your recovery, at No. 1220 WALNUT Street.

ASTONISHING RESULTS.

The following report is not the result of hearsay, or far-off certificates, or reports of men of doubtful veweeks of careful investigation, at 1220 WALNUT Street, where Professor BOLLES has been testing his discovery in the application of Electricity, for the speedy and permanent cure of acute and chronic diseases, for five years, in which time he has treated more than twelve thousand invalids with success.
