BY BAYARD TAYLOR. What ! hoist the white flag when our triumph i nigh?

What! crouch before Treason? make Freedom a

What! spike all our guns when the foe is at bay, And the rags of his black banner dropping away? Tear down the strong name that our nation has won.

And strike her brave bird from his home in the sun ? He's a coward who shrinks from the lift of the

sword ; 'He's a traitor who mocks at the sacrifice poured ;

Nameless and homeless the doom that more pointed; Nameless and homeless the doom that should blast The knave that stands idly till peril is past; But he who submits when the thunders have burst And victory dawns, is of cowards the worst !

Is the old spirit dead? Are we broken and weak, That oravens so shamelessly lift the white cheek, To court the swift insult, nor blush at the blow. The tools of the Treason and friends of the foe? See I Anarohy smiles at the Peace which they ask, And the eyes of Disunion flash out through the mask !

Give thanks, ye brave boys, that by vale and by

crag Bear onward, unfaltering, our noble old flag, Strong arms of the Union, herces living and dead, For the blood of your valor is uselessly shed i No soldier's green laurel is promised you here, But the white rag of "sympathy " softly shall

And you, ye war martyrs, who preach from your

graves How captives are nursed by the masters of slaves, Or. living, still linger in shadows of Death_ Puff out the starved muscle, recall the faint breath

And shout, till those cowards rejoice at the ery, "By the hands of the Union we fought for we die !" By the God of our Fathers! this shame we must

share, But it grows too debasing for freemen to bear, But it grows too doossing for freemen to bear, And Washington, Jackson, will turn in their graves When the Union shall rest on two races of slaves, Or, spurning the spirit which bound it of yore, And sundered, exist as a nation no more!

THE EXCHANGE QUESTION.

The Rebels and the Negro Prisoners-Letter from Gen. Butler to Commissioner Ould.

sioner Ould. HEADQUARTERS DEPARTMENT OF VIEGINIA AND NORTH CARCLINA, IN THE FIELD, August -, 1864. Hon. Robert Ould, Commissioner of Exchange: SIR: YOUR note to Major Mulford, assistant agent of exchange, under date of 10th of August, has been referred to me.

Sin: Your note to Major Mulford, assistant agent of exchange, under date of 10th of August, has been referred to me. You therein state that Major Mulford has several times proposed to exchange prisoners respectively held by the two belligerents, officer for officer and man for man, and that "the offer has also been made by other officials having charge of matters connected with the exchange of prisoners," and that "this proposal has been heretofore declined by the Con-federate authorities;" that you now consent to the above proposition, and agree to deliver to you (Major Mulford) the prisoners held in eaptivity by the Con-federate authorities, provided you agree to deliver an equal number of officers and men. As equal numbers are delivered from time to time, they will be declared exchanged. This proposal is made with the understanding that the officers and men. As equal numbers are delivered from time to time, they will be declared exchanged. This proposal is made with the understanding that the officers and men on both sides who have been longest in captivity will be first delivered, where it is practicable. From a slight ambiguity in your phraseology, but more, perhaps, from the antecedent action of your authorities, and because of your sceptance of it. I am in doubt whether you have stated the proposi-tion with entire accuracy. It is true, a proposition was made both by Major Mulford and by myselt, as Agent of Exchange, to exchange all prisoners of war taken by either belli-gerent party, man for man, officer for officer, of rate authorities intended to treat colored solders of the United States army as prisoners in way whether the as to your offer now, will you now say whether you mean by " prisoners held in captivity" oolored men, duly enrolled and mustered into the service of the United States, who have been captured by the Con-federate forces ; and if your authorities are willing to exchange dil soldiers so mustered into the United States army, whether colored or otherwise, and the officer? commandin

At an interview which was held between yourself At an interview which was held between yourself and the agent of exchange on the part of the United States, at Fortress Monroe, in March last, you will do me the favor to remember the principal discus-sion turned upon this very point; you, on behalf of the Confederate Government, claiming the right to. hold all negroes who had heretofore been slaves, and not emancipated by their masters, enrolled and mustered into the service of the United States, when captured by your forces, not as prisoners of war, but upon capture to be turned over to their supposed masters or claimants, whoever they might be, to be held by them as slaves.

By the advertisements in your newspapers, call-ing upon masters to come forward and claim these men so captured, I suppose that your suthorities still adhere to that claim—that is to sky, that when-ever a colored soldier of the United States is, cap-tured by you, upon whom any claim can be made by any person residing within the States now in in-surrection, such soldier is not to be trated as a pri-soner of war, but is to be turned over to his supposed owner or claimant and put at such labor or service as that owner or claimant may choose, and the officers in command of such soldiers, in the language of a sup-posed ast of the Confederate States, are to be turned over to the Governors of States, upon requisitions, for the purpose of being punished by the laws of such States. You must be aware that there is still a proslama-tion by Jefferton Davis, claiming to be Chief Excen-tive of the Confederate States, declaring in sub-stance that all officers of colored troops mustered into the service of the United States were not to be trated as prisoners of war, but were to be turned over for punishment to the Governors of States. Pardon me if I misunderstood you in supposing: that your acceptance of our proposition does not in good faith mean to include all the soldiers of the Union, and that you still intend, if your acceptance at an informed that very lately, almost dotemportance is agreed to, to hold the colored soldiers of the Union unexchanged, and at labor or service, because I am informed that very lately, almost dotemportance, it is the colored soldiers of the Union unexchanged, and at labor or service, because I am informed that very lately, almost dotemportance of war, the Uonfderate suthorities have made a declaration that the negroes heretofore held to service by eveners in the States of Delaware, Maryland, and Missourt are to be treated as prisoners of war when captured in arms in the service of the United States, were to be prisoners of war would seem most strongly to imply that others were not to be so treated, or in other words, that colored men from the insurrectionary States are to be held to labor and actually in the armies of the United States. In the view which the Government of the United states takes of the claim made by you to the persons and services of these negroes, it is not to be supported upon any principle of national or municipal law.
Looking upon these men only as property, upon your theory of property in them, we do not see how this claim cance be available with a subscent gets into fail or subscent gets into fail or subscent is contained or the United States in the subjects or claim and part of the law and section and part of public international law, and a custom and part of public international law, and a custom and part of public international law, and a custom and part of its laws. If the Confiderate forces capture a number of horses from the United States, the animals immedi-ately are claimed to be, and, as we understand it. If the United States capture any movable pro-perty in the rebellion, by our regulations and laws, in conformity with international law and the laws of war, such property is turned over to our Govern-ment as its property. Therefore, if we obtain pos-session of that species of property known to the laws of the insurrectionary (States as slaves, why should there be any doubt that that property, like any other, yests in the United States? If the property in the slave does so vest, then the "just disponenti;" the right of lisposing of that pro-perty mich the insure low and of the pro-perty which they have acquired by capture in slaves taken by them, by giving that right of property to the man himsel; to the slave, i.e., by emancipaling bim sid declaring him free forever, so that if we have not mistaken the principles of international laws of the United States. Now, the United States. All are free men, being made so in sooh manner as we have chosen to dispose of our property in them which we acquired by capture. The manner in which we dispose of our property while it is in our possession certainly cannot be questioned by you. Nor is the case altered if the property is not actu-ally captured in battle, but comes either voluntarily or involuntarily from the belingerent owner into the States to a drove of Confederate mules, or a herd of Confederate cattle, which should wander or rush united States army.
