## The Voice of the Army. To the Editor of The Press: Sin: The following extracts are taken from a re-Gold opened firm at 226 yesterday, but under favorable army news it fell to 223, with a manifest tendency at the close for still lower rates. Such victories as that of Sheridan, which the telegraph announced to us yesterday, if speedily followed up, will at once reduce the gold premium, or, to express it more correctly, appreciate the value of the Government currency, restore preciate the value of the Government, and insure us an early and a lasting peace. The harvest of sure us an early and a lasting peace. I anticipate a terrific struggle soon before Petersburg and Richmond, in which I shall have to take a part. The struggle before us will send mourning to almost every family in the land, and it would be strange if it did not send it to mine. But the struggle must be made. The sacrifice of all our dearest interests, and life even, must be endured, that our country may live. Its past greatness, its greatness in prospect, the hallowed scenes and efforts in which it was established, and aspect of the country, is indeed encouraging. The long reign of high prices is evidently tottering, and, as the prospect of military success brightens, the business of the country is resuming a more healthful appearance. The reduction of the currency will certainly follow in the wake of military success, and with this will come the mission we have been taught to believe was our country's to accomplish, establishing the people's rights and ability to govern, must not be ignored and sacrificed because we are wedded to our families, nor yet because our lives are demanded in sacrifice for the re-establishment of the specie basis. In the absence of President Morton, Mr. Souder was called to the chair. A communication was read and referred from Thomas Adamson, Esq., United States Consul at Pernambuco, urging upon the mercantile community of Philadelphia the great advantage which would result from extended commercial intercourse with Brazil. He says: "Establish a line of steamers between Philadelphia and the ports of this Empire, and the tide of foreign travel and trade that is now found upon the shores of Great Britain and France would flow to our own land. Philadelphia might build herself up a magnificent Brazilian trade, for which her superiority over New York as a flour market eminently fits her." At the invitation of the chairman of the committee of the Board of Health, Dr. R. La Roche, a delegation consisting of Messrs. Biddle, Hand, and Welsh were appointed to meet the "National Quarantine and Sanitary Convention," to be held in this city on the 25th of October next. Mr. Wheeler, from the Committee of the Month, to which the subject of the trade in petroleum had been specially referred, made an Interesting report. The first point to which their attention was directed is the falling off in receipts at this port during the first quarter of this year as compared with the same period last year. This, the committee believe from reliable testimony, is solely attributable to the long-continued closing of the Allegheny river during the past winter, thus shutting off from the Pennsylvania Railroad their only source of supply. The second quarter of this year shows a large increase of receipts as compared with the same period last year, and the tetal exports to foreign countries from Philadelphia from January lat to September 10th, 1864, show 5.144,561 gallons against 4,395,895 gallons to the same time last year—an increase of 746,666 gallons in regard to transportation and storage. The fact that a larger amount has not been withdrawn, especially considering that many large subscribers to the loan have paid much beyond the amount of their instalments, shows to what a triffing extent the banks are now affected by the taking up of loans by the public. A decrease of nearly one million in the loans shows a policy of moderate contraction by the banks, in anticipation of withdrawals by subscriptions to the loans. The Comptroller of the national bank currency has issued during the past week to the respective banks the following amount: \$1,640,350. Total to date, \$49,183,900. The following new National Banks have been established: The First National Bank of Yarmouth, Mass., \$350,000; the National Mount Wollaston Bank, of Quincy, Mass., \$150,000. Messrs. R. The report was accepted, and the same gentlemen were continued as a special committee to continue their investigations, and to make suggestions of any action which they may desire conducive to the prosperity of this great interest.

Mr. Hand stated that the British Government had always collected from our shipping a heavy contribution under the name of lighthouse dues, for the support of their lighthouse system, whilst our own Government, wholly supporting our own lights, had never made any similar and countervailing charge against the shipping of that or any other nation. He therefore moved that the Committee of the Month inquire and report at the next stated meeting of Council whether any and what other Government makes like charge, with a view to further action by this Board. Agreed to, and the Council then adjourned.

SHOOTING AT THE AMERICAN FLAG. 100, 198 25, 123 12, 132 SHOOTING AT THE AMERICAN FLAG.

A large-sized American flag, labelled "Welcome Home to the Veterans," is occasionally displayed from one of the upper windows of the house of Major Berry, on Sixth street, below Chestnut. It was flung to the breeze on Saturday. On Saturday evening it was shot at by some of the herd in the line of the procession that uselessly blocked up the street, and thus prevented the passenger cars from moving. Twenty-one holes were made in the national ensign. The villains who did this nefarious work were in the delegation from one of the two Copperhead wards that decided against the soldiers voting. An arrangement was about being made to avenge in quite a summary manner the insult to the flag; but the attention of the marshal of the ward was called to the fact, and he administered a severe reproof to the miscreants, which had the effect to stop them in their mad career of inviting bloodshed.

The class in attendance is the largest that has ever assembled within the college wells, most of the loyal States, including Iowa, Missouri, and Louisiana, of the trans-Missispipi States, being represented. It is not only gratifying to Philadelphians to see the remote and wardespoiled sections of the Union sending hither their young men to study at our Polytechnic the sciences which develop the great material interests of the country, but there is deep national significance in the fact that we are educating the civil, mining, and mechanical engineers of States once in rebellion, who are to restore, ore long, the railroads, mines, and public works destroyed by the war. Gorn was in fair rhipping demand, but prices suffered a decline of 1@1½c = bushel, and closed steady but quiet at \$1.32½ for No. 2 in store. In No. 1 Corn there was scarcely anything done, and prices were nominal. The sales were at \$1.35 for No. 1, and \$1.52½1.32½ for No. 2 in store.

We report sales at \$1.35 for No. 2, and sales free on board were made at \$1.35.

Oats met with a steady, fair shipping demand, and prices, although easier, were without any material change. The sales were at 64½@65c for No. 1, and at 64c for No. 2, in store—the market closing quiet.

Rye was less active and prices were easier and a shade lower, with moderate sales at the range of \$1.32@1.52½ for No. 1, and at \$1.29 for No. 2, in store. LETTER BAGS

The Great Remedy for Consumption.

Reading. Pa., April 19, 1864.

Dr. Wishart: Dear Sir. One Iyear ago the Examining Surgeon of this district told me I had Consumption of the Lungs, and that I could not be cured; and indging from all my symptoms at that time I myself supposed this to be true. I was for more than one year troubled with a hacking cough, which gradually grew so bed that I could not have a severe fit of coughing without spitting up bloed in large quantities.

For months I could not work at anything, and was obliged to keep my bed most of the time. While in this condition I was in Mr. Rowbotham's store, in this city, and he seeing me very low, I was recommended to try your Pine Tree Tar Cordial. He said he had sold a great deal of it, and that, as it had cured so many others, he believed it would do some good. I bought a bottle and commenced using it. In a very short time I saw that I was getting better very fast, and after taking several bottles. I was entirely restored to health, so that I could work every day at my business, which is very heavy work in an iron foundry. When I commenced to use your Pine Tree Tar Cordial my weight was only one hundred and fifty-five and thirty-five pounds; tince the use of it I have weighed on an average one hundred and fifty-five. I shall be glad to have you publish this, as I believe I should not have been living at this time if I had not used your great medicine, and I wish, all who suffer to receive its benefit.

Very truly yours. Captain SAMUEL HARNER, PHILADELPHIA BOARD OF TRADE. JAMES MILLIKEN, ANDREW WHEELER, EDWARD Y. TOWNSEND, COMMITTEE OF THE MONTH. MARINE INTELLIGENCE. DR. WISHART: DEAR SIR: I take pleasure in informing you through this source that your Pine Tree Tar Corcial, which was recommended for my daughter by Mr. J. A. Hall, of this city, has cured her of a cough of more than five months' standing. I had thought her beyond cure, and had employed the best medical aid without any benefit I can cheerfully recommend it to the public as a safe and sure remedy for those similarly afflicted, as I know of many other cases, besides that of my daughter, that it has cured of long standing coughs. Yours, respectfully,

The Pine Tree Tar Cordial gives instantaneous religincases of Asthma and Whooping Cough. It often cures whooping before it runs half its course, as it acts at once upon the phlegra and mucus, and expels them from the throat, and the sufferer is relieved. In case of Asthma, use Dr. Wishart's Dyspepsia Pills with the Cordial, as they have never been known to fail to cure that disease. Dr. Wishart's Pine Tree Tar Cordial MR. WISHART: DRAR SIR: Having been severely afficted for a number of years with the Gravel, my case was truly deplorable; often, for a week at a time, my family physician having to call twice a day to take my urine from me, which caused the most intense suffering, my whole system becoming deranged and debilitated; but after hearing of your Tar Cordial, and the many cures performed by it, concluded to try it, and am happy to say that from my commencing to take it I felt relieved, and now, after using three bottles, feel myself perfectly cured, and most cheerfully permit you to refer to me, hoping to benefit others similarly afflicted.

guaranteed by the city of Philadelphia. Ma. Wishart: I wish to add my testimony to the hundreds you receive to the healing properties of your Pine Tree Tar Cordial. For fifteen years a sufferer, ten years of that time I have slept only in my chair, not being able to lie down for fear of suffocation. I have employed seven of the best physicians in Philadelphia, who all pronounced my case incurable. I was taken to the College, where the Faoulty, having done what they could, declared my disease an incurable case of Asthma and Chronic Dyspepsia, in its last stage, and that my lungs were partially gone. Finding one of your circulars, my wife procured from your store a bottle of your Cordial. Perseveringly I used seven bottles, and a box and a half of your Dyspepsia Pills, when I felt that my disease had wholly given way, and the Cordial had given me new vigor and strength. I continued to improve, and for the past three months I have been able to sleep in my bed as soundly as I ever did. I am now well, and have sained twenty-five pounds in my weight. I am able to work and provide for my family. I send you this true and faithful statement for the henefit of the suffering. Friends, call and see me, near Oxford Church Post Office, Twenty-third ward. MR WISHART: SIR: I return you my grateful thanks for the discovery you have made in making a medicine that will cure Inflammation of the Lungs and Liver Complaint. When I commenced to use your Pine Tree Cordial I was, to all appearance, near my grave. I had been for a length of time spitting blood, and would at times womit it. My physicians (for I employed two) pronounced me past cure; but my sister had used your Pine Tree Tar Cordial, which did her so much good that she prevalled on me, as a last resort, to try it; and, thank God, I commenced to use it. I have taken twelve bottles, and am perfectly cured; and am ready and willing that any person that is sick should call on me, and I will tell them what your cordial has done for me. All my friends and neighbors were utterly astonished at my speedy return to health, for fley had seen me vomit blood in a clotted state frequently. Publish my case, for I want every person that is suffering as I was to know of your invaluable medicine.
