LVERY AMERICAN CITIZEN Who wishes fully to understand his duty in this CRISIS OF OUR NATIONAL AFFAIRS, And the dangers which beset democratic institutions should read DEMOCRACY IN AMERICA, BY ALEXIS DE TOCQUEVILLE, TRANSLATED BY HENRY REEVE, ESQ. The Cambridge Edition. 2 Vols. Post 8vo. Bound in Marroon Vellum. Price \$5.

"M. De Tocqueville has written of America and democracy in a manner that no other man has ever approached; nor do we believe that his book will soon be equalled "Boston Traveller.

"This long famous work, read by tens of thousands in the original French, and by millions in an English translation, has at length found fitting expression and manifestation in the truly beautiful volumes before us."

"The work is such an able exponent of the republican principle embodied in our Constitution, that every American is in a manner bound to make himself familiar with it." Chicago Journal.

"If the instruction and the admonitions of this work were already valuable to American readers, they come with a special claim to their attention at the present time, when the very foundations of our social and civil order: re threatened with upheaval and destruction. The chapter on the dangers resulting from a disruption of the Union is one that startles by its vividness. Much that was prophecy when De Tocqueville penned the sagacious outlines of the future awaiting the great Republic has since become history, "written in blood." "National Intelligences."

"It is a book that ought to be generally studied here, for no writer has more thoroughly comprehended the great principles on which our Government is founded than De Tocqueville." "Portland Transcript.

The special claims of the

of this remarkable book are, that the original translation, which was very defective, has been carefully revired, and in great part rewritten, and that the additions made to the later Paris editions are here first translated. The volumes are beautifully printed on tinted paper, at the University Press, and tastefully bound in marroon velum, and have received the unanimous and unqualified praise of the press as being the most elegant tooks ever made in America.
